GENTLEMEN,— In connection with the proposed development of the Airport in East Boston, I submit herewith an order for the transfer to the Commonwealth of such interest as the City may have in certain parcels in Boston Harbor. The appended communication of the Corporation Counsel gives a detailed statement of the rights in land and flats which the city is required to relinquish as a part of the proposed Airport development.

The benefits to the city, while prospective, can hardly be exaggerated. The Airport, when completed, will be one of the best in the country, accommodating both airplanes and seaplanes, and it will be of immense value in the commercial and industrial development of the Port of Boston. The city will be relieved of the burden of carrying the debt previously incurred by it for airport purposes and will receive a substantial cash payment immediately following the passage of the order by the City Council.

One further important feature of this situation concerns the flats appurtenant to Wood Island. For some time I have had in mind the improvement of World War Memorial Park in East Boston and the construction of a Strandway similar to the South Boston Strandway. One great obstacle to the World War Memorial Park improvement has been the vast expanse of mud flats left bare at low tide, which it would be necessary to dredge out at great expense in order to furnish proper bathing facilities. By the construction of the seaplane channel to the Airport, which is dependent to some extent upon the city giving up its ownership of a portion of these flats, a considerable amount of this dredging will be done at no expense to the city, and the prospects of the city being in a financial position to start this great improvement in East Boston should be considerably improved.

I impress on the members of the Council the importance of immediate action on the order as soon as the pending legislation is enacted.

Respectfully,

MAURICE J. TOBIN, *Mayor.*

Legislation Outlined.

HON. MAURICE J. TOBIN, BOSTON, July 19, 1941.

Mayor of Boston.

Legislation as to the East Boston Airport.

DEAR MR. MAYOR,—This letter concerns the legislation now pending before the General Court in regard to the turning over to the Commonwealth by the City of Boston of its interest in the East Boston Airport and in regard to related matters. Under the terms of the proposed legislation, in order that the city may immediately avail itself of its benefits, prompt action is required of the city as to the release of certain rights to the Commonwealth. In order that the matter may be presented to the City Council without delay, I am sending this letter in advance of actual enactment of the proposed legislation.

At the present time the City of Boston leases from the Commonwealth two parcels of land in East Boston, one parcel comprising 131.2 acres under a lease dated August 10, 1928, and the other parcel comprising 96.7 acres under a lease dated July 14, 1930. These leases were entered into pursuant to the provisions of chapter 64 of the Resolves of 1928 and chapter 53 of the Resolves of 1930, respectively. The terms of these leases expire August 9, 1948.

AIRPORT.

(*Continued from page 869.*)

Each of the two leases contains a special clause applicable at the termination of the term of the lease, and conforming to the language of the authorizing Resolve, and reading as follows:

"The Lessor hereby covenants that, at the end of the stated term of this lease, the Lessor will, when an appropriation is made therefor by the General Court, pay to the Lessee such sum as shall represent the fair value at that time of all filling and grading performed at the expense of the Lessee, but not in excess of the actual first cost of the same to the Lessee, and without any allowance for interest on expenditures made by the Lessee, and also such sum as shall represent the fair value, if any, to the Lessor, for the then intended use of said premises, of such runways, buildings and other structures as have been built by and at the expense of the Lessee, such values to be determined by a special commission to be appointed in the same manner as herein provided for the determination of the rent for the second ten-year period of the term of this lease."

The reference to the "special commission" in the above-quoted provision is to a special commission which shall consist of three members, one to be appointed by the Governor of the Commonwealth, one to be appointed by the Mayor of the City of Boston, and one to be appointed by the Chief Justice of the Massachusetts Supreme Judicial Court.

In March, 1941, the General Court adopted, and on March 28 of the same year the Governor signed, a Resolve providing for the present determination by a special commission to be appointed as provided in the aforesaid leases, of the value of certain improvements theretofore made by the City of Boston at the East Boston Airport property, in contemplation of the City turning over to the Commonwealth in 1941, instead of in 1948, of possession of said property. (Chapter 8, Resolves of 1941.)

Under the terms of this Resolve, the special commission, consisting of Messrs. Joseph Wiggin, Frederick L. Parker and Henry J. Nichols, was appointed prior to March 31, 1941. After numerous hearings and conferences, this special commission reported its findings to the Governor under date of May 14, 1941. In its report the special commission determined that the amount to be paid by the Commonwealth to the City of Boston as the fair value on March 31, 1941, of the property included within the above-quoted terms of the leases was $1,026,800. On May 15, 1941, the Governor sent a message to the General Court, inclosing a copy of the special commission's report, and expressing the hope that action would be taken in connection therewith by the Legislature at the earliest time. (House Document No. 2484.)

After hearings before committees of the Legislature, a bill was prepared to consolidate into one bill House Document No. 2183, being the original legislation filed in the current sitting of the General Court in regard to the taking over of the East Boston Airport, and House Document No. 163, being a related bill concerning the construction by the state of bulkheads at the Airport. A copy of the bill so prepared is attached hereto. This bill is, at present, pending before the Joint Committee on Ways and Means and there is reasonable expectation to believe that in substantially the form inclosed it may be enacted by the Legislature.

BILL PROVIDES.

As far as concerns the City of Boston, the provisions of this bill may be summarized as follows:

Subject to the provisions mentioned below, the Commonwealth is to pay to the City of Boston the sum of $349,118.75 in cash, and is to deliver to the city an appropriate agreement assuming and guaranteeing the due and punctual payment of the principal and interest of the outstanding serial bonds of the city heretofore issued in connection with the Airport. Upon the receipt of such payment and delivery, the interest of the city in and to the two parcels above referred to terminates and possession of the premises reverts thereupon to the Commonwealth. The principal amount of the city's outstanding serial Airport bonds is $595,000, and interest due thereon from time to time, until the respective maturities of said bonds aggregates $82,681.25.

By the payment of the sum in cash and the delivery of the agreement referred to the city will receive the amount determined by the special commission, as aforesaid, that is to say, $1,026,800, as follows:

Cash, $349,118.75; payment of Bond Principal assumed, $595,000; payment of Bond Interest assumed, $82,681.25; total, $1,026,800.

A principal purpose of the Commonwealth in taking over from the City of Boston the East Boston Airport property in 1941, instead of in 1948, is to enable the immediate carrying forward of a very large expansion of the Airport and its facilities, such expansion to be financed by the Commonwealth. It is understood that the Commonwealth will presently expend over $2,000,000 in such expansion, this sum to be in addition to the amount above referred to to be paid to the City of Boston and to be in addition to the sum of $1,800,000 to be expended by the Federal Government in dredging an adjacent seaplane channel. This expansion is deemed highly desirable, if not necessary, because of the greatly increased use of the Airport and in order to provide in the City of Boston an adequate safe and thoroughly modern Airport.

In connection with the Commonwealth's plans for expanding the Airport, the Commonwealth has advised me that it is necessary for it to use three parcels in Boston Harbor in which the City of Boston has some interest and which are located near the present Airport property. These parcels are the following: (*a*) Governor's Island, an island in Boston Harbor; (*b*) Apple Island, an island in Boston Harbor, together with the flats appurtenant thereto; and (*c*) a portion of the flats appurtenant to World War Memorial Park (Wood Island). These properties are referred to in section 10 of the draft of legislation attached hereto, and in such legislation (section 12) the provision of the payment by the Commonwealth to the City of the cash sum and the delivery by the Commonwealth to the City of the assumption agreement is made subject to the transfer by the City to the Commonwealth of such right, title and interest as the city may have in and to said three parcels.

The interest of the city in these three parcels may be briefly stated as follows:

In March, 1936, the United States Government, by the Secretary of War, leased for fifty years to the City of Boston the premises known as Governor's Island, in consideration of the sum of $1.00. The lease was made expressly subject to a condition that if the city did not commence and diligently prosecute the work of grading the land within one year from the effective date of the lease, the Secretary of War should have the right to revoke the lease. The city neither undertook nor diligently prosecuted, within the stated time, the work mentioned. The city has also failed to carry out certain other requirements of the lease. In my opinion, the United States Government is free to revoke the lease at any time and thus terminate the right, title and interest of the city in and to Governor's Island. Accordingly, a transfer by the city of such interest as it has in said parcel through said lease does not now represent a transfer by the city of anything of substantial value.

Apple Island, above referred to, consists of approximately eight acres of upland and 186 acres of flats. This property was purchased by the City of Boston in 1867 for the sum of $3,750, for the purpose of burning thereon old hulks. It is now in the care, custody and control of the Board of Street Commissioners of the City of Boston and is not used for any purpose, public or private. I have no reason to believe that this property represents anything of value or utility to the city at the present time.

The portion of the flats appurtenant to World War Memorial Park (Wood Island), above referred to, consists of approximately 125 acres, all of which, except at low tides, are submerged. Wood Island and the appurtenant flats, of which the above portion form a part, were taken by the City of Boston by eminent domain proceedings for park purposes in the years 1882 and 1891, and are now in the care, custody and control of the Park Department. The award of damages paid by the City of Boston at that time totaled $132,300. The upland portion of Wood Island is now the site of World War Memorial Park. The flats, other than that part immediately adjacent to said park, and used for beach purposes, are used for no purpose, public or private. So far as I know, neither at the time of the taking by eminent domain aforesaid, nor subsequent thereto, has any value been allocated to that portion of the flats which the Commonwealth now desires to have transferred to it, and I have no reason to believe that these flats are of value or utility to the city.

CHANNEL TO BE DREDGED.

It is my understanding that a part of the flats referred to in the two preceding paragraphs lie within the course of the new seaplane channel to be dredged by the Federal Government at an expenditure of $1,500,000, The interest of the city in the three parcels above mentioned is either nominal or of no substantial value, and by releasing it to the Commonwealth the City will assist in a development which is calculated to make the Boston Airport one of the best in this country. I have prepared and inclose herewith an order for submission to the City Council providing for the transfer by the City of Boston to the Commonwealth, without monetary consideration, of such right, title and interest as the city has in said three parcels.

Your Honor will observe in section 12 of the proposed act that it is necessary for you to file in the office of the State Secretary, within twenty days after the effective date of the act, a certain writ-

ing. As soon as this writing shall have been duly filed, the Commonwealth will proceed, as rapidly as possible, to make available the necessary funds for the payment to the city of the cash sum referred to in section 1 of the proposed act, which sum is to be paid within thirty days of the effective date of the act. In view of this statutory time schedule, it is necessary, as I have stated earlier in this letter, that action be taken by the City Council at the earliest possible moment following the effective date of the act in order that the writing above referred to may be filed with the State Secretary. It will not be possible to file such a writing until the City Council has duly adopted an order similar to that inclosed herewith.

Sincerely yours,

ROBERT CUTLER,
Corporation Counsel.

AN ACT AUTHORIZING THE TURNING OVER OF THE BOSTON AIRPORT, SO CALLED, TO THE COMMONWEALTH AND PROVIDING FOR THE IMPROVEMENT THEREOF.

(Emergency Preamble.)

SECTION 1. The term of the lease from the commonwealth to the city of Boston, in this act called the city, of land in that part of the city called East Boston under chapter sixty-four of the resolves of nineteen hundred and twenty-eight, and the term of the lease from the commonwealth to the city of other land in said part of the city under chapter fifty-three of the resolves of nineteen hundred and thirty, shall, as provided in section two, terminate prior to the termination of the stated terms thereof, anything in either of said leases to the contrary notwithstanding, upon receipt by the city of one million twenty-six thousand and eight hundred dollars (being the amount determined by the special commission appointed under the authority of chapter eight of the resolves of the current year) in cash and by agreement of the commonwealth as follows: (*a*) the payment of the sum of three hundred and forty-nine thousand one hundred and eighteen dollars and seventy-five cents in cash, and (*b*) the delivery of the agreement of the commonwealth duly executed in its behalf by the governor under the seal of the commonwealth authority thereunto being hereby granted, in form satisfactory to the city, assuming and guaranteeing the due and punctual payment of the principal of the serial bonds of the city heretofore issued in regard to the premises covered by said leases and outstanding in face amount of five hundred and ninety-five thousand dollars and of the interest due thereon from time to time thereafter to the respective maturities of said bonds in aggregate amount of eighty-two thousand six hundred and eighty-one dollars and twenty-five cents, and agreeing to hold the city harmless in regard to such payment of principal and interest and to reimburse the city on demand for any of such principal or such interest that the city may be called upon to pay. In this act, the premises covered by the aforesaid leases are referred to as the airport property.

SECT. 2. Subject to the provisions of section twelve, the commonwealth shall make to the city the payment of the cash sum and the delivery of the agreement specified in section one, at the office of the treasurer of the city during regular office hours in the forenoon of any business day prior to the thirtieth day following the effective date of this act. At one o'clock post meridian of the day of such payment and delivery, said date in this act being called the termination date, and without further action by the city or by the commonwealth, the terms of the aforesaid leases shall terminate, all interest of the city in and to the airport property shall cease, the city shall deliver possession of said property to the commonwealth, subject to the provisions of section four, and the commonwealth shall assume the city's financial responsibility for and take over, so far as it legally may, all unfinished work then being carried on by the city or by the Works Project Administration or other federal agency upon or for the benefit of the airport property, except any such work initiated after March thirty-first of the current year which shall not have been approved in advance in writing by the department of public works of the commonwealth, in this act called the department.

SECT. 3. Within sixty days after the termination date, the city shall account for and pay to the commonwealth all amounts received or receivable from the operation of the airport property between March thirty-first of the current year and the termination date, and the commonwealth shall reimburse the city for all expenditures made or incurred upon or for the benefit of the airport property during said period, except expenditures made or incurred for any new project or work upon or for the benefit of the airport property initiated during said period without the approval in advance in writing of the department.

SECT. 4. Upon the termination date, the commonwealth shall accept as tenants and licensees, under the terms of tenancies and licenses in effect on March thirty-first of the current year, all tenants and licensees of the city of portions of the airport property or their assignees. The city shall hold the commonwealth harmless from loss or damage arising out of or in connection with any claim asserted by any such tenant, licensee or assignee in regard to a clause arising or accrued prior to the termination date.

SECT. 5. The department is hereby authorized to construct dikes and bulkheads and to do any other work at or adjacent to the airport property which in its opinion is necessary to provide an area within which filling may be placed for the enlargement of the airport. No work authorized by this section or section six shall be begun until the congress shall make available an initial sum of one million five hundred thousand dollars for dredging a seaplane channel in accordance with the project described in document three hundred and sixty-two of the seventy-sixth congress, first session.

SECT. 6. The department is hereby authorized to furnish, free of cost to the United States of America, as and when required, all lands, easement, and rights of way and spoil-disposal areas for the initial work and subsequent maintenance in connection with the project referred to in section five. The commonwealth hereby agrees to hold and save the United States of America free from claims for damages resulting from the improvement under said project, and to give assurances satisfactory to the Secretary of War that it will, at its expense, provide suitable bulkheads, dikes, or other structures for retention of excavated material. The department is hereby authorized to acquire by purchase, gift, deed or otherwise, or to take under the provisions of chapter seventy-nine of the General Laws, such land, flats, or rights therein, public or private, as may be necessary for the purposes set forth in this section and section five.

SECT. 7. The department is further authorized to fill, grade, construct runways, dikes, and bulkheads, erect buildings and make other improvements at or adjacent to the airport property, in accordance with plans prepared by or under direction of the department, after it has submitted a copy thereof to the Massachusetts aeronautics commission and given said commission reasonable opportunity to make its recommendations relative thereto. In this section and the following sections of this act, the term airport shall mean the airport property as enlarged and improved in accordance with this act. For the purposes of this section, the department is hereby authorized to acquire by eminent domain under chapter seventy-nine of the General Laws, or by purchase or otherwise, necessary public or private lands and rights and easements therein, including such air rights as may be certified by said commission to the department to be necessary to provide unobstructed air space for the safe and convenient landing and taking off of aircraft utilizing said airport, and also including the right of easement for a limited period of time or perpetually, to place and maintain such suitable marks for the daytime and to place, operate and maintain such suitable lights for the nighttime marking of buildings, or other structures or obstructions, as may be necessary for the safe and convenient operation of aircraft utilizing the airport; provided, that no lands or rights or easements therein, other than air rights and rights or easements connected with the placing, operating and maintaining of marks and lights shall be so acquired until after the department has submitted the proposition to said commission and given said commission reasonable opportunity to make its recommendations relative thereto.

SECT. 8. The department, acting in the name and behalf of the commonwealth, may lease or convey to the United States of America, with or without consideration, such part of the property at the airport as may be necessary for the construction and maintenance of any aid to aerial navigation. The department may also authorize the United States of America to use the airport without monetary consideration for such period as the airport shall be used for airport purposes and as the lease of Governor's Island referred to in section ten shall remain in effect. The department may enter into such agreements with the federal government relative to the construction, maintenance and operation of said airport as may be necessary in order to obtain federal funds and assistance, and for such purposes may expend such funds in addition to any moneys provided therefor under section nine.

SECT. 9. Subject to the approval of the governor and council, the state treasurer, in order to provide funds for payment by the commonwealth to the city of such amount in cash as may be required under section two, shall without further authority, and the state treasurer, in order to provide funds for other purposes of this act, shall from time to time upon the request of the commissioner of public works of the commonwealth, issue bonds of the commonwealth to an amount not exceeding, in the aggregate, the sum of two million five hun-

dred thousand dollars, which shall bear on their face the words BOSTON AIRPORT BONDS—1941. Such bonds shall be issued as coupon or registered bonds for such term of years as may be recommended by the governor in accordance with section three of Article LXII of the amendments to the constitution and shall bear interest at such rate as shall be fixed by the state treasurer, with the approval of the governor and council.

SECT. 10. The city, acting by its mayor and city council, is hereby authorized and empowered to transfer to the commonwealth without monetary consideration such right, title, and interest as it may have as lessee in and to a lease given in 1936 by the United States of America of Governor's Island, an island in Boston harbor, and such right, title, and interest as it may have in and to two parcels of land in Boston harbor, the first of said parcels consisting of Apple Island, an island in Boston harbor, together with the flats appurtenant thereto, and the second of said parcels of land being a portion of the flats appurtenant to World War Memorial Park, acquired for park purposes, lying east and south of a line marked T–U in the harbor line as described in chapter four hundred and eleven of the acts of nineteen hundred and thirty-nine, and said line as extended southwesterly to the property line between the said city flats and the flats of the commonwealth.

SECT. 11. Section two of chapter four hundred and seventy-six of the acts of nineteen hundred and thirty-nine is hereby repealed.

SECT. 12. The provision of section two that the commonwealth shall make the payment and delivery specified in said section shall be operative only in case, within twenty days after the effective date of this act, the mayor of the city files in the office of the state secretary a writing or writings in which he states that the city is ready and willing to carry out the provisions of sections one to four, inclusive, and that the city, pursuant to action duly taken by its mayor and city council, will, upon receipt from the commonwealth of the payment and delivery specified in said section two, make to the commonwealth the transfers referred to in section ten.

Whereas, The United States of America is the owner in fee of Governor's Island, an island situated in Boston Harbor between Castle Island and Apple Island; said Governor's Island having been acquired by the United States of America for War Department purposes by purchase in accordance with the provisions of chapter 13 of the Acts of 1798 of the Commonwealth of Massachusetts, as amended by chapter 124 of the Acts, 1808, and the deed thereof being recorded with Suffolk Deeds, Book 225, page 193; and

Whereas, The United States of America, Secretary of War, pursuant to the provisions of an Act of the Congress of the United States of America, approved February 7, 1931 (46 Stat. 1084), leased in consideration of one (1) dollar to the City of Boston said Governor's Island for the term of fifty (50) years from the twenty-sixth day of March, 1936, for airport purposes, subject to certain terms and provisions in said lease set forth; and

Whereas, Section 10 of chapter of the Acts of the Commonwealth of Massachusetts, approved July , 1941, provides as follows:

"SECT. 10. The city, acting by its mayor and city council, is hereby authorized and empowered to transfer to the commonwealth without monetary consideration such right, title, and interest as it may have in and to a lease given in 1936 by the United States of America of Governor's island, an island in Boston harbor, and such right, title and interest as it may have in and to two parcels of land in Boston harbor, the first of said parcels consisting of Apple island, an island in Boston harbor, together with the flats appurtenant thereto and the second of said parcels of land being a portion of the flats appurtenant to World War Memorial Park, acquired for park purposes, lying east and south of a line marked T—U in the harbor line as described, in chapter four hundred and eleven of the acts of nineteen hundred and thirty-nine, and said line as extended southwesterly to the property line between the said city flats and the flats of the commonwealth."

And now, therefore, it is hereby

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized, in the name and behalf of the City of Boston, to transfer, without monetary consideration, to the Commonwealth of Massachusetts, by an instrument in writing satisfactory in form to the Law Department of the City of Boston, all right, title and interest of the City of Boston in and to said lease of Governor's Island, in and to said Apple Island and flats, and in and to said World War Memorial Park flats, as hereinbefore referred to and described.

DAMAGES SUSTAINED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that the undermentioned estates sustain damages by the making of the public improvement, consisting of the widening, relocation and construction of Wood avenue, Hyde Park, West Roxbury and Dorchester districts, as a highway, from Cummins Highway to River street, under the order of the Board of July 9, 1941, in the amounts hereinafter respectively set against them, and awards said amounts therefor.

WITHOUT ADVERTISING.

Upon July 3 the Mayor approved a contract with contractors as indicated in the following communication:

BOSTON, June 12, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Owing to recent negotiations with the Mine Workers' Union and operators in the coal industry, this department has been unable to advertise for bids for semi-bituminous and anthracite coal until June 18, 1941, due to the fact that no established prices have been set up. Our present contract expired under date of April 30, 1941, and, in the interim, we were obliged to secure prices for day-to-day deliveries for a period ending July 1, 1941.

The quantity needed by the various city departments and the prices quoted during this period are as follows:

White Fuel Company.

Delivery to South Ferry from May 28, 1941, to June 22, 1941, inclusive:

STREETS DISCONTINUED.

The Mayor has approved the following order of the Board of Street Commissioners:

Ordered, That due notice be given, that this Board is of the opinion that, in said city, a public improvement should be made, consisting of:

The discontinuance of Meander street, Boston Proper district, as a highway, from Malden street to East Dedham street;

The discontinuance of Norwich street, Boston Proper district, as a highway, from Mystic street to Meander street;

The discontinuance of Ryan street, Boston Proper district, as a highway, from Mystic street southeasterly;

The discontinuance of East Canton street, Boston Proper district, as a highway, from Mystic street to Harrison avenue;

substantially as shown on plans in the office of this Board, that it intends to pass orders for making said improvements, and that it appoints 11 o'clock a. m. of June 5, 1941, and the office of this Board, 401 City Hall Annex, as the time and place for public hearings in the matters.

A true copy of an order passed by said Board on said day.

Attest:

CORNELIUS A. REARDON,
Secretary.

In Board of Street Commissioners of the City of Boston, July 7, 1941.

Ordered, That this Board, having passed the order of notice relating to the public improvements hereinafter described, and having caused a copy of said order to be published May 23, 24, 1941, and May 26, 27, 1941, in the Boston *Globe* and the Boston *Post,* two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city, of the public improvement, shown on a plan, marked "City of Boston, East Canton Street, Meander Street, Norwich Street, Ryan Street, Boston Proper, May 19, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

DAY OFF IN SEVEN FOR POLICE.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1941.

To the City Council.

Gentlemen,—The City Council, at a recent meeting, requested me to give consideration to the adoption of the act permitting a day off in seven for members of the Boston Police Force.

In connection with this order, I have most recently conferred with the Police Commissioner. As a result of this conference, an agreement has been reached between the Police Commissioner and me, wherby I shall submit to your Honorable Body in about ten weeks an order for the acceptance of chapter 122 of the Acts of 1936, the enabling act which permits the adoption of the day off in seven for policemen.

To adopt this act at the present moment, during the height of the vacation season, would entail considerable expense and inconvenience which can be averted, in great part, if the plan is put into effect at the time above-mentioned. The enabling act is so worded that were it accepted at this time the Police Commissioner would forthwith be compelled to place the day off in seven in operation. For these reasons it has been decided to delay the actual acceptance of the act until on or about October 1 of this year.

I am thoroughly in agreement with the principle enunciated in the act, that is, that policemen be granted a day off in each seven working days. There is no justifiable reason, other than marked additional expense, to deny policemen a privilege which is commonly accepted by all as a right. As to the additional expense which may be involved, I am convinced that the act may be made effective with but slight additional cost to the Police Department and the City. Police Commissioner Timilty is whole-heartedly in favor of the present outlined plan and has expressed a desire to cooperate in every way for its economical adoption.

It has been my desire and purpose, for some time, that this act be adopted. I could not, however, in fairness to all our citizens initiate action in this respect until, first, I could be certain that our tax rate was not to be increased, and, second, that the additional cost to the city would be at a bare minimum. With these uncertainties erased, I shall submit to your Honorable Body late in September an order requesting your approval and acceptance of the act providing for a day off in seven for the police of Boston.

Respectfully,
MAURICE J. TOBIN, Mayor.

CLEANING OF WARD 3 STREETS.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of June 23, 1941, concerning the putting into use in the Ward 3 section of Boston, automatic sweeping and sprinkling machines for cleaning the streets.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
July 8, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—This is in reference to the following order that was passed in the City Council on June 23, 1941:

"Ordered, That the Public Works Commissioner be requested to immediately put into use in the Ward 3 section of Boston automatic sweeping and sprinkling machines for cleaning the streets."

There was no necessity of adopting the above-referenced order, as steps were taken prior to its passage to provide for a mechanical street sweeping machine and also for a flushing machine to be used in the North and West End sections of the city.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

LIGHT AT ELLISON AVENUE AND GALLIVAN BOULEVARD.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of June 30, 1941, concerning the installation of an arc light at the corner of Ellison avenue and Gallivan Boulevard.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
July 9, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.

From George G. Hyland, Commissioner, Public Works Department.

Subject: City Council Order.

I return herewith order in City Council that the Commissioner of Public Works install an arc light at the corner of Ellison avenue and Gallivan Boulevard, and this will advise you that there is a lamp on the north side of Gallivan Boulevard, about thirty feet west of extended westerly line of Ellison avenue and another on the south side of Gallivan Boulevard, about one hundred and twenty-five feet east of the easterly line of Ellison avenue.

I can see no necessity for the additional lamp requested, as the lamps are spaced on Gallivan Boulevard at regular staggered intervals.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

CABOT STREET BATH HOUSE.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Park Department relative to your order of June 30, 1941, concerning appropriating sufficient money to place the Cabot Street Bath House in first-class condition.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, July 10, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of July 7, with inclosure, order from the City Council that the Park Commission, through his Honor the Mayor, appropriate sufficient money to place the Cabot Street Bath House in first-class condition.

Please be informed that every attention will be given to this order. An investigation will be made by the engineer and a report made upon the conclusion of said investigation.

Traffic Commission, July 8, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I have the honor to acknowledge receipt of Council order dated June 23, 1941, which reads as follows:

"Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install "Slow" signs on Sagamore street, near Elton street, Ward 13."

Our accident files go back to 1927. We have no record of any accident involving personal injuries at the intersection of Elton street and Sagamore street during this period.

It is the opinion of the engineers of this commission that where there are so many demands for "Slow" signs throughout the city at really bad intersections, we do not believe that the money should be expended for the erection of "Slow" signs in locations which are not so dangerous.

Respectfully yours,
GEORGE G. HYLAND,
Acting Commissioner.

RESURFACING OF MASSACHUSETTS AVENUE.

The following was received:

City of Boston,
Office of the Mayor, July 14, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of May 26, 1941, concerning the resurfacing of Massachusetts avenue, from Boylston street to Columbus avenue, and Columbus avenue, from Massachusetts avenue to Northampton street, and Northampton street, from Columbus avenue to Washington street.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
June 30, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—This is in reference to the following order that was passed in the City Council on May 26, 1941:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to arrange for a W. P. A. project for the resurfacing, with smooth asphalt surface, of Massachusetts avenue, from Boylston street to Columbus avenue, and Columbus avenue, from Massachusetts avenue to Northampton street, and Northampton street, from Columbus avenue to Washington street, said work to be done in conjunction with the work to be performed by the Boston Elevated Railway Trustees in the removal of car tracks and granite blocks."

Due to the curtailment in the current year's W. P. A. street reconstruction program, I cannot give definite assurance, at this time, that the proposed improvement, as referred to above, will be effected in its entirety. I shall, however, make every reasonable effort to have part of the work completed during the current year, and, if possible, have the entire improvement effected over a two-year period.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

To the City Council.

Gentlemen,—I transmit herewith communication from the secretary of the Welfare Department relative to your order of April 28, 1941, concerning contacting the officials of the Surplus Commodity Stamp Plan with the view that these officials consider the advisability of reducing the present food stamp plan requirement for W. P. A. workers of S rating with six or more in the family to four in the family.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Overseers of the Public Welfare,
July 1, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.
Attention of Mr. William T. Doyle.

Dear Sir.—This department has received your communication with inclosed copy of an order from the City Council, dated April 28, 1941, reading as follows:

"Ordered, That the Director of Public Welfare, through his Honor the Mayor, be requested to contact the officials of the Surplus Commodity Stamp Plan with the view that these officials consider the advisability of reducing the present food stamp plan requirement for W. P. A. workers of S rating with six or more in the family to four in the family."

May I state that after communication and conference with the Surplus Marketing Administration officials, they have agreed to allow W. P. A. skilled workers whose families consist of four or more persons to participate in the Food Stamp Plan. The final operation for participation will be put into effect approximately two weeks from June 30, 1941.

REPORT OF COMMITTEE ON CLAIMS.

Coun. M. H. SULLIVAN, for the Committee on Claims, submitted the following:

Report on petition of John P. Nagle (referred June 23) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor truck belonging to Park Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of twelve dollars and fifty cents ($12.50) be allowed and paid to John P. Nagle in reimbursement for amount of execution issued against him on account of his acts as operator of a motor truck belonging to the Park Department, said sum to be charged to the Contingent Fund.

Report on petition of Peter Milano (referred June 23) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor truck belonging to Bridge and Ferry Division, Public Works Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of one hundred fifty dollars ($150) be allowed and paid to Peter Milano in reimbursement for amount of execution issued against him on account of his acts as operator of a motor truck belonging to the Bridge and Ferry Division, Public Works Department, said sum to be charged to the Contingent Fund.

Report accepted; said orders passed.

RELEASE OF DRAFTEES IN ONE YEAR.

Coun. M. H. SULLIVAN and SCANNELL offered the following:

Whereas, Thousands of Boston young men nearly a year ago entered the United States Army as a result of the Selective Service Act and were at that time accorded assurance that they would be released from duty in one year; and

Whereas, Many of these young men are engaged in this patriotic effort at huge personal sacrifice and with resultant loss to their families; therefore be it

Resolved, That the Boston City Council, in meeting assembled, requests the Massachusetts members of Congress to exert every advisable effort to the end that these young men may be returned to civilian life upon conclusion of the year's term of army service.

Coun. M. H. SULLIVAN—Mr. President, I know that an order of this sort has upon occasion been the subject of controversy in this Body—not one which was the subject matter of this order but one which might be essentially or partially of that nature. But upon this occasion I feel that it is the spirit of every member of this Body, as it should be the spirit of every member of every legislative body, to pass resolutions to the effect that every advisable effort should be made by the United States Congress to keep faith with the men with whom they contracted a year ago for one year's service in the United States Army. And I have purposely injected the adjective "advisable" there, in view of the fact that I know that many of us, or all of us, are not aware of the military secrets of the United States Government. But I do feel, unless the emergency is of such a nature which absolutely necessitates the continuance in the service of these young men at the present time, that certainly no hysteria should result in their being kept in the United States Army over the period of the one year for which they were inducted into the service. I know in my own ward, and I know throughout the vast breadth of this state, there are hundreds of families that gave up their young men, who were possibly the breadwinners of the family, those whose income was such that a large portion of it was used to keep the family sustained and maintain its well-being. I feel it is the thought of every American citizen, and I think it should be the thought of every American office holder, to see that these young men, if at all possible, may be returned to their civilian status after their one year of service.

The resolution was adopted under suspension of the rule.

CONSOLIDATION OF CITY PURCHASING.

Coun. GOODE offered the following:

Ordered, That his Honor the Mayor consider the advisability of consolidating all city purchasing under one department so that a system of quantity buying for all city departments may be effected. To advise all department heads of probable price advances and fuel shortages because of the National Defense Program and request purchases and bids for the balance of 1941 be made immediately. To establish a municipal warehouse or acquire storage space so that such items and materials as gasoline, oil, coal, drugs, hardware, tires, paint, rope, tools, hospital supplies and textiles may be carried in stock by the City of Boston, and dispensed to the various city departments on requisition, so that the city would be protected from fuel shortages and threatened price advances and so a closer accounting and inventory supply system might be made possible.

Coun. GOODE—Mr. President, because of the National Defense Program and its accompanying rise in prices, and because of mounting taxes, the need and possibly of considerable savings in the administration of municipal government are being keenly realized now more than ever before. Ideas and practices that have been accepted for years are being examined critically. Especially is it being realized that large savings are possible by consolidating purchases under one department. By buying in quantity for all departments it is found that prices are shaded considerably, and besides there is a better check on inventory of supplies and materials. The need for a more adequate inventory supply control was brought out in the recent report of the Boston Finance Commission. I am going to ask the Mayor

and City Council to seriously consider the advisability of establishing a municipal warehouse for the department of supply and purchase. A large municipal garage could be used for this purpose or some of the large areas in the city yards throughout the city might be utilized. The purchasing department has the complete records in its books of items common to all departments and purchased through that office. These items could be stocked and distributed on requisitions without the necessity of a purchase order. The savings would be twofold. The purchasing agent could buy in bulk items that department heads fail to anticipate and which they buy many times over during the year but, due to the present system, lack of controlled storage space and capital, the purchasing agent must wait for a department requisition to purchase these supplies. This would reduce the number of purchase orders written and show a saving in time, in both the purchasing department and the auditor's office, as well as improve efficiency in all departments, as delivery delay would be eliminated. Savings of from 10 to 55 per cent can be achieved by carrying materials and supplies in stock. Gasoline could be bought at tank car prices and dispensed at a municipal garage. In this way it would be possible to save as much as six cents per gallon on gas alone. The same results can be achieved down the line on hardware, hospital supplies, tires, paint and textiles. In this way there would be no deficit for supplies bought without appropriations. The employees of the Supply Department are engaged in a highly specialized endeavor. Their salaries are small in comparison to those of state departments, and they do not compare favorably with the standard of private agencies. If the department has to be enlarged, if change of ratings and salary increases are needed, they should be made in order to establish this centralized system, which will be for the best interests of the taxpayers.

The order was passed under suspension of the rule.

COMMENDATION OF FINANCE COMMISSION REPORT.

Coun. GOODE offered the following:

Resolved, That the Boston City Council does hereby commend the latest report of the Boston Finance Commission for coordinating public services in the Metropolitan area as progressive and objective, and does hereby recommend the immediate collaboration of all public officials and civic groups in the Metropolitan area with the Mayor of Boston to effect the recommendations and suggestions made in said report.

Coun. GOODE—Mr. President, I realize, of course, that it is necessary to enact new legislation in order to correct some of the iniquities which beset the taxpayers of Boston. But the sooner outside cities and towns realize that their future is bound up with that of Boston and decide to do something about it the better. The people of Boston have been shackled in the political sweatbox of taxation and have been mulcted for the benefit of outside cities and towns too long. There is no reason why we should be contributing and maintaining public facilities for outsiders when, under existing laws, it is possible to unify welfare and other agencies. Many suggestions have been made by the Finance Commission and by legislative committees that would put certain public facilities under state control, but nothing was ever done about it; instead the legislators, both Democrats and Republicans, spend their time in thinking up new ways to grab unearned salary payments. In the words of that popular philosopher, Confucius, "Legislators who don't find new lot for Boston will soon find Boston parking lot."

The resolution was adopted under suspension of the rule.

OPERATION OF UNLICENSED CARNIVALS.

Coun. GOODE offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to investigate unlicensed carnivals operating illegally throughout the city at which minors have access to gambling machines and devices.

Passed under suspension of the rule.

FRANKING PRIVILEGES TO MEMBERS OF ARMED UNITED STATES FORCES.

Coun. GALVIN, GOODE and HURLEY offered the following resolve:

Resolved, That the Boston City Council be recorded in favor of granting franking privileges to the members of the armed forces of the United States and that copies of this resolution be forwarded to the Massachusetts members of Congress.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:

Reports on petitions for driveway licenses, viz.:

William Saitz, 1048 Harrison avenue, Roxbury (referred June 30); Estate of Ruth F. W. Paine (referred today), 563 Huntington avenue—that licenses be granted under usual conditions.

Reports accepted; said licenses granted under usual conditions.

ACCEPTANCE OF NORTHAM PARK, WARD 16.

Coun. FISH offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Northam park, Ward 16, as a public highway.

Passed under suspension of the rule.

ACCEPTANCE OF PARKER HILL TERRACE.

Coun. CAREY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Parker Hill terrace, Ward 10, as a public highway under the W. P. A. plan of construction.

Passed under suspension of the rule.

RESURFACING OF DEBLOIS STREET.

Coun. D. H. SULLIVAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Deblois street, Ward 9, as a W. P. A. project.

Passed under suspension of the rule.

RESURFACING OF CUMSTON STREET.

Coun. D. H. SULLIVAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Cumston street, Ward 9, as a W. P. A. project.

Passed under suspension of the rule.

STORING OF WOOD BY HOUSING AUTHORITY.

Coun. HURLEY offered the following:

Ordered, That his Honor the Mayor confer with the Boston Housing Authority and the contractors in charge of demolition, to consider the advisability of storing for the winter needs of the worthy poor of Boston the wood now accumulating by the demolition of houses to make way for the erection of Federal Housing Projects.

Passed under suspension of the rule.

REQUESTED DONATION BY EASTERN RACING ASSOCIATION.

Coun. HURLEY, TAYLOR and SCANNELL offered the following:

Ordered, That his Honor the Mayor and the Overseers of the Public Welfare be requested to contact the officials of the Eastern Racing Association at Suffolk Downs and urgently request that the proceeds of one day of racing each year be donated to supplement the fund provided for by the conduct of the Mayor's Field Day, said funds to be used for eyeglasses and various medical needs for the poor of Boston.

Coun. HURLEY—Mr. President, in introducing this order I realize that last year there was a similar order introduced by Councilor Scannell. But I think there has been quite a change in the "take" at Suffolk Downs. Last year, I understand, they were running about $350,000 a day, and this year there is an increase to around $400,000 a day, and I know that the people who are running Suffolk Downs—Mr. Wetmore and Mr. Adams—are charitable men and I believe that they will act accordingly in this matter. It has been the policy at Narragansett Park in Rhode Island and the policy at Rockingham Park up in New Hampshire to set aside one day or more each year where the entire proceeds are turned over to some worthy charity. I think the worthy charity here in Boston, which has not got the right to go in on the welfare income, is the Mayor's fund for the underprivileged for the purchase of eyeglasses and artificial lenses, and so forth, and I think if this matter is taken up with Mr. Wetmore and Mr. Adams, they being charitable men, they will give a few days of the successful racing season here at Suffolk Downs to our worthy poor of Boston.

Coun. SCANNELL—Mr. President, I had the privilege of acting on the Mayor's Field Day Committee and I was one of the committee members to suggest, not that they give one day of racing to the underprivileged children of Boston, but I asked them for the net receipts of one day's racing. The answer which I got from those men, whom my colleague from Ward 8 says are so charitable, was a cold "No." These men, who are making millions and millions of dollars from the people of Boston and Massachusetts, do not care for these undernourished children of our city. They feel it is the duty of the city officials, the men who are running our city and the poor business men of Boston, to take care of those children. They do not care about the poor and the undernourished of Boston; they do not care about a child that is blind or a child that has one leg. All they are interested in is the "take" that is taken from the Suffolk Downs race track. I say, Mr. President, that these men next year, when they come up for their permit at Suffolk Downs—I say to take it away from them. And I further intend at a later day to go to the Attorney-General and to the District Attorney and ask them to investigate these racing activities at Suffolk Downs. They do not care for the poor of our city. What money the Mayor has gotten for these poor, undernourished children of our city was gotten from men who have worked hard for it. There was probably $20,000 collected in that way. I wonder that those men, when they listen to this message, can sleep at night, when we men of this city go out and try to do something for the poor and undernourished. I hope, Mr. President, as a result of the message we have given them, from the members of this City Council, they will open their pocketbooks and do something for the poor children of Boston.

The order was passed under suspension of the rule.

CLOSING OF PRINCETON STREET TO VEHICULAR TRAFFIC.

Coun. COFFEY offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to close Princeton street, from Shelby street to Eagle square, Ward 1, to vehicular traffic in order that this area may be used as a play space for children of the district.

Passed under suspension of the rule.

Adjourned, on motion of Coun. HUTCHINSON, at 2.57 p. m., to meet on Monday, July 21, 1941, at 2 p. m.

CLAIMS ALLOWED.

Upon the recommendation of the Corporation Counsel, the Mayor has approved the following claim:

William A. Murphy, 275 Dudley street, Roxbury, to be reimbursed, in the sum of $60, as the result of an accident which occurred on February 21, 1940, when motor truck belonging to the Sanitary Division, which he was operating, collided with an automobile owned by the Columbia Fuel and Oil Company.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

(July 26.) *Commissioner of Public Works.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BUILDING WALLS, CHAIN LINK FENCE, GRADING, SURFACING WITH BITUMINOUS CONCRETE PAVEMENT MATERIAL, DRAINAGE, ETC., IN ALLEGHANY STREET LOT, WARD 10, ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for building walls, chain link fence, grading, surfacing with bituminous concrete pavement material, drainage, etc., in Alleghany street lot, Ward 10, Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Building Walls, Etc., in Alleghany Street Lot," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, August 1, 1941, with a certified check for two hundred (200) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

SUPPLY DEPARTMENT.

Upon July 14 the Mayor approved a contract with bidders as indicated in the following communication for furnishing coal to the city departments:

BOSTON, July 2, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Attached please find list of bids on proposals for furnishing anthracite and semi-bituminous coal to the various city departments which were publicly opened and read at this office under date of June 18, 1941.

The bid submitted by the Staples Coal Company, which contained the lowest prices on some of the items, contained a clause which was so prohibitive that this department was unable to accept same. In view of this, I have indicated the next lowest bidders on the various items.

In explanation of the bid on anthracite coal for delivery by truck to the various departments, the Tidewater Coal Company was the lowest bidder, but the bid was irregular, inasmuch as the Supply Department copy of the proposal was received after twelve o'clock noon on the day of opening, although the copy of the proposal filed by this company with the City Auditor was received at the auditor's office prior to twelve o'clock noon. In view of the saving to the city in accepting this irregular bid, I would respectfully request that permission be granted me to award a contract without further public advertisement to the Tidewater Coal Company.

Regarding the item of semi-bituminous coal to be delivered to the Institutions Department, Long Island, would state that the only bid received on this station was submitted by the Staples Coal Company and, as it contained the prohibitive clause mentioned above, it is my intention to readvertise for new prices in the near future on this item.

The awards to the various lowest bidders will be as follows:

White Fuel Corporation: Delivery by truck to various departments, approximately 3,500 net tons nut and slack coal at $7.89 per net ton, $27,615.

Tidewater Coal Company: Delivery by truck to various departments, approximately 1,000 net tons egg coal at $11.98 per net ton, $11,980; approximately 2,000 net tons stove coal at $11.98 per net ton, $23,960; approximately 1,600 net tons buckwheat coal at $8.49 per net ton, $12,735. Total, $46,675, 1 per cent, ten days.

LAND-TAKING IN ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the widening of Brookline avenue, Roxbury district, as a highway, at the corner of Park Drive; the discontinuance of Brookline avenue, Roxbury district, as a highway, on the northwesterly side, near Park Drive, and the widening of Boylston street, Roxbury district, as a highway, at the corner of Park Drive, bounded and described as follows:

The highway named Brookline avenue is hereby widened and relocated, at the corner of Park Drive.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land supposed to belong to Sears, Roebuck and Company, bounded and described as follows:

Southerly by a curved line forming the junction of Brookline avenue and Park Drive, forty-three and 16-100 feet on a curve of twenty-five feet radius; southwesterly by the northeasterly line of Park Drive, by two measurements, forty-three and 93-100 feet and thirty and 68-100 feet on a curve of seventeen hundred nineteen and 12-100 feet radius; northerly by the line of Brookline avenue as established under this order, by three measurements, twenty-eight and 51-100 feet on a curve of eighty-seven feet radius; seventy feet, and ninety-seven and 52-100 feet on a curve of three hundred and sixty-seven feet radius; and southeasterly by the northwesterly line of Brookline avenue as it at present exists, one hundred fifty-two and 50-100 feet, containing seventy-eight hundred and ninety square feet, more or less.

Said highway as hereby widened and relocated is bounded:

Southerly by a curved line forming the junction of Brookline avenue and Park Drive, forty-three and 16-100 feet on a curve of twenty-five feet radius; southwesterly by the northeasterly line of Park Drive, by two measurements, forty-three and 93-100 feet and thirty and 68-100 feet on a curve of seventeen hundred nineteen and 12-100 feet radius; northerly by the line of Brookline avenue as established under this order, by three measurements, twenty-eight and 51-100 feet on a curve of eighty-seven feet radius; seventy feet, and ninety-seven and 52-100 feet on a curve of three hundred and sixty-seven feet radius; and southeasterly by the northwesterly line of Brookline avenue as it at present exists, one hundred fifty-two and 50-100 feet, containing seventy-eight hundred and ninety square feet, more or less.

The highway named Brookline avenue is hereby discontinued, on the northwesterly side, near Park Drive.

Said highway, as hereby discontinued, is bounded:

Southeasterly by the northwesterly line of Brookline avenue as it at present exists, two hundred sixteen and 11-100 feet; again southeasterly by the line of Brookline avenue as hereby established, one hundred twenty-one and 72-100 feet on a curve of three hundred sixty-seven feet radius; northwesterly by the line of Brookline avenue at it existed previous to the passage of this order, three hundred thirty-five and 61-100 feet; and northeasterly by the line of Brookline avenue as it existed previous to the passage of this order, twenty feet, containing fifty-nine hundred and twenty-four square feet, more or less.

The highway named Boylston street is hereby widened and relocated, at the corner of Park Drive.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land supposed to belong to Beacon Oil Company, bounded and described as follows:

Northerly by Boylston street, twenty-five and 42-100 feet; northwesterly by Park Drive, thirty-seven and 95-100 feet on a curve of twenty feet radius; westerly by said Park Drive, thirty-six and 5-100 feet on a curve of twenty-one hundred forty-eight and 79-100 feet radius; easterly by the line of Boylston street as hereby established, thirty-nine and 48-100 feet, and southeasterly by the line of Boylston street as hereby established, thirty-six and 90-100 feet on a curve of twenty-six and 50-100 feet radius, containing eight hundred and fifty-three square feet, more or less.

Said highway as hereby widened and relocated is bounded:

Northerly by Boylston street, twenty-five and 42-100 feet; northwesterly by Park Drive, thirty-seven and 95-100 feet on a curve of twenty feet radius; westerly by said Park Drive, thirty-six and 5-100 feet on a curve of twenty-one hundred forty-eight and 79-100 feet radius; easterly by the line of Boylston street as hereby established, thirty-nine and 48-100 feet, and southeasterly by the line of Boylston street as hereby established, thirty-six and 90-100 feet on a curve of twenty-six and 50-100 feet radius, containing eight hundred and fifty-three square feet, more or less.

No betterments are to be assessed for the making of the aforesaid improvements.

Voted, That this Board determines that the undermentioned estates sustain damages by the making the public improvements consisting of the widening of Brookline avenue, Roxbury district, as a highway, at the corner of Park Drive; the discontinuance of Brookline avenue, Roxbury district, as a highway, on the northwesterly side, near Park Drive, and the widening of Boylston street, Roxbury district, as a highway, at the corner of Park Drive, under the order of the Board of July 14, 1941, in the amounts hereinafter respectively set against them, and awards said amounts therefor.

Sears, Roebuck and Company, 7,890 square feet.....$1 00

Beacon Oil Company, 853 square feet.....$1 00

SEEKS COMMUNITY AID IN ARMY CAMP CITIES.

The army welcomes the aid of civic organizations in helping to protect soldiers from intemperance and vice when they are away from their duty stations.

The War Department is endeavoring in various ways to protect its personnel from temptations while at military posts and camps. Healthful and wholesome entertainment is furnished. Commissioned officers are charged with the responsibility for the men in their commission. Understanding leaders offer them advice and counsel, and medical officers guard their physical well-being. —*American City Magazine.*

RESTORATION OF SALARIES.

The Portland City Council has granted full restoration of salaries to all city employees, at an estimated cost (for the remaining six months of the year) of $162,430. This will put the city in the red at the end of the year unless additional revenue is obtained. Increases and adjustments of salaries for individuals will be considered as soon as finances permit.

POPULATION OF BOSTON, BY SEX, NATIVITY, ETC., 1930.

Total population, 781,188 (383,454 males and 397,734 females); ratio of males to females, 96.4 to 100 as against 97.2 to 100 in 1920. Native white, 529,400 (260,419 males and 268,981 females) or 67.77 per cent; sex ratio, 96.8 to 100. Of the 529,400 native whites, 200,130, or 37.80 per cent, are of native parentage; 248,653, or 46.97 per cent, are of foreign parentage and 80,617, or 15.23 per cent, are of mixed parentage (*i. e.*, one half native). Foreign-born whites, 229,356 (111,261 males and 118,095 females) or 9,563 less than in 1920; sex ratio 94.2 to 100. The foreign-born whites are 29.36 per cent of total population. Negroes, 20,574 (10,223 males and 10,351 females) or 2.63 per cent of population; sex ratio, 98.8 to 100. The Negro population has increased 4,224 since 1920 and 4,993 since 1915. Other races, 1,858 (1,551 males and 307 females), or 0.24 per cent, comprise 1,595 Chinese, 69 Japanese, 43 Indian, 26 Mexican and 125 miscellaneous. Total foreign white stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

PARKS.

Cincinnati has one of the most beautiful park systems in the United States and the public approval of these parks is indicated by the large attendance in all the parks throughout the year.

The total area now under the control of the Park Board is 4,270 acres. Of this, the Public Recreation Commission operates approximately 1,000 acres for supervised and directed play. Important additional acreage has been acquired by the City during the year, including approximately 22 acres purchased on the south side of Columbia Parkway, and 47 acres in College Hill presented as a gift for park purposes by a civic-minded citizen.—*Cincinnati City Bulletin.*

CHARGE FOR POLICE RADIO SERVICE.

At least five cities and three states operating police radio systems charge for radio messages transmitted to police cars of other cities and suburbs which do not operate their own transmitters, the International City Managers' Association states. The cities are Cleveland, Detroit, Toledo, Akron and Providence; the states are Connecticut, Massachusetts and New Jersey.

Cleveland charges East Cleveland 42 cents for each call transmitted to East Cleveland police cars. East Detroit pays Detroit 35 cents a call; the sheriff's office of Lucas County, Ohio, pays Toledo 50 cents a call, with a minimum of $25 a month; and Akron charges 35 cents per message transmitted to Barberton, Cuyahoga Falls, and the sheriff's office of Summit County. Providence makes charges on calls to police cars of several surrounding communities.

Communities served by the Connecticut, Massachusetts and New Jersey state police radio systems are charged certain percentages of operating costs.—*American City Magazine.*

FELLOWSHIP STUDIES IN TRAFFIC CONTROL.

Fifteen graduate fellowships, each with a stipend of $1,200-plus up to $200 for travel and field investigation have been announced by the Bureau for Street Traffic Research of Harvard University. The regular annual tuition fee of $400 will be deducted from the fellowships, which have been made available through a gift to the University by the Automobile Manufacturers' Association. The officers of instruction are Miller McClintock, Director of the Bureau, and Maxwell Halsey, Assistant Director. Each of two full courses in street and highway traffic control consists of three one-hour periods a week, and additional problems, assignments and field work.

STATE VALUATIONS IN 1937.

Total assessed value of real estate on January 1, 1937, in the thirty-nine cities and 316 towns of Massachusetts, $5,742,161,541 ($18,194,654 less than on January 1, 1936), of which 65.62 per cent applied to buildings and 34.38 per cent to land; of personalty, $525,039,493; aggregate valuation, $6,267,201,034 (2.74 per cent decrease from 1936), on which the total tax was $222,184,422. To raise this amount of taxes on the property assessed at a uniform rate throughout the State would have required a tax rate of $35.45+ on $1,000 valuation. Boston's valuation, $1,590,544,700, equal to 25.38 per cent of total valuation in the State.

HEALTH AND HOSPITAL.

The plant and equipment of the Cincinnati General Hospital have been largely rehabilitated during the year 1939. As a result the operating officials of the Hospital will be able to do much better work in caring for the sick than heretofore.

The hospital treated 18,963 patients this year compared to 18,765 last year, and 24,929 individuals were cared for in the Out-Patient Dispensary against 24,701 in 1938. There was also an increase of approximately 10 per cent in the number of persons treated in the receiving ward, resulting in a total of 25,082. (From Annual Address of City Manager.)

BOSTON AS A TOWN.

From its foundation until 1755, or a period of 125 years, Boston was not only the most outstanding but the most populous town in the American colonies. In 1760, Philadelphia's population was ahead, viz., 18,756, Boston's then being 15,631 and New York's about 14,000. In the last year of town government, viz., 1821, Boston's population was about 45,000 and its public debt $100,000, all incurred for new county buildings.

The history of Boston as a town during a period of nearly two centuries surpasses in civic interest that of Boston as a city because of the untiring zeal and successful efforts of its townsmen to realize more of true democracy than had ever been attained before. Their obligations were held as sacred as their liberties.

WATER-SUPPLY DEVELOPMENT IN THE UNITED STATES.

In 1652 Boston introduced the first American public water supply. The first mechanical pumps were used in 1761 at Bethlehem, Pa., where Hans Christiansen, an American pioneer water-supply engineer, made his pumps work "after severe struggles." In 1850 there were only 100 water plants in the United States, and as late as 1875 only 243. In 1933 there were more than 11,000 public water supplies, some serving more than one community.

TO PROTECT MINORS.

Buffalo is considering an ordinance, similar to the one in effect in New York City, for the protection of minors in theaters. It permits children, unaccompanied by adults, only in theaters licensed as to adequate sanitary and safety provisions, sets aside a certain section for them and requires the presence of a licensed matron.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

BOSTON'S POPULATION ON APRIL 1, 1930, BY WARDS.

Ward 1, 61,454; Ward 2, 31,663; Ward 3, 66,219; Ward 4, 31,010; Ward 5, 30,571; Ward 6, 34,689; Ward 7, 32,482; Ward 8, 31,943; Ward 9, 30,362; Ward 10, 29,694; Ward 11, 29,938; Ward 12, 36,123; Ward 13, 29,019; Ward 14, 55,914; Ward 15, 27,729; Ward 16, 31,329; Ward 17, 30,099; Ward 18, 41,152; Ward 19, 27,519; Ward 20, 31,540; Ward 21, 29,752; Ward 22, 30,987.

Total population by U. S. Census, 781,188.

POLICE DEPARTMENT (STATISTICS FOR 1938).

Number of police force, December 1, 1938, was 2,229, viz., the superintendent, 4 deputy superintendents, 30 captains, 66 lieutenants, 4 lieutenant-inspectors, 187 sergeants and 1,937 patrolmen, distributed in 19 divisions and a traffic division. Signal service men, 16; clerks, janitors, etc., 163.

Cost of maintenance for 1938, $5,997,107 or $16,491 less than in 1937.

Total number of arrests in year ending November 30, 1938, 97,187 or 1,239 more than in previous year; persons arrested on warrants, 14,745; without warrants, 52,490; summoned by the courts, 29,952; of those arrested, 6,931 were discharged and all others held for trial; foreign-born persons arrested, 12,116 or 12.46 per cent of total; boys under 17 years of age, 2,787; women and girls, all ages, 8,485; non-residents, 27,441, or 28.23 per cent of all arrested.

Drunkenness the cause of 40,815 arrests, an average of 111 per day or 42 per cent of total. This is 4,919 less than the number of such arrests in 1937 and 1,368 less than the average for the past five years. The prosecutions for homicide numbered 142; arrests for refusing to support family, 1,015; violation of automobile law, 15,544; violation of liquor law (State), 137; violation of City ordinances, 269; violation of street traffic regulations, 15,477; suspected persons, 5,400.

Sick and injured persons assisted, 9,410; insane persons taken in charge, 494; lost children restored to homes, 1,533; persons imprisoned, 7,017; persons fined, 17,957, the fines amounting to $157,817; stolen property recovered, $447,021.50; licenses issued, 21,356 (including 12,621 for dogs and 5,334 for vehicles and drivers), for which $67,209 was received. Of 2,629 applications for licenses to carry loaded revolvers, 2,431 were granted.

Accidents from all causes in the streets, parks and squares caused death of 122 and injury to 7,289. Automobile accidents killed 76 and injured 4,431. The automobile fatalities were 62.3 per cent of the 122 deaths.

Annual salaries: Commissioner, $8,000; superintendent, $7,000; deputy superintendents, 4 at $4,500 each; captains, $4,000; lieutenants and lieutenant-inspectors, $2,700; sergeants, $2,500; patrolmen, $1,600 the first year, with $100 yearly increase until maximum of $2,100 is reached. The Traffic Division numbered a force of 211 in 1938.

In 1938, the Police Charitable Fund amounted to $207,550 and $7,900 was paid to 54 beneficiaries during said year.

METROPOLITAN DISTRICT, 1938.

Total valuation of the 43 cities and towns in the Metropolitan District in 1938 was $3,499,398,193 and the property tax on the same was $130,474,309. The average tax rate was $33.28. Strictly speaking, tax rates cannot be averaged. A rate of $37.28 would be required to raise $130,474,309 on a valuation of $3,499,398,198. Of the total valuation, 44.37 per cent applied to property in Boston.

The total valuation of the 13 cities in the district was $1,126,838,735 with a total property tax of $42,494,084, requiring a tax rate of $37.71.

Boston's tax rate of $41.30 was exceeded by Chelsea ($46.20), Revere ($47.00), Saugus ($46.00) and Somerville ($43.90).

REVENUE BOND ACTS.

The 1936 issue of the "Municipal Index" contains a detailed study of the revenue bond acts in the thirty-three states which have enabling acts, and reports of all forty-eight states, showing what advantage has been taken of these acts by cities to finance the construction, operation and maintenance of sewerage systems and sewage treatment plants by service charges.

The table shows the status of revenue bond acts and other enabling acts in the different states, the dates when the acts became effective, and whether or not cities have taken advantage of the opportunity offered for financing bonds by service charges. In the case of states with no enabling acts, the table shows whether cities are charging sewer rentals under some other authority.

A NEW POSITIVE WATER-METER TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine.*

BUDGETARY CONTROL.

Prior to installing the present system of budgetary control, effective as of January 1, 1939, the city of Newark had no centralized accounting control over its budget commitments. The city's general ledger contained accounts for the various budget appropriations, and reflected disbursements out of the appropriations. However, commitments for work and material were not recorded in the city's accounts until after bills submitted by the vendors had been approved for payment by the Board of Commissioners. Consequently, financial reports could only show the amount of appropriated moneys that had not been disbursed out of any account. No recognition could be given in these reports to the unpaid purchase commitments, since the amount was not known. *The American City.*

TAUNTON'S ASPHALT PLANT.

One of the functions of a city public works or street department is to operate as effectively as possible in the construction and maintenance of its streets and sidewalks and to produce the necessary materials for paving at the lowest possible cost. In some cities this is effected by the purchase of all paving materials in either the raw or the mixed stage. Taunton has used a city-owned 100-ton asphalt plant for street paving and maintenance and for sidewalk construction for ten years. Located in the city yard with the equipment repair shop and garage, the plant is housed in a 60 by 90 foot building with a 30 by 100 foot wing, which was formerly used as a foundry. *The American City.*

Tyler Street, City Proper—From Curve Street to Harvard Street—6:30 P. M. to 9 P. M.—July 7 to Sept. 1, 1941.

—

SALE OF LAND

The following was offered:

ORDERED, That it is advisable to sell the following-named property which is not now required for school purposes, in accordance with the provisions of Chapter 259 of the Acts of 1906:

Land on Phillips Street, West End, on which the Grant School formerly stood, containing approximately 5521 square feet.

Passed, the four members present voting in the affirmative.

—

Mr. Lee: We are asked in effect, I believe, to sell this land to the Trustees of the White Fund with the thought of making a playground.

A few meetings ago I urged the Committee to call to the attention of his Honor that recreation facilities are not of much use unless there is an adequate recreation staff giving leadership for the use of those facilities, and the School Committee wrote to the Mayor suggesting an inclusive board with representatives from different departments and from lay organizations, which would render a more effective program for the use of these facilities. The Mayor asked you to offer a choice of delegates from the School Committee and he was to reply on that.

I raise this point because we will probably be inclined to sell that land to the White Fund at less than we would get at a public auction because it is a civic improvement. And I would like on this occasion, through these words, to ask the Mayor to be prepared to frame a use for these playgrounds which would lead to their best use after we vote to sell this land. In other words, the School System should not make perhaps a financial sacrifice unless we suggest the wisest use.

In regard to the wisest use I would like to suggest that if his Honor would put a wading pool in each of those yards they would attract children. There is no need of adding to the 300 school yards which for a larger part of the year are padlocked for lack of supervision. There is no need of adding more unused yards to the City's supply.

Even if you do not have recreation leadership, a swimming or wading pool attracts children. A wading pool can be constructed with a smooth-finished concrete surface, so that it can be used for roller skating in autumn and spring, and could also be used as a small skating rink in the winter time.

A wading pool comes nearer to the terms of the White Fund will, which specifies works of utility and beauty, and you have to build some kind of a structure in any case.

I would like to make a somewhat sorry comment on the fact that in 1937 the Trustees of the White Fund voted to use the accumulated resources to build a recreation center which would house, among other facilities, the recreation staff of the city. After that was voted Mr. Tobin called up the Trustees and prevailed on them to rescind their vote.

I do not feel the confidence in the present Mayor and Chairman of the Board of Trustees to use these playgrounds as wisely as they might be used. The Mayor has already killed one White Fund project after expressing favor of it during his campaign.

It is regrettable also that after a Civil Service examination had been held for a recreational supervisor for Boston in 1913, and was passed by a man who has since held a position of national importance in the recreation field, Mr. Curley abolished the position, leaving the city without central recreation leadership, and it is equally regrettable that in 1937 Mr. Tobin should follow the precedent of Mr. Curley.

I hope, therefore, that the School Committee will give the informal suggestion to the Trustees of the White Fund, of which Mr. Tobin is Chairman, that he combine these playgrounds which he is establishing, with a better leadership program, and specifically with wading pools in these vacant lots, so that they will really attract youngsters and be of more use than many of the school yards which now go unused.

—

AMENDMENT TO RULES

The following was offered:

ORDERED, That the Regulations are hereby amended as follows:

Section 300, paragraph 2. Strike out the paragraph and substitute in place thereof the following:

2. Teachers of ranks higher than that of assistant, intermediate, may be appointed as follows:

(a) One submaster in each district except those attended exclusively by girls.

(b) One master's assistant in each district. One additional master's assistant in girls' districts where there is no submaster.

(c) One additional submaster or one additional master's assistant in districts where the number of pupils exceeds 800. One additional submaster and one additional master's assistant in districts where the number of pupils exceeds 900, except in those districts attended exclusively by girls. Two additional master's assistants in girls' districts where the number of girls exceeds 900.

Laid over.

REINSTATEMENT OF EILEEN M. SHEA

A communication was received from the Secretary, under date of June 26, 1941, reporting the reinstatement of Eileen M. Shea, assistant in the offices of the Superintendent-Secretary, absent on leave for service in the office of His Honor, the Mayor, for one day, June 25, 1941, in order to protect her civil service status as assistant in this department.

Placed on file.

4. ORDERED, That for the year ending August 31, 1941, any teacher or member of the supervising staff who may be designated by the Superintendent in accordance with the regulations to fill a vacancy caused by the death, disability or absence of a principal of a school or district, or of a director, associate director, assistant director in charge of a department, or supervising nurse, for a continuous period exceeding two weeks, shall be paid at the rate of $1.00 per day of service in addition to the regular salary of his rank. A teacher or member of the supervising staff who may be similarly designated to fill the position of assistant director, head of department, co-ordinator, vice principal, vice principal, special classes, or first assistant kindergarten (either one or two sessions), shall be paid at the rate of fifty cents (50c) per day for each day of service, in addition to the regular salary of his rank.

5. ORDERED, That for the year ending August 31, 1942, any master, junior master or assistant, Latin and day high schools, who may be designated by the Superintendent in accordance with the regulations as acting head of department in charge of a single subject where there are in the proposed department not less than two thousand pupil hours, taught by at least four teachers, whole or part-time, shall be paid at the rate of fifty cents (50c) per day for each day of service, in addition to the regular salary of his rank.

6. ORDERED, That for the year ending August 31, 1942, any assistant nutrition class attendant who may be designated by the Superintendent to serve as acting nutrition class attendant shall be paid at the rate of fifty cents (50c) per day of service in addition to the regular salary of her rank.

7. ORDERED, That during the school year 1941-42, the Superintendent is hereby authorized to fix the compensation of all persons giving lectures and improvement courses for teachers other than those whose compensation is fixed in the salary schedule for teachers and members of the supervising staff.

The seven orders passed.

Mr. Lee: May I ask the Secretary to record me as voting "No" on the general salary schedule.

Chairman: You mean on the academic salary schedule?

Mr. Lee: On the academic side. I say that now, rather than argue the matter, because you know my views so well. That view is that we really do follow market conditions in employing our so-called temporary teachers at $5 and $6 a day, over periods which have run as high as twelve years in some cases and in high schools may run over a teaching lifetime. We establish these very low salaries and dangle the hope in front of these teachers that they will be appointed some day, when as a matter of fact many of them will not be appointed. Instead of doing that, it would be better to stand on the American system of following the law of supply and demand and have the whole salary schedule with that in view. To follow such a system would mean the upward revision of some of the lower rank salaries and the downward revision of some of the top rank salaries.

TRIBUTE TO MISS MELLYN

Mr. Norton: I understand that Miss Mary C. Mellyn, who is retiring from the Board of Superintendents and the service of the School Committee, terminates her duties at the end of this week. I would like to say what is in the mind of every member of this Committee, that we are losing the outstanding woman teacher and teaching executive of the entire school system. Her record in the School Department is one that all of our teachers, principals and supervising staff should aspire to.

Mr. Norton's statement of appreciation of Miss Mellyn was concurred in by the other members of the School Committee and ordered spread upon the records.

—

The Committee adjourned.

Attest:

ELLEN M. CRONIN,
Secretary.

July 21, 1941.

A special meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6 28 o'clock P. M., the Chairman presiding.

Present: Messrs. Lee, McDevitt, Norton, and White.

—

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

—

DEATHS

The Superintendent reported the death of the following-named principal:

Grover Cleveland Intermediate District—James A. Treanor, master, July 6, 1941.

—

The Superintendent reported the deaths of the following-named principals who had been retire under the provisions of the Boston Retirement System:

Mather District — William W. Howe, master emeritus, June 25, 1941.

Rice District—Thomas J. Barry, master emeritus, July 7, 1941.

Placed on file.

—

The Superintendent reported the deaths of the following-named teachers who had been retired on pension:

Bennett District—Emma P. Dana, July 4, 1941.

Harvard District — Harriet E. Gage, June 25, 1941.

Wells District—Carrie M. Cogswell, June 20, 1941.

Placed on file.

—

The Superintendent reported the death of the following-named teacher who had been retired under the provisions of the Boston Retirement System:

Sherwin District—Mary A. Higgins, July 3, 1941.

Placed on file.

—

Mr. Lee: May I interrupt a moment on this matter of reporting deaths, with which we often open our meetings in a rather gloomy way. As I commented before, it seems too bad that there is no more we can do by way of personal recognition of what a teacher has done who has passed on. I don't suppose there is a great deal we could do. Men in other occupations of an industrial sort leave the monuments of their life in tools or goods or articles they have turned out, whereas the teacher works in a personal field and her only monument can be in the lives of the people with whom she has worked.

I thought it might be possible to establish the practice of having one page written by some teacher who knew the teacher who has passed on, or by the headmaster, recounting some of the outstanding points of view or the qualities of that teacher. It would make a very big volume, but you would be adding perhaps only a hundred pages a year. It might be a nice thing for the morale of the school service,

and it might be interesting for teachers today if they had a book where they could read today of what teachers twenty years ago had been doing. I do not know whether you want to take any action on that. It might perhaps be referred to the Board of Superintendents as something possible.

Chairman: Your suggestion is referred to the Board of Superintendents for consideration.

—

RESIGNATION

The Superintendent reported the following resignation of a teacher, to take effect on the date stated:

Henry Grew District—Ruth L. Ginsberg, assistant, kindergarten, Aug. 31, 1941.

Accepted.

—

RETIREMENTS ON PENSION

The Superintendent offered the following:

ORDERED, That the following-named teachers are hereby retired on pension in accordance with the provisions of Chapter 589 of the Acts of 1908, as amended by Chapter 617 of the Acts of 1910, Chapter 569 of the Acts of 1912, and Chapter 304 of the Special Acts of 1915, the dates of retirement and rates of pension to be as hereinafter specified:

RAPID ADVANCEMENT CLASSES

On motion of the Superintendent, it was

ORDERED, That the following rapid advancement classes are hereby re-established for the school year ending Aug. 31, 1942, unless discontinued prior to that date by order of the School Committee:

Grover Cleveland Intermediate District 2; Henry L. Higginson District 2; Julia Ward Howe District 2; William Lloyd Garrison District 3.

—

Mr. Lee: Those are scattered pretty well through the city?

Superintendent: We have them in three districts in Roxbury, and in the Grover Cleveland, which is an intermediate school, in Dorchester. In the smaller districts, it is rather difficult to get a sufficient number of pupils qualified to enter the rapid advancement classes. We hope to recommend some more in other parts of the city next fall.

Mr. Lee: The more we can have, the better.

Superintendent: Yes.

—

PRINTING OF SCHOOL DOCUMENT

On motion of the Superintendent, it was

ORDERED, That the accompanying pamphlet—"A Handbook for Teachers on the Principles of American Democracy" is hereby authorized for use in all schools, and that five thousand (5000) copies be printed as a school document.

—

Mr. Lee: Do you think there might be a demand for that outside of our school system?

Superintendent: There will be.

Mr. Lee: This is being printed by the Printing Department at our expense.

Superintendent: Miss Cronin puts a charge on each document.

Mr. Lee: That will cost about $500?

Secretary: $700 is the estimate now.

Mr. Lee: A private publisher might take that, but I suppose we would still have to pay him.

Secretary: We will establish a charge on the basis of cost of printing.

Business Manager: I would like to have the Superintendent consider the copyrighting by the Boston School Committee of that document —"A Handbook for Teachers on the Principles of American Democracy." I think it would be a good thing to do.

Mr. Lee: Would the names of the authors be published?

Superintendent: We usually publish the names of the committee responsible for the subject matter.

Business Manager: My suggestion is because of the importance of this publication.

Superintendent: That is agreeable to me.

ATTENDANTS, HORACE MANN SCHOOL

The Superintendent offered the following five orders:

ORDERED, That subject to the approval of the Division of Civil Service, the re-employment of Mary E. Anthony as attendant at the Horace Mann School for the purpose of receiving visitors and accompanying pupils to and from school is hereby authorized, compensation for said service to be at the rate of three dollars fifty cents ($3.50) for each day of actual service, to take effect Sept. 10, 1941, and to continue for the school year ending Aug. 31, 1942.

ORDERED, That subject to the approval of the Division of Civil Service, the re-employment of Ellen Fitzgerald for the purpose of accompanying pupils to and from school and for service as lunch attendant in the Horace Mann School is hereby authorized; compensation for such service to be at the rate of three dollars fifty cents ($3.50) for each day of actual service, to take effect Sept. 10, 1941, and to continue for the school year ending Aug. 31, 1942.

ORDERED, That subject to the approval of the Division of Civil Service, Mary M. Fenton, matron in the Horace Mann School, be allowed two dollars ($2) in addition to her regular compensation for each day of actual service rendered by her in accompanying pupils to and from school, to take effect Sept. 10, and to continue for the school year ending Aug. 31, 1942.

ORDERED, That subject to the approval of the Division of Civil Service, the re-employment of Alice V. Browne, Ellen E. Griffin, and Hannah Hickey, attendants at the Horace Mann School, for the purpose of accompanying pupils to and from school, is hereby authorized, compensation for such service to be at the rate of two dollars ($2) for each day of actual service, to take effect Sept. 10, 1941, and to continue for the school year ending Aug. 31, 1942.

ORDERED, That the Superintendent is hereby authorized to employ such emergency substitute attendants in the Horace Mann

School as may from time to time be needed, compensation for such service to be at the rate regularly established for the position.

The five orders passed collectively.

AMENDMENTS TO REGULATIONS

ORDERED, That the Regulations are hereby amended as follows:

Section 331, paragraph 1. (a). In the heading insert to immediately follow the word "Others" the words —on Yearly Salary—so that the heading shall read as follows:

Adjustment of the Salaries of Teachers and Others on Yearly Salary Who Have Been Appointed to Begin Service on the First School or Working Day in September.

(b) Insert the following as new paragraph (b):

ADJUSTMENT OF THE SALARIES OF CERTAIN EMPLOYEES PAID ON A WEEKLY BASIS WHO HAVE BEEN APPOINTED TO BEGIN SERVICE ON THE FIRST SCHOOL OR WORKING DAY IN SEPTEMBER.

(b) Matrons, cafeteria and nutrition class employees whose compensation is established at a fixed rate per week, who have been appointed to begin service and whose service begins on the first school or working day in September, shall be entitled to the full salary for such first school year of service. All deductions required by the regulations on account of absence from duty shall be made from salaries computed on the foregoing basis.

Re-letter old paragraph (b) as (c) and insert in the heading to immediately follow the word "Others" the words—on Yearly Salary—and omit the words ("New Appointees") so that the heading shall read as follows:

Adjustment of the Salaries of Teachers and Others on Yearly Salary Who Do Not Begin Service on the First School or Working Day in September.

(d) Insert the following as new paragraph (d):

ADJUSTMENT OF THE SALARIES OF CERTAIN EMPLOYEES PAID ON A WEEKLY BASIS WHO DO NOT BEGIN SERVICE ON THE FIRST SCHOOL OR WORKING DAY IN SEPTEMBER.

(d) Matrons, cafeteria and nutrition class employees whose compensation is established at a fixed rate per week, who do not begin service on the first school or working day in September, shall be entitled to that proportion of their salary for the first school year, which shall be obtained by using the ratio which the number of working weeks that they were in the service the first school year is to the total number of working weeks in such year. All deductions required by the regulations on account of any absence from duty shall be made from salaries computed on the foregoing basis. Working weeks shall include Christmas, February and April vacations.

Re-letter old paragraph (c) as (e) and insert in the heading to immediately follow the word "others" the words—on Yearly Salary—so that the heading shall read as follows:

Teachers and Others on Yearly Salary Who Do Not Complete the School Year Because of Death, Resignation, Retirement, Marriage or Discharge.

(f) Insert the following as new paragraph (f):

ADJUSTMENT OF THE SALARIES OF CERTAIN EMPLOYEES PAID ON A WEEKLY BASIS WHO DO NOT COMPLETE THE SCHOOL YEAR BECAUSE OF DEATH, RESIGNATION, RETIREMENT, MARRIAGE OR DISCHARGE.

(f) Matrons, cafeteria and nutrition class employees whose compensation is established at a fixed rate per week, who do not complete the school year because of death, resignation, retirement, marriage or discharge, shall be entitled to that proportion of their salary for the last school year, which shall be obtained by using the ratio which the number of working weeks that they were in the service the last school year is to the total number of working weeks in such year. All deductions required by the regulations on account of any absence from duty shall be made from salaries computed on the foregoing basis. Working weeks shall include the Christmas, February and April vacations.

Section 337, paragraph 4. In the table which sets forth the rates of deduction for leaves of absence, strike out the paragraph referring to matrons, nutrition class attendants and assistant nutrition class attendants and insert in place thereof the following:

Matrons, cafeteria and nutrition class employees—Deductions per day of absence without pay, or without leave, one-fourth of weekly salary; deduction per day on leave granted, one-eighth of weekly salary.

The rules were suspended and the order passed.

ACCOMPLISHMENTS OF SCHOOL COMMITTEE DURING PAST YEAR

Mr. Lee: We are meeting here today just midway between two school years, probably on the brink of as long a suspension of our meetings as we have enjoyed in the last twelve months. I wonder if it would be amiss to note and mark some of the distinctive contributions which this committee has made this year. By distinctive contributions I do not mean simply to our school system, but accomplishments of sufficient significance to stand in my mind as contributions to America and to American education.

With your permission I would like to cite as those contributions first, perhaps, our job survey, which really was a job survey only in part. More significantly, it was an effort to ask the mature citizen who had gone through our school system what he thought of it. We wrote to those who were nine years out of school, and on several pages, asked them what they thought was the most valuable course they had had; what was the least valuable course they had had; what was the best feature of their school experience; what was the worst feature; what course did they wish they had studied and what ones did they wish they had not studied.

I think having an educational system turn to its product and say to its product, "How do you regard the work the school system did for you?" is something that has not been done in other cities. It is one of the first attempts to get an objective appraisal of how good our work is, by asking those who have left our schools and have now attained early middle life, what they thought of it. That is a thing I think we might well take note of.

Second, I think this handbook which we approved tonight, on the Principles of Democracy, is so thorough, so vital, and so distinctive in the way it is done that it will be used in other school systems and prove a particularly valuable contribution at a time when it is very much needed. It is very discerning and very convincing. I would like to pause and note that as something which is a contribution of significance even outside of our own immediate school system.

Lastly, perhaps, there was the inauguration in the middle of this year of courses in economics, where we have tried to acquaint the school child on coming into the seventh grade and following all through the rest of his school work, with something of the fundamental system under which we live in America, by earning our living on the basis of fair opportunity and fair agreements, which is distinct from some other systems, and it is the very basis of getting along today. I think those courses are unique, as far as I can tell and as far as the Superintendent can tell, they have been noted in other parts of the country as being a distinct step forward.

Those are the three points that I think might be significant to mention as we sum up our year's work.

I wonder if I might add that since summer travel is somewhat shut off this year, at least in Europe, and since travel is something for which we give credit in our ratings for promotion, perhaps the Superintendent could make some provision for giving similar credit for work which teachers might do this summer in studying employment and industrial problems.

Superintendent: They get the same credit for such work.

Mr. Lee: When the February holidays came along we thought teachers in high schools might make the rounds of different varieties of occupations and be in a position to help the child with some of his life problems. I think more stress could be placed on that during the summer season.

Superintendent: That is allowed for now in our rating for promotion. The item is "outside activities and travel," either or both.

Mr. Lee: Speaking of the sampling we have had of middle-aged opinion in regard to the work we are doing, Mr. Gould has already brought that matter to the attention of the headmasters, and it seems to me if he wants to go farther and print the findings in some form, or to mimeograph them and get them into the hands of the teaching force, he should feel full authorization to do so.

Superintendent: I have not the second report. I have the first report on Mr. Ginn's work in connection with Mechanic Arts High School. Mr. Foye is working on English High. When I have those two reports I will be in a better position to print the findings. If we take those two big schools we will get a much more complete report.

—

MEETINGS OF SCHOOL COMMITTEE DURING SUMMER

Chairman: Anything else?

Mr. Norton: Are we going to meet again during the summer?

Chairman: We may meet later in the summer.

Mr. Norton: I would like to express my opinion regarding the summer vacation.

Chairman: We can meet any time the committee designates as necessary.

Mr. Norton: I think you and I are in agreement. My point is that during the summer vacation of our schools I would like to see as many as possible of the officials at headquarters enjoy a respite from work. I would like to see merely a skeleton force here at headquarters during the summer vacation. Labor Day comes around quickly and school is open a week or two after Labor Day, and our officials and executives have been busy during the school year. If it were possible to postpone meetings until after Labor Day, provided there is no emergency or reason for the meeting, I think it might work out better. In other words, I think we should try to work toward the idea of having as little activity as possible here while the schools are closed during the summer months, with a view to allowing everyone up here as much time as may be available for research, recreation and rest. We have had quite a busy year.

Chairman: I agree with you.

—

FURTHER AIMS OF SCHOOL COMMITTEE

Mr. Norton: Mr. Lee has recapitulated some of the accomplishments of the year which reminds me that I would like to call attention to the fact that I doubt if there has ever been an elected committee of five public officials who have cooperated and gotten along together with as little friction as has been the case with this Committee. I think I am correct in saying that we have not had a cross word or a loud word in the past year, and I challenge any other board in Boston elected by the people to better that record. I hope in the next school year we can go along as nicely as we have gone during the past year, because political life at best is transitory and evanescent, and it is over with tomorrow. A few years hence, if your picture

happens to be on the wall, somebody will ask, "Who is that individual?"

Somebody asked me the other day about a Mrs. Fifield. I said I never heard of such a person. I was told that Mrs. Fifield was a member of the School Committee, and an outstanding member, some years ago. That merely emphasizes in my mind how little we are and how quickly our shadows disappear.

Chairman: I like to hear you say that. I am reserving my statement for the last week of the year. We all like to hear those things.

Mr. Norton: If I may put in a little plug for some of the things that this committee is interested in, particularly hot lunches and penny milk, and a better chance for the youngster who perhaps isn't doing so well in school. No one wants to see the day come when a child 16 years or over will be forced to leave school without having had individual attention in finding the course and the school for which he is fitted.

Further, I wish to call attention to the value of touch typewriting as part of the work in the high schools. I hope we will be able to work out some way by which more pupils will gain a working knowledge of touch typewriting, so that the average graduate will be able to write 35 words a minute for five or ten consecutive minutes and qualify for a position. That is quite a job. I am sold on the proposition that a youngster should have the ability to type efficiently whether he is going to be a teacher or a manual worker.

Some time I hope it may be so worked out that every school building in Boston will have a loudspeaker in each class room, so that every morning for five minutes the pupils may hear a piece of classic music, perhaps half of Beethoven's Moonlight Sonata or Handel's Largo, and the second part the next day. By so doing we could give those children an appreciation of music that is broadening and something that will enrich their lives. If they get to know music and recognize and appreciate good music, they have acquired a cultural asset that never grows old. That is possible today through the loudspeaker and the low cost of records, and various school systems are adopting that method of developing music appreciation.

Furthermore, I would like to see the time come when we can take the best teacher of history, of geography, of algebra or of English, and have him or her stand at school headquarters on a certain day and broadcast a lesson to the pupils in that particular class in all of the schools.

When we have an outstanding teacher in a particular subject visiting Boston, we could invite that teacher to speak to the students in the Boston schools. We may not get that within a year or two years, or even ten years, but I think it is an objective towards which we should work.

The Committee adjourned.

PROCEEDINGS OF CITY COUNCIL.

Monday, July 21, 1941.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President GALVIN in the chair. Absent, Coun. Goode, M. H. Sullivan and Ward.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

John J. Moriarty of 378 Riverway, Ward 10, to be Constable with term ending April 30, 1942, without power to serve civil process and to serve without bond, *vice* Earl Wickes, resigned.

Weigher of Goods: Patrick J. Clancy, 78 Carver street, Boston, Mass.

Weighers of Coal: Charles Shrag, 51 McLellan street, Dorchester, Mass.; Herbert L. Baron, 137 Englewood avenue, Brighton, Mass.; Hyman Levine, 31 Summit avenue, Winthrop, Mass.

Severally laid over a week under the law.

BLINKER AT OLD MORTON AND SANFORD STREETS.

The following was received:

City of Boston,
Office of the Mayor, July 21, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Acting Commissioner of the Boston Traffic Commission relative to your order of June 30, 1941, concerning the installation of a blinker or "Stop" sign at the junction of Old Morton and Sanford streets.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Traffic Commission, July 9, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated June 30, 1941, which reads as follows: "Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to install a blinker or 'Stop' sign at the junction of Old Morton and Sanford streets."

Our accident records show only two accidents at this intersection since January 1, 1936.

We do not believe the accident hazard at this location is such that it warrants the expenditure of money for either a blinker or "Stop" sign.

Respectfully yours,
GEORGE G. HYLAND,
Acting Commissioner.

Placed on file.

REMOVAL OF CAR TRACKS, NORFOLK STREET.

The following was received:

City of Boston,
Office of the Mayor, July 21, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway relative to your order of June 30, 1941, concerning your order to remove the car tracks on Norfolk street at Codman square.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
July 10, 1941.

Mr. William T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir,—In reply to your letter of July 7 relative to removal of car tracks on Norfolk street at Codman square, I would refer you to my letter of November 22, 1940, relating to the same matter.

We have no objection to the removal of this track, but it is customary to remove track not required for transportation purposes in connection with the repaving of the street, as the railway is not obligated to restore the pavement after the removal of the track. This expense would devolve upon the City of Boston if our track is removed in Norfolk street at Codman square.

Very truly yours,
EDWARD DANA,
President and General Manager.

Placed on file.

GIFT OF PLAYGROUND FROM HENRY L. SHATTUCK.

The following was received:

City of Boston,
Office of the Mayor, July 21, 1941.

To the City Council.

Gentlemen,—In connection with the development of a small playground or "play space" unit, which I hope will be the first of a number of such projects in the city, I submit herewith three related orders.

There is a great need in the thickly-settled parts of the city for small play spaces which will be readily accessible to children in the neighborhood. Often the large playgrounds which are now in existence are at a distance and separated from the homes of the children desiring to use them by broad traffic arteries filled with moving motor vehicles. Especially, too, for younger children smaller and adjacent play spaces are desirable. In several forward-looking cities, play space units have been developed in various municipal locations where most needed. The creation in Boston of a comprehensive system of small play and rest spaces, scattered throughout the city, would be a forward step in the care and health of our younger children and in the protection of their safety. The play space with which this message is concerned (Albion street, Ward 5) should serve as a model for other similar projects in other sections of the city.

The city (Custodian of Foreclosed Real Estate) now owns by forclosure of tax titles six parcels of vacant land on Albion street, being Nos. 28, 32, 34, 38, 40 and 44. No. 44 is on the corner of Albion and Lucas streets. The parcels are contiguous, except that No. 40 is separated from No. 44 by a parcel (No. 42) not owned by the city. This intervening parcel, also vacant land, has been recently acquired and is now owned by Mr. Henry L. Shattuck. Together these seven parcels form a rectangular lot with an area of about 7,000 square feet.

Mr. Shattuck has generously offered to convey for park purposes the parcel owned by him (No. 42) to the city as a gift and further to give to the city a sufficient sum of money to improve said parcel and the other six parcels referred to as a unit "play space," provided that the city will accept the gift of his parcel for such purposes, transfer the other parcels above-mentioned to similar purposes, and authorize the improvement at his expense of all seven of the parcels in accordance with plans which have been prepared for a unit play space.

I have expressed to Mr. Shattuck the city's appreciation of his public-spirited and generous action and have assured him that I would present the matter to the City Council for its action at the earliest possible time. The three orders inclosed herewith have been prepared by the Law Department to carry into effect the project outlined above, and their prompt passage will mean the initial step in what I trust will be a program of great benefit to the health and welfare of the citizens in our thickly congested neighborhoods.

Respectfully,
MAURICE J. TOBIN, Mayor.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated January 11, 1937, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5394, page 392, on about eight hundred sixty-six (866) square feet of land on the southeasterly side and numbered 40 Albion street, Boston Proper; and

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, dated March 29, 1939, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5610, page 444, on about eight hundred sixty-eight (868) square feet of land on the southeasterly side and numbered 44 Albion street, Boston Proper; and

Whereas, The said parcels of land are now in the care, custody, control and management of the Foreclosed Real Estate Division; and

Whereas, The City of Boston has been requested to establish playgrounds on the said parcels of land, now, therefore, it is hereby

Ordered, That the said parcels of land, hereinbefore described, be, and the same are hereby, transferred from the care, custody, control and management of the Foreclosed Real Estate Division to the care, custody, control and management of the Park Department for playground purposes.

Whereas, Henry L. Shattuck, the owner of a parcel of land on the southeasterly side of Albion street, Boston Proper, being numbered 42 Albion street, and consisting of about eight hundred and fifty-seven (857) square feet of land, and standing of record in the name of Samuel R. Morgan under a deed recorded with Suffolk Deeds on June 30, 1941, Document No. 25, has offered to convey the same as a gift to the City of Boston for playground purposes; now, therefore, it is hereby

Ordered, That the City of Boston accept the conveyance of the parcel of land, hereinbefore described, for playground purposes, and that the care, custody, control and management of said parcel be transferred to the Park Department for playground purposes.

Whereas, Henry L. Shattuck has offered to provide sufficient funds to develop and improve as a unit play and rest space, in accordance with suitable plans which he has caused to be prepared, the parcels of land on Albion street, Boston Proper, numbered 26, 28, 32, 34, 38, 40, 42 and 44, consisting of approximately seven thousand (7,000) square feet of vacant land, the said parcels to be under the care, custody, control and management of the Park Department, for playground purposes; now, therefore, it is hereby

Ordered, That the City of Boston accept from Henry L. Shattuck the gift of sufficient funds to develop and improve as a unit play and rest space, in accordance with suitable plans which he has caused to be prepared, the eight contiguous parcels hereinbefore referred to; and the Park Department is authorized to permit the development and improvement of said parcels as a unit play and rest space with the said funds, in accordance with said plans and under the direction of said donor; the said property upon completion of such development and improvement to be under the exclusive care, custody, control and management of the Park Department.

Referred to Executive Committee.

Coun. TAYLOR—I would like to make a motion that this Council pass a unanimous vote expressing our appreciation of Mr. Shattuck's generous gift to the City of Boston. I make a motion, Mr. President, that this Council give Mr. Shattuck a rising vote of thanks.

The motion was adopted by a rising vote.

SALE OF LAND AT COLUMBUS AVENUE AND RITCHIE STREET.

The following was received:

City of Boston,
Office of the Mayor, July 21, 1941.

To the City Council.

Gentlemen,—I transmit herewith a communication from the Public Works Department abandoning the use of a portion of land occupied by this department at the intersection of Columbus avenue and Ritchie street.

The commissioner states that the department has no further use for this particular parcel and I submit herewith the accompanying order authorizing the sale at public auction.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
July 12, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—This department has jurisdiction over a parcel of land located at the intersection of Columbus avenue and Ritchie street, Roxbury. Part of the land is used as a district yard by the Highway and Sanitary Divisions, but the part that is located directly contiguous to the above-referenced intersection is not used by the department nor do I feel that the future needs of the department will require its use.

It is my opinion that it would be to the best interests of the city to dispose of it by sale at public auction and I am therefore inclosing for transmittal to the City Council for adoption by that Body, an order prepared by the Law Department in connection with the proposed sale of the land.

I am also inclosing two blueprints of a plan showing the location and dimensions of the parcel that I propose selling.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

—

Whereas, The City of Boston owns in fee certain lands situated on the easterly side of Columbus avenue and the northerly side of Ritchie street in the Roxbury District of the City of Boston. The title to said lands was acquired by a deed dated May 17, 1830, recorded with Norfolk Deeds, Book 92, page 51; and

Whereas, A certain parcel of said lands, hereinafter described, is no longer needed for public purposes, now, therefore, it is hereby

Ordered, That the Commissioner of Public Works of the City of Boston be, and he hereby is, authorized to sell at public auction at an upset price of thirty (30) cents a square foot the parcel of said lands, hereinafter described, and it is hereby further

Ordered, That his Honor the Mayor of the City of Boston, be, and he hereby is, authorized to execute and deliver in the name and behalf of the City of Boston, to a purchaser, at said public auction, a written instrument satisfactory in form to the Law Department of the City of Boston, conveying said parcel of land bounded and described as follows:

Westerly by the easterly side line of Columbus avenue, and land now or formerly of Anton Oelschlager, by three measurements, ninety-nine and 33-100 (99.33) feet, nine and 30-100 (9.30) feet, and twelve and 18-100 (12.18) feet, respectively; southerly by the northerly side line of Ritchie street, by two measurements, thirty-two and 4-100 (32.04) feet, and fifty-nine and 31-100 (59.31) feet, respectively; easterly by land of the City of Boston, one hundred sixty-four and 67-100 (164.67) feet; northerly by other land of the City of Boston, eighty (80) feet; containing eleven thousand four hundred ninety-six (11,496) square feet of land, more or less.

Said parcel of land and all of said measurements are shown on a plan marked "City of Boston, Columbus Avenue, Roxbury, November 24, 1925, William J. Sullivan, Chief Engineer, Street Laying-Out Department," on file in the office of the Street Laying-Out Department, City Hall, Boston, Mass.

COMPENSATION AND CLASSIFICATION PLANS FOR OFFICERS AND EMPLOYEES OF SUFFOLK COUNTY.

The following was received:

City of Boston,
Office of the Mayor, June 9, 1941.

To the City Council.

Gentlemen,—I transmit herewith for consideration by your Honorable Body the attached proposal by the Budget Commissioner to amend the "Compensation and Classification Plans for the Officers and Employees of Suffolk County."

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Budget Department, June 9, 1941.

To the Mayor and City Council.

Honorable dear Sirs,—Rule 3, "Classification of New Positions," of the "Compensation and Classification Plans for the Officers and Employees of Suffolk County," provides that, "Whenever a new position is established or the duties of a position are so changed that, in effect, the whole position, as described in the class specifications for the class to which it was originally allocated, no longer exists, but, in its place, there is created a new position of a different class, the appointing authority shall forthwith report this fact to the Budget Commissioner with a full statement of the circumstances and a description of the duties as changed. The Budget Commissioner shall, subject to the approval of the City Council and the Mayor and after an investigation of the actual and proposed duties and responsibilities, classify or reclassify the position by allocating it to its appropriate class in accordance with the classification plan then in effect; if necessary a new class shall be established to provide for the new position. The Budget Commissioner may likewise, from time to time, make investigations of any or all positions in the service and propose, to the City Council, changes in classification whenever the facts are considered to warrant such action."

In accordance with this rule, I inform your Honor and the City Council it is proposed to establish the following new classifications:

Title of Class:

Managing Custodian.

Duties:

Under direct supervision of the Commission for the Care, Custody and Control of the Suffolk County Court House as plant manager to be the responsible administrative head, in charge of the Suffolk County Court House and grounds; to manage properly the office of the commission and to supervise and direct its clerical work; to be responsible for the proper accounting for, and use of, all equipment, materials and supplies; to prepare specifications for competitive bids for purchase of furniture, equipment, supplies and building materials; to be familiar with building plans and blueprints, and to supervise or direct construction and remodeling; to make estimates, and to figure costs and outlays, and to have business judgment as to values; to be capable of judging the individual competency of a large group of technically skilled and unskilled employees and to be able to manage and direct them; to supervise a complicated mechanical plant of large proportions for heating, ventilating, lighting and elevator service; and to superintend and manage properly a building giving daily service to the thousands of the public; and of the experience to deal tactfully and satisfactorily with the judges of any of the courts or any of the county official occupants of that building in their requests for, or complaints as to, the varying services furnished by the building; and other allied matters.

Range of Compensation:
Annual, $3,800—$4,100—$4,400—$4,500.

Very truly yours,
FRANCIS X. LANG,
Budget Commissioner.

—

Ordered, That the Compensation and Classification Plans for the Officers and Employees of Suffolk County, as adopted by the City Council on April 13, 1931, and approved by the Mayor on April 15, 1931, be, and the same hereby are, amended, by establishing the following classification:

Title of Class:

Managing Custodian.

Duties:

Under direct supervision of the Commission for the Care, Custody and Control of the Suffolk County Court House as plant manager to be the responsible administrative head, in charge of the Suffolk County Court House and grounds; to manage properly the office of the commission and to supervise and direct its clerical work; to be responsible for the proper accounting for, and use of, all equipment, materials and supplies; to prepare specifications for competitive bids for purchase of furniture, equipment, supplies and building materials; to be familiar with building plans and blueprints, and to supervise or direct construction and remodeling; to make estimates, and to figure costs and outlays, and to have business judgment as to values; to be capable of judging the individual competency of a large group of technically skilled and unskilled employees and to be able to manage and direct them; to supervise a complicated mechanical plant of large proportions for heating, ventilating, lighting and elevator service; and to superintend and manage properly a building giving daily service to the thousands of the public; and of the experience to deal tactfully and satisfactorily with the judges of any of the courts or any of the county official occupants of that building in their requests for, or complaints as to, the varying services furnished by the building; and other allied matters.

Range of Compensation:
Annual, $3,800—$4,100—$4,400—$4,500.

Referred to Executive Committee.

RATES OF COMPENSATION IN ASSESSING DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, July 19, 1941.

To the City Council.

Gentlemen,—I am transmitting with this letter a draft of order to amend the city's ordinances in connection with the rates of compensation payable in the Assessing Department.

The present ordinance in this regard is section five of chapter three of the Revised Ordinances of 1925, as amended by chapter one of the Ordinances of 1938, and reads as follows:

"The assessors, the chairman seventy-five hundred dollars, and the two other assessors each six thousand dollars. The first assistant assessors, each eight hundred and fifty dollars for street work and preparation therefor, and eight hundred and fifty dollars for services on dooming board and work on abatements and investigations."

In 1938 the Legislature passed "An Act to Authorize the Reorganization of the Board of Assessors of the City of Boston" (Chapter 257). This statute revised the compensation of the Board of Assessors and the salary rates. The inclosed draft of order conforms the existing ordinance with the provisions of said statute, thus eliminating an apparent conflict between the language of the existing ordinance and the language of the controlling statute.

The inclosed draft of order also provides that additional compensation, not to exceed $300 a year, may be paid to such first assistant assessors as the Board of Assessors may call upon from time to time to do work in addition to that which under the existing ordinances the first assistant assessors are required to do.

When the duties of the first assistant assessors were outlined in the existing ordinances, the Appellate Tax Board had not been created and the crushing mass of tax appeals cases (approximately 10,000 cases now pending) did not exist.

Under new procedures adopted for the first time this year the city has, I am very happy to report, made the best record of disposals of tax appeals cases since the Appellate Tax Board was created, and if this progress can be continued the carry-over of tax appeals cases will, at the end of the current fiscal year, for the first time show a downward trend.

The great increase in the number of tax appeals cases and the carrying out of the new procedures referred to are resulting in new demands upon a considerable number of the first assistant assessors, who are being called upon to do work in connection with the trials and disposals before the Appellate Tax Board not included within their duties as outlined in the existing ordinances. For these additional services such first assistant assessors as are performing the same are fairly entitled to additional compensation.

Respectfully,
MAURICE J. TOBIN, Mayor.

An Ordinance Concerning Salaries of Assessors.

Be it ordained by the City Council of Boston, as follows:

Section five of chapter three of the Revised Ordinances of 1925, as most recently amended by chapter one of the Ordinances of 1938, is hereby further amended by striking out that portion thereof dealing with the salaries of the assessors and the first assistant assessors and inserting in place thereof the following:

"The assessors—the chairman, seven thousand five hundred dollars; each of the four other assessors, six thousand dollars; each first assistant assessor, eight hundred and fifty dollars for street work and preparation therefor, and eight hundred and fifty dollars for services on dooming board and work on abatements and investigations; and each first assistant assessor performing at the request of the board of assessors services in addition to those mentioned, such additional sum not exceeding three hundred dollars as may be fixed by said board with the approval of the mayor."

Referred to Committee on Ordinances.

AIRPORT DEVELOPMENT.

The following was received:

City of Boston,
Office of the Mayor, July 21, 1941.

To the City Council.

Gentlemen,—In connection with the proposed development of the Airport in East Boston, I submit herewith an order for the transfer to the Commonwealth of such interest as the City may have in certain parcels in Boston Harbor. The appended communication of the Corporation Counsel gives a detailed statement of the rights in land and flats which the city is required to relinquish as a part of the proposed Airport development.

The benefits to the city, while prospective, can hardly be exaggerated. The Airport, when completed, will be one of the best in the country, accommodating both airplanes and seaplanes, and it will be of immense value in the commercial and industrial development of the Port of Boston. The city will be relieved of the burden of carrying the debt previously incurred by it for airport purposes and will receive a substantial cash payment immediately following the passage of the order by the City Council.

One further important feature of this situation concerns the flats appurtenant to Wood Island. For some time I have had in mind the improvement of World War Memorial Park in East Boston and the construction of a strandway similar to the South Boston Strandway. One great obstacle to the World War Memorial Park improvement has been the vast expanse of mud flats left bare at low tide, which it would be necessary to dredge out at great expense in order to furnish proper bathing facilities. By the construction of the seaplane channel to the Airport, which is dependent to some extent upon the city giving up its ownership of a portion of these flats, a considerable amount of this dredging will be done at no expense to the city, and the prospects of the city being in a financial position to start this great improvement in East Boston should be considerably improved.

I impress on the members of the Council the importance of immediate action on the order as soon as the pending legislation is enacted.

Respectfully,
MAURICE J. TOBIN, Mayor.

Mayor of Boston.

Legislation as to the East Boston Airport.

Dear Mr. Mayor,—This letter concerns the legislation now pending before the General Court in regard to the turning over to the Commonwealth by the City of Boston of its interest in the East Boston Airport and in regard to related matters. Under the terms of the proposed legislation, in order that the city may immediately avail itself of its benefits, prompt action is required of the city as to the release of certain rights to the Commonwealth. In order that the matter may be presented to the City Council without delay, I am sending this letter in advance of actual enactment of the proposed legislation.

At the present time the City of Boston leases from the Commonwealth two parcels of land in East Boston, one parcel conprising 131.2 acres under a lease dated August 10, 1928, and the other parcel comprising 96.7 acres under a lease dated July 14, 1930. These leases were entered into pursuant to the provisions of chapter 64 of the Resolves of 1928 and chapter 53 of the Resolves of 1930, respectively. The terms of these leases expire August 9, 1948.

Each of the two leases contains a special clause applicable at the termination of the term of the lease, and conforming to the language of the authorizing Resolve, and reading as follows:

"The Lessor hereby covenants that, at the end of the stated term of this lease, the Lessor will, when an appropriation is made therefor by the General Court, pay to the Lessee such sum as shall represent the fair value at that time of all filling and grading performed at the expense of the Lessee, but not in excess of the actual first cost of the same to the Lessee, and without any allowance for interest on expenditures made by the Lessee, and also such sum as shall represent the fair value, if any, to the Lessor, for the then intended use of said premises, of such runways, buildings and other structures as have been built by and at the expense of the Lessee, such values to be determined by a special commission to be appointed in the same manner as herein provided for the determination of rent for the second ten year period of the term of this lease."

The reference to the "special commission" in the above-quoted provision is to a special commission which shall consist of three members, one to be appointed by the Governor of the Commonwealth, one to be appointed by the Mayor of the City of Boston, and one to be appointed by the Chief Justice of the Massachusetts Supreme Judicial Court.

In March, 1941, the General Court adopted, and on March 28 of the same year the Governor signed, a Resolve providing for the present determination, by a special commission to be appointed as provided in the aforesaid leases, of the value of certain improvements theretofore made by the City of Boston at the East Boston Airport property, in contemplation of the city turning over to the Commonwealth in 1941, instead of in 1948, of possession of said property. (Chapter 8, Resolves of 1941.)

Under the terms of this Resolve, the special commission, consisting of Messrs. Joseph Wiggin, Frederick L. Parker and Henry J. Nichols, was appointed prior to March 31, 1941. After numerous hearings and conferences, this special commission reported its findings to the Governor under date of May 14, 1941. In its report the special commission determined that the amount to be paid by the Commonwealth to the City of Boston as the fair value on March 31, 1941, of the property included within the above-quoted terms of the leases was $1,026,800. On May 15, 1941, the Governor sent a message to the General Court, inclosing a copy of the special commission's report, and expressing the hope that action would be taken in connection therewith by the Legislature at the earliest time. (House Document No. 2484.)

After hearings before committees of the Legislature, a bill was prepared to consolidate into one bill House Document No. 2183, being the original legislation filed in the current sitting of the General Court in regard to the taking over of the East Boston Airport, and House Document No. 163, being a related bill concerning the construction by the state of Bulkheads at the Airport. A copy of the bill so prepared is attached hereto. This bill is, at present, pending before the Joint Committee on Ways and Means and there is reasonable expectation to believe that in substantially the form inclosed it may be enacted by the Legislature.

As far as concerns the City of Boston, the provisions of this bill may be summarized as follows:

Subject to the provisions mentioned below, the Commonwealth is to pay to the City of Boston the sum of $349,118.75 in cash, and is to deliver to the city an appropriate agreement assuming and guaranteeing the due and punctual payment of the principal and interest of the outstanding serial bonds of the city heretofore issued in connection with the Airport. Upon the receipt of such payment and delivery, the interest of the city in and to the two parcels above referred to terminates and possession of the premises reverts thereupon to the Commonwealth. The principal amount of the city's outstanding serial Airport bonds is $595,000, and interest due thereon from time to time, until the respective maturities of said bonds aggregates $82,681.25.

By the payment of the sum in cash and the delivery of the agreement referred to the city will receive the amount determined by the special commission, as aforesaid, that is to say, $1,026,800, as follows:

Cash, $349,118.75; payment of Bond Principal assumed, $595,000; payment of Bond Interest assumed, $82,681.25; total, $1,026,800.

A principal purpose of the Commonwealth in taking over from the City of Boston the East Boston Airport property in 1941, instead of in 1948, is to enable the immediate carrying forward of a very large expansion of the Airport and its facilities, such expansion to be financed by the Commonwealth. It is understood that the Commonwealth will presently expend over $2,000,000 in such expansion, this sum to be in addition to the amount above referred to to be paid to the City of Boston and to be in addition to the sum of $1,500,000 to be expended by the Federal Government in dredging an adjacent seaplane channel. This expansion is deemed highly desirable, if not necessary, because of the greatly increased use of the Airport and in order to provide in the City of Boston an adequate, safe and thoroughly modern Airport.

In connection with the Commonwealth's plans for expanding the Airport, the Commonwealth has advised me that it is necessary for it to use three parcels in Boston Harbor in which the City of Boston has some interest and which are located near the present Airport property. These parcels are the following: (a) Governor's Island, an island in Boston Harbor; (b) Apple Island, an island in Boston Harbor, together with the flats appurtenant thereto, and (c) a portion of the flats appurtenant to World War Memorial Park (Wood Island). These properties are referred to in section 10 of the draft of legislation attached hereto, and in such legislation (section 12) the provision of the payment by the Commonwealth to the City of the cash sum and the delivery by the Commonwealth to the City of the assumption agreement is made subject to the transfer by the City to the Commonwealth of such right, title and interest as the city may have in and to said three parcels.

The interest of the city in these three parcels may be briefly stated as follows:

In March 1936, the United States Government, by the Secretary of War, leased for fifty years to the City of Boston the premises known as Governor's Island, in consideration of the sum of $1.00. The lease was made expressly subject to a condition that if the city did not commence and diligently prosecute the work of grading the land within one year from the effective date of the lease, the Secretary of War should have the right to revoke the lease. The city neither undertook nor diligently prosecuted, within the stated time, the work mentioned. The city has also failed to carry out certain other requirements of the lease. In my opinion, the United States Government is free to revoke the lease at any time and thus terminate

the right, title and interest of the city in and to Governor's Island. Accordingly, a transfer by the city of such interest as it has in said parcel through said lease does not now represent a transfer by the city of anything of substantial value.

Apple Island, above referred to, consists of approximately eight acres of upland and 186 acres of flats. This property was purchased by the City of Boston in 1867 for the sum of $3,750, for the purpose of burning thereon old hulks. It is now in the care, custody and control of the Board of Street Commissioners of the City of Boston and is not used for any purpose, public or private. I have no reason to believe that this property represents anything of value or utility to the city at the present time.

The portion of the flats appurtenant to World War Memorial Park (Wood Island), above referred to, consists of approximately 125 acres, all of which, except at low tides, are submerged. Wood Island and the appurtenant flats, of which the above portion form a part, were taken by the City of Boston by eminent domain proceedings for park purposes in the years 1882 and 1891, and are now in the care, custody and control of the Park Department. The award of damages paid by the City of Boston at that time totaled $132,300. The upland portion of Wood Island is now the site of World War memorial Park. The flats, other than that part immediately adjacent to said park, and used for beach purposes, are used for no purpose, public or private. So far as I know, neither at the time of the taking by eminent domain aforesaid, nor subsequent thereto, has any value been allocated to that portion of the flats which the Commonwealth now desires to have transferred to it, and I have no reason to believe that these flats are of value or utility to the city.

It is my understanding that a part of the flats referred to in the two preceding paragraphs lie within the course of the new seaplane channel to be dredged by the Federal Government at an expenditure of $1,500,000. The interest of the city in the three parcels above-mentioned is either nominal or of no substantial value, and by releasing it to the Commonwealth the City will assist in a development which is calculated to make the Boston Airport one of the best in this country. I have prepared and inclose herewith an order for submission to the City Council providing for the transfer by the City of Boston to the Commonwealth, without monetary consideration, of such right, title and interest as the city has in said three parcels.

Your Honor will observe in section 12 of the proposed act that it is necessary for you to file in the office of the State Secretary, within twenty days after the effective date of the act, a certain writing. As soon as this writing shall have been duly filed, the Commonwealth will proceed, as rapidly as possible, to make available the necessary funds for the payment to the city of the cash sum referred to in section 1 of the proposed act, which sum is to be paid within thirty days of the effective date of the act. In view of this statutory time schedule, it is necessary, as I have stated earlier in this letter, that action be taken by the City Council at the earliest possible moment following the effective date of the act in order that the writing above referred to may be filed with the State Secretary. It will not be possible to file such a writing until the City Council has duly adopted an order similar to that inclosed herewith.

Sincerely yours,
ROBERT CUTLER,
Corporation Counsel.

AN ACT AUTHORIZING THE TURNING-OVER OF THE BOSTON AIRPORT, SO CALLED, TO THE COMMONWEALTH AND PROVIDING FOR THE IMPROVEMENT THEREOF.

(Emergency Preamble.)

SECTION 1. The term of the lease from the commonwealth to the city of Boston, in this act called the city, of land in that part of the city called East Boston under chapter sixty-four of the resolves of nineteen hundred and twenty-eight, and the term of the lease from the commonwealth to the city of other land in said part of the city under chapter fifty-three of the resolves of nineteen hundred and thirty, shall, as provided in section two, terminate prior to the termination of the stated terms thereof, anything in either of said leases to the contrary notwithstanding, upon receipt by the city of one million twenty-six thousand and eight hundred dollars (being the amount determined by the special commission appointed under the authority of chapter eight of the resolves of the current year) in cash and by agreement of the commonwealth as follows: (a) the payment of the sum of three hundred and forty-nine thousand one hundred and eighteen dollars and seventy-five cents in cash, and (b) the delivery of the agreement of the commonwealth, duly executed in its behalf by the governor under the seal of the commonwealth, authority thereunto being hereby granted, in form satisfactory to the city, assuming and guaranteeing the due and punctual payment of the principal of the serial bonds of the city heretofore issued in regard to the premises covered by said leases and outstanding in face amount of five hundred and ninety-five thousand dollars and of the interest due thereon from time to time hereafter to the respective maturities of said bonds in aggregate amount of eighty-two thousand six hundred and eighty-one dollars and twenty-five cents, and agreeing to hold the city harmless in regard to such payment of principal and interest and to reimburse the city on demand for any of such principal or such interest that the city may be called upon to pay. In this act, the premises covered by the aforesaid leases are referred to as the airport property.

SECT. 2. Subject to the provisions of section twelve, the commonwealth shall make to the city the payment of the cash sum and the delivery of the agreement specified in section one, at the office of the treasurer of the city during regular office hours in the forenoon of any business day prior to the thirtieth day following the effective date of this act. At one o'clock post meridian of the day of such payment and delivery, said date in this act being called the termination date, and without further action by the city or by the commonwealth, the terms of the aforesaid leases shall terminate, all interest of the city in and to the airport property shall cease, the city shall deliver possession of said property to the commonwealth, subject to the provisions of section four, and the commonwealth shall assume the city's financial responsibility for and take over, so far as it legally may, all unfinished work then being carried on by the city or by the Works Project Administration or other federal agency upon or for the benefit of the airport property, except such work initiated after March thirty-first of the current year which shall not have been approved in advance in writing by the department of public works of the commonwealth, in this act called the department.

SECT. 3. Within sixty days after the termination date, the city shall account for and pay to the commonwealth all amounts received or receivable from the operation of the airport property between March thirty-first of the current year and the termination date, and the commonwealth shall reimburse the city for all expenditures made or incurred upon or for the benefit of the airport property during said period, except expenditures made or incurred for any new project or work upon or for the benefit of the airport property initiated during said period without the approval in advance in writing of the department.

SECT. 4. Upon the termination date, the commonwealth shall accept as tenants and licensees, under the terms of tenancies and licenses in effect on March thirty-first of the current year, all tenants and licensees of the city of portions of the airport property or their assignees. The city shall hold the commonwealth harmless from loss or damage arising out of or in connection with any claim asserted by any such tenant, licensee or assignee in regard to a cause arising or accrued prior to the termination date.

SECT. 5. The department is hereby authorized to construct dikes and bulkheads and to do any other work at or adjacent to the airport property which in its opinion is necessary to provide an area within which filling may be placed for the enlargement of the airport. No work authorized by this section or section six shall be begun until the congress shall make available an initial sum of one million five hundred thousand dollars for dredging a seaplane channel in accordance with the project described in document three hundred and sixty-two of the seventy-sixth congress, first session.

SECT. 6. The department is hereby authorized to furnish, free of cost to the United States of America, as and when required, all lands, easements, and rights of way and spoil-disposal areas for the initial work and subsequent maintenance in connection with the project referred to in section five. The commonwealth hereby agrees to hold and save the United States of America free from claims for damages resulting from the improvement under said project, and to give assurances satisfactory to the Secretary of War that it will, at its expense, provide suitable bulkheads, dikes, or other structures for retention of excavated material. The department is hereby authorized to acquire by purchase, gift, deed or otherwise, or to take under the provisions of chapter seventy-nine of the General Laws, such lands, flats, or rights therein, public or private, as may be necessary for the purposes set forth in this section and section five.

SECT. 7. The department is further authorized to fill, grade, construct runways, dikes, and bulkheads, erect buildings and make other improvements at or adjacent to the airport property, in accordance with plans prepared by or under direction of the department, after it has submitted a copy thereof to the Massachusetts aeronautics commission and given said commission reasonable opportunity to make its recommendations relative thereto. In this section and the following sections of this act, the term airport shall mean the airport property as enlarged and improved in accordance with this act. For the purposes of this section, the department is hereby authorized to acquire by eminent domain under chapter seventy-nine of the General Laws, or by purchase or otherwise, necessary public or private lands and rights and easements therein, including such air rights as may be certified by said commission to the department to be necessary to provide unobstructed air space for the safe and convenient landing and taking off of aircraft utilizing said airport, and also including the right or easement, for a limited period of time or perpetually, to place and maintain such suitable marks for the daytime, and to place, operate and maintain such suitable lights for the night time marking of buildings, or other structures or obstructions, as may be necessary for the safe and convenient operation of aircraft utilizing the airport; provided, that no lands or rights or easements therein, other than air rights and rights or easements connected with the placing, operating and maintaining of marks and lights, shall be so acquired until after the department has submitted the proposition to said commission and given said commission reasonable opportunity to make its recommendations relative thereto.

SECT. 8. The department, acting in the name and behalf of the commonwealth, may lease or convey to the United States of America, with or without consideration, such part of the property at the airport as may be necessary for the construction and maintenance of any aid to aerial navigation. The department may also authorize the United States of America to use the airport without monetary consideration for such period as the airport shall be used for airport purposes and as the lease of Governor's Island referred to in section ten shall remain in effect. The department may enter into such agreements with the federal government relative to the construction, maintenance and operation of said airport as may be necessary in order to obtain federal funds and assistance, and for such purposes may expend such funds in addition to any moneys provided therefor under section nine.

SECT. 9. Subject to the approval of the governor and council, the state treasurer, in order to provide funds for payment by the commonwealth to the city of such amount in cash as may be required under section two, shall without further authority, and the state treasurer, in order to provide funds for other purposes of this act, shall from time to time upon the request of the commissioner of public works of the commonwealth, issue bonds of the commonwealth to an amount not exceeding, in the aggregate, the sum of two million five hundred thousand dollars, which shall bear on their face the words BOSTON AIRPORT BONDS—1941. Such bonds shall be issued as coupon or registered bonds for such term of years as may be recommended by the governor in accordance with section three of Article LXII of the amendments to the constitution and shall bear interest at such rate as shall be fixed by the state treasurer, with the approval of the governor and council.

SECT. 10. The city, acting by its mayor and city council, is hereby authorized and empowered to transfer to the commonwealth without monetary consideration such right, title and interest as it may have as lessee in and to a lease given in 1936 by the United States of America of Governor's Island, an island in Boston harbor, and such right, title, and interest as it may have in and to two parcels of land in Boston harbor, the first of said parcels consisting of Apple Island, an island in Boston harbor, together with the flats appurtenant thereto, and the second of said parcels of land being a portion of the flats appurtenant to World War Memorial Park, acquired for park purposes, lying east and south of a line marked T-U in the harbor line as described in chapter four hundred and eleven of the acts of nineteen hundred and thirty-nine, and said line as ex-

tended southwesterly to the property line between the said city flats and the flats of the commonwealth.

SECT. 11. Section two of chapter four hundred and seventy-six of the acts of nineteen hundred and thirty-nine is hereby repealed.

SECT. 12. The provision of section two that the commonwealth shall make the payment and delivery specified in said section shall be operative only in case, within twenty days after the effective date of this act, the mayor of the city files in the office of the state secretary a writing or writings in which he states that the city is ready and willing to carry out the provisions of sections one to four inclusive and that the city, pursuant to action duly taken by its mayor and city council, will, upon receipt from the commonwealth of the payment and delivery specified in said section two, make to the commonwealth the transfers referred to in section ten.

Whereas, The United States of America is the owner in fee of Governor's Island, an island situated in Boston Harbor between Castle Island and Apple Island; said Governor's Island having been acquired by the United States of America for War Department purposes by purchase in accordance with the provisions of chapter 13 of the Acts of 1798 of the Commonwealth of Massachusetts, as amended by chapter 124 of the Acts, 1808, and the deed thereof being recorded with Suffolk Deeds, Book 225, page 193; and

Whereas, The United States of America, Secretary of War, pursuant to the provisions of an Act of the Congress of the United States of America, approved February 7, 1931 (46 Stat. 1084), leased in consideration of one (1) dollar to the City of Boston said Governor's Island for the term of fifty (50) years from the twenty-sixth day of March, 1936, for airport purposes, subject to certain terms and provisions in said lease set forth; and

Whereas, The City of Boston is the owner in fee of Apple Island, an island situated in Boston Harbor between Governor's Island and Point Shirley, containing approximately eight (8) acres of upland and one hundred eighty-six (186) acres of flats; said Apple Island having been acquired by the City of Boston for general municipal purposes by purchase in accordance with the provisions of an order of City Council of the City of Boston approved May 3, 1867, and the deed thereof is recorded with Suffolk Deeds, Book 900, page 525, and said Apple Island and the flats appurtenant thereto being shown on a plan marked "Apple Island and Flats, Boston Harbor, Department of Public Works of Massachusetts, Division of Waterways, October, 1940, Scale 1:10000, Francis L. Sellew, District Waterways Engineer, A C C 4622"; and

Whereas, The City of Boston is the owner in fee of certain flats containing approximately one hundred twenty-five (125) acres being a portion of the flats appurtenant to World War Memorial Park, East Boston, and lying east and south of a line marked T-U in the harbor line as described in chapter 411 of the Acts of 1939, and said line as extended southwesterly to the property line between said flats and flats of the Commonwealth of Massachusetts, said World War Memorial Park and the said flats appurtenant thereto having been acquired by the City of Boston for public park purposes by purchase in accordance with the provisions of orders of the Board of Park Commissioners of the City of Boston passed November 21, 1882, and June 26, 1891, and the deeds thereof being recorded with Suffolk Deeds, Book 1584, page 167, and Book 2014, page 28; and the said flats lying east and south of a line marked T-U in the harbor line as described in chapter 411 of the Acts of 1939, and said line as extended southwesterly being shown on a plan marked "World War Memorial Park and Flats, Boston Harbor, East Boston, Department of Public Works of Massachusetts, Division of Waterways, October, 1940, Scale 1:10000, Francis L. Sellew, District Waterways Engineer, A C C 4621"; and

Whereas, Section 10 of chapter of the Acts of the Commonwealth of Massachusetts, approved July , 1941, provides as follows:

"SECT. 10. The city, acting by its mayor and city council, is hereby authorized and empowered to transfer to the commonwealth without monetary consideration such right, title, and interest as it may have in and to a lease given in 1936 by the United States of America of Governor's island, an island in Boston harbor, and such right, title and interest as it may have in and to two parcels of land in Boston harbor, the first of said parcels consisting of Apple island, an island in Boston harbor, together with the flats appurtenant thereto, and the second of said parcels of land being a portion of the flats appurtenant to World War Memorial Park, acquired for park purposes, lying east and south of a line marked T-U in the harbor line as described in chapter four hundred and eleven of the acts of nineteen hundred and thirty-nine, and said line as extended southwesterly to the property line between the said city flats and the flats of the commonwealth."

And now, therefore, it is hereby

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized, in the name and behalf of the City of Boston, to transfer, without monetary consideration, to the Commonwealth of Massachusetts, by an instrument in writing satisfactory in form to the Law Department of the City of Boston, all right, title and interest of the City of Boston in and to said lease of Governor's island, in and to said Apple Island and flats, and in and to said World War Memorial Park flats, as hereinbefore referred to and described.

Referred to Executive Committee.

Placed on file.

RECESS.

By direction of the President the Council took a recess at 2.50. The members reassembled and were called to order by President GALVIN at 3 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and orders (referred today) accepting gift of Henry L. Shattuck of land for playground purposes and development of same—that said orders ought to pass.

Coun. LANGAN—The Executive Committee unanimously accepted the report and voted unanimously to pass the order accepting the land very generously offered by Councilor Shattuck. We who know Mr. Shattuck's background, know he has interested himself in these playgrounds for a long time, and it is an encouraging and healthy sign and a fine example for the other members of this Council to know that Mr. Shattuck has demonstrated by practical application the true motives of charity and sincere interest in the citizens of the city.

The report was accepted and the orders passed.

PAYMENT OF AID TO SOLDIERS AND SAILORS.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted report recommending payment of aid to soldiers and sailors and their families in the City of Boston for the month of July.

Report accepted; said order passed.

REPORT OF COMMITTEE ON CLAIMS.

Coun. SCANNELL, for the Committee on Claims, submitted the following:

Report on petition of John B. Carr (referred July 14) to be reimbursed for amount of execution issued against him on account of his act as operator of fire apparatus, December 9, 1939, recommending passage of accompanying order, viz.:

Ordered, That the sum of one hundred seventy-three dollars and ninety-five cents ($173.95) be allowed and paid to John B. Carr in reimbursement for amount of execution issued against him on account of his acts as operator of fire apparatus, said sum to be charged to the Contingent Fund.

Report accepted; said order passed.

CONFIRMATION OF APPOINTMENTS.

The Chair called up No. 1 on the calender, under unfinished business, viz.:

1. Action on appointments submitted by the Mayor July 14, 1941, of Maxwell R. Feinstein and Martin Gilleran, to be Weighers of Coal; and Edward F. Savage and Harold E. Hines, to be Weighers of Goods.

The question came on confirmation. Committee, Coun. Wickes and Russo, yeas 13, nays 1, and the appointments were confirmed.

USE OF LAND FOR BRIGHTON PLAYGROUND.

President GALVIN, for Coun. M. H. Sullivan, offered the following:

Ordered, That the trustees of the George Robert White Fund be requested, through his Honor the Mayor, to confer with the trustees of the Boston Elevated Railway Company for the purpose of obtaining the use of the land now owned by said Boston Elevated Railway Company at the junction of Washington and Faneuil streets, Brighton, to be used as a play space for the children of the Faneuil and Oak square districts.

Passed under suspension of the rule.

NAMING OF "HENRY L. SHATTUCK PLAYGROUND."

Coun. CHASE and TAYLOR offered the following:

Ordered, That his Honor the Mayor, upon acceptance by the City of Boston of the land generously donated by Councilor Henry L. Shattuck for playground purposes, name said playground after the donor, and that it be called the "Henry L. Shattuck Playground."

Coun. CHASE—Mr. President, I happen to be well acquainted with the particular area which this new playground in the South End would serve, and I know the children in that district are very badly in need of playground facilities, and I am sure the members of the Council will go along with this order because we all appreciate the very generous donation to the public that the councilor from the Back Bay has made. It has been most gratifying to see that one of our public-spirited men has recognized that great need, and I hope we have more public-spirited men in Boston who will recognize this need.

Coun. SHATTUCK—I appreciate the gentleman's motive, but I hope the order will not pass. There is one thing I feel very clearly about, and that is that I do not want the playground named after myself. I would like, how-

ever, to reserve the right to myself to name it after somebody. Therefore, I hope the gentleman will withdraw the order, and permit it to be referred to the Committee on Rules.

The order was referred to the Committee on Rules.

USE OF LUCY STONE SCHOOLYARD.

Coun. WICKES offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to open up the Lucy Stone schoolyard in Ward 17 to allow the use of same by the young children of the district for roller skating.

Passed under suspension of the rule.

SIDEWALKS ON BRENT STREET.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on both sides of Brent street, between Talbot avenue and Washington street, Ward 17, as a W. P. A. project.

Passed under suspension of the rule.

SIDEWALKS ON WARD 7 STREETS.

Coun. LINEHAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on the following streets in Ward 7, as W. P. A. projects: Telegraph street, Old Harbor street, Thomas park.

Passed under suspension of the rule.

SALE OF ANIMALS FOR VIVISECTION.

Coun. HURLEY and GOODE offered the following:

An Ordinance Prohibiting the Sale of Any Animal for Vivisection Unless Said Sale is Authorized by Commissioner of Police and Requested by Executive Board President, Dean or Manager of Established and Recognized School of Medicine or Anatomy or the Manager or Director of Established and Recognized Hospital Laboratory.

Be it enacted by the City Council of the City of Boston and by the authority invested in same, as follows:

The sale, gift or transportation of any animal for vivisection purposes is hereby prohibited within the jurisdiction of the city of Boston unless said sale is authorized by the commissioner of police who shall have authority to grant such authorization only upon receipt of a formal request, setting forth intended use and imperative need for said animal from executive board, president, dean or manager of established and recognized school of medicine or anatomy located in the commonwealth of Massachusetts and incorporated under the statutes thereof, or from the manager or director of a duly accredited medical laboratory operated within said commonwealth.

Violations and infractions of said ordinance shall be punished by a fine of not more than one hundred dollars ($100) or by imprisonment of not more than thirty (30) days or both.

Referred to the Committee on Ordinances.

BACKSTOP, WILLIAM EUSTIS PLAYGROUND.

Coun. HURLEY offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to arrange for an extension of the height of the present backstop at the William Eustis Playground.

Passed under suspension of the rule.

CONFERENCE ON RISING PRICES.

Coun. TAYLOR offered the following:

Ordered, That the President of the City Council appoint a committee to confer with his Honor the Mayor for the purpose of devising some means to prevent any further increases in the prices of food and other necessaries of life.

Coun. TAYLOR—Something is happening today in Boston and undoubtedly in many other cities of our country which is affecting the pocketbooks of every family in the City of Boston. I need not say here that the entire situation is going to affect our whole economic structure and undoubtedly in the end if allowed to continue will lower our standards of living. You ask any housewife today regarding her purchasing power and she will tell you that it has gone up considerably. The prices of meat and vegetables have gone away up and the price of eggs today is over fifty cents a dozen. I personally hope we do not have a repetition of what took place in the last World War. Today, while many people are earning much more than they did in the years past, nevertheless there are a great many of our people, the average laborer or the white collar worker, who are not receiving any increase in income and, consequently, at the end of the week when they are forced to pay for the necessaries of life, consisting of foodstuffs and clothing, they find that their budget has been increased considerably. Now a condition like that, if allowed to continue, is certainly going to bring chaos to the homes, particularly of the poor. It is hard for me to understand how the recipients of welfare today are able to get even the barest existence in life with the money allotment they receive today with the prices of food and clothing that we have today. It is a serious situation and it must not be allowed to continue and something must be done to stop any further increases in the prices of food and I think that if a committee of this Council would confer with the Mayor of Boston, I am sure that some means can be devised, that some propaganda can be started for the purpose of retarding these increases. The poor of Boston are unable to live with the income they are receiving today with this great increase in prices for foodstuffs. Every home, or any family, small or large, is beginning to feel the pinch at their purse strings. I say that those who are in office must do something to keep these war profiteers from filling up their pockets with gold while the poor of the city must starve and I am sure if a committee were appointed by the President who would get together with his Honor the Mayor, that something could be done to at least start a campaign for the purpose of retarding any further increases in the necessaries of life.

Coun. CAREY—I think the order introduced by the councilor from Ward 12 is a very excellent one and I certainly hope a campaign will be started by somebody that will bring about sufficient pressure to have these commissions in Washington, which are supposed to safeguard the poor people from increases in the cost of living, start. There is a surplus of eggs and milk and butter and meat and the necessaries of life, yet we have had in the last three months an increase in these necessaries that is highly unjustifiable. The councilor spoke about the fact that there has been an increase in the pay envelopes of some. That is the exception and not the rule. As a matter of fact, recently there have been cuts in the pay envelopes of many. This increase in the cost of living cannot be met by the average public and I think the thing has gone far enough when some concerted action should be taken and I hope that no more time will be lost on it.

The order was passed and the President appointed Coun. Taylor, Goode and M. H. Sullivan as said committee.

RESURFACING OF HOWES STREET.

Coun. HUTCHINSON offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface with smooth pavement Howes street, Ward 13.

Passed under suspension of the rule.

DEPOSIT OF ALUMINUM.

Coun. COFFEY offered the following:

Ordered, That his Honor the Mayor be requested to set aside a space in front of City Hall on which aluminum pots and pans may be deposited to assist our National Defense Program.

Passed under suspension of the rule.

EFFECT OF PROPOSED BILL ON TAX RATE.

Coun. COFFEY offered the following:

Ordered, That the Board of Assessors be requested, through his Honor the Mayor, to inform the City Council as to what effect the proposed bill now pending in the Legislature, providing for an 8½ per cent flat rate in the "take" on racing, would have on the tax rate of Boston.

Coun. COFFEY—Mr. President, a few weeks ago the members of the Great and General Court saw fit to have this proportional representation, or so-called P. R., go on the ballot. The members of the City Council which this P. R. will affect passed a resolution opposing this form of P. R. which, of course, we know will be nine councilors or fifteen councilors to be elected at large. In other words, the stooges on Beacon Hill, and I will refer to them from now on as "stooges," and I do intend to attack them at every opportunity I have from now on until I leave this seat here the first of next January in the event I do not run again. But I made a statement here when they passed that bill without a referendum on P. R. that I was going to make it just as disagreeable for them as I could so long as I had a voice anywhere, whether it be here in the Council or on the street corner. We had a resolution adopted here introduced by one of our members and if I recall correctly, and I have a pretty good memory, there were seventeen of us present that day and we all went on roll call, stating we wanted to be left alone by the members of the Legislature and we wanted to be elected as we are elected now, under ward representation instead of having to obtain the contractors' backing and the backing of so-called organizations, and so forth. Now, my belief is that the reason the members of the Legislature voted in favor of P. R. was the fact they were taken out to lunch by an organization which, to my knowledge, has never done anything for the poor of Boston, who have always stepped into politics some way or another so they could keep themselves in the limelight. As a result of getting their bellies filled free, they went back to the Legislature and at the request of this organization voted without giving the voters of Boston the opportunity to say whether they want a Council of nine or fifteen instead of the Council of twenty-two which we now have. I mentioned in a talk here once before about these stooges on Beacon Hill and how they took insult after insult from Leland Bickford who claimed they could be bought for a bag of tea. As a result, they voted this P. R. after a feed which compares to the pound of tea, a pound of tea and the price of a meal. It now looks as though the boys on Beacon Hill are after more than a pound of tea or a meal. Year after year this same thing happens. Some member of the Legislature introduces a bill to increase the "take" at the tracks. Then the committee that the bill goes before reports favorably. Well, that immediately gets the owners of the tracks worked up to a certain extent and the only thing they can do is come to the members of the Senate or the members of the House and try to explain to them the position they are in; that if there is an increase they will have to cut down the personnel or, as was said by Mr. Adams recently before the committee, if an increase to a flat 8½ per cent went through, every track in the state would have to be closed and, of course, you know what the members say to Mr. Adams, Wetmore, or Martin Hays who used to represent the members,—"What can we do about it? If we vote along with you the people back home will think we have been taken care of, that we are probably receiving a few dollars for our vote." But I would like to call to your attention that when those members did vote they seemed to have forgotten the folks back home. Three years ago there was a bill up before the Legislature and the House increased the rate from the present 3 per cent to 7½ per cent. The bill went from the House to the Senate and the Senate decreased it from 7½ to 5 per cent and the bill was then sent back to the House and the House increased it again to 7½ per cent, and it went back to the Senate and the Senate decreased it to 4 per cent and it went back to the House. So that in the course of two long months the bill died between both branches and there was no increase at all for this so-called Old Age Pension Fund they are supposed to be getting from these track owners. Two years ago when I was a member of the House, this same thing happened. An order was introduced by a representative from Malden and this representative had an order in for a flat 7 per cent "take" from all the tracks throughout the Commonwealth. Well, the House passed it up to 7 per cent. It was sent to the Senate and the Senate sent it back at 4 per cent. The House sent it back to the Senate at 7 per cent. Then they appointed a special committee and the two committees from the House and the Senate got together and they agreed on a graduated tax from 3½ per cent to 7½ per cent according to how much business is done at the tracks. Now, we have a bill up there introduced by this same man from Malden who introduces this bill every year, and this bill seems to be for a straight 8½ per cent. Now, that is on the calendar for today and to me this thing smells rotten. Now I have no doubt if the Legislature did pass this bill

today, if they did pass it, for a straight 8½ per cent at their next regular session, somebody, I suppose this same man from Malden again, will bring in another bill for a flat 10 per cent and what I am getting at is, somebody every year manages to bring in a bill so they put the fear into these track operators and as a result the track operators will have to go up to Beacon Hill and see the boys. Yes, I have talked to probably forty-five or fifty people in the last week and everybody who knows politics, and I mean people who work in City Hall or the State House, or affiliated somehow or other with politics, they all know that this is nothing but a stick-up. Now this same man from Malden, who seems to have a grudge on the surface, I don't know how it is underneath, but on the surface he seems to have a grudge with the track officials, and his cry up there, and I heard that for two years, was that he is with the aged. He wants them to get more money from these crooked track officials and still this same man helped to keep the East Boston Relief Station closed for one year. He took it upon his own shoulders to get up and oppose that bill of mine and it was lost in its third reading by one vote and I have always held him accountable for that and he is Gilman from Malden. His cry always is, "Let us take more money," and so far they haven't taken five cents more from these crooked track officials. Now, what will happen up there today I don't know, but I know what happened two years ago, and I want to say now and I hope the Boston newspapers will carry most of the statements I am going to make,—I have heard Senate members and House members accuse each other of trying to stick up track officials. I have heard House members say to Senate members, "You fellows sold us out, you got taken care of; you cut it down to 4 per cent because it is a smaller body of men to be taken care of." I have heard Senate members say "Yes; you people couldn't get in and that is the only reason you sent it over to us with such a large 'take'." Before I get through with them I am going to name some of them on the special commission which is, in my opinion, nothing but a graft commission, and they tell me there are more special commissions in the State House today than in the last ten years combined. Just a word on the Beano bill in the Legislature in the last two months. Every Boston newspaper carried the story that Beano was abolished by the House on a standing vote. That is the trick the House uses,—also the Senate. Then somebody moves reconsideration and one of Revere's biggest racketeers, who has twenty places operating in Massachusetts, spent the entire day at the Legislature and the following day they did an about-face, and nearly every one of them who voted to abolish Beano did an about-face and voted Beano to continue. They have a bill up there today on Beano and they did not allow it to continue until the Revere racketeer spent the entire day and then they had reconsideration and then they voted favoring Beano, whereas the day before they voted to abolish Beano and these are the office holders. They do not live here. That is what burns me up. They have nothing to do with Boston. People from Boston proper voted with us and two years ago the same bill came up on P. R. and it was only favored by a Charlestown ex-councilor who was defeated by the President of the Council and it must have been he never could figure on going back as a ward councilor. With plenty of money behind him, he was the only one who favored it, and I can recall members who got up and said that, "It is a Boston problem,—let them have it. We do not want to have anything to do with it; let them settle their own political affairs in Boston." I would like to ask Elmer Nelson how many of the boys have forced him to put men to work on those tracks. I know men working there from Lenox, Lee, North Adams, and the only way they could get the men off its shoulders was to stagger them and to see they only got three or four days a week, to see if it would be worth their while to make that long trip to get three or four days work. These very members of the Legislature use that threat every year and it is only natural for the officials at the track to give the jobs to these men outside of our county so they will try and keep them quiet and appeased to stop them from increasing their "takes" from the tracks. I suppose no need of asking Elmer Nelson to make a report. They have been after him for some time now, for the past two months, asking him to make a report. Last year on my bill when I asked the Racing Commission to make a report as to the number of local citizens throughout the state who were working at our track, to see if the figures went above the law requirement of 85 per cent, and, of course, you know what happened. The six weeks' racing season at Suffolk Downs was almost over by the time we got a report and the report was that 85½ per cent of Massachusetts men were working at the tracks and the others were outsiders and, of course, they didn't go in and check to find out whether those men did come from Massachusetts or not. They just took their name and if they gave a residence within the Commonwealth, they were covered. Now this year the Attorney-General saw fit to send down an affidavit which he made them fill out and it said on that affidavit that he himself was going to investigate to see if they were on the voting list in Massachusetts within the past two years, but nothing ever happened and that is probably two months ago. It was the first week Suffolk Downs was opened. Well, that is just the story on the boys on Beacon Hill. I do not think they can answer my charges. A few weeks ago when I made the charge Bickford said they sold out for a pound of tea, they never challenged Bickford or went on the air to defend themselves or to introduce a bill asking for an investigation. They invited Bickford and Bickford knocked one of their representatives down with a punch in the jaw. That is the answer he gave them, these same members who come into Boston to tell us what we should have and because they got a feed. So long as they get something for nothing, they will do anything requested so long as they get something for nothing,—as Bickford said, a pound of coffee or, as I said, a meal.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON LICENSES.

Coun. FISH, for the Committee on Licenses, submitted the following:

Report on petition for driveway opening of Crystal Coal and Oil Company, Inc., at 120 Lamartine street (referred June 23)—recommending that leave be granted.

Report accepted; leave granted under usual conditions.

SIDEWALKS, SOUTH FAIRVIEW STREET.

Coun. LYONS offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on South Fairview street, between Robert street and Fallon street, Ward 20, as a W. P. A. project.

Passed under suspension of the rule.

36,400 MOTOR DEATHS IN 1935.

According to the findings of the National Safety Council motor traffic deaths in 1935 totaled 36,400, compared with 1934's record of 36,000.

The only decrease was among school children up to fifteen years of age. Motor vehicle accidents to children have increased much less than those of adults since 1922, when safety education began on a national scale. October, November and December were the reddest months. Two-thirds of the accidents were in places under 10,000 population; more than 40 per cent of the victims pedestrians.

Thirteen states decreased traffic deaths 7 per cent or more: Delaware, Illinois, Kentucky, Massachusetts, Minnesota, Montana, North Dakota, Oregon, Rhode Island, Utah, Vermont, Wyoming and Washington.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.
(STATE SERVICE).

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence. RECEIPTS OF MILK IN BOSTON BY RAIL. STATISTICS FOR YEAR 1937.

Total, 201,115,222 quarts (including 21,533,437 quarts of cream) or 190,884,037 by the Boston & Maine Railroad; 9,304,589 by New York, New Haven & Hartford Railroad; 926,596 by Boston & Albany Railroad.

The said total exceeds that of 1936 by 2,233,863, but is 35,786,309 below the receipts in 1931 which was the highest on record.

The receipts in 1937 of the Boston & Albany Railroad are the lowest on record for that railroad.

The maximum receipts of milk and also of cream in 1937 were in August; the minimum in February.

SEWAGE TREATMENT PLANT CONSTRUCTION ON THE INCREASE.

Owing to the economic conditions prevailing during the past year, there was but a relatively small volume of sewage treatment plant construction. Within recent months, however, there has been a decided impetus to new construction of this type growing out of the Public Works Administration allotments. Nearly 700 cities have received allotments of funds from the P. W. A. for sewerage or sewage treatment, involving an aggregate expenditure of well over $200,000,000.

FOR AIDING BOYS.

In an effort to lend a helping hand to misfit and underprivileged boys and to stem the alarming flow of young men into penal institutions and lives of crime, Big Brother Bureaus are being organized by the police departments of various cities. The International Association of Chiefs of Police urges all police jurisdictions to join the Big Brother League.

NO COST CONTROL FOR REFUSE DISPOSAL.

American cities on the whole may be clean housekeepers, but they don't know how much it is costing them to be clean or whether they are spending too much. Only a few cities are able to report accurately the unit cost of removing garbage and other refuse and of cleaning streets, according to the Public Administration Service of Chicago, Ill., which further reports that at least 90 per cent of the cities in this country have no cost control over this service.

PITTSBURGH'S TRAFFIC SAFETY RECORD.

Pittsburgh has been adjudged the safest city in the United States in 1932, and the second safest in 1933 and 1934 among cities with populations over 500,000. Registrations in the city increased 4.4 per cent, gasoline consumption 7.7 per cent. In 1935, despite a 2.4 per cent decrease in traffic volume, adult fatalities increased 30 per cent, total fatalities 24 per cent, as compared with 1934.

MANY TYPES OF W. P. A. PROJECTS.

The Works Progress Administration has placed in operation a total of more than 300,000 projects. Except for the more pretentious types of construction, these projects have covered almost the whole field of American endeavor in meeting the primary objective of relieving unemployment. *The American City*

CITY CEMETERIES.

The Park Department has charge of twenty cemeteries, containing 212 acres, that are owned by the city. Mount Hope Cemetery is the largest. A number of these cemeteries are no longer available to the public for interments. In 1937 there were 2,075 interments in these cemeteries, or 77 more than in 1936. The interments in Mount Hope Cemetery in 1937 were 71.08 per cent of the total interments as against 74.57 per cent in 1936.

THE NOISE NUISANCE.

That city officials are serious about eliminating noise is noted from studies of new anti-noise ordinances enacted by a growing number of municipalities listed in the "United States Municipal News," bulletin of the American Municipal Association and the United States Conference of Mayors. Among the more important of these cities are Philadelphia, Gary, Ind., Louisville, New York and Boston.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BRIDGE CONSTRUCTION WORK ON VARIOUS BRIDGES.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bridge construction work on various bridges, and giving bond therefor of a surety company approved by the Commissioner in the sum of 100 per cent of the contract to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Bid for Bridge Construction Work on Various Bridges," and left at Room 508, fifth floor, City Hall Annex, before 12 o'clock m., on Thursday, August 14, 1941, with a certified check for one thousand (1,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the bid containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Act so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals should he deem it to be for the best interest of the city so to do.

GEORGE G. HYLAND,
Commissioner of Public Works.

Specifications may be obtained at the office of the Superintendent of Supplies, Room 1001, City Hall Annex. *There will be a charge of fifty cents ($0.50) a set for each set of proposals taken out.* The bidder must leave his proposal, with a certified check for $200, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Both bids to be sealed in envelopes marked "Proposal for Fuel Oil."* The bids will be publicly opened and read at 12 m., at Room 1001, City Hall Annex, on Tuesday, August 12, 1941. The successful bidder must furnish a bond for one half the total estimated amount of the bid with a surety company authorized to do business in Massachusetts, as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

CITY OF BOSTON.

HOSPITAL DEPARTMENT.

TO CONTRACTORS.

The Trustees of the Boston City Hospital invite sealed proposals for furnishing and installing new hot water generators in Laundry Building, Boston City Hospital, in accordance with specifications as set forth in Design "B". A bond in the sum of 45 per cent of the entire contract price will be required for the faithful performance of the contract. Proposal forms may be obtained at the office of the Superintendent of the Boston City Hospital, 818 Harrison avenue, Boston, on or after Tuesday, August 5, 1941. Said proposals are to be addressed "Proposal for Furnishing and Installing New Hot Water Generators in Laundry Building, Boston City Hospital, Design 'B'." Proposals must be signed by the bidder and left before 12 o'clock noon of Thursday, August 14, 1941, at the office of the Superintendent of the Boston City Hospital, at which time and place proposals will be publicly opened and read. Each proposal must be accompanied by a certified check for $500, payable to the city if the proposal is not carried out. Bids must be made in duplicate, the one with the check to be left as above, the other to be filed with the City Auditor, City Hall, Boston, previous to the time named for opening the bids. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under this contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application to the Superintendent of the Boston City Hospital. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and sufficient proof of compliance with the foregoing stipulation will be required before the award of said contract. The Trustees reserve the right to reject any or all bids if it be for the public interest so to do.

TRUSTEES OF THE BOSTON CITY HOSPITAL,
CARL DREYFUS.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, AUGUST 9, 1941. NO. 32

BOSTON BEING PROVIDED WITH NEW RUBBISH CONTAINER, DESIGNED BY PUBLIC WORKS COMMISSIONER GEORGE G. HYLAND AND MANUFACTURED BY CITY EMPLOYEES OF ALBANY STREET YARDS, THAT IS EVOKING MUCH FAVORABLE COMMENT FROM PUBLIC BECAUSE OF LOW COST, NEATNESS OF DESIGN AND PRACTICABILITY—WILL TAKE PLACE OF OLD RECEPTACLES, BOTH WIRE AND METAL, THAT HAVE BEEN IN USE.

In the interest of greater cleanliness in Boston streets, Public Works Commissioner George G. Hyland has designed and has had constructed a new waste paper container that is meeting with instant favor among the citizens and business interests as they are being placed in various sections.

The container is much less an eyesore to the public than have been the older ones which they are replacing and far superior to the baskets which heretofore have adorned the streets. The great advantage to the city, however, lies in the expense of manufacture. Where other containers have cost the city as much as $20 each to purchase, these are being made by the city employees of the Albany Street Yards of the Public Works Department at a cost of only $4 each.

To date, more than 400 of these containers have been placed in the downtown areas and as rapidly as they can be manufactured and made ready they are being set in place.

These containers, aside from their artistic attractiveness and their blending into the surroundings along the streets, have the full efficiency of the older containers and at the same time occupy much less sidewalk space.

Distribution of the first of the new containers is being made this week in the downtown Washington street area, where they are creating much favorable comment.

By making the containers instead of buying them from private concerns the department is saving at least 50 per cent of the usual cost, Mr. Hyland states.

In the past the city has paid as much as $20 apiece for rubbish containers with swinging tops, such as one could see along Tremont street opposite Boston Common and in other localities. The city also invested $8 apiece in twenty-five wire baskets which were complained against to the effect that they did not hide rubbish from public view.

The new containers have a curved top, which Mr. Hyland feels will be particularly convenient for passers-by. Each receptacle has a cloth bag inside. These bags, which facilitate removal of trash, are also used in the type with the swinging top, and are made by city employees.

When the containers have all been placed, it is felt that this will go far toward providing a rubbish receptacle so attractive Bostonians will do more to help keep the city's streets clean.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the shipteeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon August 5 the Acting Mayor approved contracts with the second lowest bidders as indicated for repairing of boiler brickwork in various schools as follows:

Martin J. Kelly, District No. 1, $2,970; Joseph B. Doyle, Districts No. 2, No. 3 and No. 6, $8,595; Rossano Construction Company, Districts No. 4, No. 5 and No. 7, $4,408.

Bids were as follows:

District No. 1.—D. Antonellis, $1,880; Rossano Construction Company, $3,726; Martin J. Kelly, $2,970; Joseph B. Doyle, $3,025; J. S. Burke, $3,650, no specifications filed with bid.

District No. 2.—D. Antonellis, $950; Rossano Construction Company, $1,487; Martin J. Kelly, $1,910; Joseph B. Doyle, $1,435.

District No. 3.—D. Antonellis, $1,575; Rossano Construction Company, $3,182; Martin J. Kelly, $2,390; Joseph B. Doyle, $2,190.

District No. 4.—D. Antonellis, $2,226; Rossano Construction Company, $2,602; Martin J. Kelly, $2,880; Joseph B. Doyle, $2,880.

District No. 5.—D. Antonellis, $750; Rossano Construction Company, $909; Martin J. Kelly, $1,079; Joseph B. Doyle, $1,110.

District No. 6.—D. Antonellis, $2,876; Rossano Construction Company, $5,848; Martin J. Kelly, $5,545; Joseph B. Doyle, $4,870.

District No. 7.—D. Antonellis, $720; Rossano Construction Company, $897; Martin J. Kelly, $980; Joseph B. Doyle, $900.

INSTITUTIONS DEPARTMENT.

Upon July 16 the Mayor approved a contract with Joseph A. Singarella for alterations and additions to bakery, Long Island Hospital. Bids were as follows:

Gove Construction Company, $9,566; Joseph A. Singarella, $9,935; Philip Conners, $10,640; P. J. Cantwell & Son, $11,621; Baker & Co., $13,000.

The Gove Construction Company named above, failed to submit sub-bids on certain items as required under the sub-contractors' law. Advice by the Law Department was that in view of the failure of the Gove Construction Company to file the sub-bids referred to, their sub-bid could not be regarded as the bid of an eligible bidder. Therefore the contract was awarded to Joseph A. Singarella, the lowest eligible bidder, in the sum of $9,935.

PUBLIC WORKS DEPARTMENT.

Upon July 16 the Mayor approved a contract with the Prompt Contractors, Inc., the lowest bidder, for sewerage works in Clover street, Dorchester, at an estimated cost of $2,233.25. The work contemplated is to be completed within sixty days after the contract is approved by the Mayor. The following bids were received July 8:

The Prompt Contractors, Inc., $2,-233.25; Baker & Co., $2,653.50; Keystone Engineering and Contracting Company, $3,462.50; L. P. Federico & Son, Inc., $3,475.70.

Upon July 22 the Mayor approved a contract with contractors as indicated in the accompanying letter for furnishing hay, grain and straw, etc.:

BOSTON, June 27, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— Attached please find list of bids on proposals for furnishing hay, grain and straw, for delivery to the various city departments during the month of July, 1941, which were publicly opened and read at this office under date of June 23.

I would respectfully request that permission be granted me to award to the lowest bidders, as indicated on the attached sheet, with the following explanation in regard to the bid on Item No. 15 calling for seven tons Beacon Complete Starter Mash. The Curley Grain and Fuel Company submitted a price of $52.50 per ton, but immediately after the prices were publicly opened and read at this office they telephoned — and later confirmed by letter, copy of which I am attaching — that the price of $52.50 per ton quoted on Item No. 15 was an error and that the correct price should be $56.50 per ton.

I have accepted this statement as an honest expression of fact, as the Curley Grain and Fuel Company has been doing business here for many years, and their record regarding prices and delivery has been excellent.

In view of this fact, I would respectfully request that permission be granted me to award Item No. 15 to the second lowest bidder shown on the attached tabulation, the George H. Parker Grain Company, at a price of $55.80 per ton without further advertising.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

Bids were as follows:

Item 1. 40,000 Pounds Hay, Per Hundredweight.— William Culkeen & Sons Company, $1.25; John J. White Company, $1.175.*

Item 2. 10,000 Pounds Oats, Per Hundredweight.— Curley Grain and Fuel Company, $1.6975; John J. White Company, $1.68..

Item 3. 1,000 Pounds Straw, Per Hundredweight.— Curley Grain and Fuel Company, $1.45; John J. White Company, $1.35.*

* Contract awarded.

Upon July 24 the Mayor approved a contract with contractors as indicated in the accompanying letter for furnishing coal to the Welfare and Soldiers' Relief Departments:

BOSTON, July 17, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Due to the uncertain conditions of supply and price of fuel, a conference was held at your office under date of July 10 for the purpose of discussing contracts for the 1941-1942 season for furnishing chestnut coal and range oil to the Overseers of the Public Welfare and the Soldiers' Relief Department of the City of Boston.

It was the consensus of opinion of this conference that inasmuch as the contractors who supplied this coal and range oil during the 1940-1941 heating season fulfilled their obligations in every respect, award of contracts for the 1941-1942 season be awarded to these same contractors without public advertisement as the best possible protection for the city under the present existing conditions.

In view of this conclusion, I would respectfully request that permission be granted me to award contracts without public advertisement, for the quantities and at the prices shown on the attached sheet, to the various contractors indicated.

I am also attaching report from the Perry Barker Engineering Company, which is acting in the capacity of expert for the Supply Department in this matter, and also a detailed tabulation showing the award on both coal and range oil to the various contractors.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors, commercial houses, etc., for labor, supplies, etc. Communications from the heads of the several departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, August 4, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR, — I respectfully request the approval of your Honor to the awarding of a contract, without advertising, to the F. S. Payne Company, 75 Richdale avenue, Cambridge, Mass., for the installation of a passenger elevator in our building here at 26 Norman street. The reason for this request is as follows:

The passenger elevator was installed when this building was constructed in 1904 and is the type that was used solely for the school children attending this building when it was the Washington Intermediate School. Because of its constant use by our own force and that of the W. P. A. the elevator is in what I deem an unsafe condition. We have had many inspections of it. It is frequently out of order and already we have spent considerable for its upkeep.

I have requested three of the larger elevator concerns doing business in and around Boston to furnish a sealed estimate for the installation of a new elevator based on detailed specifications delivered to them. The bids were as follows:

F. S. Payne Company, $6,395; Otis Elevator Company, $7,800; Westinghouse Elevator Company, no bid.

In my opinion the awarding of a contract in the sum of $6,395 to the F. S. Payne Company is a fair one and no further benefit would result to the city from advertising these specifications. The F. S. Payne Company will proceed with the installation of this elevator as soon as your Honor's approval is received by this department.

Respectfully yours,

JAMES J. MAHAR,
Superintendent of Construction.

SUPPLY DEPARTMENT.

BOSTON, July 2, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the United States Slicing Machine Company for furnishing the following:

One United States slicing machine with stand, Model 15CD, $945; one United Sates slicing machine, Model CC, $298—$1,243. Less allowance on two old machines, $130—$1,113. Less 15 per cent special discount, $166.95. Total, $946.05.

The chief chef at the City Hospital, Mr. R. E. Smith, has had the slicing machines manufactured by the United States Slicing Machine Company in operation at the City Hospital for a considerable period of time, and informs this department that this make of machine is the best on the market for his particular use.

The approximate amount of the contract will be $946.05, less a 2 per cent cash discount for payment in ten days.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

—

BOSTON, July 2, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— On June 13, 1941, informal quotations were opened at this office for furnishing plumbing and steamfitting supplies for W. P. A. project No. 22102 at the Boston City Hospital. The following bids were received:

Marshall-Horner Company, $1,924.64; McAuliffe & Burke Company, $1,927.06.

Inasmuch as the quotations received were over one thousand dollars, this department advertised in the *City Record* for proposals to be publicly opened and read on June 23. In the publicly opened bid there was but one proposal submitted, that of the Walworth Manufacturing Company, which quoted a price of $2,054.10, less 2 per cent cash discount for payment in ten days.

In view of the fact that the price received through public advertisement is approximately $130 higher than that received through informal quotations, permission is respectfully requested to reject the publicly opened bid and award a contract, without further advertising, to the Marshall-Horner Company for furnishing plumbing and steamfitting supplies to the Boston City Hospital at a price of $1,924.64, less a 1 per cent cash discount on brass pipe and a 2 per cent cash discount on the balance of the material, for payment in ten days.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

—

BOSTON, July 2, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— On June 11, 1941, informal quotations were opened in this office for furnishing to the Sanatorium Division of the Hospital Department one Ideal "Bulldog," or equal, tractor for immediate use. Although seven concerns were notified, bids were received from but three companies, and, after supplementary quotations, the bids now stand as follows:

Ideal Mower Sales and Service, Ideal "Bulldog" tractor, Ford V-9, 60 H. P., $1,200; 2 per cent, ten days; Worthington Mower Company, Worthington Park Ranger, six cylinder, 73 H. P., $1,200; 2 per cent, thirty days; Bowers Motor Sales, Fordson Fergerson tractor, four cylinder, 23 H. P., $1,540; net.

Practical demonstrations of the various tractors upon which bids were submitted have convinced the authorities of the Sanatorium Division and this department that the Worthington Park Ranger is best suited to the needs of the Sanatorium, due to its better performance and because of the fact that this tractor is a complete unit, whereas the Ideal Mower Sales and Service is unable to furnish the complete unit upon which its bid of June 11 was based.

Due to the demands of the national defense program, the prices quoted and the date of delivery cannot be guaranteed for any length of time; for this reason your permission is respectfully requested to award a contract without public advertisement to the Worthington Mower Company for furnishing to the Sanatorium Division one Worthington Park Ranger tractor at a price of $1,200, less a cash discount of two per cent for payment in thirty days.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

—

BOSTON, July 16, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract without public advertisement to the Hersey Manufacturing Company for delivering to the the Water Service Meter Branch, 710 Albany street, two 8-inch Detector meters for use at the Revere Sugar Refinery, at a price of $760 each, less a cash discount for payment in ten days of 2 per cent.

The Water Service has used the Detector meters manufactured by the Hersey

Manufacturing Company for a considerable number of years, and the chief engineer of the Water Service has informed this department that from years of experience with this particular meter he has found that it gives absolutely satisfactory performance.

The total amount of the contract will be $1,520, less a 2 per cent cash discount for payment in ten days.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

—

BOSTON, July 16, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of May 6, 1941, your Honor approved a request for permission to award a contract to the Ultimite Products, Inc., the lowest bidder, calling for the delivery of approximately 15,700 pre-cast concrete blocks, 11¾ by 11¾ by 5 inches, at a price of 26 cents each, and approximately 2,200 pre-cast concrete blocks, 11¾ by 5¾ by 5 inches at 15 cents each, less a cash discount for payment in ten days of 2 per cent.

Subsequent to the receipt of this approval at this office, the Public Works Commissioner notified us that he did not need the amount of blocks indicated on the original request for permission to award and requested that the amounts be changed to 5,000 blocks 11¾ by 11¾ by 5 inches and 700 blocks 11¾ by 5¾ by 5 inches "Ultimite" pre-cast granite-faced concrete blocks with a top wearing surface of 1 inch white cement.

The original proposal contained an alternate bid calling for "Ultimite" pre-cast granite-faced concrete blocks, 11¾ by 11¾ by 4 inches with top wearing surface of 1 inch white cement, and 2,200 "Ultimite" pre-cast granite-faced concrete blocks, 11¾ by 5¾ by 4 inches. The price on the 11¾ by 11¾ by 4 inches was 30 cents each, and the price on the 11¾ by 5¾ by 4 inches was 17 cents each.

The Ultimite Products, Inc., have agreed to furnish the 5,000 blocks, 11¾ by 11¾ by 5 inches, with top wearing surface of 1 inch white cement, and the 700 "Ultimite" pre-cast granite-faced concrete blocks, 11¾ by 5¾ by 5 inches, at the same price quoted for the pre-cast concrete blocks, namely, 26 cents each on the larger size and 15 cents each on the smaller size.

In view of this request from the Public Works Commissioner, I would request that permission be granted me to award this revised contract without further advertisement to the Ultimite Products, Inc., at the prices indicated. The total amount of the contract will be $1,400, less a cash discount of 2 per cent for payment in ten days.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

BOSTON, July 24, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— Permission is respectfully requested to award a contract without public advertisement to the Perry Barker Engineering Company for furnishing to the City of Boston, fuel engineering services consisting of preparation and revision of fuel specifications in the City of Boston contracts, when requested; the examination of fuel proposals and rendering of reports relative to the comparative basis of proposals submitted; and the making of all necessary computations and certifications of adjustments relative to the prices to be paid under the contracts in accordance with the terms and specifications thereof.

This contract is for a period from July 1, 1941, to and including December 31, 1941, with the privilege of extending the term of this contract, with your approval, to March 1, 1942.

The Perry Barker Engineering Company has performed for the Supply Department services of this character for a considerable number of years, and has performed the duties requested of it by the city in a manner satisfactory in every way to this department.

The amount of this contract is approximately $1,800. This request for permission to award will supersede one signed by your Honor under date of July 7, 1941.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

—

BOSTON, July 31, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— Bids were opened in this office under date of July 11, 1941, on proposals for furnishing structural steel, according to specifications and plans, for the Public Buildings Department. The proposals called for a price for the material and also contained the following request: "Contractor will submit supplement bid including the cost of erection."

I am attaching copy of the bids received, which shows that only one bidder, the West End Iron Works, submitted a bid containing cost of material and erection, viz., $5,160.40.

In conference with the Superintendent of Public Buildings, he informed me that owing to the scarcity of W. P. A. labor suitable for the erection of this material, he preferred a contract providing for both erection and furnishing of material. I have secured additional informal bids from the four original bidders shown on the attached sheet for the total cost of material and erection, resulting in the following:

Progressive Iron Works, Inc., $4,592.92; Waghorne-Brown Company, $4,437; Groisser & Shlager Iron Works, $4,705; West End Iron Works, $5,160.40.

In view of the information conveyed above, I would respectfully request that permission be granted me to award a contract without further public advertisement for delivery of all of the structural steel indicated in the specifications and the erection of same to the Waghorne-Brown Company, the lowest bidder, at a price of $4,437.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

TREASURY DEPARTMENT.

BOSTON, July 5, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

SIR,— Under the provisions of section 30 of the City Charter, I respectfully request your permission to award, without advertising, to the Vose-Swain Engraving Company, Boston, Mass., the work necessary in connection with the preparation of 5,680 bonds. This concern is in possession of the engraved plates used by our office.

No purpose will be served by advertising. The total cost per bond is 40 cents; the entire cost will be $2,272.

Very truly yours,

JAMES J. MCCARTHY,
City Treasurer.

FIRE DEPARTMENT ORDERS.

General Order No. 33.

I. John H. Farrell.

It is with deep regret that the Fire Commissioner announces the death, on July 25, 1941, of Ladderman John H. Farrell of Ladder Company 14. Ladderman Farrell was appointed to the department on March 16, 1928.

The funeral was held from his late residence, 45 Mapleton street, Brighton, at 8 a. m., Monday, July 28, 1941, followed by services at St. Columbkille's Church, 325 Market street, at 9 a. m.

The Acting Chief of Department detailed members of Military Drill Companies No. 1 and No. 2 to act as a funeral escort, and members of Ladder Company 14 were excused in order to attend the funeral.

II. Retirements.

The following retirement, which will take effect at 8 a. m., Wednesday, July 30, 1941, is hereby announced:

INTERSTATE MUNICIPAL COOPERATION.

At a recent meeting in New York City a new type of interstate municipal cooperation was launched by officials of cities in New York, New Jersey, and Pennsylvania. The plan is based on direct cooperation among officials of a region on pressing problems of local government.

CITY OF BOSTON.

BOSTON TRAFFIC COMMISSION.

CHANGES IN TRAFFIC REGULATIONS.

Voted, That the Revised Traffic Rules and Regulations of the City of Boston are amended as follows, effective August 11, 1941:

Section 6, Part 1, is amended by adding after the numeral 20 in the first phrase "20A" and by striking out in the first phrase "section 35" and substituting therefor "sections 35 and 36", so that it will read as follows:

(1.) Sections 8, 9, 13, 14, 16, 17, 18, 20, 20A, 21 and 22 relating to parking, and sections 35 and 36 concerning turning, shall be effective only during such time as official signs are erected and maintained in each block designating the provisions of such sections.

Section 8, Part 2, is amended by striking out the title "BOSTON (DOWNTOWN)", which appears immediately after the preamble and by substituting therefor "BOSTON PROPER."

Section 8, Part 2, is amended by adding the following:

Huntington Avenue, Roxbury.
North side, from a point six hundred (600) feet east of Riverway to Riverway, 4 p. m. to 6 p. m.

Mt. Vernon Street, Boston Proper.
North side, from Cedar Lane way to Charles street, twenty-four hours.

Section 9 is amended by striking out from the first phrase of the preamble "8A,".

Section 9 is amended by adding the following:

Centre Street, West Roxbury.
North side, from Church street to West Roxbury Parkway.
South side, from South street to West Roxbury Parkway.

Section 13A is amended by changing the number of the section to Section 14 and by striking out from the first phrase of the preamble "8A,".

Amended by striking out the following section:

Section 15. Commercial Vehicles May Back to Curb or Edge of Roadway.

Subject to the provisions of sections 7, 8, 16, 17 and 19, commercial vehicles may be parked with both rear wheels to the curb or edge of the roadway, or with one rear wheel to the curb or edge of the roadway and headed in the direction of traffic, while loading and unloading materials, provided such parking leaves a clear and unobstructed lane at least ten (10) feet wide for the passage of traffic.

Amended by adding the following section:

Section 15. Commercial Vehicles May Back to Curb or Edge of Roadway Except in Specified Places.

Subject to the provisions of sections 7, 8, 16, 17 and 19, and except in the places specified below, commercial vehicles may be parked with both rear wheels to the curb or edge of the roadway, or with one rear wheel to the curb or edge of the roadway and headed in the direction of traffic, while loading or unloading materials, provided such parking leaves a clear and unobstructed lane at least ten (10) feet wide for the passage of traffic:

Northern Avenue, City Proper.
South side, from Atlantic avenue to the Northern Avenue Bridge over Fort Point Channel.

Section 15 is further amended by adding to the first phrase of the preamble immediately after the number 8, "11.".

Section 19A is amended by striking out "Charles Street, Downtown Boston:" and by substituting therefor "Charles Street, Boston Proper:".

Section 24, Part 1, is amended by striking out the title "BOSTON (DOWNTOWN)", which appears immediately after the preamble and by substituting therefor "BOSTON PROPER."

Section 24, Part 1, is amended by adding the following:

PROPOSAL FOR REPAIRS TO STEAMER "STEPHEN O'MEARA."

The Commissioner of Institutions of the City of Boston invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairs to the steamer "Stephen O'Meara." A bond will be required of a surety company approved by the Commissioner in the sum of 100 per cent of the contract price to secure the faithful performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 809, City Hall Annex, August 11, 1941. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Repairs to Steamer 'Stephen O'Meara'." and left at Room 809, City Hall Annex, before 12 m. on Wednesday, August 20, 1941, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance, is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for the opening of bids. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioner reserves the right to reject any or all proposals or to award the contract as he deems for the best interests of the city.

HUGH J. CAMPBELL,
(Aug. 9.) *Commissioner.*

PROPOSALS FOR ROOFING.

The Sheriff of Suffolk County invites sealed proposals for roofing at Charles Street Jail. Forms of proposals may be obtained at the office of the Sheriff of Suffolk County. Each proposal must be signed by the bidder, placed in an envelope, properly sealed, and marked "Proposal for Roofing at the Charles Street Jail," and left at the office of the Sheriff, Charles Street Jail, before 2 p. m., Tuesday, August 19, 1941, accompanied by cash or certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the County of Suffolk in the sum of $250, to become and be the property of the County of Suffolk as liquidated damages, if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other without cash, certified check or certificate of deposit to be filed with the County Auditor, City Hall, Boston, before the time stated above for the opening of proposals.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Sheriff of Suffolk County, 215 Charles street, Boston. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract.

Specifications may be obtained at the office of the Sheriff of Suffolk County, 215 Charles street, Boston. All specifications must be returned in good condition to said office at the time of the filing of bids.

Specifications will be ready for distribution, Monday, August 11, 1941.

A bond of a surety company, approved by the Sheriff, in the full amount of the contract, to secure the due performance of the contract and the full protection of the county, will be required. The Sheriff reserves the right to reject any and all bids if it be in the public interest so to do.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, AUGUST 16, 1941. No. 33

DEFENSE AND IMPROVED BUSINESS CONDITIONS HAVE TAKEN 5,112 FROM CITY'S WELFARE ROLLS IN PAST YEAR, ACCORDING TO THE STATISTICAL TABLE ISSUED BY THE OVERSEERS FOR THE WEEK ENDING AUGUST 2 — THERE ARE STILL, HOWEVER, 10,675 ENGAGED IN W. P. A. WORK — 137 NEW CASES ADDED TO ROLLS DURING THE WEEK BECAUSE OF FREEZING OF W. P. A. ROLLS SINCE LAST CUT IN APPROPRIATIONS IN JULY.

The sharp drop in W. P. A employment during the past few weeks is showing itself in the slight jump in the Welfare Department rolls for the week ending August 2, despite the demands that have been made for defense workers. Despite this fact, however, the situation is far better today than at the corresponding time last year, 5,112 less on the rolls than there were last year at this time.

During the past week there were 551 cases added to the load the department has been carrying, with a total of 414 dropped, leaving a net increase in the rolls of 137 cases. This makes the number of cases active this week 29,092 as against 28,955 last week and 34,204 for the same period last year. Boston residents on W. P. A. work at present number 10,675.

Financially there was expended the sum of $428,151.94, with $461,090.08 for the corresponding period of last year.

IV. Chapter 288, Acts of 1941.

Chapter 288 of the Acts of 1941, entitled, "An Act Penalizing the Failure to File Certain Certificates of Registration and to Pay Certain Fees in Connection with the Storing, Manufacturing and Selling of Certain Explosives and Inflammable Materials," is quoted below for the information of the department (this act becomes effective August 19, 1941):

"An Act Penalizing the Failure to File Certain Certificates of Registration and to Pay Certain Fees in Connection with the Storing, Manufacturing and Selling of Certain Explosives and Inflammable Materials.

Be it enacted, etc., as follows:

Section sixteen of chapter one hundred and forty-eight of the General Laws, as appearing in the Tercentenary Edition, is hereby amended by inserting after the word "thirteen" in the fifth line the words:—, or whoever, not being exempt from the provisions of section thirteen relating to the filing of a certificate of registration, fails to file said certificate and to pay such fee as may be established under section thirteen,— so as to read as follows: — *Section 16.* Whoever keeps, stores, uses, manufactures, sells, handles or otherwise disposes of any of the articles mentioned in section nine, in violation of section twelve or thirteen or of any regulation, ordinance or by-law made under section nine, or whoever violates any regulation made under section thirteen, or whoever, not being exempt from the provisions of section thirteen relating to the filing of a certificate of registration, fails to file said certificate and to pay such fee as may be established under section thirteen, shall, except as provided in sections fifteen and thirty-five and in section one hundred and two A of chapter two hundred and sixty-six, be punished by a fine of not more than one hundred dollars or by imprisonment for not more than one month, or both."

[*Approved May 19, 1941.*

V. Commendation.

Auto Repairer, Battery and Ignition Man Joseph F. Teahan of the Maintenance Division is hereby commended for extinguishing a fire in an automobile truck opposite 124 Kneeland street, still alarm, 11.25 a. m., August 1, 1941. Ignition Man Teahan was returning to the Maintenance Division from a repair job at the time and immediately obtained an extinguisher from High Pressure Station No. 1, and extinguished the fire, then disconnected the battery cable and shut off gasoline supply pipe to motor, which became ruptured. By his prompt action and experience with motor vehicles he prevented serious damage to the auto truck and possible damage to other vehicles, parked near the scene, from escaping gasoline.

By order of Fire Commissioner William Arthur Reilly.

Samuel J. Pope,
Chief of Department.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, for a trial period of sixty (60) days, the Revised Traffic Rules and Regulations of the City of Boston are amended as follows, effective August 11, 1941:

EXPANSION OF FREE MILK PROGRAM.

The following was received:

City of Boston,
Office of the Mayor, August 4, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Secretary of the School Committee of the City of Boston relative to your order of June 23, 1941, concerning the expansion of the present free milk program to include the distribution of milk during the summer months to school children in all playgrounds of the City of Boston.

Respectfully,
WILLIAM J. GALVIN, Acting Mayor.

—

City of Boston,
School Committee, July 29, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—At a meeting of the City Council on June 23 an order was passed requesting your Honor, through the School Committee and the Surplus Commodities Division, to expand the present free milk program to include the distribution of milk during the summer months to school children in all playgrounds of the City of Boston.

The School Committee would respectfully report that the Assistant Superintendent in charge of school luncheons received a letter from Mr. John C. Stalker, Director of Commodities Distribution, in answer to an inquiry from Mr. Gillis, stating that at the present time the division was unable to help in providing penny milk for the Boston playgrounds during the summer of 1941. In case there were any change in the present regulations and provisions, Mr. Stalker agreed to notify Mr. Gillis without delay. No word has been received and the School Committee consequently understands that it will not be possible to provide penny milk to the playground children this summer.

Respectfully yours,
ELLEN M. CRONIN, Secretary.

Placed on file.

CLOSING OF PRINCETON STREET.

The following was received:

City of Boston,
Office of the Mayor, August 4, 1941.

To the City Council.

Gentlemen.—I transmit herewith communication from the Traffic Commissioner relative to your order of July 14, 1941, concerning the closing of Princeton street, from Shelby street to Eagle square, Ward 1, to vehicular traffic in order that this area may be used as a play space for children of the district.

Respectfully,
WILLIAM J. GALVIN, Acting Mayor.

—

City of Boston,
Traffic Commission, July 28, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated July 14, 1941, which reads as follows:

"Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to close Princeton street, from Shelby street to Eagle square, Ward 1, to vehicular traffic in order that this area may be used as a play space for children of the district."

In accordance with the provisions of chapter 220 of the Acts of 1938, the initiative in setting aside streets for play purposes is invested in the School Committee and all requests of this kind should be addressed to it.

Respectfully yours,
WILLIAM P. HICKEY, Commissioner.

Placed on file.

COMMITTEE ON PUBLIC SAFETY.

The following was received:

City of Boston,
Office of the Mayor, July 25, 1941.

To the City Council.

Gentlemen,—The committee appointed by me to plan and correlate the resources and agencies of the community for the defense of life and property in the event that existing hostilities should spread to our shores, has established headquarters at 9 Park street, in property under the jurisdiction of the Custodian of Foreclosed Real Estate.

In the conduct of its activities it will be necessary to expend money for clerical assistance, stationery, postage, and other office requirements.

I submit herewith an order providing for the appropriation of the nominal sum of five thousand dollars, to be used by the committee as the need requires.

I respectfully recommend the adoption of this order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That the sum of five thousand dollars ($5,000) be, and the same hereby is, appropriated, to be expended under the direction of the Mayor by the Committee on Public Safety in the prosecution of its duties, said sum to be charged to the Contingent Fund.

Referred to Executive Committee.

EXECUTIVE COMMITTEE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) appropriating $5,000 to be expended under direction of Mayor by Committee on Public Safety—that same ought to pass.

The order was passed, yeas 18, nays 0.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. RUSSO, for the Committee on Public Lands, submitted the following:

Report on message of Mayor and order (referred July 21) recommending sale of land at Columbus avenue and Ritchie street—recommending that same ought to pass.

Report accepted; and the order was given its first reading and passage, yeas 18, nays 0.

The order will be given its second reading and passage in not less than fourteen days.

REPORT OF COMMITTEE ON LICENSES.

Coun. LYONS, for the Committee on Licenses, submitted the following:

Report on petitions for driveway openings, viz.:

Massachusetts Hospital Life Insurance Company (referred July 14), at 43-65 South street; Alvin C. Brousseau (referred today), at 1151 Washington street, Dorchester—that licenses be granted under usual conditions.

Report accepted; licenses granted under usual conditions.

REPORT OF COMMITTEE ON ORDINANCES.

Coun. LYONS, for the Committee on Ordinances, submitted the following:

1. Report on message of Mayor and ordinance (referred June 30) *re* Foreclosed Real Estate Division—that same ought to pass.

Report accepted; said ordinance passed.

2. Report on ordinance (submitted July 21) prohibiting sale of animals for vivisection except under certain conditions—that same ought to pass.

The report was accepted, and the question came on the passage of the ordinance.

Coun. SHATTUCK—Mr. President, I question whether the City Council has any authority under the charter to enact this ordinance. Unless we have the authority under the charter we should not pass the ordinance at this time. I therefore move the matter be referred to the Law Departmnt for an opinion.

The motion was not carried on a voice vote. Coun. SHATTUCK asked for a roll call.

Coun. LINEHAN—Mr. President, is it proper to ask a question at this time of the committee as to whether or not this has been looked into by the Law Department?

President GALVIN—The motion is now on reference to the Law Department.

Coun. LINEHAN—Has it already been requested of them by the committee?

President GALVIN—So far as the Chair knows, no.

The roll was called on the motion to refer to the Law Department, yeas 8, nays 9, and the motion was lost, viz.:

Yeas—Coun. Carey, Chase, Gottlieb, Linehan, Scannell, Shattuck, D. F. Sullivan, Taylor—8.

Nays—Coun. Englert, Galvin, Hurley, Hutchinson, Kelley, Lyons, Russo, M. H. Sullivan, Wickes—9.

The ordinance was adopted. Coun. SHATTUCK doubted the vote and asked for a roll call.

The roll was called, and the ordinance was passed, yeas 14, nays 3, viz.:

Yeas—Coun. Chase, Englert, Galvin, Gottlieb, Hurley, Hutchinson, Kelly, Lyons, Russo, Scannell, D. F. Sullivan, M. H. Sullivan, Taylor, Wickes—14.

Nays—Coun. Carey, Linehan, Shattuck—3.

SIDEWALKS ON MT. VERNON STREET.

Coun. LINEHAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on both sides of Mt. Vernon street, Ward 7, as a W. P. A. project.

Passed under suspension of the rule.

RESIDENTS IN OLD COLONY PROJECT.

Coun. LINEHAN offered the following:

Ordered, That the Boston Housing Authority be requested, through his Honor the Mayor, to contact the Federal Works Administration in regard to the Old Colony project which is managed by the Boston Housing Authority so that in the future all defense workers living in Boston will be given the right to apply for apartments in said Old Colony project.

Coun. LINEHAN—Mr. President, some five months ago we had the chairman of the Boston Housing Authority address us in executive session and during his address or his statement he mentioned the fact that defense workers living fifteen miles outside of Boston needed at least a thousand apartments and as a result of that need for defense workers the lower income group project was sold to the Federal authorities to be used for defense workers. Now at that time I doubted the figure of one thousand apartments being needed. That was more than five months ago and about a week ago I checked up with the people in charge of the Old Colony project in my district and found that they had less than 300 families installed there. After contacting the Fore River Shipyards, the Arsenal and the Navy Yard, it took them five months to get 300 families to occupy that project. Now referring for a moment to that project. When the chairman was before us he said that the City of Boston was to get a 15 per cent service charge and when he said that he meant 15 per cent of the income of the rents received. We have had five months go by where the City of Boston is losing the 15 per cent of income that would have come in from those vacant apartments and therefore the city has a vital interest in this particular project. Now, I went along at that time due to the argument of national defense. I read a letter a short while ago in the paper, about two months ago, from the one in charge of the defense workers projects, and it was addressed to the Fore River Shipyard Company, that is, the Bethlehem Shipbuilding Company, and as a result of a not too satisfactory answer of the Boston Housing Authority they were barred from applying any more for apartments. That is, they didn't want to have anything more to do with the apartments in this Old Colony project. At that time the limit was 15 miles outside of Boston from which a person could come in there if he was a defense worker. That is, anybody living in Boston was barred from the Old Colony project. That would have been all well and good if they were able to fill it up, but experience has taught them in five months that they are only able to get 300 families or less after all kinds of propaganda to get them in,—giving out applications to school children, and so forth. Now it seems silly to me to have kept about 500-odd apartments over there vacant when we could fill them up with citizens of the City of Boston. Now I am going to bring in the Old Harbor Village. Unfortunately, or fortunately, some people who went into the Old Harbor Village because of their low income since then, unfortunately or fortunately, have thrown aside their jobs they had for years, and as a result of bigger money have taken jobs in the defense industry. How long they will last is problematical. What is going to happen after the defense work is over, I don't know. I know there will be a lot of unemployment and a lot of them in the Old Colony project might be thrown onto the taxpayers of the City of Boston. But I know this, that many of the families now living in Old Harbor Village have been told to get out and are going to be told to get out because of the excessive income they are receiving and they will have to get out of Old Harbor Village and move into slum areas again because they find it difficult to get good flats somewhere else. They are booked as defense workers and won't be able to pay rent for long. I say it is a sorry thing to let it exist for five months without giving the citizens of Boston a chance to reside in that project. I do not mean the people in Old Harbor Village who moved from where they were paying low rents into where they will pay higher rents, but even though willing to pay higher rents in the Old Colony project, they are not allowed to go in due to what I call a silly quarrel. 300 families in five months, families who lived ten or fifteen miles outside of Boston. Now that is a long enough period to let go by. They have shown in five months they cannot put over 300 families in. It seems silly the Boston Housing Authority, who are agents for the Federal Works Administration, do not see fit to bring pressure to bear to give the benefit of this project to those working in defense industries, such as the people in Old Harbor Village who are being told to get out and people who do not live in there, but who are citizens of this city of ours. I say if the Boston Housing Authority does not get on the ball soon and help the city get some more money into the treasury which we will get when we fill up this project, they certainly have not got their eye on the ball and I hope the Mayor will do something to get after them to see to it the rule is changed and will allow the Old Colony project to be thrown open to defense workers. There are families in Boston working in the defense industries who would be glad to go in and build up this project and therefore help themselves and help the housing in Boston and help the tax rate in the city, because we get 15 per cent of the income. At the rate they are going, it will take two years and they might never fill it up, and I am bringing this out because it means money to the City of Boston and also the hardship imposed on families who are being ordered out in the Old Harbor Village and people who are willing to pay a higher rent and would be glad to if allowed. I hope the Boston Housing Authority will make it their business to do something in the near future before many of the tenants in Old Harbor Village have moved into unsightly places again.

Coun. CAREY—Mr. President, I think the councilor from Ward 7 is to be congratulated for having brought to the attention of the Council the folly of a deal made by the Housing Authority some months ago when a project constructed for people living in sub-standard homes was delivered to those who might well afford to pay much higher rents than was in the mind of those who conceived the housing units. As a result of that deal, hundreds of families in the Mission Hill area who were told they were living in a neighborhood that sadly needed rehousing and better housing conditions, have been deprived of admission to the unit because of the fact that larger numbers were forced to move from South Boston into the Mission

Hill Village. We are glad to welcome them into the Mission Hill Village whether they come from South Boston, Dorchester, Brighton or East Boston. but I feel a great iniustice has been done to the people of Mission Hill. many of whom were forced to move away from the neighborhool that they were born in and reared in and have not been able to get back there. However, at the time that the unit was conceived or proposed for the Mission Hill section, those people were very definitely told they were going to be rehoused in homes sanitary and habitable. What do we find happened? When the Old Colony unit was ready for occupancy it was delivered to those who have no right to be admitted to any such unit. I say that here and I said it before and I will continue to say it. Those defense workers did not need to be catered to. They are making fine pay each week, anywhere from $40 to $100 a week, in some cases. What pity do they need? None whatsoever. But how about the poor people at Mission Hill, many of whom have had to go in worse homes while awaiting the time they would go back into the "promised land," as many out there referred to it. I think the time has come to call a halt admitting any more defense workers who can well afford to go out and live in single and two and three family homes and assist taxpayers who have to pay taxes on that property. I say those taxpayers are being deprived of tenants who can afford to put the rent on the line the first of every month and they can afford to pay not the $18 or $20 or the $15 these housing projects intended to have allowed for rent, but much higher rents, and I know for a fact that many of those who were forced into the Mission Hill unit from the South Boston area did not want to leave South Boston, as those who were born and reared in Mission Hill didn't want to leave Mission Hill. They had to because of the conditions under which they were forced to live while awaiting the opening of the Old Colony unit. They want to get back to South Boston and they only know South Boston, and I do not think they should be deprived of the opportunity to go back there. In like manner. I do not feel the people of Mission Hill who have waited for the chance to go into that unit should still be deprived of the opportunity and I hope some action will be taken on this matter which has gone far enough. People out there are still roaming the streets trying to find a place habitable and I invite the members of the Authority any day in the week to visit some of those tenements where those people are compelled to live.

REPAIRS TO WARD 3 BATH HOUSE.

Coun. RUSSO offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to make immediate repairs to the showers in the bath house on Charles street, Ward 3.

Passed under suspension of the rule.

DUMPING ON SPECTACLE ISLAND, ETC.

Coun. SCANNELL, LINEHAN and HUTCHINSON offered the following:

Ordered, That his Honor the Mayor request the city and state officials to make a study of dumping conditions on Spectacle Island for sanitary purposes and also the Mile Road dump with a view to closing same.

Coun. SCANNELL—I presented this order due to the conditions of the beaches in South Boston. I say there is something rotten in Denmark when they can go out and get a dumping permit and dump refuse into the Boston Harbor. The people of Boston have spent about $15,000,000 to beautify Castle Island, Head House, and the Carson Beaches, and here these contractors are coming in and dumping their refuse and garbage on the one-mile road, and if we do not stop it pretty soon the whole of Dorchester Bay will be filled in. I had occasion to visit Spectacle Island and within one mile of the beaches they are taking scows down there and throwing it up on the beaches of Spectacle Island where they are supposed to burn it up. If there is not something done there in that beach you are going to have an unhealthy condition. Many mornings you wake up and get such a smell from that dump and from Spectacle Island it would make you sick. Now, if the Mayor and the Health Commission do not do something about this, it is going to be a sorry thing a little bit later.

Passed under suspension of the rule.

EMERGENCY CALL BOXES AT BEACHES.

Coun. GALVIN and SCANNELL offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to arrange for the installation of emergency call boxes at all beaches.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON CLAIMS.

Coun. D. F. SULLIVAN, for the Committee on Claims, submitted the following:

Report on petition of Joseph B. Dawson (referred August 4) to be reimbursed for amount of execution issued against him on account of his acts as member of Police Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of five hundred fifty dollars ($550) be allowed and paid to Joseph B. Dawson in reimbursement for amount of execution issued against him on account of his acts as a member of the Police Department, said sum to be charged to the Contingent Fund.

Report on petition of William E. Doogan (referred August 4) to be reimbursed for amount of execution issued against him on account of his acts as member of Police Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of five hundred fifty dollars ($550) be allowed and paid to William E. Doogan in reimbursement for amount of execution issued against him on account of his acts as a member of the Police Department, said sum to be charged to the Contingent Fund.

Report on petition of John Eagan (referred July 21) to be reimbursed for amount of execution issued against him on account of his acts as member of Police Department—recommending passage of the accompanying order, viz.:

Ordered, That the sum of eight hundred dollars ($800) be allowed and paid to John Eagan in reimbursement for amount of execution issued against him on account of his acts as a member of the Police Department, said sum to be charged to the Contingent Fund.

Report accepted; said orders passed.

REIMBURSEMENT OF W. P. A. WORKERS FOR CARFARE.

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Director of Public Welfare be requested, through his Honor the Mayor, to confer with the W. P. A. authorities relative to reaching some agreement whereby Boston residents who are obliged to work on the W. P. A. project in Squantum may be reimbursed for their carfare in the amount of $2.40 per week.

Coun. D. F. SULLIVAN—Mr. President, the purpose of this order is because these Boston men working on W. P. A. project at Squantum are forced to pay 40 cents a day carfare. They are getting the same pay as men working in Boston who only have to pay 20 cents a day carfare. These men go down to Squantum on a rainy day as they still have to report, and knock off and still have to pay 40 cents without reimbursement. The other cities and towns throughout the state, if a man is required to go beyond the fare limit of the city or town, said city or town reimburses him to the extent of the additional carfare and I hope this order will pass and the director will confer with the W. P. A. authority on this matter.

Coun. CAREY—A few years ago when the W. P. A. was first inaugurated, it is my recollection the practice was of hiring buses to transport the men to the out-of-town communities where forced to work. I do not see why a program like that is not installed at the present time. It is most unfair, especially as these men have to report on a rainy day only to be told they are knocked off for the day and have no way of getting back the 40 cents spent to go to Squantum. I think the city should install a bus service or make some arrangements whereby the men would be reimbursed the extra spent, because I know of cases where there are several youngsters in the family and the 20 cents extra a day amounts to a great deal and can be well used for the necessaries of life in that family.

Passed under suspension of the rule.

PLANTING OF TREES, WARD 17.

Coun. WICKES offered the following:

Ordered, That his Honor the Mayor request the Park Commissioner to make a survey, and report the possibility of planting additional trees in Ward 17, particularly in the new section known as Codman Hill.

Passed under suspension of the rule.

SIDEWALK ON O'CONNELL ROAD.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along O'Connell road, from Washington street to Valley road, Ward 17, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

THE NEXT MEETING.

On motion of Coun. LANGAN it was voted that when the Council adjourn it be to meet on Monday, August 18, at 2 p. m.

CONFIRMATION OF APPOINTMENTS.

President GALVIN called up, under unfinished business, No. 1 and 2 on the calendar, viz.:

1. Action on appointment submitted by the Mayor July 21, 1941, of John J. Moriarty to be a Constable, without power to serve civil process and to serve without bond, vice Earl Wickes, resigned.

2. Action on appointments submitted by the Mayor July 21, 1941, of Patrick J. Clancy to be a Weigher of Goods, and Charles Shrag, Herbert L. Baron and Hyman Levine to be Weighers of Coal.

The question came on confirmation. Committee, Coun. M. H. Sullivan and Russo. Yeas 12, nays 1, and the appointments were confirmed.

TRAIN SERVICE TO JAMAICA PLAIN AND HYDE PARK.

Coun. GOODE and LANGAN offered the following:

Ordered, That the officials of the New York, New Haven & Hartford Railroad be requested to increase the train service passing through the Jamaica Plain and Hyde Park sections of Boston.

Coun. LANGAN—For ten years the New York, New Haven & Hartford Railroad has found it advisable to curtail service over this particular section of the road. In recent years, during the past five years, there has been a decided increase in employment and there has been an increase in the demand for increased service in the New Haven Road in this section. If the railroad will cooperate with the people in that section and give a little more modern service, I feel sure they will recognize it as a gesture well spent and will find that increased service on this line will result in increased revenue.

Passed under suspension of the rule.

PROHIBITION OF UNFIT MOVIES.

Coun. SULLIVAN, for Coun. Goode, offered the following:

Ordered, That his Honor the Mayor, through the Police Commissioner, take action to prevent the showing in the city of all motion pictures condemned by the Legion of Decency as unfit for public presentation.

Passed under suspension of the rule.

IMPROVEMENTS IN READVILLE.

Coun. SULLIVAN, for Coun. Goode, offered the following:

Ordered, That his Honor the Mayor be requested to call in for immediate collaboration at City Hall, Park Commissioner Long, Public Works Commissioner Hyland and the officers of the Readville Improvement Association, in order that the survey for improvements recently requested by City Councilor Goode for the Readville section be satisfactorily explained, to the end that these improvements in the Readville section of Ward 18 be speedily undertaken, and that action be taken on the request of the Readville Improvement Association for a permanent meeting place in that section.

Passed under suspension of the rule.

CONSTRUCTION OF HYDE PARK STREETS.

Coun. SULLIVAN, for Coun. Goode, offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the

Mayor, to make immediate plans for the acceptance and construction, by private contract, of the following streets in the Hyde Park district of Ward 18: Blake street, Danbury road, Rosa street and Riverside square.

Passed under suspension of the rule.

IMPROVEMENTS, ARLINGTON STREET, WARD 18.

Coun. SULLIVAN, for Coun. Goode, offered the following:

Ordered, That the Public Works Commissioner be requested to construct sidewalks on Arlington street, Hyde Park, and also make repairs to the edgestone at the corner of Arlington and Hilton streets, Ward 18.

Passed under suspension of the rule.

APPROPRIATION FOR EXPENSES OF BOARD OF SPECIAL COMMISSIONERS ON REPRESENTATIVE DISTRICTS.

Coun. HURLEY called up No. 3 on the calendar, under assignments, viz.:

3. Ordered, That the sum of five hundred dollars be, and hereby is, appropriated to meet the expenses of the Board of Special Commissioners on Representative Districts in the County of Suffolk through November 30, 1940, as certified by the State Treasurer under the provisions of section 2 of chapter 467 of the Acts of 1939; said sum to be charged to the Contingent Fund.

The question came up on the passage of the order. The order was rejected, yeas 2, nays 12, viz.:

Yeas—Coun. Chase, Shattuck—2.

Nays—Coun. Englert, Galvin, Gottlieb, Hurley, Hutchinson, Kelly, Linehan, Lyons, Russo, Scannell, D. F. Sullivan, M. H. Sullivan—12.

Coun. CHASE moved for reconsideration of the vote just taken.

The PRESIDENT—The Chair is obliged to rule the motion out of order as the matter has already been once reconsidered.

SIDEWALKS ON CHESBROUGH ROAD, WARD 20.

Coun. LYONS offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Chesbrough road, from Baker street to Tarleton road, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

SIDEWALK ON VERMONT STREET.

Coun. LYONS offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Vermont street, from La Grange street to Baker street, Ward 20, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

The Council adjourned, on motion of Coun. HURLEY, at 4.30 p. m., to meet on Monday, August 18, 1941, at 2 p. m.

CITY CEMETERIES.

The Park Department has charge of twenty cemeteries, containing 212 acres, that are owned by the city. Mount Hope Cemetery is the largest. A number of these cemeteries are no longer available to the public for interments. In 1937 there were 2,075 interments in these cemeteries, or 77 more than in 1936. The interments in Mount Hope Cemetery in 1937 were 71.08 per cent of the total interments as against 74.57 per cent in 1936.

STATE REFERENDA RESULTS, 1936.

A question of public policy "Shall the Representative in the General Court from this district be instructed to vote in favor of amending the State Constitution for the purpose of limiting the amount of taxes, for all purposes, which may be legally levied against any real estate within the Commonwealth to a sum not exceeding $25 for each one thousand dollars of assessed valuation?" was voted on by only a portion of the Representative Districts. In Boston, six districts did not vote on it.

The totals for the districts and parts of districts, including Boston districts, were 310,715 in favor; 113,594 against and 203,277 blanks. For Boston alone, the totals for the sixteen districts that voted were 114,184 in favor; 46,689 against and 79,827 blanks.

In Boston, there were three referenda on sales of alcoholic beverages.

First, "Shall licenses be granted in this city for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages)?" Totals, 190,353 in favor, 45,402 against and 84,732 blanks.

Second, "Shall licenses be granted in this city for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages)?" Totals, 185,213 in favor, 40,164 against and 95,110 blanks.

Third, "Shall licenses be granted in this city for the sale therein of all alcoholic beverages in packages, so called, not to be drunk on the premises?" Totals, 187,877 in favor, 37,139 against and 95,471 blanks.

SEEKS COMMUNITY AID IN ARMY CAMP CITIES.

The army welcomes the aid of civic organizations in helping to protect soldiers from intemperance and vice when they are away from their duty stations.

The War Department is endeavoring in various ways to protect its personnel from temptations while at military posts and camps. Healthful and wholesome entertainment is furnished. Commissioned officers are charged with the responsibility for the men in their commission. Understanding leaders offer them advice and counsel, and medical officers guard their physical well-being. —*American City Magazine.*

RESTORATION OF SALARIES.

The Portland City Council has granted full restoration of salaries to all city employees, at an estimated cost (for the remaining six months of the year) of $162,430. This will put the city in the red at the end of the year unless additional revenue is obtained. Increases and adjustments of salaries for individuals will be considered as soon as finances permit.

THE MUNICIPAL WATER-WORKS TREND.

In 1800 there was but one municipally-owned water-works plant in the United States. Now there are 7,853 municipally-owned installations, or 72.8 per cent of the entire number. In the United States there are ninety-four cities of over 100,000 population. All but eleven of these own their water works. Municipal plants serve 96.1 per cent of the population of the ninety-four cities, while private plants serve only 3.9 per cent.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

FELLOWSHIP STUDIES IN TRAFFIC CONTROL.

Fifteen graduate fellowships, each with a stipend of $1,200-plus up to $200 for travel and field investigation have been announced by the Bureau for Street Traffic Research of Harvard University. The regular annual tuition fee of $400 will be deducted from the fellowships, which have been made available through a gift to the University by the Automobile Manufacturers' Association. The officers of instruction are Miller McClintock, Director of the Bureau, and Maxwell Halsey, Assistant Director. Each of two full courses in street and highway traffic control consists of three one-hour periods a week, and additional problems, assignments and field work.

STATE VALUATIONS IN 1937.

Total assessed value of real estate on January 1, 1937, in the thirty-nine cities and 316 towns of Massachusetts, $5,742,161,541 ($18,194,654 less than on January 1, 1936), of which 65.62 per cent applied to buildings and 34.38 per cent to land; of personalty, $525,039,493; aggregate valuation, $6,267,201,034 (2.74 per cent decrease from 1936), on which the total tax was $222,184,422. To raise this amount of taxes on the property assessed at a uniform rate throughout the State would have required a tax rate of $35.45+ on $1,000 valuation. Boston's valuation, $1,590,544,700, equal to 25.38 per cent of total valuation in the State.

HEALTH AND HOSPITAL.

The plant and equipment of the Cincinnati General Hospital have been largely rehabilitated during the year 1939. As a result the operating officials of the Hospital will be able to do much better work in caring for the sick than heretofore.

The hospital treated 18,963 patients this year compared to 18,765 last year, and 24,929 individuals were cared for in the Out-Patient Dispensary against 24,701 in 1938. There was also an increase of approximately 10 per cent in the number of persons treated in the receiving ward, resulting in a total of 25,082. (From Annual Address of City Manager.)

PARKS.

Cincinnati has one of the most beautiful park systems in the United States and the public approval of these parks is indicated by the large attendance in all the parks throughout the year.

The total area now under the control of the Park Board is 4,270 acres. Of this, the Public Recreation Commission operates approximately 1,000 acres for supervised and directed play. Important additional acreage has been acquired by the City during the year, including approximately 22 acres purchased on the south side of Columbia Parkway, and 47 acres in College Hill presented as a gift for park purposes by a civic-minded citizen.—*Cincinnati City Bulletin.*

POPULATION OF BOSTON, BY SEX, NATIVITY, ETC., 1930.

Total population, 781,188 (383,454 males and 397,734 females); ratio of males to females, 96.4 to 100 as against 97.2 to 100 in 1920. Native white, 529,400 (260,419 males and 268,981 females) or 67.77 per cent; sex ratio, 96.8 to 100. Of the 529,400 native whites, 200,130, or 37.80 per cent, are of native parentage; 248,653, or 46.97 per cent, are of foreign parentage and 80,617, or 15.23 per cent, are of mixed parentage (i. e., one half native). Foreign-born whites, 229,356 (111,261 males and 118,095 females) or 9,563 less than in 1920; sex ratio 94.2 to 100. The foreign-born whites are 29.36 per cent of total population. Negroes, 20,574 (10,223 males and 10,351 females) or 2.63 per cent of population; sex ratio, 98.8 to 100. The Negro population has increased 4,224 since 1920 and 4,993 since 1915. Other races, 1,858 (1,551 males and 307 females), or 0.24 per cent, comprise 1,595 Chinese, 69 Japanese, 43 Indian, 26 Mexican and 125 miscellaneous. Total foreign white stock, 478,009 (viz., 229,356 plus 248,653) which is 61.19 per cent of all inhabitants.

The bidder must leave his proposal with a certified check for $100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Hay, Grain, Straw, etc." There will be a charge of twenty-five cents ($0.25) for each blank proposal taken out.* The bids will be publicly opened and read Thursday, August 21, 1941, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN BENNINGTON STREET, FROM PORTER STREET ACROSS PRESCOTT STREET, EAST BOSTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Bennington street, from Porter street across Prescott street, East Boston. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Bennington Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, August 20, 1941, with a certified check for thirteen hundred (1,300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, AUGUST 23, 1941. No. 34

FINANCE COMMISSION RECOMMENDS TO MAYOR TOBIN PLAN FOR SAVING ESTIMATED BY THEIR BOARD AT NEARLY $500,000 IN COLLECTION AND DISPOSAL OF GARBAGE AND REFUSE — WOULD HAVE CITY BUILD INCINERATOR PLANT AND DO AWAY WITH DISPOSAL METHODS NOW FOLLOWED — WOULD CONSTRUCT PLANT ON THE ALBANY STREET PROPERTY OF THE PUBLIC WORKS DEPARTMENT — ALSO PROPOSES TO SUBSTITUTE COLLECTION BY CONTRACT IN ROXBURY DISTRICT FOR COLLECTION BY CITY EMPLOYEES.

The Finance Commission has submitted to Mayor Tobin, proposals for revamping city's methods of garbage collection aimed at saving of funds appropriated for such purpose. The proposals, in part, are embodied in the following:

BOSTON, August 13, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

HONORABLE SIR,— The City of Boston is paying upwards of $1,500,000 per year for the service performed in the collection and disposal of garbage and refuse by city labor and by municipal contractors. From the financial standpoint alone, therefore, the collection and disposal of waste is a major item in the city's annual budget. In recent years the total cost of the service has progressively declined as the present administrators of the city have put into operation the Finance Commission's recommendation to substitute collection by contract in certain districts for the more expensive and less efficient collection by city labor. Nevertheless, taking the work as a whole, it is not scientifically organized, the practices employed in it are not well suited to the present times and conditions, and it abounds in opportunities for uneconomical expenditure. The defects are not attributable to any one administration or era. They are the outgrowth of a long period of operation during which the idea of introducing a scientific system never previously received substantial administrative support.

The annual total expenditure for this service may be divided into three major classes. First in importance is a total of approximately $790,000 paid to contractors. In 1941 there were eleven separate contracts divided among six different contracting firms. Next is the total of about $625,000 paid directly to city employees engaged in collection alone. The third class is the expenditure of about $60,000 for the maintenance of approximately sixty units of equipment and properties.

Efforts to Improve Methods.

But even this breakdown of the annual expenditure of approximately $1,500,000 does not account for all city effort in this matter. A force of welfare workers, which has varied in number from 65 to 400, supplements the regular city labor employed. These welfare workers contribute about three days per week to the work of collection in return for welfare aid. And there are still other expenditures known, but not separable, such as for city facilities operated for various branches of the public service, of which the collection and disposal of garbage and refuse is one. The value in municipal dollars of additional time given to the service, which is not directly chargeable to it, would add at least another $100,000 annually.

On various occasions in the past few decades much time, thought and labor have been expended and considerable expense incurred in efforts to find a method of collection and disposal which would give the city adequate and reliable service at justifiable cost. Many agencies have been employed, to one of which fees totaling approximately $18,000 were paid for a study. Most of the conclusions resulting from these studies, however, were ignored. Political considerations were always given greater weight than the recommendations of those who proposed a scientific and economical system.

Another opportunity now presents itself to begin reorganization of this work. The ten-year contract for the disposal of waste in the city proper and some adjoining sections is soon to expire. It is the most important single element in the present arrangement of the work. It takes up about $400,000 of the annual expenditure. And, in addition, the costs and methods under the other ten contracts and of the work performed directly by city labor are affected by it.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

FINANCE COMMISSION REPORT.

(*Continued from page 973.*)

Since you have indicated that you are anxious to make the best possible arrangements for the future conduct of this service, the Finance Commission has devoted a large amount of time to an investigation of the detail of the present system in Boston, has consulted experienced operators of collection and disposal methods in many of the leading cities of the country, and has studied various methods and costs, and intends in this report to show in detail, first, the disadvantages of the Boston practices, and, secondly, to suggest a particular method by which the city can reduce the cost of the waste collection and disposal service by several hundred thousand dollars per year.

The Finance Commission is confident that the present expenditure of approximately $450,000 for disposal in the central portion of the city can be positively reduced to a net nothing, and that by proper utilization of existing opportunities very possibly the cost of other municipal service may be reduced by a substantial additional amount.

The work of collecting and disposing of waste in Boston has developed piecemeal according to the increasing needs of the community rather than as the result of any systematic plan. It does not follow a particular pattern in all sections of the city, although for the past quarter of a century, until recent years, it might be said to have been collection and disposal by contract in the suburban sections, and collection by city labor and disposal by contract in the central city sections.

In order that the situation may be clearly understood it is necessary to recount some of the developments which, in recent years, have led to the present arrangement of the work. Since about 1912 the city has been divided for collection purposes into ten districts. Until about two years ago, in five of these districts, city employees collected all waste (garbage and refuse) from householders without charge. In the other five districts, collection from householders, also without charge, had been by one or another private firm or individual under contract obtained in advertised competition. Commercial establishments could elect to dispose of waste by private arrangement under supervision of public authorities, or by allowing the city's agents, employees or contractor, to take it away. In the event that city employees collected waste from commercial establishments, the owners were expected to pay a fee per barrelful. If collected by a private firm or individual, the owners made their own arrangements and, presumably, paid for the service.

The boundaries of the districts have remained unchanged for the greater part of the period mentioned, but a few years ago one section of the Roxbury district—Elm Hill—was designated as a separate district, and last year the Back Bay (previously for collection purposes attached to the South End district) was also similarly designated. In both these districts the practice of collection by city labor thereupon ceased and the work was taken over by a contractor. Without change in district lines, Charlestown and South Boston have also ceased to be districts in which city men collect. The work there has also been taken over by private contractors. Incidentally, the cost of the service in all these districts has been very substantially reduced as the result of the changes.

In Outlying Districts.

In all the outlying districts except Dorchester the practice has been to allow the bidder who obtained the contract to dispose of his waste collection in whatever manner he desires compatible with the public interest. Without exception these contractors have sold the garbage collected to farmers for hog feed, and have dumped the other refuse on vacant land. In the central city districts, including Dorchester, both the refuse and the garbage have been turned over to another contractor who operates a reduction plant on Spectacle Island and maintains one dump at Spectacle Island and another in Dorchester.

When Charlestown and South Boston were turned over to contract collection, the practice of turning collections over to the Spectacle Island contractor continued. When the Back Bay and Elm Hill became separate districts, the previous practice of allowing the Spectacle Island contractor to have all waste from the Back Bay and the garbage from Elm Hill also continued.

Dorchester garbage by contract also must go to the Spectacle Island contractor. Other Dorchester waste has always been dumped on vacant land in Dorchester obtained for the purpose by and at the expense of the contractor.

The ten-year contract which is now about to expire is distinctly a disposal as distinguished from a collection contract. It is to this contractor that the refuse and garbage from the central city districts are delivered. The system of which it is an important part has been followed since 1912, and each such contract has run for ten years. The City Charter provides that no contract for this work extending over one year shall be valid without the approval of the Mayor and City Council after a public hearing held by the City Council.

Within a certain territory embracing the several districts specified in the contract, the city or contractors cart the waste to dumping stations located on wharves. One is on Atlantic avenue, known as Fort Hill Wharf; another is on Albany street, on a parcel known as the Public Works Department yard; and a third is on Victory road in Dorchester. The contractor must maintain a scow service to tote the waste to Spectacle Island, and there must maintain a reduction plant for the disposal of garbage; and must dispose of all other waste turned over by the city, either at a dump on Spectacle Island or at an inland dump operated by him. The contractor owns the equipment within the reduction plant. The city merely owns two of the three buildings which house the equipment.

The contract now expiring is in form substantially the same as was the first of its kind which was adopted in 1912. Yet there has been one important change in the specifications which has redounded to the benefit of the contractor. In the original contract it was the responsibility of the contractor to maintain the wharves at which the waste was turned over for disposal. This increased his expenses in carrying on the work he was obligated to perform. Since the second contract was executed in 1922 it has been the city's responsibility and expense to maintain the wharves. This change has reduced the contractor's expense by between $20,000 and $30,000 annually.

Operating Thirty Years.

In the thirty years of operation of this type of contract, one firm had it for the first ten-year term and a second firm has had it for the later two ten-year terms. The latter firm obtained the contract first in 1922 as the lowest bidder and again in 1932 by assignment from another firm which won the competition.

The adoption of the present method was intended to be the answer to widespread criticisms by many civic agencies of the previous conditions of the service. The dissatisfaction was due to confusion in methods, to undue expense for the service rendered, and to ever-increasing complaint of uncleanliness and nuisances in connection with it. It was expected that cause for complaint could be eliminated by centralizing disposal of waste from the congested center of the city in one place and by one method, and that the cost of service would be reduced by providing opportunity to the disposal contractor for profit from by-products of the waste.

To facilitate the utilization of waste by the disposal contractor, city ordinances were adopted requiring careful separation of garbage from other refuse. Collectors, whether city employees or contractors, were required to collect the garbage separately. It was expected that thereby the contractor would obtain clean garbage (in the sense that it would be all garbage and not mixed offal) not only from households and habitations, but also from commercial establishments.

Results, however, were not as expected. From the first it was impossible to obtain separation of garbage from other waste in certain sections of the city, and in the course of time disinclination to separate has spread to other sections.

As a result, the volume of garbage received by the contractor, of a quality which he might utilize with profit in a rendering plant, has never come up to first expectations. And year after year the volume of it has been growing less and less. In most of the territory tributary to this contract there is now no separation at all, and so little garbage has been received at the two central wharves that the contractor does not consider it worthwhile to maintain a separate receptacle for it at either. All material received at both places is dumped into a common scow and disposed of as refuse, not as garbage. None of it is utilized in the rendering plant.

At the Victory Road Wharf in Dorchester it is intended that only garbage will be accepted. The contractor complains that what he receives is not clean garbage which is suitable for profitable use as such; he also complains that the volume of it is not enough to make operation of the rendering plant profitable. Profitable use of the rendering plant is of great importance to the city because such utilization is expected to offset to a large degree the total cost of disposal.

Despite the pecuniary advantage which might be derived therefrom, the city has done little or nothing to check the growing tendency of householders to be disinclined to separate garbage from other waste matter. Although the city still provides double collection, *i. e.*, one collection of garbage and another of other waste, neither the city nor the contractors in the central sections of the city now make any attempt to enforce the requirement of separation. Both take the garbage separately if it is kept separately; but they also take it if it is mixed with other refuse. Sometimes they find garbage in covered receptacles as the ordinances require. More often they find it in open containers of wood or corrugated boxes or fruit baskets, or dumped loosely

in alleys, yards, or even on public highways, and mixed with other refuse.

Nevertheless, the double system of collection is maintained, particularly in the sections in which collection is by city employees. Collection routes established decades ago are still followed whether there is much or little patronage. Finance Commission representatives observed city garbage trucks coming to the Fort Hill Wharf with a wheelbarrowful of garbage as a result of a morning's collection, and then saw the same trucks come back later with about the same size load as a result of an afternoon's collection.

Reduction by incineration, which means simply consuming the waste by fire, is generally accepted to be the most scientific and the most economical method, as well as one which causes the minimum of complaint. Incineration does not require the careful separation which is necessary in reduction by rendering or in simply dumping on waste land. The combustible material in the waste furnishes the fuel for incineration.

Incineration is not a new process, but it has been greatly improved with the passage of time. Scientific incineration has been used successfully in this country for the better part of a century and in European countries even longer. The modern incinerator can be inclosed within a building which may be erected on a main street of any city and accomplish its work without giving cause for justifiable complaint from neighboring property owners or occupants.

A modern incinerator burning all combustible waste without separation makes less smoke than the average coal or oil burning heating plant. If the building housing the burner is properly designed, neither the handling of the waste before it goes into the burner nor the burning process makes odors or dust. A modern incinerating plant could be operated in the center of the Public Garden without damage by gases or dust to the foliage or flowers in the Garden. The exterior of such a building can be kept cleaner than is the average business block. Often the grounds about the modern plant are landscaped and decorated with flower gardens, evergreens and shrubbery.

Consuming a large quantity of waste every day in a burner makes an intense heat. This heat has greater value than any gain which might come from filling waste land (of which there is none within easy reach of the central collection districts) and greater value than is obtained in the by-product of a rendering plant. Usually the modern incinerator is located in the center of a group of municipal workshops or other municipal buildings which require light, power and heat.

Adoption of a similar method and practice in Boston will first permit the abandonment of the Spectacle Island plant and consequently save the city the expense of the scow and towing service to the island. Next, it will permit the city to end the wharf nuisances, to dispose by sale of the Fort Hill and Victory Road Wharves, and to eliminate the dust and dirt producing open dumping wharf at Albany street. Finally, it will enable the city, by the construction of a plant containing an incinerator, a dynamo and steam boilers on the premises owned by the city on Albany street, which is used for various Public Works Department activities, to furnish all the light, heat and power needed not only for the Public Works Department shops but for the immense City Hospital plant across the street.

The commission anticipates that many unfamiliar with conditions surrounding modern incineration will be hostile to this suggestion, in the belief that it will constitute a nuisance to the City Hospital. On the contrary, however, it will allow the hospital to be rid of what is often a nuisance under existing conditions. The hospital has a heating plant directly across the street from one end of the main hospital buildings, particularly the medical pavilion and the substantial building in which all supplies are received and all food cooked. The heating plant has two large stacks which frequently belch heavy black smoke, oil being the fuel used to make heat and power.

By a particular location of the incinerating plant on the Public Works Department premises, one of these stacks might be used as the outlet for gas and smoke from the waste burners. In that event, the amount of smoke coming from the stack would be insignificant in comparison with the present condition. If it were desired to erect the incinerator on a locus within the city property further removed from the hospital buildings, there is plenty of opportunity without having to sacrifice the advantages in production of heat and power for the hospital.

The City Hospital heating plant consists of six boilers, some two to four of which are always in operation. The plant used approximately 3,500,000 gallons of oil in the 1939–40 contract year, at a cost of approximately $116,000. By the utilization of steam generated in the incinerating plant the saving to the hospital might total as much as $150,000 per year, which would include a part of the present personnel cost, a portion of the regular maintenance of the hospital power plant, as well as a substantial portion of the fuel cost. The City Hospital plant would be neither abandoned nor dismantled, but simply used as a stand-by in case of emergencies.

Computations made of figures kept by the Spectacle Island disposal contractor of the volume of loads taken by scow from the Fort Hill and Albany Street Wharves indicate a quantity of approximately 460,000 cubic yards per year. Transposed into figures of weight, it is approximately 300 to 310 tons per day. This includes a substantial volume received at the wharves from commercial establishments for which the disposal contractor nets a large revenue.

Without disturbance to present collection methods (*i. e.*, simply taking over disposal of that quantity which is now handled by the disposal contractor at the Fort Hill and Albany street stations), and making proper allowance for the fact that an incinerator of a rated daily consuming capacity of 100 tons can dispose of almost twice that quantity on a twenty-four-hour basis, the need would be for a plant with a rated 300 tons daily capacity.

The cost of a plant as outlined to include incinerator, dynamoes and boilers, and necessary piping to conduct steam to the City Hospital is conservatively figured to be $450,000.

The commission offers the following computation to show the advantage of the proposed method:

Average Annual Cost by Present Method.

Average annual payment under present disposal contract	$378,000
Maintenance cost of three transfer stations	25,000
Personnel cost of operating transfer stations	24,431
Total	$427,431

Average Annual Cost by Proposed Method.
(Based on Twenty-Four-Hour Operation.)

Annual depreciation (based on twenty-year life) at estimated cost of $450,000,	$22,500
Interest on bonds (2 per cent)	9,000
Operating cost (personnel)	75,000
Other operating costs	20,000
	$126,500
Operating cost of land fill dump (labor and use of bulldozer)	7,500
Total	$134,000

Other Savings by Adoption of Proposed Method.

Present cost of lighting Albany street buildings	$3,051
Present cost of heating Albany street buildings	8,653
Reduction in fuel and other cost at Boston City Hospital	150,000
Total	$161,704

Summary.

Average annual cost by present method	$427,431
Average annual cost by proposed method,	134,000
Direct saving	$293,431
Indirect saving	161,704
	$455,135
Added income from fees charged private collectors for disposing of material at incinerator and at land dump	32,000
Total savings	$487,135
Assessed value of land at Fort Hill and Victory Road Wharves	$154,500

The commission has made allowance in the above figures for the eventual disposal of the residue from the incineration plant, and for the street sweepings and material taken from catch-basins. The residue usually amounts to about ten per cent of the original substance and has value as solid fill.

If the commission's recommended method is adopted it will be necessary to make Roxbury a contract collection district and allow the contractor to make such use of his waste as he finds possible. This only means applying to Roxbury the same system which now obtains in the other suburban districts. It will also be advantageous to allow the contractors in South Boston, Elm Hill and Dorchester to dispose of their waste likewise.

A further substantial saving will accrue from the abandonment of separate collection in city labor districts.

The commission believes that for the time being no further change should be made in the method of collection and disposal in the contract districts. It is confidently expected that adoption of incineration of non-separated waste at a central plant on Albany street will prove its value within a short time. Extension of this method to other sections of the city will then have few objectors.

The commission recommends:

1. That the present method of disposal by contract of the combustible material collected from the central areas of Boston be abandoned, and incineration of this material at a plant to be constructed on the Albany street property of the Public Works Department be substituted.

2. That the specifications of the contracts providing collection and disposal service in the districts which now deposit garbage at the Victory road station be changed so as to permit disposal by the contractor by any method which he may elect, subject to city approval and supervision.

3. That the Public Works Department make plans to substitute collection by contract in the Roxbury district for collection by city employees.

Respectfully submitted,

POLICE DEPARTMENT ORDERS.

General Order No. 631.

A trial board consisting of Captains Grace, Justin McCarthy and Brady, having heard by reference a complaint against Patrolman Francis J. O'Connor of Division 14, charging him with conduct unbecoming an officer, violation of law, and neglect of duty, has reported to the Acting Commissioner a finding of not guilty.

In accordance therewith, it is hereby ordered that the complaint against the said Patrolman Francis J. O'Connor be dismissed.

The Acting Superintendent of Police will promulgate this order.

EDWARD W. FALLON,
Acting Police Commissioner.

General Order No. 632.

A trial board consisting of Captains Grace, Donovan and Justin McCarthy, having heard by reference a complaint made by Edward J. Keating, captain, Division 4, against Frank N. Reynolds, patrolman, Division 4, charging him with conduct unbecoming an officer, has reported to the Acting Commissioner a finding of not guilty as charged.

In accordance with which it is hereby ordered that the complaint against the said Patrolman Frank N. Reynolds be dismissed.

The Acting Superintendent of Police will promulgate this order.

EDWARD W. FALLON,
Acting Police Commissioner.

CIRCULAR LETTER NO. 13.

CITY OF BOSTON,
MAYOR'S OFFICE, August 13, 1941.

To the Heads of Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence without loss of pay to employees in your department who are members of the State Guard to attend the annual tour of duty.

Respectfully,
MAURICE J. TOBIN, *Mayor.*

FOR AIDING BOYS.

In an effort to lend a helping hand to misfit and underprivileged boys and to stem the alarming flow of young men into penal institutions and lives of crime, Big Brother Bureaus are being organized by the police departments of various cities. The International Association of Chiefs of Police urges all police jurisdictions to join the Big Brother League.

NO COST CONTROL FOR REFUSE DISPOSAL.

American cities on the whole may be clean housekeepers, but they don't know how much it is costing them to be clean or whether they are spending too much. Only a few cities are able to report accurately the unit cost of removing garbage and other refuse and of cleaning streets, according to the Public Administration Service of Chicago, Ill., which further reports that at least 90 per cent of the cities in this country have no cost control over this service.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN BLUE HILL AVENUE BETWEEN CHARLOTTE STREET AND COLUMBIA ROAD, DORCHESTER.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Blue Hill avenue, between Charlotte street and Columbia road, Dorchester. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked, "Proposal for Sewerage Works in Blue Hill Avenue," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, September 3, 1941, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

Proposal forms are obtainable at the office of the Business Manager of the School Committee, 15 Beacon street, tenth floor. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Groceries for the Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check, payable to the City of Boston, in the amount of at least 5 per cent of the total bid, must be left at the office of the Business Manager on or before 12 o'clock m. on Wednesday, September 3, 1941. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for opening bids. The School Committee reserves the right to reject any or all bids, and to accept the bid which it deems best for the interests of the city. The successful bidder will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, AUGUST 30, 1941. NO. 35

MAYOR TOBIN VETOES ANTI-VIVISECTION ORDINANCE PASSED BY CITY COUNCIL — IN RETURNING MEASURE DISAPPROVED HE CITES OPINION OF CORPORATION COUNSEL THAT MEASURE IS INVALID ON ITS FACE AND ALSO THAT SUBJECT IS NOT ONE WHICH IS IN JURISDICTION OF CITY GOVERNMENT TO PASS UPON BUT IS A MATTER FOR STATE LEGISLATIVE DETERMINATION — PRECEDENTS IN OTHER STATES HAVE NO BEARING ON MASSACHUSETTS MUNICIPALITIES' ACTIONS IN DETERMINING VALIDITY OF AN ORDINANCE, HENCE RULING QUOTED AND ACTION TAKEN.

Upon August 25 Mayor Tobin submitted the following communication to the City Council:

To the City Council.

GENTLEMEN,— I return herewith, without my signature and disapproved, the ordinance adopted by your Honorable Body on August 4, 1941, purporting to regulate the sale, gift or transportation of animals to be used in vivisection. This action is made necessary on account of the inclosed opinion of the Corporation Counsel to the effect that the ordinance is not only invalid on its face, but also that the subject is not one which is within the jurisdiction of the City Council.

Respectfully,
MAURICE J. TOBIN, *Mayor.*

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— I wish to acknowledge the receipt of your recent letter requesting an opinion as to the validity of a proposed ordinance transmitted to you by the City Council and received by you on August 18, 1941. The proposed ordinance is quoted below:

"AN ORDINANCE PROHIBITING THE SALE OF ANY ANIMAL FOR VIVISECTION UNLESS SAID SALE IS AUTHORIZED BY COMMISSIONER OF POLICE AND REQUESTED BY EXECUTIVE BOARD PRESIDENT, DEAN OR MANAGER OF ESTABLISHED AND RECOGNIZED SCHOOL OF MEDICINE OR ANATOMY OR THE MANAGER OR DIRECTOR OF ESTABLISHED AND RECOGNIZED HOSPITAL LABORATORY.

Be it enacted by the City Council of the City of Boston and by the authority invested in same, as follows:

The sale, gift or transportation of any animal for vivisection purposes is hereby prohibited within the jurisdiction of the city of Boston unless said sale is authorized by the commissioner of police who shall have authority to grant such authorization only upon receipt of a formal request, setting forth intended use and imperative need for said animal from executive board president, dean or manager of established and recognized school of medicine or anatomy located in the commonwealth of Massachusetts and incorporated under the statutes thereof, or from the manager or director of a duly accredited medical laboratory operated within said commonwealth.

Violations and infractions of said ordinance shall be punished by a fine of not more than one hundred dollars ($100) or by imprisonment of not more than thirty (30) days or both."

No Legal Standing.

For the reasons set forth below, I am of the opinion that the foregoing ordinance is beyond the powers vested in the City Council and would not, upon approval as provided in the City Charter, constitute a legal enactment. The subject with which it deals is clearly a matter for legislative and not municipal regulation.

The power of a municipality in Massachusetts to make ordinances is derived from the Commonwealth. The scope of that power is limited and defined by the controlling statutes enacted by the General Court. "An ordinance which goes beyond the authority conferred by the enabling statute is invalid." Cawley *v.* Northern Waste Co., 239 Mass. 540, 544. The constitution and statutes of a state other than Massachusetts, and the ordinances enacted under their apparent authority, afford no precedent in determining the validity of an ordinance enacted by a Massachusetts municipality.

The ordinance-making power of the City of Boston has been derived from Acts of 1854, chapter 448, section 35, and from General Laws (Ter. Ed.), chapter 40, section 21. The former statute provided:

"They (the mayor, aldermen, and common council of Boston) shall have power to make all such needful and salutary by-laws and ordinances not inconsistent with the laws of this commonwealth, as towns by the laws of this commonwealth have power to make and establish, and to enact penalties not exceeding fifty dollars for the breach thereof . . ."

(See Acts of 1909, chapter 486, section 1.) The latter of the two statutes above referred to provides in part:

"Towns may for the purposes hereinafter named make such ordinances and by-laws not repugnant to law, as they may judge most conducive to their welfare, which shall be binding upon all inhabitants thereof and all persons within their limits. They may, except as herein provided, affix penalties for breach thereof, not exceeding twenty dollars for each offence . . ."

(Continued on page 991.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

ORDINANCE REPORT.

(*Continued from page 989.*)

"Towns", as used in the section just quoted, includes "cities." Gen. Laws (Ter. Ed.), chapter 40, section 1.

The section last above quoted (section 21) includes numerous clauses setting forth the purposes for which ordinances may be made. The clause pertinent to the issue here raised reads as follows:

"(1) For directing and managing their prudential affairs, preserving peace and good order, and maintaining their internal police."

The proposed ordinance above quoted purports to deal with the sale, gift or transportation of animals for vivisection purposes within the City of Boston. Leaving aside those parts of the quoted clause which concern the prudential affairs and the peace and good order of municipalities, which are both equally inapplicable, I pass to the words, "maintaining their internal police." The subject matter of the proposed ordinance is not a local or internal regulation. It touches upon a matter of general concern, the ramifications of which extend far beyond city limits. Such a matter is clearly beyond the scope of municipal ordinance-making. As stated by Lummus, J., the words "maintaining their internal police" "do not transfer to municipalities the entire police power of the Commonwealth, and do not enable a city to establish a local policy in important matters of general concern, like the prohibition or regulation of the sale of liquor." Commonwealth *v.* Kimball, 299 Mass. 353, 357. Breadth of statutory language must not be interpreted to constitute a delegation by the Legislature of its whole power of legislation. Commonwealth *v.* Turner, 1 Cush. 493. The emphasis in the statutory clause falls especially upon the word "internal."

I conclude, therefore, that it is not within the authority of the City Council to enact ordinances dealing with the subject of vivisection, or with the sale, gift or transportation of animals, whether or not to be used for vivisection. Neither of these matters comes within the general powers included in clause (1) above quoted, and neither is embraced within any of the special powers delegated by the General Court to the City of Boston.

Even if the City Council had the power to deal with the subject-matter referred to, the proposed ordinance is otherwise illegal. The penalty provided for its violation is a fine of not more than $100 or imprisonment for not more than thirty days or both. As indicated earlier in this opinion, the municipal government of Boston has no power to provide a penalty amounting to $100. Furthermore, it has no power to prescribe imprisonment for the violation of an ordinance.

Sincerely yours,

ROBERT CUTLER,
Corporation Counsel.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several concerns, contractors, etc., for furnishing supplies, labor, etc. Communications from the heads of the departments interested were as follows:

ASSESSING DEPARTMENT.

BOSTON, August 7, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Under the provisions of the City Charter of Boston, chapter 486, section 30, Acts of 1909, as amended, with reference to expenditures in the nature of contract for hire upon sums greater than $1,000, the following request is made:

During the early weeks of March, 1941, it became necessary for the Assessing Department, in cooperation with the Survey Committee, to anticipate bookkeeping machine needs for preparing the tax list and commitment list on real estate. Due to the absorption of certain industries in United States defense work, it became apparent that if this department were to make certain that machines of this type (the purchase cost of them is in the vicinity of $1,800) were to be available for hire, that an early arrangement would have to be made. Accordingly, the Remington-Rand, Inc., representative was contacted, as the result of which it was agreed that the Assessing Department was to hire, for a period of two months, ten Remington-Rand bookkeeping machines, equipped with sufficient automatic registers for column totals, and line accumulators, to prepare the new list insisted upon by the Tax Commissioner for the first time in 1941.

These machines cost, for hire, $75 each; ten machines, $750, for one month; for two months, $1,500, and hired as of May 13, 1941, to July 13, 1941. An office expense on four machines owned resulted in an expenditure for hired registers amounting to $87.75.

In addition to the above, it has since been determined that these same machines will be needed for still another month, adding $750 to the total cost of hiring for these ten machines; and that three more machines would be needed to accomplish an early completion of listing all wards of real estate. This adds $225 for one month for three additional machines.

Summary: Ten machines hired May 13 to July 13, $750 per month, $1,500; ten machines hired July 13, to August 13, $750 per month, $750; three machines hired August 4 to September 4, $225 per month, $225; hire of registers March 13 to June 28, 1941, $87.75.

In view of the fact that all of these items of cost for hiring relate to the same company, and that the aggregate sum is in excess of $1,000, the Assessing Department desires your approval of the expenditure in the manner outlined above; and officially records itself as believing that the best interests of the city have been maintained in the expenditure, more particularly in view of the fact that, having in 1938 purchased four such machines, it appears to have been the better part of wisdom and practice to utilize, where needed, the same kind of equipment to supplement owned machines.

Respectfully,

BOARD OF ASSESSORS,
by JOHN J. WALSH,
Principal Assessor.

FIRE DEPARTMENT.

BOSTON, July 29, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Subject to your Honor's approval I will award the following repair work on Fireboat Engine 47, without advertising, to the Bethlehem Steel Company, Boston, Mass., for the sum of $1,203:

Drydock, clean and paint bottom with paint as selected.

Clean all strainers; replace all defective screws on strainers.

Examine five seacocks and repair where necessary.

Renew middle pintle strap on rudder and lower gudgeon strap on stern post.

Renew lower pintle strap.

Refasten lower forward end of skeg to stern post and renew all broken fastenings.

Search and calk under counter around horn timber and port and starboard sides of stern.

Remove and fair quadrant and fit guards in way for guides for chains.

Renew stern post knee in archway.

Renew decayed wood in rudder.

Renew two sheets of copper sheathing on hull under stern.

Remove and replace rudder to effect repairs.

Necessary drydocking and lay days included.

All the foregoing work was ordered done by the United States steamboat inspectors in accordance with Federal Steamboat Regulations.

Nothing would be gained by publicly advertising this work, as the Bethlehem Steel Company is the only firm in Boston having proper facilities for making these repairs.

Very truly yours,

WM. ARTHUR REILLY,
Fire Commissioner.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, August 19, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—On July 11, 1941, the Supply Department, acting for this department, publicly opened and read bids for furnishing and erecting structural steel at the site of the Old Fire Station No. 29, Chestnut Hill avenue, Brighton, with the following results:

Waghorne-Brown Company, $3,597.92; Progressive Iron Works, Inc., $3,921.29; Groisser & Shlager Iron Works, $3,845.67; West End Iron Works (only proposal which included erection), $5,160.40.

Inasmuch as the first three bidders shown above did not include an estimate for the erection of the structural steel it was deemed advisable to invite them to submit supplementary bids for the erection. This resulted in final proposals as shown herewith:

Waghorne-Brown Company, $4,437; Progressive Iron Works, Inc., $4,616; Groisser & Shlager Iron Works, $4,705; West End Iron Works, $5,160.40.

In consideration of the foregoing, I respectfully request permission to award a contract without further public ad-

vertising for the delivery of all of the structural steel indicated in the specifications and the erection of same, to the Waghorne-Brown Company, the lowest bidder, at a price of $4,437.

Respectfully yours,

Leo F. Power,
Superintendent of Public Buildings.

Public Works Department.

Boston, July 9, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,— The current so-called ten-year contract for the disposal of garbage and refuse in certain designated sections of the city will expire on July 1, 1942.

I feel that it is necessary and advisable at this time to engage the services of a reputable and qualified consulting engineer to make a thorough study and recommendations of all matters affecting the disposal of refuse materials in the sections included in the present ten-year contract, in order that the department may, at the termination of the present contract, adopt the most practical system for the disposal of the above-referenced waste materials.

As the bid price in a study of this kind is not a main factor in the award of a contract, I do not feel that there will be any advantage in publicly advertising for bids. The most important matters to be considered are those affecting the reputation of the consultant, his integrity, and qualifications for making a study of this kind. Taking all these factors into consideration, I feel that the interests of the city would be best served if a contract of this type were awarded to the engineering firm of Metcalf & Eddy.

I therefore recommend that a contract be awarded, in an amount of $3,500, to the latter-referenced firm, whose offices are in the Statler Building, Boston, providing for the above-referenced type of study and recommendations in connection with all matters affecting the disposal, at the termination of the present contract, of garbage and refuse in those districts included in the current ten-year contract that is being prosecuted by the Coleman Disposal Company.

Respectfully yours,

George G. Hyland,
Commissioner of Public Works.

Supply Department.

Boston, June 6, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,— In connection with the installation of the inventory control system for the various city departments now being performed by Cooley & Martin, industrial engineers, which has been in progress for some time under the direction of Mr. Leo T. Foster, Director of the Survey Committee, in connection with this department, it is necessary to purchase visible equipment cards, auxiliary sheets and cabinets as essential for the proper recording of basic prices, consumption and stores control information at the various city departments.

After investigation of various systems by Cooley & Marvin and the Survey Committee, the Acme Insite cabinets with the necessary auxiliary records were decided upon as the most desirable and efficient installation for keeping the necessary records. This equipment is the only visible record device, as far as is known, which has a double-duty offset feature which makes it possible to move the cards and related auxiliary sheets attached thereto to the right or left of their neutral position, thus providing convenient and practical automatic signalling.

This equipment is handled exclusively by Thomas Groom & Co., and I would respectfully request that permission be granted me to award a contract to the above named company without public advertisement at a total cost of $3,347.13.

I am attaching hereto detailed specifications of the material involved.

Respectfully yours,

Charles E. Thornton,
Acting Superintendent of Supplies.

—

Boston, July 31, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Under date of June 16, 1941, bids were asked under public advertisement for the furnishing of anthracite and semi-bituminous coal to the various city departments for a period from July 1, 1941, to December 31, 1941, with the privilege of purchasing on the same terms and conditions extended to April 30, 1942. One of the items asked for was the delivery of approximately 7,000 gross tons of semi-bituminous coal to the Institutions Department at Long Island. The only bid received was from the Staples Coal Company, and they had inserted in their proposal prohibitive clauses which made its acceptance by the city impossible.

A readvertisement of this item of 7,000 tons of semi-bituminous coal was opened in this office under date of July 24, 1941. The only bid received was from the White Fuel Corporation, which quoted a price of $9.56 per gross ton for run of mine coal, or $9.47 per gross ton on nut and slack coal. These prices are higher than have been paid by the City of Boston during recent years but this difference is explained by the impending scarcity of marine transportation, higher mine prices and consumer demand, all of which serve to increase costs.

I would respectfully recommend that permission be granted me to award a contract to the White Fuel Corporation for furnishing 7,000 tons of semi-bituminous coal in the bins at Long Island at the prices shown on the attached sheet, with an option in the contract that the city may order shipments of either run of mine or nut and slack coal in order to insure a continuous supply of fuel in case a serious shortage of either size occurs during the period of this contract.

The period of the contract shall be from August 1, 1941, to December 31, 1941, with the privilege of purchasing on the same terms and conditions extended to April 30, 1942, if authorized by the Mayor of Boston. The approximate amount of the contract will appear on the attached sheet. I am attaching report of the Perry Barker Engineering Company recommending this award.

Respectfully yours,

Charles E. Thornton,
Acting Superintendent of Supplies.

Treasury Department.
Boston, August 26, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—On July 16, 1941, the Acting Mayor approved my request for permission to award, without advertising, to the Vose-Swain Engraving Company, Boston, Mass., the work necessary in connection with the preparation of 5,680 bond certificates. The agreed price was 40 cents per bond, or $2,272 for the total.

Due to an unavoidable delay in securing the approval of the Emergency Finance Board on the Funding Loan, we were unable to provide the required information to the Vose-Swain Engraving Company to allow them to begin preparation of the bonds until approximately ten days before delivery of the bonds to the successful bidder was promised. This delay necessitated overtime work on the part of the Vose-Swain Company in order that the bonds be delivered on time.

In view of these facts, I respectfully request your approval to amend the amount of the award from $2,272 to $2,730.20.

Very truly yours,

James J. McCarthy,
City Treasurer.

MAYOR TOBIN REPLIES TO THE STATEMENT BY EX-MAYOR ON ATLANTIC AVENUE "L" REMOVAL.

Upon August 22 Mayor Tobin issued the following statement concerning suggested demolition of the Atlantic avenue branch of the Boston Elevated road:

I have read with interest the report of former Mayor Fitzgerald's inquiry, in behalf of the Boston Port Authority, as to whether the Public Trustees of the Boston Elevated Railway could do anything now to expedite the demolition of the Atlantic avenue elevated structure.

Throughout my administration I have urged that this abandoned and unprofitable structure be removed, in order to relieve traffic congestion and improve property values along the Atlantic avenue waterfront.

On August 12, 1939, the Legislature, on my petition, enacted chapter 482 of that year. This statute ordered the Elevated to remove the Atlantic avenue elevated structure at its own expense, and revoked its franchise in that location. Within a month, the Elevated Directors, in behalf of the stockholders, exercising a right provided in the statute, filed a petition in the Supreme Judicial Court to determine the constitutionality of the statute. The Directors named as defendants the City, its Transit Department, the Commonwealth and the Public Trustees.

In the subsequent proceedings before the Supreme Judicial Court the City upheld the right of the Legislature to direct the demolition of the elevated structure without compensation. A joint brief to this effect was filed by the Corporation Counsel and the then Attorney-General, Paul A. Dever.

Since the argument before the Supreme Judicial Court in May, 1940, the matter has been pending for decision in that court.

Except by agreement of the Elevated Directors, no further action can be taken in accordance with the statute until the Supreme Judicial Court has spoken. However, in line with my efforts to bring about the demolition of this unnecessary structure, termed by the Legislature a "nuisance in the public highway," I would welcome any valid proposal from the Elevated Directors looking to the prompt demolition of the Atlantic avenue elevated structure and the present realization of its high scrap value, the net proceeds of salvage to be held pending judicial determination of rights therein. Such a program is all the more desirable at this time in view of urgent national defense requirements for steel.

Maurice J. Tobin,
Mayor of Boston.

CIVILIAN DEFENSE RALLY.

The City of Boston Committee on Public Safety held a Civilian Defense Rally on Thursday evening, August 28, at 7.30 p. m., at the Hatch Memorial Shell, on the Esplanade.

A varied program of speakers and entertainment was furnished. The principal feature of the meeting was a report by Mayor Maurice J. Tobin on the accomplishments of the Public Safety Committee, which he established two months ago. The Mayor presented facts and figures showing the extent to which plans for the civilian defense of the city have been completed by the volunteer committee, working under the direction of Chairman William Arthur Reilly and Executive Director John J. Walsh. Chairman Reilly discussed future plans of the committee.

Entertainment was furnished by the Boston Firemen's Band, as well as by leading stars of stage, screen and radio, together with members of the W. P. A. Recreation Project. The Redberry Knights, recent winners of the Barber Shop Quartet Contest in Boston, offered several of their specialty numbers.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

Due to the structurally unsafe condition of the building at 51 Camden street, Ward 9, owned by Wash Washington and Ripley Washington of 190 Northampton street, Boston, to vacate and remove the building.

To raze the building at 82 West Eighth street, Ward 6.

To raze the buildings at 2576, 2578 rear and 2580 Washington street, Ward 12.

To vacate the building at 14 Bunker Hill street, Ward 2, as the structure is in an unsafe and dangerous condition.

Due to the structurally unsafe condition of the building at 49 Camden street, Ward 9, owned by the City of Boston, to enter the premises and vacate and remove the building.

On Monday, August 4, 1941, attention was directed to the very dangerous condition of the building at 180 West Ninth street, Ward 7, which required emergency action to prevent injury to the public; therefore, without delay, Daniel Marr & Son Company, 384 Dorchester Avenue, South Boston, were ordered to enter the premises and raze the building. Razing operations have been completed in compliance with established regulations and a bill, in the amount of $220, submitted to this department.

On Tuesday, July 29, 1941, attention was directed to the very dangerous condition of the building at 12 Chestnut street, Charlestown, which required emergency action to prevent injury to the public; therefore, without delay, the New England Building Wrecking Company, 31 State street, Boston, were ordered to enter the premises and raze the building. Razing operations have been completed in compliance with established regulations at a cost to this department of $289.

POLICE DEPARTMENT ORDERS.

General Order No. 633.

The resignation of Patrolman Walter E. Foley of Division 4, having been presented, it is hereby accepted, to take effect Tuesday, August 26, 1941, at 7.45 o'clock a. m., seven days' notice waived.

The Acting Superintendent of Police will promulgate this order.

Edward W. Fallon,
Acting Police Commissioner.

AMENDED DAMAGES.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of August 9, 1938, as amended May 29, 1941, determining damages caused by the making of the public improvement consisting of the laying out of Glenham street, be, and the same hereby is, amended, by adding to said order the amount $125 as an award to John F. McCarthy and Margaret J. McCarthy, husband and wife as tenants by the entirety; that the amount $125 be, and the same hereby is, awarded to John F. McCarthy and Margaret J. McCarthy husband and wife as tenants by the entirety, for the damages so sustained.

Voted, That the order of the Street Commissioners and Mayor of July 21, 1939, as amended August 2, 1941, determining damages caused by the making of the public improvement consisting of the laying out of Daly street, be, and the same hereby is, amended, by adding to said order the amount $45 as an award to Louise G. Abbott; that the amount $45, be, and the same hereby is, awarded to Louise G. Abbott for the damages so sustained.

LOCATION OF STREETS.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the location, direction, width and grade of the private way in the West Roxbury district, designated as Wedgewood road, between Weld street and Buchanan road, as shown on a plan approved in writing by the Board of Street Commissioners, and on file in the office of the Street Laying-Out Department, be, and the same hereby is, approved.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvement, consisting of the discontinuance of part of Mall street and the widening of Mall street, at Eustis street, Roxbury district, under the order of the Board of July 29, 1941, and awards no damages therefor.

CITY COUNCIL PROCEEDINGS.

(*Continued from page 999.*)

If, after an investigation by department engineers, it is deemed necessary to resurface the above-referenced street, every reasonable effort will be made to effect the proposed improvement during the current year, either as a W. P. A. project or under the contract system.

Very truly yours,
George G. Hyland,
Commissioner of Public Works.

Severally placed on file.

RECONSTRUCTION OF WILLIAMS AVENUE.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of June 30, 1941, concerning the reconstruction of Williams avenue in the Fairmount section of Ward 18.

Respectfully,
Maurice J. Tobin, Mayor.

—

City of Boston,
Public Works Department,
August 5, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.

From George G. Hyland, Commissioner, Public Works Department.

Subject: Williams Avenue, Ward 18.

I return herewith order in City Council that the Commissioner of Public Works reconstruct Williams avenue in the Fairmount section of Ward 18.

This will advise you that this street will be submitted for approval on a W. P. A. project for reconstruction of the roadway and the installation of sidewalks on that portion between the Milton line and Highland street.

George G. Hyland,
Commissioner of Public Works.

CONSTRUCTION OF CERTAIN WARD 18 STREETS.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of August 4, 1941, concerning making immediate plans for the acceptance and construction, by private contract, of the following streets in the Hyde Park district of Ward 18:

Blake street, Danbury road, Rosa street and Riverside square.

Respectfully,
Maurice J. Tobin, Mayor.

—

City of Boston,
Public Works Department,
August 15, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.

From George G. Hyland, Commissioner, Public Works Department.

Subject: Blake Street, Danbury Road, Rosa Street, Riverside Square.

I return herewith order in City Council that the Commissioner of Public Works make immediate plans for the acceptance and construction, by private contract, of the following streets in the Hyde Park district of Ward 18:

Blake street, Danbury road, Rosa street, Riverside square.

A contract for the surfacing of the sewer trench in Blake street has been advertised for bids by the Sewer Division.

Bids for the construction of Danbury road have been received from various contractors, and the contract for this work will be awarded within a short time.

Rosa street, from River street northerly, is a private way and will have to be accepted by the Board of Street Commissioners before the Highway Division of the Public Works Department can do any work therein.

Riverside square, from River street to Riverside square, is in the same category as Rosa street, and the same procedure must be followed.

George G. Hyland,
Commissioner of Public Works.

GIFT OF LAND BY CARDINAL O'CONNELL.

The following were received:

City of Boston,
Office of the Mayor, August 16, 1941.

To the Honorable the City Council.

Gentlemen,—His Eminence, William H. O'Connell, the Roman Catholic Archbishop of Boston, has tendered to the City of Boston a deed of two parcels of land, containing approximately 17,511 square feet together with the buildings thereon, situated on the southwesterly side of Vernon street in the Roxbury district of the City of Boston. It is the request of his Eminence that the said gift of land be accepted by the City of Boston and the two parcels of land described in the said deed be used by the City of Boston for park and playground purposes.

The said two parcels of land are located in a very highly congested area and are ideally situated for a children's playground.

I transmit herewith an order whereby the gift of the Roman Catholic Archbishop of Boston may be accepted by the City of Boston and the premises described in said deed may be placed in the care, custody, control and management of the Park Department of the City of Boston to be used for park and playground purposes.

I recommend the passage of the inclosed order.

Respectfully,
Maurice J. Tobin, Mayor.

—

Whereas, The Roman Catholic Archbishop of Boston, a corporation sole, duly organized under the laws of the Commonwealth of Massachusetts, is the owner of two adjacent parcels of land, containing approximately 17,511 square feet together with the buildings thereon, situate on the southwesterly side of Vernon street in the Roxbury district of the City of Boston. The said two parcels of land were acquired by the Roman Catholic Archbishop of Boston by deed recorded with Suffolk Deeds, Book 2548, page 50; and

Whereas, His Eminence, William H. O'Connell, the Roman Catholic Archbishop of Boston, desires to make a gift of the said two parcels of land together with the buildings thereon to the City of Boston to be used by the City of Boston for park and playground purposes and has tendered a deed thereof satisfactory in form to the Law Department of the City of Boston; now, therefore, it is hereby

Ordered, That the gift by deed from the Roman Catholic Archbishop of Boston of the said two parcels of land, containing approximately 17,511 square feet together with the buildings thereon, situated on the southwesterly side of Vernon street in the Roxbury district of the City of Boston, and more fully described in the said deed accompanying this order, be, and it is hereby, accepted by the City of Boston; and it is hereby further

Ordered, That the said two parcels of land together with the buildings thereon be, and they hereby are, placed in the care, custody, control and management of the Park Department of the City of Boston to be used for park and playground purposes.

—

City of Boston,
Office of the Mayor, August 2, 1941.

To the Honorable the City Council.

Gentlemen,—His Eminence William Cardinal O'Connell, President and Treasurer of The Working Girls' Home, a Massachusetts corporation, being duly authorized and acting in behalf of said corporation, has graciously tendered to the City of Boston a deed of a parcel of land, containing about 9,000 square feet and situated on the northerly side of Malden street in the South End district of the City of Boston, and it is the request of his Eminence that the said gift of land be used for a playground for small children and a mothers' rest.

This parcel of land is ideally situated for a playground for small children and a mothers' rest, as it is located in a highly congested area of the City of Boston.

I transmit herewith an order whereby the gift of said parcel of land may be accepted by the City of Boston and placed in the care, custody, control and management of the Park Department of the City of Boston, to be used for the expressed intention of his Eminence William Cardinal O'Connell. I recommend the passage of the inclosed order.

Respectfully yours,
Maurice J. Tobin, Mayor.

—

Whereas, The Working Girls' Home, a Massachusetts corporation, is the owner of a certain parcel of land, containing about 9,000 square feet, situated on the northerly side of Malden street, South End district of the City of Boston, said parcel of land having been acquired by said corporation by deed recorded with Suffolk Registry of Deeds, Book 5381, page 129; and

Whereas, The Working Girls' Home, acting by and through its President and Treasurer, his Eminence William H. O'Connell, he being duly authorized by vote of said corporation, desires to make a gift by deed of said parcel of land to the City of Boston to be used by said City of Boston for playground and recreational purposes; now, therefore, it is hereby

Ordered, That the gift by deed of said parcel of land, situated on the northerly side of Malden street, South End district of the City of Boston,

and containing about 9,000 square feet and more fully described in said deed accompanying this order, be, and hereby is, accepted by the City of Boston; and it is hereby further

Ordered, That the said parcel of land be, and hereby is, transferred in the care, custody, control and management of the Park Department of the City of Boston, to be used for playground and recreational purposes.

Severally referred to Executive Committee.

SALE OF LAND AT MALL AND EUSTIS STREETS.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1941.

To the Honorable the City Council.

Gentlemen,—I present herewith an order for the sale of a certain parcel of city-owned land containing approximately 734 square feet, situated on the southwesterly side of Mall street, at the junction of Mall and Eustis streets, in the Roxbury district, to James F. Gabriele, at the minimum price of twenty-five cents ($0.25) a square foot.

This parcel of land formerly contained city scales but the same have been dismantled and for many years this land has been vacant and is now no longer needed for public purposes.

James F. Gabriele recently purchased the adjacent parcel of land from the City of Boston, Foreclosed Real Estate Division, at public auction at a price of twenty-five cents ($0.25) a square foot.

I am of the opinion that a sale of this parcel of land at the price of twenty-five cents ($0.25) a square foot should be made to James F. Gabriele without public auction.

I recommend passage of the accompanying order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Whereas, The City of Boston is the owner of a certain parcel of land containing approximately 734 square feet, situated on the southwesterly side of Mall street, at the junction of Mall and Eustis streets, in the Roxbury district of the City of Boston. This parcel of land hereinafter described was acquired by deed dated December 28, 1860, and recorded with Norfolk Deeds, Book 296, page 16; and

Whereas, The said parcel of land is no longer needed for public purposes; and

Whereas, James F. Gabriele of Boston is the owner of the adjoining parcel of land and is desirous of acquiring the said parcel of land; now, therefore, it is hereby

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized to sell without public auction, at a minimum price of twenty-five cents ($0.25) a square foot, to James F. Gabriele the said parcel of land and to execute and deliver a deed thereof satisfactory in form to the Law Department of the City of Boston. The said parcel of land is bounded and described as follows:

Northerly by Mall street, thirty-three and 31–100 (33.31) feet; easterly by land now or formerly of James F. Gabriele by two measurements, seven and 80–100 (7.80) feet and twenty-two and 20–100 (22.20) feet; southerly by Eustis street, thirty-three and 33–100 (33.33) feet; westerly by Mall street, by two measurements, five and 26–100 (5.26) feet and nine and 95–100 (9.95) feet, containing 734 square feet of land, more or less. The above described parcel of land and all of said measurements are shown on a plan marked "City of Boston, Eustis Street, Mall Street, Roxbury, June 14, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," on file in the office of the Street Laying-Out Department, City Hall Annex, Boston, Mass.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, August 4, 1941.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $25,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, July 22, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $25,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of	$25,000

When making up the budget estimates for the year 1941, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1941, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Very respectfully yours,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of $25,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended, under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of	$25,000

Referred to Executive Committee.

MEMORIAL TO ALICE E. GALLAGHER.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1941.

To the City Council.

Gentlemen,—The City of Boston recently named a playground in the Brighton section of Boston in memory of Alice E. Gallagher.

Mrs. Gallagher for many years prior to her death was extremely active in civic and charitable affairs throughout the Brighton district. She was a lady of fine character, of charitable impulses, of generous nature and tireless in her desire to be of help and service to her fellowman. I think it most appropriate that this park be named in her memory, and I think also that a suitable memorial should be erected on that park, so that the name of Alice E. Gallagher will forever be recalled as an example of high, spiritual womanhood. Incidentally, Mrs. Gallagher was the wife of a former member and former President of your Honorable Body.

The attached order provides for an appropriation of $400, to be expended under the direction of the Art Department, and I hereby recommend passage of this order which will cover the cost of a suitable tablet in memory of Mrs. Alice E. Gallagher.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That the sum of four hundred dollars ($400) be, and the same hereby is, appropriated, to be expended under the direction of the Art Department, for the erection of a memorial marker to be set on the Alice E. Gallagher Park in the Brighton district, in memory of the late Alice E. Gallagher, to be charged to the income of the Phillips Street Fund.

Referred to Executive Committee.

TRANSFER IN WATER DIVISION.

The following was received:

City of Boston,
Office of the Mayor, August 18, 1941.

To the City Council.

Gentlemen,—I am advised by the Commissioner of Public Works that in order to operate the Water Division on an efficient basis during the remainder of the current year it is essential to transfer funds from the revenue account of this division to the following budgetary groups:

B.	Contractual Services	$25,000
C.	Equipment	25,000
D.	Supplies	3,050
E.	Materials	20,200
F.	Special Items	5,500
	Total	$78,750

I submit herewith an order providing for such a contingency and recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That to meet the current expenses payable during the financial year beginning with the first day of January, 1941, an additional sum of $78,750 be, and the same hereby is, appropriated from the income of the Water Service of the Public Works Department for the following purposes:

B.	Contractual Services	$25,000
C.	Equipment	25,000
D.	Supplies	3,050
E.	Materials	20,200
F.	Special Items	5,500
	Total	$78,750

Referred to Executive Committee.

SALE OF LAND AT COLUMBUS AVENUE AND RITCHIE STREET.

President GALVIN called up, under unfinished business, No. 1 on the calendar, viz.:

1. Order authorizing the sale at public auction of a parcel of land at the corner of Columbus avenue and Ritchie street, containing about 11,496 square feet.

On August 4, 1941, the foregoing order was read once and passed, yeas 18, nays 0.

The order was given its second reading and passage, yeas 17, nays 1, viz.:

Yeas—Coun. Carey, Chase, Englert, Fish, Galvin, Goode, Gottlieb, Hurley, Hutchinson, Kelly, Linehan, Russo, Shattuck, D. F. Sullivan, Taylor, Ward, Wickes—17.

Nays—Coun. Coffey—1.

INCREASE OF ALLOWANCES TO RELIEF RECIPIENTS.

Coun. CAREY offered the following:

Ordered, That the Overseers of Public Welfare be requested, through his Honor the Mayor, to immediately consider the possibility of increasing the allowances of recipients of the various forms of relief in order to meet the rising costs of food and other necessaries.

Coun. CAREY—Mr. President, there is much that can be said relative to that order. However, the facts are there and they are visible and, therefore, very little, as a matter of fact, needs to be said about it. We all know that the cost of living regardless of what the article is, whether food or other necessaries, has greatly increased within the last few months. The budget allowed to recipients of Old Age Assistance, Mothers' Aid, Dependants' Aid, for the last few years has been barely enough to provide a mere existence and with the advance that has taken place in the last few months, it certainly is a very difficult matter for

those to get along who are trying to live and exist on the allowances now being given. I certainly hope this order will be given immediate attention by the Overseers of Public Welfare and that some addition will be made to the allowance now being granted.

Passed under suspension of the rule.

CONDEMNATION OF ELEVATED STRUCTURE, ATLANTIC AVENUE.

Coun. TAYLOR offered the following:

Ordered, That the Building Commissioner be requested, through his Honor the Mayor, to condemn the overhead elevated structure on Atlantic avenue as a nuisance, as dangerous to the health and safety of the people of the City of Boston, and that proper proceedings be started to compel the Boston Elevated Railway Company to raze this structure.

Coun. TAYLOR—Mr. President, for many years this overhead elevated structure has been an eyesore to the public of Boston. It has not been used for a long period of time. The City Council has attempted on many occasions to have this structure removed, but the Elevated stockholders refuse to do anything about it and they are requesting an exorbitant sum for the removal of the same. Now the time has come, I believe, when the Boston Elevated Railway Company should cooperate with the City of Boston. We all know they have been given everything by the Legislature out of the pockets of the taxpayers of the City of Boston and it is about time that they did something in return for those good dividends they receive annually notwithstanding the fact that the concern operates at a loss. We, the City Council, have given them many bus permits. We give them many permits for the purpose of running their elevated in a way they see fit. We have given them a beautiful new subway out Huntington avenue, but not once do they lift their finger to assist the people of Boston. I say now is the opportunity for the Elevated officials to display some patriotic spirit at this particular time. The steel that was used in this structure can be used to great advantage by those who are trying to defend our country. As a national defense act, I should think they ought to do something and take down that steel structure and give it or sell it to the Government officials so we may be able to use it in a more presentable manner than we are using it at the present time. Since the Elevated officials do not see fit to take any action to help the City of Boston in this respect, as I was in hope this overhead highway would go through, so we could see this terrible structure come down, since it has failed in the Legislature, I say it is time that the Building Commissioner of Boston should act to take some action on his part to force the Elevated officials to tear down this structure that is not being used and that is an eyesore and a menace to the health and safety of the public of the City of Boston. I say if the Building Commissioner does this, that he will enable the City of Boston to dispose of something which they have been attempting to get rid of for many years and since the Elevated does not see its way clear to do it itself, I think the City of Boston ought to take proper action.

Coun. GOODE—I agree with the councilor from Ward 12. Some months ago I introduced a similar order, but I also included the old street car rails and requested they be removed as a contribution to the national defense. The facts show that in the streets of Boston there are over 232,000 tons of old abandoned street car rails which are a menace to the health and safety of the residents of Boston and that in the Atlantic avenue structure alone there are over 9,000 tons of steel, 1,000 tons of rail, 2,000 tons of miscellaneous steel. I say some steps should be taken to remove this menace. I am introducing an order to request the Mayor to confer with the Boston Elevated officials and W. P. A. officials to provide employment for them and also elderly men who cannot be used in defense work, so they may be employed in this project of removing the steel rails and I hope to see the elevated structure on Atlantic avenue removed.

Coun. SHATTUCK—Mr. President, there is a case pending in court which relates to the right to remove the elevated structure and whether the company has got to be compensated or not. That case has not been decided and I imagine it would be difficult to act pending decision, or difficult to act as suggested. It occurs to me possibly the Elevated authorities might be persuaded to tear down the structure without prejudice to whatever rights they may have. They are not using it. They do not propose to use it. Therefore, there is no reason from that point of view why it should not be torn down and so far as compensation is concerned, that can be decided after it has been torn down. If later it is decided that the company should be paid compensation, some arbitration or other method for arriving at the compensation can be arrived at. If it were done now without prejudice we would have the road and the highway clear of the obstruction and could have the use of the steel and the right of the parties might be saved.

Passed under suspension of the rule.

Coun. GOTTLIEB in the chair.

BEECH GLEN STREET, WARD 11.

Coun. ENGLERT offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface with smooth pavement and to install sidewalks upon Beech Glen street, Ward 11.

Passed under suspension of the rule.

SIDEWALK AT 833 COLUMBIA ROAD, WARD 13.

Coun. HUTCHINSON offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to install a granolithic sidewalk in front of 833 Columbia road, Ward 13.

Passed under suspension of the rule.

DELAY ON BLUE HILL AVENUE HIGHWAY.

Coun. GOTTLIEB and GOODE offered the following:

Whereas, The City of Boston planned the construction of a double-barreled highway on Blue Hill avenue, from Seaver street to American Legion Highway; and

Whereas, Said highway was to have been completed within three years from 1939; and

Whereas, National Defense and the safety of residents in that section of Dorchester require immediate completion of said highway; therefore be it

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to explain the reason why said highway is not proceeding according to schedule; and be it further

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately proceed with the work on said highway.

Passed under suspension of the rule.

RECOMMENDATION FOR APPOINTMENT OF DAVID SCOLL.

Coun. GOTTLIEB and GOODE offered the following:

Whereas, The transfer of ex-Congressman Dempsey of the Maritime Commission to Under Secretary of the Interior creates a vacancy in the Maritime Commission; and

Whereas, Such states as Wyoming, which scarcely has a navigable river and practically no shipping interests, are represented on that commission; be it

Resolved, That the Boston City Council does hereby support and recommend the appointment to said commission of David Scoll of Boston, recently placed on the staff of the Maritime Commission by former Ambassador and first chairman of the Commission, Joseph P. Kennedy, to the end that the shipping interests of New England and the Port of Boston which has suffered recent immeasurable setbacks receive its proper recognition and representation, and that a copy of this resolution be forwarded to President Franklin D. Roosevelt and the Speaker of the House of Representatives.

Referred to Committee on Rules.

PAYMENT OF AID TO SOLDIERS AND SAILORS.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted report recommending payment of aid to soldiers and sailors and their families in the City of Boston for the month of August.

Report accepted; said order passed.

ACCEPTANCE OF LEASE OF BRIGHTON LAND.

Coun. M. H. SULLIVAN offered the following:

Ordered, That the trustees of the George Robert White Fund and the Park Commissioner be requested, through his Honor the Mayor, to devise immediate plans for the acceptance of a lease of 70,000 square feet of land at $1.00 per year from Elevated officials of the triangular plot bordered by Faneuil and Washington streets in the Oak square section of Brighton, for the construction of a playground area for children; and be it further

Ordered, That in the event there is no legal provision for such authorities to embellish such leased property, that the Corporation Counsel be requested, through his Honor the Mayor, to render an immediate opinion as to whether or not any means may be legally devised whereby the city may avail itself of such property, for park purposes.

Coun. M. H. SULLIVAN—Mr. President, at the last meeting of the City Council,—or two meetings ago,—an order was introduced requesting the Boston Elevated officials to convey to the City of Boston a plot of land bordered by Faneuil street and Washington street in Brighton,—the Oak square section, for the purpose of establishing a playground upon that unused area. Since that time I have had several conferences with Mr. Dana and the membership of the trustees of the Boston Elevated and only last week the Elevated authorities agreed they would convey to the City of Boston for $1 per year, 70,000 square feet of unused land for the purpose of constructing a play area in that district. Now I think the City of Boston should immediately avail itself of this opportunity to make use of this land for the construction of a playground in an area where it is sorely needed. I think while it could not be used for the establishment of baseball diamonds, it could be so used as to provide a very valuable play space for the smaller children of the district. I have asked in this order that the trustees of the George Robert White Fund take over this area at $1 per year, provided it is legal for them to do so. I have asked in the event it does not come within their power, that the Park Commissioner take over the same at $1 per year and establish a play area there. There may be some legal difficulty in view of the fact that the city cannot expend the money for the improvement of any land which it itself does not own and over which it has no indefinite lease, and for that reason I have asked, in the event both the trustees of the White Fund and the Park Commissioner think that there is no legal provision for them availing themselves of the use of this land, that then the Mayor of Boston confer with the Corporation Counsel for devising some means whereby the people of Brighton and the Oak square area may avail themselves of the use of this land. I think this is a very beneficent gesture on the part of the Elevated Trustees, whom I have criticized in this Body and elsewhere previously, but I believe they have cooperated most magnanimously with the people of Brighton as well as with the entire membership of this Body in so graciously answering their request with a favorable approval of the request, and I think the City of Boston should avail itself of the land for the construction of the play area. I am asking the Mayor of Boston, in the event it is illegal, to confer at once with the Corporation Counsel to see if some means may be devised whereby this area may be used as a play area. I have not stated in the order, but I feel possibly the City of Boston cannot spend money for the construction of a play area on the leased property, but they can pay a higher rental for the first year and have the Elevated Trustees make it a play area. They can pay them so much as would cover the cost of improving it and subsequently pay $1 a year for an indefinite period.

Passed under suspension of the rule.

DEATH OF CHARLES H. TAYLOR.

Coun. GALVIN offered the following:

Resolved, That the City Council of the City of Boston in meeting assembled hereby expresses its deep regret because of the death of Charles H. Taylor, a distinguished son of Boston, a brilliant and progressive journalist, an executive of remarkable skill, and a gentleman who contributed much to the education and happiness of mankind through the maintenance of the traditional high standards of his family's newspaper, the Boston *Globe*.

The resolution was unanimously adopted.

FREE RIDING FOR SERVICE MEN.

Coun. KELLY offered the following:

Ordered, That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to permit selectees and all service men in the United States Army, Navy, or Marine Corps to ride free on the Boston Elevated system.

REMOVAL OF UNUSED CAR TRACKS, WARD 17.

Coun. WICKES offered the following:

Ordered, That the Commissioner of Public Works be requested to cooperate with the officials of the Boston Elevated in removing the unused car tracks from Norfolk street, at Codman square, Ward 17.

Passed under suspension of the rule.

RESURFACING OF CEDAR STREET.

Coun. WICKES offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface with smooth paving Cedar street, Ward 17.
Passed under suspension of the rule.

STREAMLINED CARS, WASHINGTON STREET LINE.

Coun. WICKES offered the following:
Ordered, That the trustees of the Boston Elevated be requested, through his Honor the Mayor, to place new-type streamlined cars on the Washington street line, from Dudley street to Ashmont street, Ward 17.
Passed under suspension of the rule.

EDGESTONES, HEMMAN STREET, WARD 18.

Coun. GOODE offered the following:
Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to construct granite edgestones on Hemman street, in the Roslindale section of Ward 18.
Passed under suspension of the rule.

RECONSTRUCTION OF CERTAIN WARD 18 STREETS.

Coun. GOODE offered the following:
Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to construct sidewalks and curbings on Arlington street in the Hyde Park section of Ward 18.

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to reconstruct Philbrick street, in the Mt. Hope section of Ward 18.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to reconstruct the following streets in Ward 18 and install granolithic sidewalks thereon: Pinedale street, Canterbury street, in the Conleyville section.
Severally passed under suspension of the rule.

INCREASED WAGES, BOSTON SANATORIUM EMPLOYEES.

Coun. GOODE offered the following:
Ordered, That his Honor the Mayor confer with the trustees of the Boston City Hospital for the purpose of providing a more equitable scale of wages for the employees of the Boston Sanatorium.
Coun. GOODE— Mr President, I have made a study of the salaries of the employees of the Boston City Hospital as compared with those of the Boston Sanatorium and I find for many years, probably since the Sanatorium was established, their scale of wages does not compare favorably with those of the employees of the City Hospital. For example, a man in the Sanatorium and one in the City Hospital perform the same duties and have the same responsibilities and the one would be known as a druggist and the other a pharmacist and the scale of wages will not compare favorably. The same thing is true in the laundry department and also in the other departments. One glaring example is that of the telephone operators who in the Sanatorium receive less money than those at the City Hospital and in many cases the employees of the Sanatorium are required to take part of their salary in meals in spite of the fact many of them live in close proximity to the Sanatorium and could take their meals at home. I hope this order will receive favorable consideration.
Passed under suspension of the rule.

EMPLOYMENT FOR FORMER W. P. A. WORKERS, ETC.

Coun. GOODE offered the following:
Ordered, That his Honor the Mayor confer with W. P. A. officials and the trustees of the Boston Elevated Railway to provide employment for former W. P. A. workers and elderly men who have not been absorbed in national defense projects, said work to consist of removing street car tracks to be used as scrap iron on national defense work.
Passed under suspension of the rule.

BUS LINE, HUNTINGTON AVENUE AND BOYLSTON STREET.

Coun. CHASE and CAREY offered the following:
Ordered, That the Boston Elevated Railway Trustees be requested, through his Honor the Mayor, to make prompt arrangements in the matter of placing a five-cent bus line on Huntington avenue and Boylston street, from Francis street to Park square.
Passed under suspension of the rule.

Passed under suspension of the rule.

FIRE STATION, GERMANTOWN.

Coun. LYONS offered the following:
Ordered, That the Fire Commissioner be requested, through his Honor the Mayor, to provide for the construction of a fire station in the Germantown section of West Roxbury.
Coun. LYONS—Mr. President, four years ago I put this order in relative to a fire station in West Roxbury. Three years ago the same order. Now I am putting this in today and I hope the Mayor confers with the Fire Commissioner to give these people adequate protection they are paying for. I am looking back to last May, to the conflagration they had on the Cape, where a million dollars worth of property was destroyed for lack of protection. Up here the people have no protection except the town of Dedham and I hope the Mayor will sit down with the Fire Commissioner and have some sort of a house planned there in the near future.

On motion of Coun. LYONS, the Council adjourned at 4.15 p. m., to meet on Monday, August 25, 1941, at 2 p. m.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

Appel & O'Toole Company have been granted an extension of the contract for cutting out branches, setting concrete meter boxes and iron gate boxes, etc., for the Water Division in the city proper. The date of the completion of this contract was September 1. Owing to the vast amount of work to be done under the specifications it will not be possible for the contractors to finish all the work within the time allotted, therefor an extension of the contract from September 1, 1941, until December 31, 1941, has been approved.

TRANSIT DEPARTMENT.

Approval has been given of an alteration of contract No. 1087 with John Deveney & Co. for renting automobile trucks for work on the construction of the Huntington Avenue Subway, whereby it is intended that the contractor will furnish such trucks until December 31, 1941, inclusive.

SALE OF GIRDERS.

The Mayor has approved the following request of the Transit Department:

BOSTON, July 18, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested of the sale of approximately thirty-nine tons of second-hand girders no longer needed by this department to the towns of Granby and Huntington for bridges being designed by the State Department of Public Works. The price for the 124-pound section to be sold to the town of Granby is $55.70 per ton and the price for the 116-pound section to be sold to the town of Huntington is $51.20 per ton. These are the prices paid by this department for the material when it was new.

Respectfully yours,

T. F. SULLIVAN, *Chairman.*

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT AND SEWERAGE WORKS IN HOWITT ROAD, WARD 20, ST. THERESA AVENUE TO LA GRANGE STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement and sewerage works in Howitt road, Ward 20, St. Theresa avenue to La Grange street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement and Sewerage Works in Howitt Road, Ward 20, St. Theresa Avenue to La Grange Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Monday, September 15, 1941, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, SEPTEMBER 6, 1941. NO. 36

MAYOR TOBIN, IN LABOR DAY ADDRESS, SOUNDS WARNING OF DISASTERS TO RESULT FROM LABOR DISPUTES WHERE EFFORTS ARE MADE UNDER THE GUISE OF DEFENSE NECESSITIES TO TAKE AWAY RIGHTS OF THE WORKINGMEN WON AFTER LONG AND TEDIOUS STRUGGLES AND DISPUTES — URGES COOPERATION ON PART OF BOTH EMPLOYERS AND EMPLOYEES IN ORDER THAT STRUGGLE IN WHICH WE ARE ENGAGED IN EFFORT TO SAVE CIVILIZATION SHALL NOT FAIL — PAYS TRIBUTE TO HIGH TYPE OF LEADERSHIP IN MASSACHUSETTS THAT HAS GIVEN STATE ENVIABLE RECORD IN MATTER OF FEW STRIKES.

The following is the address of Mayor Tobin delivered on the radio program of the Boston Central Labor Union at the Parkman Bandstand, at 11 a. m. Monday, September 1:

On this Labor Day we friends of labor gather once again to reminisce on its heroic past and to plan for its future.

While these times are trying ones and the future sometimes may seem dark, when we consider the tremendous progress made by labor in this country in the last few years, after having fought a great battle for 150 years for relief from tyrannical labor conditions, we must not be alarmed.

Today many are inclined to place the entire finger of blame on labor for strikes occurring in defense industries. It would be regrettable if some employers, under the guise of national defense, justify their depriving the employees of rights and benefits which they have acquired only after a heart-rending battle of a century and a half. Just let us look briefly at what labor had to go through before it reached its present condition of today.

One hundred fifty years ago a gathering of this nature would have been impossible. In 1805 a group of Philadelphia cordwainers combined in an effort to raise wages. The judge declared that a combination of workers for this purpose was a criminal conspiracy and the men criminals. This doctrine had been transplanted to our shores from England, and for approximately fifty years labor was harassed by the application of this doctrine.

In its place, however, there reared a weapon which was far more powerful than the doctrine of criminal conspiracy. That weapon was the Injunction, a term which the laboring man came to hate and despise. For many years labor had to contend with this weapon of oppression until the Anti-Injunction Act, commonly known as the Norris-LaGuardia Act, in 1932 sounded its death knell. In 1890, the Congress of the United States passed the Sherman Anti-Trust Act which, when interpreted by the courts, was held to apply to labor organizations. That great Justice Brandeis, in a strong dissent in one case, said, "If on the undisputed facts of this case the refusal to work can be enjoined, Congress created by the Sherman Act an instrument for imposing restraints upon labor which reminds of involuntary servitude." Soon after the birth of the Sherman Act the Yellow Dog Contract reared its head. The early courts interpreting this act failed to understand the basic economic principle that without equality of bargaining power there can be no liberty of contract. In 1914 labor thought it had at last secured relief against the Sherman Act and the Yellow Dog Contract, when the Congress passed the Clayton Act. But when the act was judicially interpreted it offered practically no relief to labor and the Injunction was used almost as much as ever.

First Effective Legislation.

The first effective piece of labor legislation, the forerunner of what was to come, was passed in 1926 in the Railroad Labor Act. This was the turning point in this country in labor's fight. It provided for the use of collective bargaining. In 1932 we find the passage of Norris-LaGuardia's Anti-Injunction Act, reiterating the principle of collective bargaining and declaring the Yellow Dog Contract unenforceable in Federal courts. The judicial interpretation of this act was favorable and labor had started on the road to better things.

In 1933 the Commonwealth of Massachusetts passed an Anti-Injunction Act modeled on the Norris-LaGuardia Act. Labor drove the dual provisions of collective bargaining and the unenforceability of the Yellow Dog Contract into the Bankruptcy Act of 1933; the Bankruptcy Amendment of 1934; the act creating a Federal Coordinator of Transportation in 1933; and the amendment of 1934 to the Railway Labor Act. These same basic principles are also embodied in Section 7A of the National Industrial Recovery Act. Labor received many benefits under this section of the act, but they were lost when the Supreme Court held the National Industrial Recovery Act unconstitutional. Undaunted, labor rolled up its sleeves once again and in 1935 secured the passage of the National Labor Relations Act. This act marked the culmination of labor's drive for relief against cruel and oppressive practices for a period of almost one hundred fifty years. These same principles have been embodied in the Massachusetts Labor Relations Act.

TREASURE HOUSE ON BOSTON COMMON OPENED BY MAYOR TOBIN IN EFFORT TO SPEED UP SALE OF DEFENSE SAVINGS BONDS—IN OPENING BUILDING HE CALLS ATTENTION, IN BROADCAST ADDRESS, TO THE TREMENDOUS BURDEN THE COUNTRY NOW FACES BECAUSE OF EFFORT TO SUFFICIENTLY ARM COUNTRY SO AS TO CHECK ANY ATTEMPTS TO DESTROY OR DISTURB THE PEACE OF OUR LAND BY AGGRESSORS OF THE DICTATOR-TYPE—CALLS UPON ALL CITIZENS TO DO UTMOST TO MAKE DRIVE A SUCCESS.

The following is, in part, Mayor Tobin's address at Treasure House, Boston Common, Thursday, September 4, during meeting to speed up sale of Government Defense Savings Bonds:

My Fellow-Americans.

We have met here to give impetus to a drive which is necessary because our country is facing an emergency.

The need has fallen suddenly on our peaceful country. As a result, we must turn from normal living to the stress and strain of arming ourselves. The situation is unavoidable and it entails an undertaking so vast that no single life can remain untouched by it. It reaches into every section of our land and it needs the active support of every one of us.

An enormous outlay of money is necessary. That means taxation, but, in addition, our Federal Government has devised Defense Savings Bonds and Stamps as a means of giving all of us opportunity to take a direct part in building our nation's defense.

It is a typically American way of finding the billions that are needed. The United States is today, as it always has been, the best investment in the world. Now every citizen is to be given the chance to buy a share in America.

Success Depends on Saving.

The success of the Defense Saving program will be measured by the number of men, women and children who serve their country by saving. The Secretary of the Treasury has said repeatedly that the chief objective of this program is to spread the cost of defense as widely as possible among our people. The principal purpose is to give every American a sense of direct participation in the financing of national defense, and at the same time a solid investment for his own future.

Many of those within reach of my voice already know the details of the plan. For the benefit of those who do not, other speakers will explain it fully. As honorary chairman of the Boston committee, and chairman of the state committee in charge of public officials and employees, it is my job to assure you that this is different from the average drive with which we are all acquainted.

First of all, there is no coercion and no high-pressure salesmanship. There is no doorbell ringing and no slacker lists will be prepared. You are not asked to sign pledges and, despite the glooomy picture I painted in opening my talk, those in charge of the drive are not appealing to fear, any more than they are to hatred. There are no involuntary pay roll deductions nor allotment of salary or wages, unless specifically approved by employees.

You will see posters and stickers calling attention to the plan. There will be many meetings at which well-known speakers will exhort you to buy. In many other ways the idea is being publicized—through social and vocational organizations, labor groups, teachers' groups, women's clubs, church societies—but it all boils down to what I am telling you now and which is best summarized in the following statement by the Secretary of the Treasury to the Congressional Ways and Means Committee: "I can think of no other single way in which so many people can become partners of their Government in facing this emergency."

Need Vast Sum.

As to the need for the vast sum that must be raised, let me remind you that human imagination finds it difficult to grasp this vast project in its entirety. We must maintain and equip an army of two million men and be ready, if necessary, to double it. We must build a two-ocean navy. We must build merchant ships, planes, tanks, motorcycles, scout cars, contact cars, troop-carrying cars, trucks and other mobile equipment. We must turn out more munitions, more guns, more textiles for uniforms. We are forced to construct buildings to add to the capacity of the plants that produce these things, and at the same time supply adequate housing for tropps and civilian workers. The communities that are springing up, where men are being trained for military service or where workers in newly constructed plants dwell, must be equipped with necessary facilities, including adequate arrangements for healthful living.

Every item on the long list of defense necessities costs money. Present plans, according to most recent available figures, call for an expenditure for defense purposes in excess of more than forty billions of dollars. Such a figure is hard to comprehend. It will be more easily understood if I tell you that just one 35,000-ton battleship costs seventy million dollars; that it takes fifty million dollars to build just one aircraft carrier; that a cruiser represents an outlay of from twenty to thirty million dollars. Just one four-engined bombing plane costs nearly half a million dollars. We need great numbers of those powerful planes, as well as lighter bombers, dive bombers, pursuit planes and other types of aircraft. We need scores of fighting ships and the armament to enable them to fulfill their missions, and, in addition to all these and other defense items, it has been necessary for the Government to finance three fourths of the new plants needed to fill defense orders.

That is why you and I are being asked to shoulder a part of the expense. We are requested to loan as much as possible of our capital and our earnings to our Government but in return we will receive bountiful interest. There will also be the deep satisfaction of knowing we have done our share toward assuring the future of the greatest democracy the world has ever known. I am sure that you share with me a feeling of great pride and thankfulness when we reflect on what America gives to each of its citizens and I am equally sure that our great nation will not fail in this emergency because of indifference on the part of its citizens.

It is entirely a voluntary matter, yet I know that the people of Boston will respond in the same whole-hearted manner in which they have rallied to the support of great money-raising campaigns. This is the most important of them all and it carries the added incentive that in buying Defense Bonds and Stamps you are providing for your own future.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

An invert of Hewlett Street Brook be rebuilt and two manholes be constructed (Hewlett Street Brook) in private land, between Washington street and Belgrade avenue, in the West Roxbury district, at an estimated cost of $1,400.

A sanitary sewer of 6-inch pipe (temporary outlet) in Poplar street, between Deforest street and Hyde Park line, and in West street, between West Roxbury line and 265 feet southerly, in the West Roxbury and Hyde Park districts, at an estimated cost of $687.50.

A surface drain of 12-inch pipe, ten catch-basins and eight drop inlets in Blue Hill avenue, between Charlotte street and Columbia road, in the Dorchester district, at an estimated cost of $5,426.

LABOR DAY ADDRESS.

(*Continued from page 1009.*)

NEW PROBLEMS CREATED.

Today we are in a new period; we are called upon to face new and crucial problems and labor must play one of the most important parts. This is probably the most important Labor Day in the history of Massachusetts. Labor is being put to its greatest test in the present national emergency and it probably has more at stake in the present crisis than any other group. To it is charged the special task of keeping democracy alive and healthy. Labor, I am sure, will accept the challenge and do its part in the great program of national defense. It is unjust in the case of recent strikes to jump immediately to the conclusion that the laboring man is in the wrong. Both sides of the question must be heard and the employer should not use the weapon of national defense as a club over the head of the working man to deprive him of the benefits that he has so long fought for and won.

Labor has made great strides in the last few years after having beaten a hard and unsuccessful path for over one hundred years in this country. It should not be expected to slip back into the days of peonage and to suffer the loss of the advances which were won with such great sacrifices. Remember in this country it was once a criminal offence as early as 1805 for a group of workers to combine in an effort to secure an increase in salary. We do not want to go backwards to those days. It is absolutely essential that there be close cooperation between labor and the employer; that one recognize the rights of the other; that concessions be made at all times; that collective bargaining be inviolate. We know how absolutely imperative it is that the wheels of machinery move swiftly in our defense industries. A number of firms doing defense business are located in Boston, yet all through the year 1940, and up to now in the present year, there have been but two strikes in defense industries. This is a striking example of intelligent labor leadership and of cooperative management. The rest of the country could well turn its eyes to Boston and emulate our labor leaders and employers. No other large city can boast of such an outstanding record.

In the past twelve years this country has seen great social and economic changes. We have passed from prosperity into a period of deep depression. Because of defense orders we are on the wings of a temporary boom, but our problems will be more acute when this period is passed.

Our social problems today are indeed serious ones and the men in government must not pay heed merely to high-sounding legal verbiage, but must delve deeply into the underlying causes of unemployment, poverty and discontent. They must know and appreciate the problems of human nature and the settlement of social problems must be paramount in their minds. The employer must not be pitted against the employee. Class must not be arraigned against class. Religion must not oppose religion. It is the duty and obligation of public officials, whatever their office may be, to lead the way. I am confident of the 100 per cent cooperation of the labor movement in America; for there are no more solid Americans than the members of our labor unions.

In closing, I am happy to pay tribute to the high and intelligent leadership of our labor officials in Massachusetts and in particular in the City of Boston.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of street construction, estimated to be thirty (30) days, vehicles are excluded from the following street, effective August 29, 1941:

Lee Street, West Roxbury.
From McBride street to Carolina avenue.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be two (2) days, the following street is one way in the direction indicated, effective September 2, 1941:

Commercial Street, Boston Proper.
From Richmond street to Atlantic avenue.

36,400 MOTOR DEATHS IN 1935.

According to the findings of the National Safety Council motor traffic deaths in 1935 totaled 36,400, compared with 1934's record of 36,000.

The only decrease was among school children up to fifteen years of age. Motor vehicle accidents to children have increased much less than those of adults since 1922, when safety education began on a national scale. October, November and December were the reddest months. Two-thirds of the accidents were in places under 10,000 population; more than 40 per cent of the victims pedestrians.

Thirteen states decreased traffic deaths 7 per cent or more: Delaware, Illinois, Kentucky, Massachusetts, Minnesota, Montana, North Dakota, Oregon, Rhode Island, Utah, Vermont, Wyoming and Washington.

EXTRA WORK UNDER CONTRACT.

The Prompt Contractors Inc., have been directed to perform the following extra work under contract for sewerage works in Clover street, between Gallivan Boulevard and Minot street, Dorchester, dated July 29, 1941. Items ordered: Excavate 59.63 cubic yards excavation below grade at contract price of $5 per cubic yard, $298.15; place 104 cubic yards gravel refill at contract price of $3 per cubic yard, $312; dispose of 119 cubic yards unsuitable material at contract price of $1 per cubic yard, $119. The reason for this work is that more unsuitable material was encountered below and above grade than was anticipated in the proposal, necessitating the removal and disposal of same and refilling with gravel, and the total increased quantities exceed 25 per cent of the original total of the contract. Estimated cost of extra work, $729.15.

A. Orlando, Inc., has been directed to perform the following extra work under the contract for redecking the draw span of the Dover Street Bridge, over Fort Point Channel, dated July 7, 1941. Items ordered: Scale, clean and paint the top surfaces of girders and floor beams, remove seat angles, repair web of brackets by welding plates to each side, replace seat angles and weld plates to the top of the floor beams where directed. Estimated cost of extra work, $2,500.

POLICE DEPARTMENT ORDERS.

General Order No. 634.

1. The following amendments to the Rules and Regulations of the Police Department are hereby ordered:

Rule No. 21, "Division Commanders," Special Reports, page 85, lines 9, 10—Strike out: "Theatre reports of Special Police Officers (forwarded through station)."

Rule No .51, "Records, Blanks, etc.," printed form kept in office of Chief Clerk, page 169, lines 26, 27—Strike out: "43. Theatrical or motion-picture house report (for special police officers)."

Rule No. 51, "Records, Blanks, etc.," printed forms kept at the station house, page 181, lines 35–38—Strike out: "60. Theatre and motion-picture houses. (Form of daily report for special police officer thereof to be forwarded to Building Commissioner.)"

NOTE.—By General Order No. 618, dated June 7, 1941, it was announced that commencing as of June 16, 1941, special police officers of theatres and moving-picture houses would report, monthly, directly to the Building Department, on a form of that office, as to compliance with building laws; and that the daily printed report form of this department, upon which such Special Police Officers had for many years made such report, would be discontinued.

2. Rule 67 of the Rules and Regulations of the Police Department, relating to "Auctioneers," commencing upon page 244 of said Rules, is hereby amended by adding after Section 1 a new section to be numbered "1A," to read as follows:

"RULE 67.— AUCTIONEERS.

"Issue, Fee, Etc.

"1A. The Police Commissioner may upon petition, and payment of the license fee hereinafter provided, issue a special license to any person (not an inhabitant of this city for six months next preceding the application) to be an auctioneer in the City of Boston, for days specified in the license, in the sale of real estate, livestock and general farm equipment and produce.

"The fee for such a special license shall be five (5) dollars for each of the days specified in the license as aforesaid. (G. L., Ter. Ed., c. 100, s. 2, as amended by St. 1941, c. 81.)"

3. Rule 67 of said Rules and Regulations relating to "Auctioneers," is hereby further amended by adding at end of section 12, as appearing upon page 248 of said Rules, the following words: "as amended by St. 1941, c. 81," so that said section 12 shall read as follows:

"RULE 67.—AUCTIONEERS.

(Italicized Matter New.)

"Commissioner May Revoke or Suspend Auctioneer's License.

"12. The Commissioner may for any cause as he deems satisfactory, and without a hearing, revoke or suspend an auctioneer's license issued by him. (G. L., Ter. Ed., c. 100, s. 2, *as amended by St. 1941, c 81.*)"

4. Section 25, under the subject of "Powers and Duties," of the Rules and Regulations of this department, commencing upon page 30 and concluding upon page 31, is amended by inserting at the end of the fifth line from top of said page 31 the words: "as amended by St. 1941, c. 81," so that the reference as to granting of auctioneer licenses, set out in the fifth and sixth lines of said page 31, shall read as follows:

(Italicized Matter New.)

"25. . . . (As to auctioneers, see also G. L., c. 100, ss. 1, 2, *as amended by St. 1941, c. 81;* St. 1925, c. 331; St. 1932, c. 156; St. 1936, c. 209.)"

5. Rule 68 of the Rules and Regulations of the Police Department pertaining to Pawnbrokers is hereby amended by striking out section 6 of said rule, and inserting in place thereof a new section which shall read as follows:

"6. Each pledgor shall be required by the Pawnbroker to sign his name, age and address on a card, the style and size of which shall be approved by the Police Commissioner. In the event that the pledgor is unable to write, the Pawnbroker shall fill in the name, age and address on such card, together with a notation stating that the pledgor was unable to do so.

"Such card shall be retained permanently in an alphabetical index file by the licensed Pawnbroker."

6. Rule 69 of the Rules and Regulations of the Police Department relating to Dealers in Second-hand Articles is hereby amended by striking out section 3 of said rule and inserting in place thereof a new section which shall read as follows:

"3. Every such shopkeeper shall require a person from whom he makes a purchase to sign his name, age and address on a card, the style and size of which shall be approved by the Police Commissioner. In the event that such person is unable to write, the shopkeeper shall fill in the name, age and address on such card, together with a notation stating that such person was unable to do so.

"Such card shall be retained permanently in an alphabetical index file by the licensed dealer in second-hand articles."

7. Section 76 of the Rules and Regulations of the Police Department, relating to "Dog Licenses," is hereby amended by adding after the second paragraph, as appearing upon page 297 of said rules, a new paragraph, to read as follows:

RULE 76.—DOG LICENSES.

Appendix to Rule 76; Statutes.

(Following Matter New.)

"No license fee or part thereof shall be refunded because of the subsequent death, loss, spaying, or removal from the commonwealth or other disposal, of the dog. (Added by St. 1941, c. 132.)"

8. Section 76 of the Rules and Regulations of the Police Department, relating to "Dog Licenses," is hereby amended by striking out the last two paragraphs as appearing upon page 297 of said rules and inserting in place thereof a new paragraph which shall read as follows:

RULE 76.—DOG LICENSES.

(Italicized Matter New.)

Appendix to Rule 76; Statutes.

"A license duly recorded shall be valid throughout the commonwealth, except that in case of the permanent removal of a dog into another town (or city) within the commonwealth, *the owner or keeper thereof shall, within*

thirty days after such removal, present the original license and tag of such dog to the clerk of the town (in Boston, the Police Commissioner) to which such dog has been removed, and such clerk (in Boston, the Police Commissioner) shall take up the same and issue to said owner or keeper a *transfer* license, together with a tag, for such dog upon payment of twenty-five cents. (G. L., Ter. Ed., c. 140, s. 146, as finally amended by St. 1941, c. 133.)"

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

PROCEEDINGS OF CITY COUNCIL.

Monday, August 25, 1941.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., Coun. WARD presiding. Absent, Coun. Fish, Hurley, Langan, Shattuck.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weigher of Goods: Charles Feinberg, 1003 Columbus avenue, Boston, Mass.

Constables for term of one year, beginning with first day of May, 1941, with authority to serve civil process upon filing of necessary bond: Francis W. Breslin, 1932 Beacon street, Ward 21; Charles F. Sefton, 101 Lasell street, Ward 20.

Severally laid over a week under the law.

DISCONTINUANCE OF RAILROAD CROSSING, HYDE PARK AVENUE.

The following was received:

City of Boston,
Office of the Mayor, August 25, 1941.

To the City Council.

Gentlemen,—I transmit a communication from the Commissioner of Public Works relative to the discontinuance of a crossing of the New York, New Haven & Hartford Railroad at Hyde Park avenue and recommend the passage of the accompanying order.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
August 15, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—At the present time a railroad bridge owned by the New York, New Haven & Hartford Railroad is located on Hyde Park avenue, near the Readville Station.

The bridge was constructed years ago for the purpose of providing for a spur track to connect the tracks of the Midland Division with those of the Providence Division. The track has not been used for a number of years nor do the officials of the New Haven Road anticipate that it will ever be used in the future. In view of this, they are desirous of removing the bridge in order to obviate the necessity of further upkeep of it.

This department is agreeable to the removal plan, and, therefore, I have had prepared by the Law Department an agreement providing, in substance, for the removal of the existing structure, at the expense of the Railroad Company. In connection with the execution of the agreement, however, it will be necessary to receive from the City Council an order authorizing your Honor to enter into and execute the agreement, a copy of which I am inclosing, for your information and for the information of the City Council.

I am also inclosing, for adoption by the City Council, an order prepared by the Law Department in connection with this matter.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Whereas, In the opinion of the City Council of the City of Boston it is deemed necessary for the security and convenience of the public that alterations be made consisting of the discontinuance of a crossing of the New York, New Haven & Hartford Railroad under Hyde Park avenue at a point 0.15 miles east of that part of Boston known as Readville and the removal of the bridge at such crossing;

Ordered, That the Mayor be, and hereby is, authorized, in behalf of the city, to execute and deliver an agreement in the form annexed hereto providing for the carrying out of such alterations.

Referred to Executive Committee.

VETO OF ORDINANCE RE VIVISECTION.

The following was received:

City of Boston,
Office of the Mayor, August 25, 1941.

To the City Council.

Gentlemen,—I return herewith, without my signature and disapproved, the ordinance adopted by your Honorable Body on August 4, 1941, purporting to regulate the sale, gift or transportation of animals to be used in vivisection. This action is made necessary bn

account of the inclosed opinion of the Corporation Counsel to the effect that the ordinance is not only invalid on its face but also that its subject is not one which is within the jurisdiction of the City Council.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Law Department, August 23, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I wish to acknowledge the receipt of your recent letter requesting an opinion as to the validity of a proposed ordinance transmitted to you by the City Council and received by you on August 18, 1941. The proposed ordinance is quoted below:

"An Ordinance Prohibiting the Sale of Any Animal for Vivisection Unless Said Sale is Authorized by Commissioner of Police and Requested by Executive Board President, Dean or Manager of Established and Recognized School of Medicine or Anatomy or the Manager or Director of Established and Recognized Hospital Laboratory.

Be it enacted by the City Council of the City of Boston and by the authority invested in same, as follows:

The sale, gift or transportation of any animal for vivisection purposes is hereby prohibited within the jurisdiction of the city of Boston unless said sale is authorized by the commissioner of police who shall have authority to grant such authorization only upon receipt of a formal request, setting forth intended use and imperative need for said animal from executive board president, dean or manager of established and recognized school of medicine or anatomy located in the commonwealth of Massachusetts and incorporated under the statutes thereof, or from the manager or director of a duly accredited medical laboratory operated within said commonwealth.

Violations and infractions of said ordinance shall be punished by a fine of not more than one hundred dollars ($100) or by imprisonment of not more than thirty (30) days or both."

For the reasons set forth below I am of the opinion that the foregoing ordinance is beyond the powers vested in the City Council and would not, upon approval as provided in the City Charter, constitute a legal enactment. The subject with which it deals is clearly a matter for legislative and not municipal regulation.

The power of a municipality in Massachusetts to make ordinances is derived from the Commonwealth. The scope of that power is limited and defined by the controlling statutes enacted by the General Court. "An ordinance which goes beyond the authority conferred by the enabling statute is invalid." Cawley v. Northern Waste Co., 239 Mass. 540, 544. The constitution and statutes of a state other than Massachusetts, and the ordinances enacted under their apparent authority, afford no precedent in determining the validity of an ordinance enacted by a Massachusetts municipality.

The ordinance-making power of the City of Boston has been derived from Acts of 1854, chapter 448, section 35, and from General Laws (Ter. Ed.), chapter 40, section 21. The former statute provided:

"They (the mayor, aldermen, and common council of Boston) shall have power to make all such needed and salutary by-laws and ordinances not inconsistent with the laws of this commonwealth, as towns by the laws of this commonwealth have power to make and establish, and to enact penalties not exceeding fifty dollars for the breach thereof . . ."

(See Acts of 1909, chapter 486, section 1.) The latter of the two statutes above referred to provides in part:

"Towns may for the purposes hereinafter named make such ordinances and by-laws, not repugnant to law, as they may judge most conducive to their welfare, which shall be binding upon all inhabitants thereof and all persons within their limits. They may, except as herein provided, affix penalties for breach thereof, not exceeding twenty dollars for each offence . . ."

"Towns", as used in the section just quoted, includes "cities". General Laws (Ter. Ed.), chapter 40, section 1.

The section last above quoted (section 21) includes numerous clauses setting forth the purposes for which ordinances may be made. The clause pertinent to the issue here raised reads as follows:

"(1) For directing and managing their prudential affairs, preserving peace and good order, and maintaining their internal police."

CITY COUNCIL PROCEEDINGS.

(*Continued from page 1021.*)

The proposed ordinance above quoted purports to deal with the sale, gift or transportation of animals for vivisection purposes within the City of Boston. Leaving aside those parts of the quoted clause which concern the prudential affairs and the peace and good order of municipalities, which are both equally inapplicable, I pass to the words "maintaining their internal police." The subject-matter of the proposed ordinance is not a local or internal regulation. It touches upon a matter of general concern, the ramifications of which extend far beyond city limits. Such a matter is clearly beyond the scope of municipal ordinance-making. As stated by Lummus, J., the words "maintaining their internal police" "do not transfer to municipalities the entire police power of the commonwealth, and do not enable a city to establish a local policy in important matters of general concern, like the prohibition or regulation of the sale of liquor." Commonwealth *v.* Kimball, 299 Mass. 353, 357. Breadth of statutory language must not be interpreted to constitute a delegation by the Legislature of its whole power of legislation. Commonwealth *v.* Turner, 1 Cush. 493. The emphasis in the statutory clause falls especially upon the word "internal".

I conclude, therefore, that it is not within the authority of the City Council to enact ordinances dealing with the subject of vivisection, or with the sale, gift or transportation of animals, whether or not to be used for vivisection. Neither of these matters comes within the general powers included in clause (1) above quoted, and neither is embraced within any of the special powers delegated by the General Court to the City of Boston.

Even if the City Council had the power to deal with the subject-matter referred to, the proposed ordinance is otherwise illegal. The penalty provided for its violation is a fine of not more than $100 or imprisonment for not more than thirty days or both. As indicated earlier in this opinion, the municipal government of Boston has no power to provide a penalty amounting to $100. Furthermore, it has no power whatsoever to prescribe imprisonment for the violation of an ordinance.

Sincerely yours,

ROBERT CUTLER,
Corporation Counsel.

REPORT OF CITY CLERK ON DUPLICATION OF BOSTON RECORDS.

The following was received:

City of Boston,
Office of the City Clerk, August 25, 1941.
To His Honor Mayor Maurice J. Tobin and the Honorable City Council.

Gentlemen,—This communication is written for a twofold purpose. First, to express my thanks to the Mayor and City Council for their immediate appreciation and understanding of the importance of the safeguarding and preservation of the ancient records of the Town and City of Boston and for their action in furnishing me an appropriation for that purpose. Second, to make a convenient record in the form of a city document which will explain and list the work which was done by means of that appropriation.

The City Clerk, by virtue of his office, is the custodian of a great variety of manuscript volumes, papers and historical documents in the nature of records, relating to the present City of Boston, dating from its settlement to the present time. The most important of them may, perhaps, be listed as follows:

The records of the Town of Boston, consisting of the records of the town meetings from 1634 to 1822 and the minutes of the Selectmen from 1701 to 1822.

The records of the City of Boston, being the records of the meetings of the Board of Aldermen and the City Council from 1822 to the present date.

The records of the Town of Dorchester, beginning in 1632 and ending with its annexation to Boston on the first Monday in January, 1870. (Chap. 349, 1869.)

The records of the Town of Charlestown, beginning in 1629 and ending in 1847 upon its becoming a city. Its annexation to Boston took effect on the first Monday in January, 1874. (Chap. 286, 1873.)

The records of the Town of Roxbury, beginning in 1648 and ending in 1846 upon its becoming a city. Its annexation to Boston took effect on the first Monday in January, 1868. (Chap. 359, 1867.)

The records of the Town of Brighton, beginning with 1807 and ending with its annexation to Boston on the first Monday in January, 1874. (Chap. 303, 1873.)

The records of the Town of West Roxbury, beginning in 1851 and ending with its annexation to Boston on the first Monday in January, 1874. (Chap. 314, 1873.)

The records of the Town of Hyde Park, beginning in 1868 and ending with the annexation to Boston on the first Monday in January, 1912. (Chap. 469, 1911.)

Since 1915 the City of Boston records have been made in duplicate. The early Boston town records were copied and printed by the Record Commissioners at a very large expense in the period from 1875 to 1909. No duplicates or copies have heretofore been made of the remaining two hundred-odd volumes, mainly on account of the very great cost of copying under the old methods.

All of these records are stored in a subbasement in the City Hall Annex, two stories below the street level. This situation has been a source of anxiety to me for some years. A serious conflagration, a flood, an undiscovered break in a water main, an earthquake or other catastrophe would probably result in the destruction of records that are priceless.

The recent introduction of the microfilm process made it possible to duplicate the whole of these records at a cost less than would be required to copy and print only two volumes.

This duplication, however, would be of little value unless the duplicates were kept in a location far enough removed from the storage place of the originals as to make it improbable that the same disaster would destroy both.

Such a place is the Boston Public Library, which is more than a mile from City Hall, and through the very much appreciated cooperation of the trustees arrangements have been made to store the microfilms and duplicates in the Central Library Building.

I am very much gratified to be able to report that without exceeding the appropriation the work has been completed of microfilming all the records of Boston and the annexed towns, as previously listed in this communication, consisting of two hundred and twenty-five volumes of records. The original volumes stored in the City Clerk's vault in the City Hall Annex occupy 70 linear feet of shelving space, 20 inches high and 13 inches deep (126 cubic feet).

The reproduction of these 225 volumes with negative and positive films, making 450 reels in all, can be stored in a case which occupies less room than an ordinary four-drawer filing case. The details of the work done are as follows:

Each volume of records was photographed, page by page, by the so-called microfilm process, on a continuous film, photographs being reduced in size approximately ten diameters. The microfilm of a volume of 1,000 pages packed in a metal or cardboard container occupies a space of about 4 by 4 by 1¾ inches.

The negative microfilms, from which any desirable number of positives may be made, are in metal containers and are stored in the Public Library.

For each volume microfilmed there is also a positive film which is also stored at the Public Library. These positive films will be accessible to the public and when placed on the reading machines now in use at the library, the pages of the record are reproduced at their original size or larger at the convenience of any one desiring to consult them.

On account of the age and condition of many of the records the handling and microfilming of them was a delicate operation and required the utmost care, and it is only fair to state that the successful completion of the work was due in a great measure to the exacting and careful attention given to it by the Graphic Microfilm Service, through its President, Mr. Karl Adams, Jr., and its operators, who rendered a quality of service which was much more important than the actual cost to the city.

So far as I have been able to ascertain the statement appears to be warranted that the City of Boston is the first of all the cities in this country to duplicate its records by the use of this modern method, and to take the additional precaution of storing the duplicates in a building separated by a considerable distance from the storage place of the originals.

A detailed list of the reels of films is appended, there being a negative and a positive film for each item.

Respectfully,
WILFRED J. DOYLE,
City Clerk.

(Annexed was the detailed list referred to, printed in City Document No. 50.)

PROTECTION OF CHILDREN AT INTERSECTIONS.

Coun. WICKES offered the following:

Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to station policemen at dangerous intersections in the vicinity of the Greenleaf Whittier School for the protection of youngsters going to said school.

Passed under suspension of the rule.

FIVE-CENT FARE FOR SCHOOL CHILDREN.

Coun. M. H. SULLIVAN, for Coun. Ward, offered the following:

Ordered, That the Board of Trustees of the Boston Elevated Railway be requested through his Honor the Mayor, to maintain for school children a five-cent fare throughout the year.

Passed under suspension of the rule.

OILING OF RAILROAD ROADBED.

Coun. GOODE, WICKES and GOTTLIEB offered the following:

Ordered, That the officials of the New York, New Haven & Hartford Railroad be requested, through his Honor the Mayor, to arrange for the oiling of the roadbed of the railroad line running from Readville, through Hyde Park, Mattapan and Dorchester, in order to prevent the spread of dust and cinders into the homes located along the route of this branch of the railroad.

Coun. GOODE—Mr. President, several letters have been written in the past and I believe orders have been introduced in the City Council on this very same proposition. However, very little action has been taken in the past. Recently several freight trains have been inaugurated on this line and with the increased activity in the city due to the National Defense the traffic is much heavier than it had been formerly, so the condition is now more acute than before and certainly those people who hang their clothing and have to open their windows and have this dirt, dust and cinders come in should be entitled to some relief and I hope this Honorable Body will see fit to pass this order.

Passed under suspension of the rule.

HEALTH CENTER, MATTAPAN.

Coun. GOODE offered the following:

Ordered, That the trustees of the George Robert White Fund be requested, through his Honor the Mayor, to consider the establishment of a Health Center in the Mattapan section of Ward 18, and to arrange for its erection in the immediate future.

Passed under suspension of the rule.

GRANDSTANDS ON WALKER PLAYGROUND.

Coun. GOODE offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to arrange for the construction of grandstands on the Walker Playground, which project was provided for under a W. P. A. appropriation about a year and a half ago.

Passed under suspension of the rule.

CONSTRUCTION OF SIDEWALKS, WARD 13.

Coun. GOODE offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Neponset avenue, south side, Hyde Park avenue to Stony brook, Ward 18, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under suspension of the rule.

DEMOLITION OF BUILDINGS, CHICKATAWBUT STREET.

Coun. GOODE, for Coun. Fish, offered the following:

Ordered, That the Building Commissioner be requested, through his Honor the Mayor, to take immediate steps to condemn as unsafe and notify the owner to proceed with the demolition of the buildings located at 23 Chickatawbut street, Dorchester.

Passed under suspension of the rule.

SHELTER AT CENTRAL SQUARE, EAST BOSTON.

Coun. COFFEY offered the following:

Ordered, That the Boston Elevated be requested, through his Honor the Mayor, to erect a shelter for street car passengers at Central square, East Boston.

Passed under suspension of the rule.

RECESS.

On motion of Coun. GOODE the Council voted to take a recess at 2.45 p. m. The members reassembled and were called to order by Coun. WARD at 3 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. TAYLOR, for the Executive Committee, submitted the following reports, viz.:

1. Report on petition of Ann Marie Harrigan (referred January 27) to be paid an annuity on account of death of her husband, Stephen P. Harrigan, late member of Police Department—recommending passage of accompanying order, viz.:

Ordered, That under the provisions of chapter 340 of the Acts of 1933, an annuity of twelve hundred dollars be allowed and paid to Ann Marie Harrigan, widow of Stephen P. Harrigan, late member of the Police Department, who died on January 7, 1941, on account of injuries received in the performance of his duty; said annuity being made up of allowances as follows:

For the widow, Ann Marie Harrigan, so long as she remains unmarried, $1,000 per annum;

For the following-named child, during such time as he is under the age of eighteen or over said age and physically or mentally incapacitated from earning, $200 per annum: Stephen Paul Harrigan, born February 28, 1934;

the payments to date from January 7, 1941, and to be charged to the appropriation for Police Department, Pensions and Annuities.

Report accepted; said order passed.

2. Report on message of Mayor and order (referred today) transferring certain parcels of land to the Park Department for play areas—that same ought to pass.

Report accepted; said order passed.

3. Report on message of Mayor and order (referred today) *re* discontinuance of crossing of New York, New Haven & Hartford Railroad at Hyde Park avenue—that same ought to pass.

Report accepted; said order passed.

CONFIRMATION OF APPOINTMENTS.

Chairman WARD called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor August 18, 1941, of James E. Campbell, to be a Weigher of Goods; and Eleanor A. Minkle, to be a Weigher of Coal.

The question came on confirmation. Committee, Coun. Lyons and Coffey. The appointments were confirmed, yeas 12, nays 1.

SIDEWALKS, BAY STATE ROAD AND GRANBY STREET.

Coun. CHASE, for Coun. Shattuck, offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Bay State road, south side, from Granby street 58 feet easterly, Ward 5, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works make a sidewalk along Granby street, east side, from Bay State road 150 feet southerly, Ward 5, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Severally passed under suspension of the rule.

LOSS OF DRIVER'S LICENSE BY MALE WELFARE RECIPIENTS.

Coun. RUSSO offered the following:

Ordered, That the Overseers of Public Welfare be directed, through his Honor the Mayor, to discontinue the unfair practice of taking away from male recipients of welfare their license to drive motor vehicles in the Commonwealth of Massachusetts.

Coun. RUSSO—Mr. President, it has been brought to my attention that recipients of welfare who have a driver's license have been threatened with the loss of their license by the Welfare Department,—otherwise they will be put off aid. The particular instance I have in mind, this man is married and only receiving $6.65 per week, works three days a week for the Welfare Department. His license was taken away and they have refused to give it back to him. I maintain, Mr. President, this is an unfair practice. I do not believe that the Welfare Department or anyone else has any authority to take away a driver's license from any individual. That authority lies, I believe, with the Registrar of Motor Vehicles, Mr. Goodwin. This particular individual, the visitor stated to me, saw him simonizing or polishing a car. I ask you, Mr. President, even if that is so, that he did polish a car or simonize a car, how can anybody get along on $6.65 a week who is married and has a sick wife? Is there any harm in those extra few days when they are not doing any work for the City of Boston, is there any harm in these individuals going out and trying to make a dollar rather than persuading them not to work? I believe that practice will only mean that these individuals will be on the Welfare Department as long as they live. I say, give them some encouragement to go out and earn a dollar if they can, and if they can make an extra dollar, good luck to them, and give them a chance to survive, especially so when prices are going so high that how can anyone live on $6.65 a week for two people. It is not sufficient even to pay the rent, let alone the necessities of life. Therefore I hope that this order will pass and that they see to it that this unfair practice is discontinued and not leave it up to the visitor or to the supervisor to take away their rights. What harm is there for a man to have a license given to him by the state? Just because they happened to be unfortunate to be on the welfare they should not have their license taken away. I hope and earnestly hope the Mayor will take notice of this and see that this practice is stopped at once, immediately, and give those poor souls a chance to at least enjoy themselves once in a while and even to help the family survive. I ask that this order pass.

Coun. M. H. SULLIVAN—Might I ask the councilor whether it is the general practice of the Welfare Department to take away all the driving licenses of those who are receiving welfare now, or is this an isolated instance?

Coun. RUSSO—Mr. President, in answer to the councilor from Ward 22, I wish to inform him that there has been a similar practice so far as taking away licenses is concerned. I brought this out sometime ago last year and I did not think any more about it until this time. I was in touch with Mr. O'Hare and he asked me to send the individual down to him. He was sent down and told to go down and get his license back. He went over to the visitor and the visitor refused to give him his license and threatened that he would be taken off the rolls and I have proof this particular individual did simonize this visitor's car. Now if they allow them to simonize their own car, I do not see why they cannot go out and simonize somebody else's car and make an honest dollar in order for them to survive.

Passed under suspension of the rule.

THE NEXT MEETING.

On motion of Coun. COFFEY the Council voted that when it adjourn it be to meet on Monday, September 8, at 2 p. m.

REPORT OF COMMITTEE ON LICENSES.

Coun. LYONS, for the Committee on Licenses, submitted the following:

Report on petition for driveway opening (referred August 18) of Filling Stations Realty Company, at Washington street and Kenton road, Ward 11—that same ought to pass.

Report accepted; said license granted under usual conditions.

PLAY AREAS IN WARD 18.

Coun. GOODE offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to make a survey of the Sunnyside, Fairmount, Corriganville and Hyde Park sections of Ward 18 with a view to erecting play areas with wading pools on suitable city-owned lots in said sections.

Coun. GOODE—Mr. President, I am introducing this order at this time because I feel that the experiment of the wading pool behind the Municipal Building at Hyde Park has been a great success and because of the fact every year there have been several drownings of youngsters in the Neponset river which runs through Hyde Park. I understand that the construction of play areas is contemplated in various sections of the city and I know there are several lots owned by the City of Boston upon which play areas could be constructed and also wading pools in the vicinity of the Neponset river in Hyde Park and Readville, so these youngsters will not be attracted to the water in those dangerous locations and I hope this order will receive favorable action.

Passed under suspension of the rule.

INCREASED RAILROAD SERVICE.

Coun. GOODE offered the following:

Ordered, That the Board of Directors of the New York, New Haven & Hartford Railroad Company be requested, through his Honor the Mayor, to increase service on the Hyde Park and Mount Hope lines and restore service to the Hazelwood line.

Coun. GOODE—Mr. President, some months ago the New Haven Road curtailed the transportation to Hyde Park and eliminated several small stations. Recently, because of the shortage in gasoline, coupled with the fact that the available gasoline has increased considerably in price, many people in the outlying sections of the city will be unable to use their automobiles to come and go to work and I feel they should be encouraged to leave their automobiles at home because it will relieve the traffic situation in the center of the city and the best way to encourage them to leave their cars at home is to provide adequate transportation facilities and I hope the New Haven Road will take immediate steps to provide additional transportation facilities to this outlying section of the city.

Passed under suspension of the rule.

FREE MILK FOR UNDER-PRIVILEGED CHILDREN.

Coun. GOTTLIEB—Mr. President, I would like to express my appreciation to the members of this Body for their indulgence in waiting for the preparation of an order I intend to introduce. I suppose it would be quite as effective to speak now and then introduce the order. What I had in mind, Mr. President, was the creation, if possible, of a fund similar to the William Randolph Hearst Fund in New York for the distribution of free milk to the under-privileged and under-nourished children in New York. A few days ago, when I left Washington where I had been on business, I went through New York and noticed particularly how valuable and how beneficial these free milk centers were to the poor children in New York who were receiving free milk as a result of the public-spirited work of citizens in New York City who devote their time and efforts to raising the money by public subscription for this purpose. I had in mind, Mr. President, that perhaps his Honor the Mayor might be able to arrange some sort of a meeting between the Overseers of the Public Welfare Department, the President of the Boston Chamber of Commerce and other philanthropic groups of public-spirited individuals who might perhaps sit down and determine whether it was feasible and advisable for a fund to be raised for this purpose for the children

who need free milk in the City of Boston. As you know, Mr. President, the budget allowance for welfare does not carry or contain enough money to provide for any substantial amount of milk in the particular homes that are receiving welfare assistance. Neither does the W. P. A. give to the families who have one of their members on the W. P. A. rolls sufficient money to provide what I consider an adequate amount of milk for the children in those particular families. I feel that a fund for this purpose would be a very fine thing. It would do a lot for the children who need the calcium and other vitamins contained in milk to build up their bodies and make them fine healthy public-spirited citizens in the years to come, of the City of Boston. I think at least there is enough involved in this order for the Mayor and the other individuals I have referred to to sit down and give it a little thought and perhaps they can work out something that may be of ultimate benefit to the poor of Boston.

[At this point the clerk read the order.]

Coun. SCANNELL—Mr. President, although I agree heartily with my colleague from Ward 14, I believe he may be a little bit misinformed, but the money that has come out of the Mayor's Field Day has given 10,000 children here in Boston free milk,—underprivileged children.

Coun. GOTTLIEB—I am fully conscious of the fact that the Mayor has attempted time and time again and succeeded in obtaining from one source and another money for this and similar charitable and worth-while purposes, but the point is this: That there has never been, in my opinion, sufficient money for this particular purpose, and therefore I would like to see something done about this order.

Coun. Gottlieb's order was as follows:

Whereas, The city of New York, under the auspices of the Hearst Fund, has provided and continues to provide free milk to the under-privileged and under-nourished children of that city; and

Whereas, Free milk would be of great benefit to the under-nourished children of Boston; therefore be it

Ordered, That the Overseers of the Public Welfare, the President of the Boston Chamber of Commerce and other public-spirited individuals and organizations be called into meeting by his Honor the Mayor for the purpose of discussing the advisability of raising a fund for this purpose.

The order was passed under suspension of the rule.

RESURFACING OF WARD 13 STREETS.

Coun. HUTCHINSON offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface the following streets in Ward 13:

Spring Garden street, Dewey street, Ingleside street, Davis street, Davitt street, Wave avenue.

Passed under suspension of the rule.

On motion of Coun. KELLY the Council adjourned at 3.25 p. m., to meet on Monday, September 8, 1941, at 2 p. m.

THE MUNICIPAL WATER-WORKS TREND.

In 1800 there was but one municipally-owned water-works plant in the United States. Now there are 7,853 municipally-owned installations, or 72.8 per cent of the entire number. In the United States there are ninety-four cities of over 100,000 population. All but eleven of these own their water works. Municipal plants serve 96.1 per cent of the population of the ninety-four cities, while private plants serve only 3.9 per cent.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN HOWITT ROAD, WARD 20, ST. THERESA AVENUE TO LA GRANGE STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Howitt road, Ward 20, St. Theresa avenue to La Grange street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Howitt Road, Ward 20, St. Theresa Avenue to La Grange Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Monday, September 15, 1941, with a certified check for three hundred (300) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING GROCERIES, CANNED GOODS, ETC.

The Supply Department of the City of Boston invites proposals for furnishing groceries, canned goods, etc., as per specifications contained in forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for $300, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Groceries, Canned Goods, Etc." There will be a charge of twenty-five cents ($0.25) for each blank proposal taken out.* The bids will be publicly opened and read Wednesday, September 17, 1941, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

September 18, 1941, accompanied by cash or certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston in the sum of $300, to become and be the property of the City of Boston as liquidated damages if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other, without cash, certified check or certificate of deposit, to be filed with the City Auditor, City Hall, Boston, Mass., before the time stated above for the opening of proposals.

Notice to Sub-Bidders.

All sub-contractors bidding on the work designated in the proposal form shall deliver or mail to the awarding authority record copies of all bids sent by them to the General Contractor. All such bids shall be in sealed envelopes plainly marked on the outside with the sub-contractor's name, the nature of the work bid upon and the name or names of bidders they include in their bids for any portion of the work, involving labor and materials. All such bids must be delivered to or mailed to and received by the awarding authority and mailed to and received by the General Contractor no later than 12 noon, Monday, September 15, 1941.

No sub-bid shall be considered in the final selection of sub-bidders except those filed with the awarding authority.

Plans and specifications may be examined at the office of the Health Commissioner, eleventh floor, City Hall Annex, Court street, Boston, Mass.

Sub-bidders shall use the proposal form for sub-bidders set forth in chapter 480 of the Acts of 1939, copies of which may be obtained at local stationers or at the office of the awarding authority.

The names of all sub-bidders who file their bids with the awarding authority will be mailed by the awarding authority on the date of receipt to the General Contractor bidding on the project and no sub-bidder not included on the list of sub-bidders shall be used by the General Contractor in his bid.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Health Commissioner, eleventh floor, City Hall Annex, Court street, Boston. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract.

Plans and specifications may be obtained at the office of the Health Commissioner, eleventh floor, City Hall Annex, Court street, Boston, Mass. All plans and specifications must be returned in good condition to said office at the time of the filing of bids.

A bond of a surety company, approved by the Health Commissioner, in the full amount of the contract, to secure the due performance of the contract and the full protection of the city will be required. The Health Commissioner reserves the right to reject any and all bids if it be in the public interest so to do. The right is reserved to reject all sub-bids on any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, SEPTEMBER 13, 1941. NO. 37

BOSTON RETIREMENT SYSTEM AGAIN SHOWN TO BE IN VERY SATISFACTORY FINANCIAL CONDITION, ACCORDING TO ANNUAL REPORT OF BOARD — 187 MEMBERS RETIRED DURING YEAR AT A COST OF $177,342.43 — NUMBER OF WITHDRAWALS FOR YEAR WAS 816, WHILE 696 NEW EMPLOYEES WERE ADMITTED TO MEMBERSHIP — 816 WITHDRAWALS WERE RECORDED, WITH A SUM OF $317,796.59 REFUNDED - COST OF ADMINISTRATION AMOUNTED TO $33,198.84, OR ABOUT ONE HALF OF ONE PER CENT OF YEAR'S PAYMENTS.

The following statistical data of the Boston Retirement System has been made public:

During the year the Board retired 187 members from active service, at a cost to the Retirement System of $177,342.43. Of this number 155 were for service, 16 were for accidental disability, 16 were for ordinary disability and there were no accidental death benefits.

During the year there were admitted to membership 696 new employees. The number of withdrawals from service was 816, of which 129 were due to death, 500 were due to resignation or dismissal and 187 to retirement. The amount of cash refunded as a result of these withdrawals was $317,796.59. The cost of administering the system for 1940 which is borne by the city was $33,198.84, which was about one half of 1 per cent of the payments for the year.

The itemization of the administration is as follows:

Personal Service	$24,849 53
Service Other than Personal	7,467 92
Office Equipment	16 00
Office Supplies and Postage	865 39
Total	$33,198 84

A close examination of the financial statements included herein discloses a very satisfactory financial condition.

The Board wishes to acknowledge the valuable cooperation of all the employees, who by their loyalty and competency have enabled the Board to maintain a high standard of efficiency in the administration of the System.

WILFRED J. DOYLE,
JAMES J. MCCARTHY,
J. GEORGE HERLIHY,
Boston Retirement Board.
WILLIAM D. KENNEY,
Executive Officer.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

WITHOUT ADVERTISING.

Upon September 8 the Mayor approved a contract for furnishing heavy, medium and light fuel oil to the various city departments as requested in the following communication:

SUPPLY DEPARTMENT.

BOSTON, September 5, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Attached please find list of bids on proposals for furnishing heavy, medium and light fuel oil to the

various city departments, which bids were publicly opened and read at this office under date of August 12, 1941.

There were no responsive bids submitted by any of the bidders strictly in accordance with the Supply Department proposal form, as they all inserted a "force majeure" clause, either in the form or substantially in the form of the copy which I am attaching, which took the place of those sections of our standard form contract relating to the liability of the contractor for failure to make deliveries as therein provided (sections 5, 6, 7).

The Supply Department has endeavored to secure the consent of all the various bidders to waive the inclusion of the "force majeure" clause in their contracts, but has met with refusals from all the bidders to do so on the ground that their suppliers insist upon such "force majeure" clauses in their contracts with said suppliers. This situation, of course, arises out of the current National Defense Emergency. We then endeavored to have the various bidders retain in the standard form contract the above-mentioned sections 5, 6 and 7 and accept a clause, copy of which I am also attaching, in lieu of the "force majeure" clause originally inserted by the various bidders. We have succeeded in getting the bidders to agree to the retention of standard form clauses 5, 6 and 7, but they have insisted on their original "force majeure" clause in supplement thereto.

In view of the fact that no responsive bids were received from any of the bidders due to the reason indicated above, and of our opinion (which is fully supported by the opinion of our fuel expert) that no satisfactory bid could be received under existing emergency circumstances that would not include a "force majeure" clause, it is clear that no added benefit to the city can be derived from further advertising. I therefore respectfully request your Honor's written authority to reject all bids on the advertised proposals and award without further advertising on the basis of the prices submitted by the various bidders—which, with one exception, were all equal—as follows:

Heavy Fuel Oil.

White Fuel Corporation: Boston City Hospital, 3,500,000 gallons; Boston Sanatorium, 350,000 gallons; Dorchester Court House, 20,000 gallons; Health Units, 105,000 gallons; Deer Island, 1,250,000 gallons; total, 5,725,000 gallons.

Pennsylvania Oil Company: Calf Pasture Pumping Station, 600,000 gallons; City Hall Annex, 600,000 gallons; Suffolk County Court House, 700,000 gallons; total, 1,900,000 gallons.

The price to be the contractor's established selling price applicable to the method of delivery in effect at the time and place of delivery; the price on the day of the opening of the bids being $1.50 a barrel.

Medium Fuel Oil.

Petroleum Heat and Power Company: Various departments, 410,000 gallons.

The price to be contractor's established price on day of delivery in the territory in which premises are located; the price on the day of the opening of the bids being $1.96 a barrel.

Light Fuel Oil.

White Fuel Corporation: Various departments, 1,000,000 gallons.

The price to be posted tank wagon price in effect on day of delivery; the

CONTRACTS AWARDED WITHOUT ADVERTISING.

(*Continued from page 1035.*)

price on the day of the opening of the bids was $0.40 per gallon, less a 2 per cent discount for payment in fifteen days.

Fuel Oil for Boats.

Socony-Vacuum Oil Company: "Stephen J. O'Meara," 5,000 barrels heavy fuel oil.

The price to be the posted tank car price at East Boston, Mass.; the price on the day of the opening of the bids being $1.35 a barrel.

"Matthew J. Boyle," 4,000 barrels medium fuel oil.

The price to be the posted tank car price at East Boston, Mass.; the price on the day of the opening of the bids being $1.65 a barrel.

It is now believed that existing fuel demands related to National Defense, coupled with shortage of transportation facilities, will lead to fuel rationing during the period covered by these contracts, and we understand that the probable basis of rationing will be the dealers' fuel deliveries to customers during the past year. In view of this situation and of the necessity of assuring to the vital hospital and institutional services of the city a sufficient supply of fuel, the awards of contracts as stated above have been given to the same contractors that furnished fuel oil to the City of Boston during the past year.

In explanation of the non-acceptance of the lowest bid submitted by Alfred E. Ventola on light fuel oil, I would say that this bid has been rejected, because after investigation it appears that this bidder has neither the facilities nor the assurance of supply adequate to enable him to fulfill properly the requirements of the light fuel oil contract. This contract, which covers a number of vital municipal services to which a constant fuel supply must be assured, requires the delivery during the contract period of 1,000,000 gallons of fuel oil to various locations in the city.

I am securing letters of assurance from the various contractors that in the event of rationing or other curtailment, subject, of course, to governmental regulation, the vital services of the city will be supplied with the necessary quantities of fuel in priority to other customers not in the same classification.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

SUGGESTED INSERTION IN CITY CONTRACT.

ARTICLE 7A. Notwithstanding anything to the contrary hereinbefore contained in Articles 5, 6 and 7 hereof, it is expressly agreed that the city may not cancel this contract by reason of,— and that the city may not hold the contractor liable for any loss, expense or damage incurred by the city on account of,—any failure or omission of the contractor to furnish or deliver any of the goods called for in this contract, if the contractor's said failure or omission to furnish or deliver goods shall have been caused by wars, acts of enemies, embargoes or other import or export restrictions, appropriation or confiscation of the facilities used by the contractor or his supplier for the production, transportation, manufacturing, receiving, handling or delivery of the goods called for in this contract, or by compliance with any law, order or regulation of any federal, state, or municipal governmental authority, or by any other cause constituting a legal impossibility. It is further agreed that, at the city's option, the obligation of the city to accept and pay for the goods called for in this contract shall be reduced to the extent of purchases of such goods made by the city under the authority of Article 5 hereof.

FORCE MAJEURE CLAUSE.

All orders shall be filled by contractor of the supplying company with reasonable promptness, but neither contractor nor any supplying company nor City of Botson shall be held responsible for any losses resulting if the fulfillment of any terms or provisions hereof shall be delayed or prevented by revolutions or other disorders, wars, acts of enemies, embargoes or other import or export restrictions, strikes, lockouts, fires, floods, acts of God, arrest or restraint of princes, rulers or peoples, perils of the sea, accidents of navigation, breakdown or injury to ships, failure of or interference with supply from contractor's present sources, breakdown or injury to, or expropriation or confiscation of the facilities used for the production, transportation, manufacturing, receiving, handling or delivery of fuel oil or crude petroleum from which it is derived, or by any other acts, whether or not of the same class or kind as those above set forth, not within the control of the party whose performance is interfered with and which by the exercise of reasonable diligence said party is unable to prevent. If by reason of any such causes, supplies of fuel oil or crude petroleum from which it is derived from any of contractor's then existing sources of supply are curtailed or cut off, then the obligation of contractor hereunder during such curtailment or cessation shall at its option be reduced to the extent necessary in contractor's judgment to apportion fairly among its customers the fuel oil then in storage and such quantity as may be received in the ordinary course of business from any other existing sources of supply, and contractor shall not be required to increase its takings from such other sources of supply, or to purchase fuel oil or crude petroleum to replace the supply so curtailed or cut off. If contractor or the supplying company shall suffer any loss of tanker tonnage, or if compliance with an order or request of any governmental authority shall reduce the tanker tonnage available for the normal movement of crude petroleum or petroleum products, the obligation to make deliveries hereunder may be reduced at contractor's option approximately in proportion to such loss or reduction. Contractor shall not be required to make up deliveries omitted on account of any such causes.

MAYOR TOBIN SEEKS SUITABLE DEFENSE HOUSING.

An urgent need for suitable housing for defense workers in Boston has been proclaimed by Mayor Maurice J. Tobin, who has issued a proclamation calling on all residents to support the Defense Housing Program by putting all suitable old property in good repair and remodeling it for additional living quarters.

The Mayor's proclamation points out the acute shortage of good living quarters here for defense workers who need proper housing for themselves and their families, and calls attention to the fact that there is plenty of vacant and run-down property suitable for speedy remodeling on the F. H. A. Pay-Out-of-Income Plan.

The rehabilitation of such property can be both profitable and of two-fold value, the Mayor declares, as a major contribution to the Nation's defense effort, and as a neighborly act.

PROCLAMATION BY THE MAYOR.

Whereas, The Nation's Defense Program has called increasing numbers of Americans to Boston to work with hands, brains, and skills in our factories and shops; and

Whereas, These Defense Workers urgently need proper housing for themselves and their families, thereby creating a shortage of good living quarters in Boston; and

Whereas, There is both vacant and run-down property here which can be repaired or remodeled speedily for suitable living quarters on the F. H. A. Pay-Out-of-Income Plan; and the rehabilitation of such property can be of two-fold value as a contribution to the Nation's defense effort, and as a neighborly act; now therefore,

I, Maurice J. Tobin, Mayor of the City of Boston, do proclaim that an urgent need for good housing exists in Boston; and I furthermore call on all residents to put all suitable property in good repair and remodel it for additional living quarters.

In Witness Whereof, I hereunto set my hand and seal. Done in the City of Boston this 8th day of September in the year of our Lord nineteen hundred and forty-one.

CLAIMS ALLOWED.

The Mayor has approved, upon recommendation of the Corporation Counsel, the following claims:

Bartholomew A. Clements, 104 Neponset avenue, Hyde Park, to be reimbursed, in the sum of $17.50, for accident which occurred on March 13, 1941, when motor truck belonging to the Sanitary Division, Public Works Department, which he was operating, collided with an automobile owned by the Boston Baking Company.

Edward Timlage, 458 Western avenue, Brighton, to be reimbursed, in the sum of $44.75, for accident which occurred on March 10, 1941, when motor vehicle belonging to the Paving Division, Public Works Department, which he was operating, collided with an automobile owned by one James Driscoll.

Thomas Iverson, 26 Pleasantview street, Roslindale, to be reimbursed, in the sum of $60, as the result of an accident which occurred on March 12, 1941, when motor vehicle belonging to the Paving Division, Public Works Department, which he was operating, collided with an automobile owned by one Edward M. Barry, Jr.

Patrick Gallagher, 45 Mallett street, Dorchester, to be reimbursed, in the sum of $48.25, for accident which occurred on February 2, 1941, when motor vehicle belonging to the Sewer Division, Public Works Department, which he was operating, collided with an automobile owned by one Harry M. Topping.

Bertha Kalman, 22 Mallon road, Dorchester, in the sum of $60, for compensation for personal injuries caused by hole in sidewalk in front of 354 Washington street, Dorchester, November 18, 1940.

DAMAGES AWARDED.

The Mayor has approved the following votes of the Board of Street Commissioners:

Voted, That this Board determines that the undermentioned person sustains damages in his estate by the making of the public improvement consisting of the widening and construction of Cookson terrace, Dorchester district, as a highway, on the northerly side for a distance of about one hundred feet, under the order of the Board of even date herewith in the amount hereinafter mentioned and awards said amount therefor.

William J. Barry, 914 square feet, $1.00.

Voted, That this Board determines that no person sustains damages in his estate by the making of the public improvements consisting of the discontinuance of Pond street, West Roxbury district, as a highway, from near Cataumet street northeasterly for a distance of approximately five hundred and forty feet, and the discontinuance of Prince street, West Roxbury district, as a highway, from Pond street northwesterly for a distance of about two hundred and forty feet, under the order of the Board of even date herewith, and awards no damages therefor.

FIRE DEPARTMENT ORDERS.

General Order No. 39.

I. LIEUT. WILLIAM F. MCDONALD.

It is with deep regret that the Fire Commissioner announces the death, on August 26, 1941, of Lieut. William F. McDonald of Engine Company 45. Lieutenant McDonald was appointed to the department on February 1, 1924. He was promoted to the rank of lieutenant on December 10, 1937.

The funeral was held from the Metropolitan Funeral Parlors, 1642 Commonwealth avenue, Brighton, at 8 a. m., this date, followed by services at St. Anthony's Church, Holton street, Allston, at 9 a. m.

The Chief of Department detailed members of Military Drill Companies 1 and 2 to act as a funeral escort, and members of Engine Company 45 were excused in order to attend the funeral.

II. RETIREMENT.

The following retirement, which will take effect at 8 a. m., Monday, September 1, 1941, is hereby announced:

Hoseman John J. Joyce of Engine Company 34.

Hoseman Joyce was appointed to the department on December 22, 1933, and he leaves the department with the best wishes of his associates.

III. BOSTON AUTOMATIC FIRE ALARM COMPANY.

The following Boston Automatic Signal has been discontinued as of August 19, 1941:

Signal 423, Building, 35 Bedford street.

IV. DRIVING TEST.

As a result of the Safe Driving Test recently conducted by the Ford Motor Company, which was judged by officials of the Registry of Motor Vehicles and the A. A. A. Contest Board, the following-named members received the five highest ratings respectively; thirty-eight drivers having participated in the contest:

Owen J. Coyne, Rescue Company 3.
Aid to Chief Francis J. Scott.
Aid to Chief Thomas F. Kilduff.
John F. Creedon, Engine Company 28.
Aid to Deputy Chief William H. Bell.

The results of ratings given to all contestants will be put on file at Headquarters for reference in matters involving damage to cars or accidents of passenger cars driven by Fire Department chauffeurs.

V. COMMENDATION.

Capt. Thomas M. Manning of Engine Company 29 is hereby commended for extinguishing a fire in gasoline on street, at corner of Boylston and Hammond streets, Brookline, as a result of an automobile accident at about 7.50 a. m., August 16, 1941, before the arrival of the Brookline Fire Department. Captain Manning was off duty at the time and his prompt action prevented what might have been a more serious fire.

By order of Fire Commissioner WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 635.

The resignation of Sergt. William E. Payne of Division 7, having been presented, it is hereby accepted to take effect Monday, September 8, 1941, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 636.

The commissioner desires to express his thanks to all officers who were detailed at the Boston Garden on Sunday evening, September 7, in connection with the Boston *Record-American* and Sunday *Advertiser's* show for the benefit of the men in the military service at New England training camps.

The commissioner appreciates the fact that officers on this detail cheerfully performed extra duty on their own time and exemplified a fine spirit of devotion to duty.

The officials of the Boston *Record-American* and Sunday *Advertiser,* as well as those directly in charge of the show, have expressed their grateful appreciation of the fine cooperation and efficiency of the officers detailed on this occasion.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire hazards or nuisances:

The building at 12 Lovis street, Ward 6.

The building at 416 East Third street, Ward 6, owned by one Mary A. Bulens.

The building at 66 Lawn street, Ward 10, owned by Milton Zines of 46 Middlesex street.

The building at 68 Lawn street, Ward 10, owned by Milton Zines.

MAYOR TOBIN SENDS CONDOLENCES TO PRESIDENT.

Mayor Tobin, in behalf of the citizens of Boston, sent the following message of condolence to President Roosevelt in his bereavement:

HON. FRANKLIN D. ROOSEVELT, *President,*
White House, Washington, D. C.

The deepest sympathy of the citizens of Boston and the personal sympathy of Mrs. Tobin and myself go to you on the loss of your mother who represented all that is fine and noble in American Motherhood.

MAURICE J. TOBIN,
Mayor of Boston.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the widening of Poplar street, West Roxbury district, as a highway, from Whitford street easterly for about two hundred and fifty feet, bounded and described as follows:

The highway named Poplar street is hereby widened and relocated at Whitford street.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described land, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, owners unknown, bounded:

Southeasterly by the northwesterly line of Poplar street, as it existed previously to this widening and relocation, by two measurements, twenty-nine and 15-100 feet, and one hundred ten and 16-100 feet on a curve of seven hundred and twenty feet radius; southerly by the northerly line of Whitford street, as it existed previously to this widening and relocation, seventy and 27-100 feet on a curve of forty-seven and 9-100 feet radius; southwesterly by the northeasterly line of Whitford street, as it existed previously to this widening and relocation, twenty-two and 89-100 feet; northerly by the northerly line of Poplar street, as established under this order, eighty-six feet on a curve of fifty-seven and 68-100 feet radius, and northwesterly by the northwesterly line of said Poplar street, as established under this order, one hundred twenty-nine and 85-100 feet, containing nineteen hundred and fifty-six square feet, more or less.

Said Poplar street, as hereby widened and relocated, is bounded:

Southeasterly by the northwesterly line, as it existed previously to this widening and relocation, by four measurements, twenty-nine and 15-100 feet, one hundred ten and 16-100 feet on a curve of seven hundred and twenty feet radius, sixty-one and 10-100 feet on a curve of seven hundred and twenty feet radius, and seventy-seven and 3-100 feet; westerly by the westerly line of Poplar street, as hereby widened and relocated, sixty-four and 51-100 feet on a curve of thirty-seven and 21-100 feet radius; northwesterly by the northwesterly line of Poplar street, as hereby widened and relocated, fifty-one and 72-100 feet; northerly by the northerly line of Poplar street, as hereby widened and relocated, eighty-six feet on a curve of fifty-seven and 68-100 feet radius, and northwesterly by the northwesterly line of said Poplar street, as hereby widened and relocated, one hundred twenty-nine and 85-100 feet.

No betterments are to be assessed for the making of the aforesaid improvement.

Voted, That this Board determines that the undermentioned estate sustains damages by the making of the public improvement consisting of the widening and relocation of Poplar street, West Roxbury district, as a highway, at Whitford street, under the order of the Board of August 27, 1941, in the amount hereinafter mentioned and awards said amount therefor.

Owners unknown (Poplar street), 1,956 square feet, $1.00.

RECEIPTS OF MILK IN BOSTON BY RAIL. STATISTICS FOR YEAR 1937.

Total, 201,115,222 quarts (including 21,533,437 quarts of cream) or 190,884,037 by the Boston & Maine Railroad; 9,304,589 by New York, New Haven & Hartford Railroad; 926,596 by Boston & Albany Railroad.

The said total exceeds that of 1936 by 2,233,863, but is 35,786,309 below the receipts in 1931 which was the highest on record.

The receipts in 1937 of the Boston & Albany Railroad are the lowest on record for that railroad.

The maximum receipts of milk and also of cream in 1937 were in August; the minimum in February.

STATE VALUATIONS IN 1937.

Total assessed value of real estate on January 1, 1937, in the thirty-nine cities and 316 towns of Massachusetts, $5,742,161,541 ($18,194,654 less than on January 1, 1936), of which 65.62 per cent applied to buildings and 34.38 per cent to land; of personalty, $525,039,493; aggregate valuation, $6,267,201,034 (2.74 per cent decrease from 1936), on which the total tax was $222,184,422. To raise this amount of taxes on the property assessed at a uniform rate throughout the State would have required a tax rate of $35.45+ on $1,000 valuation. Boston's valuation, $1,590,544,700, equal to 25.38 per cent of total valuation in the State.

CITY CEMETERIES.

The Park Department has charge of twenty cemeteries, containing 212 acres, that are owned by the city. Mount Hope Cemetery is the largest. A number of these cemeteries are no longer available to the public for interments. In 1937 there were 2,075 interments in these cemeteries, or 77 more than in 1936. The interments in Mount Hope Cemetery in 1937 were 71.08 per cent of the total interments as against 74.57 per cent in 1936.

PROPOSALS FOR REPAIRS TO FENDERS AND WHARVES AT NORTHERN AVENUE, COMMERCIAL STREET AND SOUTH FERRY FIRE BOAT SLIPS.

The Fire Commissioner of the City of Boston, 60 Bristol street, invites proposals from citizens of the United States and corporations or other legal associations, wherein the controlling interest to the extent of at least over one half thereof, is owned by a citizen or citizens of the United States, for repairs to fenders and wharves at Northern avenue, Commercial street and South Ferry fire boat slips. A bond of an approved surety company doing business in the Commonwealth of Massachusetts in the full amount of the contract will be required to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at the office of the Fire Commissioner, 60 Bristol street. Each proposal must be signed by the bidder, placed in an envelope, properly sealed, and marked "Proposal for Repairs to Fenders and Wharves at Northern Avenue, Commercial Street and South Ferry fire boat slips," and left at the office of the Fire Commissioner, 60 Bristol street, before 12 o'clock noon of Wednesday, September 24, 1941, accompanied by a certified check for six hundred (600) dollars, payable to the City of Boston and to become and be the property of said city as liquidated damages suffered by said city if, after acceptance of his proposal, the bidder shall fail to carry out said proposal. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, and the sealed duplicate, without check, must be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor, at the office of the Fire Commissioner. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (The Workmen's Compensation Law, so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing will be required prior to the award of said contract. The contract is made subject to appropriation to meet payments thereunder. The Fire Commissioner reserves the right to reject any and all proposals and to award the contract as he deems best.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR REPAIRING HULL, ETC., OF FERRYBOAT "DANIEL A. MACCORMACK."

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for repairing hull, etc., of ferryboat "Daniel A. MacCormack." A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex, on and after Tuesday, September 16, 1941. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Ferryboat 'Daniel A. MacCormack,'" and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, September 23, 1941, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of specifications taken out.* The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR PLAY SPACE.

The City of Boston Trustees of the George Robert White Fund invite sealed proposals for the construction of a play space, together with grading, etc., at Rochester street and Troy street, in the South End, and giving bond of a surety company therefor in the sum of forty-five (45) per cent of the estimate. Only proposals obtained at the office of the Manager of the George Robert White Fund, Room 45, City Hall, Boston, Mass., signed by the bidder, placed in an envelope, properly sealed, and marked "Proposals for Play Space," and left before 4 o'clock p. m. of Wednesday, September 24, 1941, with Joseph F. O'Connell, Manager of the George Robert White Fund, Room 45, City Hall, Boston, with a certified check for $500, payable to the Trustees if the proposal is not carried out, will then and there be publicly opened and read. The bids must be made in duplicate, the one with the check to be left as above, the other, without check, to be filed with the City Auditor, City Hall, Boston, before 4 p. m., of the date given above for receiving proposals. The Trustees reserve the right to reject any and all proposals or to accept any proposal which, in the opinion of the Trustees, they may deem best to their interest. Plans and specifications may be obtained at the office of the Manager of the George Robert White Fund, Room 45, City Hall, on and after 12 o'clock m. of September 15, 1941. All plans and specifications must be returned in good condition to Room 45, City Hall, Boston, at the time of filing bids. Contractors desiring to bid must notify the Manager of the George Robert White Fund in writing on or before September 15, 1941, so that plans and specifications may be ready for them. A deposit of $10 will be required for plans and specifications taken out for estimating, same to be refunded on return of plans and specifications in good condition.

LIBRARY DEPARTMENT.

PROPOSALS FOR ACOUSTICAL TREATMENT AND ELECTRIC LIGHTING FOR BRANCH LIBRARY QUARTERS IN THE NEW OLD COLONY HOUSING PROJECT IN SOUTH BOSTON.

The Trustees of the Public Library of the City of Boston invite sealed proposals for acoustical treatment and electric lighting for branch library quarters in the new Old Colony Housing Project in South Boston. Forms of proposals may be obtained at the office of the Comptroller, Public Library of the City of Boston, Central Library, Copley square. Each proposal must be signed by the bidder, placed in an envelope, properly sealed, and marked "Proposal for Acoustical Treatment and Electric Lighting for Branch Library Quarters in the New Old Colony Housing Project in South Boston," and left at the office of the Trustees, Central Library Building, Copley square, before 12 noon, September 25, 1941, accompanied by cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in the sum of $250, to become and to be the property of the City of Boston as liquidated damages if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed or delivered to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other without cash, certified check or certificate of deposit, to be filed with the City Auditor, City Hall, Boston, before the time stated above for the opening of proposals.

NOTICE TO SUBBIDDERS.

All subcontractors bidding on the work designated in the proposal form shall deliver or mail to the awarding authority record copies of all bids sent by them to the general contractor. All such bids shall be in sealed envelopes plainly marked on the outside with the subcontractor's name, the nature of the work bid upon and the name or names of bidders they include in their bids for any portion of the work, involving labor and materials. All such bids must be delivered to, or mailed to, and received by, the awarding authority, and mailed to and received by the general contractor, no later than 12 noon, Tuesday September 23, 1941.

No subbid shall be considered in the final selection of subbidders except those filed with the awarding authority.

Plans and specifications may be examined at the office of the Comptroller, Public Library of the City of Boston, Central Library, Copley square.

Subbidders shall use the proposal form for subbidders set forth in chapter 480 of the Acts of 1939, copies of which may be obtained at local stationers or at the office of the awarding authority.

The names of all subbidders who file their bids with the awarding authority will be mailed by the awarding authority on the date of receipt to the general contractors bidding on the project and no subbidder not included on the list of subbidders shall be used by the general contractor in his bid.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained without cost upon application therefor at the office of the Comptroller, Public Library of the City of Boston, Central Library, Copley square. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. Plans and specifications may be obtained at the office of the Comptroller, Public Library of the City of Boston, Central Library, Copley square, on or after Monday, September 15, 1941. All plans and specifications must be returned in good condition to said office at the time of filing bids. A deposit of two dollars ($2) in cash will be required for each set of plans and specifications taken out for estimating, said deposit to be refunded on the return of the plans and specifications in good condition. A bond of a surety company, approved by the Trustees, in the full amount of the contract, to secure the due performance of the contract and the full protection of the city, will be required of the successful bidder. The Trustees reserve the right to reject any or all bids and to reject all subbids on any item in accordance with the provisions of chapter 480 of the Acts of 1939.

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, SEPTEMBER 20, 1941. No. 38

BOSTON'S WATER DIVISION HAS PULLED OUT OF "RED" AND IS NOW SHOWING AN OPERATING SURPLUS — FROM AGGREGATE DEFICIT OF NEARLY ONE MILLION DOLLARS IN THE SEVEN-YEAR PERIOD FROM 1930 to 1938, DIVISION NOW SHOWS ASSETS FOR THREE YEARS OF MAYOR TOBIN'S ADMINISTRATION OF $1,830,635.34, DUE TO BUSINESS METHODS INSTITUTED FOR COLLECTIONS AND OTHER ECONOMIES INAUGURATED—TAX-PAYERS AND ALL CITIZENS BENEFIT.

One of the outstanding results of the economic operation of departments of the city during the administration of Mayor Maurice J. Tobin, and one which those in direct charge are pointing with especial pride, is the operation of the Water Division. Due to the thorough business practices that have been instituted during the present administration, the operation of the division has been converted from a definite liability, with an aggregate deficit of nearly $1,000,000 for the seven-year period from 1930 to 1938, into an asset, with assets for the three-year period of $1,830,635.34. This information has been furnished the public from the offices of the Public Works Commissioner, George G. Hyland, as furnished him by the Division Engineer of the Water Division, D. M. Sullivan.

During the years from 1931 to 1937, the department operated at a loss, with a maximum deficit in the year 1935 of $273,568.76 and a total for the seven-year period of $702,390.94. During the years 1938, 1939 and 1940, the department has shown a surplus of receipts over expenditures, the largest in any single year being that of 1939 when there was a surplus of $757,182.55, and a total for the three years of $1,830,635.34.

This does not mean, however, that the division is operating at a profit from the sale of water to the public. To the contrary, the division's expenditures in any one year are scarcely met by the total water rates assessed in any one year. What the figures show is that during the past three years, by means of up-to-date business methods, such as the collection of current water bills, the collection of outstanding water bills for the prior years, and the rigid economy practiced in the operation of the division, these things have been accomplished.

Now Out of "Red."

Since Mayor Tobin took office in 1938, the Water Department has come out of the "red" for the first time since the stock market crash of 1929, when the heavy industrial water consumers greatly cut down their demands on the service because of lessened income.

Largely responsible for the last three years of successful operation of the water department, culminating in this year's payment of practically all outstanding bills, is Mayor Tobin's drive to collect back bills from clients whom the city has been "carrying" for years.

Records disclosed that thousands of dollars were owed to the city by water users who were taking advantage of the city's over-liberal attitude and thus forcing the Water Department farther and farther into the "red."

The initiation of sound business methods, with adequate warnings to customers that the city could no longer afford to operate water services at a loss, brought the consumers to the City Hall in large numbers to pay their back bills or at least to show their good faith by partial payments.

The result of these tactics has been to build up an aggregate surplus of nearly $2,000,000 in the three years of Mayor Tobin's administration and to establish an awareness on the part of water consumers to the fact that they might lose this important city service unless they treated the department as they would any other efficient business enterprise.

Further result, according to Mr. Hyland, is a 94 per cent collection of all outstanding bills this year. Said Mr. Hyland: "You can show me few large business corporations operating on a more sound financial basis."

Thus has the Water Department been snatched from a poorly operated liability and placed on the Mayor's personal list of well-run divisions turning surplus revenues into the general fund. Naturally, the present large surplus cannot be maintained permanently, since the excessive revenues are due primarily to the paying up of old bills, added to the regular annual revenues.

But all the Mayor expects as a result of his experiments is to have the division become a permanently established asset, clearing its own bills annually and perhaps paying a bit regularly toward the operation of less productive departments.

Changes Made.

Water consumption in Boston was shown by the charts in the commissioner's office to be close to the all-time peak levels of 1908, when an average of 93,370,300 gallons of water a day were consumed in Boston.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

BOSTON WATER DIVISION.

(Continued from page 1053.)

The upward trend of consumption since Mayor Tobin took office is a sharp reversal of the trend over the previous thirty years, culminating in 1936 with the warning of Christopher J. Carven, then Public Works Commissioner, that industries moving out of the city might conceivably force the water division into a temporary state of seriously rising water rates.

At that time there were 7,000 major water consumers, 500 having migrated from the city in the face of rising taxes during the previous ten-year period. Taken as an accurate barometer of business conditions by local economists, the generally good outlook in water consumption is attributed to improved industrial conditions, as well as the introduction of better business methods.

Within the City of Boston three agencies are involved in the water system, namely, the Water Division, the Water Income Division and the Collecting Department. Up to three years ago the Water Division had as its duty the maintenance and construction of the water system; the Water Income Division set and read meters and made out bills for water used; and the Collecting Department, as its name implies, collected all payments due on water bills, and notified the Income Division when bills were paid some two or three weeks after their payment. As a matter of practice, the consumer paid his water bills if he wished to. He let them slide if he cared to take a chance. If the bill for a quarterly period remained unpaid, the fact was not called to his attention on the next bill he received. There might be summonses, notices, etc., but no one paid much attention to them; and when the time came to pay the bill, the fees for summonses and demands were usually waived. The Income Division felt that with the reading of the meter and the rendering of the bill its duty was done and it was up to the collector to do the collecting. Each department passed on duties to the other department.

The system has been revised; the Water Division is the Water Department. The Income Division is the Business Office of the Water Department, and the Collecting Department still is the Collecting Department, with the exception that the water customer's entire account will always be on hand in the Water Department office instead of in the collector's office.

A drive to collect the outstanding sum of $2,000,000 is being conducted with no undue severity. If the accumulated indebtedness is heavy, installments are accepted on proof of actual inability to pay. Due notice is given of curtailment or stoppage of water. Water to domestic consumers is never shut off completely. It is merely curtailed, or as we say, "reduce the flow." The supply of water is reduced to a trickle which causes inconvenience but which does not endanger health.

Whenever a meter registered an unusually large amount of water because of an underground leak, for example, it was the practice in the past to have the customer present a statement from a plumber that a leak underground was repaired by him at the premises involved. Such a statement would be sufficient proof for the owner of a piece of property to have one-half of the excess over his normal bill abated. This practice has been stopped.

Customers would argue that during the winter months the water was allowed to run to waste to protect the meter from freezing during cold nights, and an abatement was usually allowed. This practice has been stopped. In fact, we tell the customer that a meter was set on the water pipe to record the amount of water used and that whatever the meter records will have to be paid for. This never was done before but is showing definitely good results for the tax payers.

Upon varying dates as indicated the Mayor approved contracts with firms and contractors, etc., for furnishing labor, supplies, etc. Communications from the heads of the several departments indicated were as follows:

ELECTION DEPARTMENT.

BOSTON, September 6, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—The Board of Election Commissioners respectfully requests that permission be given them to award the contract for printing the City Election ballots to the firm of Wright & Potter Printing Company of 32 Derne street, Boston, without advertising for bids, at a price of three thousand nine hundred ninety dollars and fifty cents ($3,990.50) for supplying 468,350 ballots, the usual quantity of specimen ballots for the respective three hundred eighty-six precincts, and 15,440 absent voters' ballots (40 for each precinct). In the event that additional ballots are necessary in excess of the 468,350, ballots will be supplied at the rate of six dollars and fifty cents ($6.50) per thousand.

The ballots for the City Election will contain three hundred eighty-six (386) precinct changes, twenty-two (22) ward changes, and twenty-two (22) changes for council candidates in the make up.

Great care will be required on the part of the printer as the time for printing such ballots and making a delivery to this office is very limited in view of the necessity of having absentee ballots on hand to be mailed as requested. Sample ballots for posting must also be delivered at this office three days after receipt of copy.

The Wright & Potter Printing Company is the only printing concern especially equipped to do this work, having printed the State and City of Boston ballots for a long period of years. Because of world conditions which have caused a shortage of paper and forced a rise in prices it is of utmost importance that an early decision be reached.

For the reasons as stated above, and to safeguard the voters of the city as far as possible against error, this request is made.

Respectfully yours,

BOARD OF ELECTION COMMISSIONERS,
WILLIAM A. MOTLEY, JR.,
Chairman.

FIRE DEPARTMENT.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,— Subject to your Honor's approval, I will award without advertising the work of furnishing and installing one portable pumping engine unit on the hose car of Engine Company 32 to the Maxim Motor Company, Middleboro, Mass., for the sum of $1,486. The pump is of 750 gallons capacity.

The foregoing is a standard price for a portable pumping unit of this type. The Maxim Company is the only firm in the vicinity of Boston who could furnish and install the pump.

No advantage would be obtained by the city in advertising for bids in this case as it is practically impossible to purchase portable pumps at this time, because of requirements of the Federal Government.

Very truly yours,

WM. ARTHUR REILLY,
Fire Commissioner.

INSTITUTIONS DEPARTMENT.

BOSTON, August 27, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—On August 9, 1941, a proposal for repairs to steamer "Stephen O'Meara" was advertised in the *City Record.* On Wednesday, August 20, 1941, two bids were received in response to said advertisement. The total of these bids, based on estimated quantities, were as follows:

General Ship and Engine Works, 336 Border street, East Boston, $8,850.

Quincy Dry Dock and Yacht Corporation, 108 Follett street, Quincy, $10,205.

Although the General Ship and Engine Works were the low bidder, their bid was not entirely responsive to the advertisement, in that this bidder failed to deposit a duplicate copy of their bid with the City Auditor prior to the time named for opening of bids, as requested in our advertisement. Probably through inadvertence, this bidder left two copies of their bid at this office, instead of leaving one copy at this office and one with the City Auditor.

The low bid being thus unresponsive to the advertisement, and the next highest bid being in a sum substantially higher than the work can probably be obtained for, I am exercising my right reserved in the advertisement and proposal to reject both bids.

Inasmuch as the annual inspection of the steamer "O'Meara" is due next week and delay in awarding a contract would involve additional expense, and inasmuch as no further benefit to the city is to be anticipated as a result of readvertising this proposal, I respectfully request your Honor's written authority to award a contract for repairs to the steamer "O'Meara" to the General Ship and Engine Works, for the sum of $8,850, the amount of their previous low bid, without further advertisement.

Respectfully yours,

HUGH J. CAMPBELL,
Commissioner.

PARK DEPARTMENT.

BOSTON, July 1, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—I wish to call your Honor's special attention to the fact that, due to this department's inability any longer to obtain the services of welfare recipients in connection with cleaning the beaches under its control, it is absolutely necessary that other arrangements now be promptly made for this work during the summer months of 1941.

For some years past the Park Department has been able to obtain 300 to 400 welfare workers per day for cleaning the beaches during the summer months. It now appears that probably most of the able-bodied persons on welfare have received positions on defense or other work and we will, therefore, be unable to obtain this summer the customary assistance from these workers. Accordingly, we must get outside assistance in order to keep the beaches in good condition from the standpoint both of health and appearance.

The bathing beaches and park properties in question are located as follows: North End Beach, Boston; Savin Hill, Dorchester; Marine Park, South Boston; Boston Common; Castle Island, South Boston; Columbus Park, South Boston; Tenean Beach, Dorchester; Strandway, South Boston.

Based on our past experience the work to be done in these areas consist of the following: Cleaning beaches and reservations of all stones, paper, glass, debris, etc., carting the same to dump and furnishing all necessary materials, labor, tools, trucks and other equipment required for this work. Also based on our past experience, it is impossible, due to unforeseenable weather conditions, to estimate in advance the precise amount and description of the work to be required. It is, therefore, difficult, if not impossible, to prepare a contract and specifications for this work. In my opinion the work can best be accomplished by means of service orders of this department given to some outside contractor qualified by his experience and equipment to assure the prompt and efficient carrying out of the work.

Based on my investigation, it is my opinion that the Ward General Contracting Company of 157 Hampden street, Roxbury, is the concern which is best qualified to do this particular work in a satisfactory manner and that the city's interests would best be served by making a service order arrangement with that concern, such arrangement to cover the period of July 3, 1941, to August 29, 1941, inclusive.

While, as stated previously, it is impossible to estimate the exact requirements of this department in this connection, it is expected that the work involved will not exceed $9,000 in cost to the city.

As nothing would be gained by advertising, I, therefore, respectfully request that your Honor approve this department's entering into an arrangement with the Ward General Contracting Company for this work without advertising, for the period stated, on a service order basis, the total not to exceed $9,000, and the same to be charged to B-39, Park Dement Budget. If deemed desirable a formal contract will be executed to carry out the foregoing arrangement.

Yours very truly,

WILLIAM P. LONG, *Chairman*

PUBLIC WORKS DEPARTMENT.

BOSTON, August 18, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,— Your permission is respectfully requested to the award of a contract, without publicly advertising for bids, for the furnishing of overhead doors for garage at Highland Street Yard to the J. G. Wilson Corporation, 1841 Broadway, New York, with a Boston office at 216 Tremont street, Boston, at an estimated cost of $2,678.50.

On August 7, 1941, bids were received from three concerns, one of which was the Wilson Corporation, for doing this type of work, both manually operated and motor operated units. The proposals, opened on August 7, would allow us to award only on the basis of the motor operated doors, and as we now wish to install manually operated doors, we have rejected all bids of the original proposal as submitted August 7, and request your approval to enter into a contract with the J. G. Wilson Corpora-

tion, the lowest bid received for manually operated doors according to Items 1 and 2 of the original specifications, at the original price submitted.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

—

BOSTON, August 19, 1941.
HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Under date of May 3, 1940, a contract was awarded to the Appel & O'Toole Company, 78 Moreland street, Roxbury, for earth excavation and refilling to allow the Water Division employees to install, regulate, or repair Water Division structures in the City Proper, South Boston, East Boston, Charlestown and Roxbury (Water Division) districts. Although this contract has terminated, it will be necessary during the current year to continue this type of work.

The Appel & O'Toole Company is willing to accept a new contract at the prevailing prices and on the basis of the quantities shown in the contract document and in accordance with the standard specifications of the department. I consider the prices in the previous contract very fair to the city, and I believe that no lower prices would be obtained if new bids were called for. In view of this I feel that there would be no advantage in advertising for bids at this time, and it is my opinion that it would be for the best interests of the city to allow the Appel & O'Toole Company to continue the type of work provided in the above-referenced contract.

I therefore respectfully request permission to award a contract without advertising to the Appel & O'Toole Company for doing this work, at a total cost of approximately $6,700.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, September 2, 1941.
HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract without publicly advertising to the Edgeworth Distributing Company, Inc., Boston, for furnishing and delivering to Eastern Avenue Wharf for the Long Island Hospital, as required, from September 15, 1941, to February 15, 1942, the following:

150 cases plug tobacco, 42 pounds each, totalling 6,500 pounds, at 43 cents per pound, $2,700.

The plug tobacco put out by the Edgeworth Distributing Company is preferred at Long Island Hospital, and, as it is manufactured exclusively by this company, nothing would be gained by publicly advertising.

Respectfully yours,

CHARLES E. THORNTON,
Acting Superintendent of Supplies.

POLICE DEPARTMENT ORDERS.

General Order No. 637.

The annual ball of the Boston Police Relief Association will be held in the Boston Garden, Wednesday evening, December 3, 1941.

The proceeds of the ball, as all members of the department know, are added to the funds of the association and are used for the payment of sick and death benefits to members of the association and their families, which funds, at the present time, are insufficient to meet the demands made upon the association.

It is the desire of the Commissioner, the Superintendent and the Board of Directors of the Association that all members of the force interest themselves and make a special effort to dispose of the tickets for the ball, and thereby make it such a success that the finances of the association will be put on a sound basis, so that the good work achieved by the association in assisting its members in time of sickness or death since it was organized in 1871 may be continued.

The tickets for the ball will be distributed to each station by the treasurer, Lieut. Harrington B. Wyand, Division 18, who will receive a receipt therefor. Captains of divisions will distribute the tickets to their officers and keep a correct list of the number of tickets given to each man. Each officer will make a daily return to his captain of the number of tickets he has sold, together with the name and address of the purchaser, and will return the money received to his captain.

All officers will be held strictly responsible for tickets allotted to them.

Captains will collect each day all money received by officers in the sale of tickets and will forward to the superintendent by morning mail the following day all of such money. A correct list containing the ticket numbers, together with the names and addresses of purchasers of tickets, shall be kept on file at the various divisions. In this way, it is expected that a complete canvass of the city will be made and a substantial increase in the sale of tickets will be accomplished.

Cash received by commanding officers will be converted into a check, made payable to Harrington B. Wyand, treasurer, B. P. R. A., and then forwarded to the superintendent's office.

All tickets that remain unsold on December 2, 1941, will be collected by the captain of each division and returned to Lieutenant Wyand who will furnish a receipt therefor.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

General Order No. 638.

Lieut. James V. Crowley, Sergt. Francis W. Russell and Patrolman Thomas J. Conaty, all attached to the Bureau of Criminal Investigation, are commended for meritorious duty performed in connection with the contemplated jail delivery from Massachusetts State Prison.

The commissioner is pleased to recognize and commend these officers for the discreet and intelligence manner displayed in frustrating the plans of these desperate and dangerous criminals which may have prevented loss of life or serious injury.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Chestnut square, West Roxbury district, as a highway, from Chestnut street easterly, then southerly to bend, bounded and described as follows:

A highway named Chestnut square is hereby laid out from Chestnut street easterly and then southerly to a point approximately 15 feet south of the southerly arm of said Chestnut square, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Westerly by Chestnut avenue, eighteen and 91-199 feet; northerly by the northerly line of said Chestnut square as here-

by laid out, by two measurements, one hundred fifty-five and 77-100 feet, and one hundred sixteen and 71-100 feet; easterly by the easterly line of said Chestnut square as hereby laid out (broken line), two hundred one and 78-100 feet; southerly by the southerly line of said Chestnut square as hereby laid out, six and 75-100 feet; again easterly by the easterly line of said Chestnut square as hereby laid out, one hundred seventy and 1-100 feet; again southerly by the southerly line of said Chestnut square as hereby laid out, twenty-five feet; westerly by the westerly line of said Chestnut square as hereby laid out (broken line), three hundred forty-three and 32-100 feet; and again southerly by the southerly line of said Chestnut square as hereby laid out, by two measurements, ninety feet, and one hundred sixty and 23-100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on all sides of Chestnut square, as laid out under this order, will receive benefit or advantage beyond the general advantage to all real estate in said city from the improvement herein ordered, each of said lots to the amount hereinafter respectively set against it, said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Chestnut Square, Glenvale Terrace, West Roxbury, June 19, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

A PROCLAMATION.

Whereas, The United States of America, pursuant to the authority of Public Debt Act of 1941, is offering Defense Savings Stamps, in small denominations, for sale to its citizens; and

Whereas, Retail stores throughout our country offer a convenient means of furthering the sale of these stamps to the patrons who visit them for other purchases; and

Whereas, More than a million such stores, as represented by national trade associations, have pledged whole-hearted support in assisting the Treasury Department to sell Defense Savings Stamps and have agreed to make a special effort, during a given week, to aid in the sale of Defense Savings Stamps; and

Whereas, Boston stores are co-operating in this intensive effort to acquaint the American shopping public with the advantages of buying Defense Savings Stamps; now, therefore.

I, Maurice J. Tobin, Mayor of the City of Boston, do hereby designate the week of September 15 to 20, 1941, as Retailers-for-Defense Week to aid in the Sale of Defense Savings Stamps, and do call upon the people of our city to co-operate in making that week a period of outstanding achievement in the sale of Defense Savings Stamps.

In witness whereof I have hereunto set my hand this eleventh day of September in the year of our Lord nineteen hundred and forty-one.

MAURICE J. TOBIN, *Mayor.*

CIRCULAR LETTER NO. 14.

CITY OF BOSTON,
MAYOR'S OFFICE, September 10, 1941.

To the Heads of Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence, without loss of pay, to employees of the city who are of the Jewish faith for their observance of the New Year upon Monday, September 22, and Tuesday, September 23, and Wednesday, October 1, 1941.

Respectfully,
MAURICE J. TOBIN, *Mayor.*

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement, consisting of the laying out and construction of Glenvale terrace, West Roxbury district, as a highway, from Lamartine street to Chestnut square, bounded and described as follows:

A highway named Glenvale terrace is hereby laid out, from Lamartine street to Chestnut square, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Easterly by Lamartine street, twenty-six feet; southerly by the southerly line of said Glenvale terrace as hereby laid out, two hundred feet; westerly by Chestnut square, twenty-six feet; and northerly by the northerly line of said Glenvale terrace as hereby laid out, two hundred feet.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

TRANSFERS IN APPROPRIATIONS.

City Auditor Charles J. Fox announces the following transfers in appropriations in departments of the City of Boston, approved by his Honor the Mayor:

INSTITUTIONS DEPARTMENT.

BOSTON, July 1, 1941.

FRANCIS X. LANG,
Budget Commissioner.

DEAR SIR,—For the reasons as below explained, will you kindly approve and forward to the Mayor the following request for transfers within the appropriations of the Institutions Department:

From the appropriation for Long Island Hospital, A-1, Permanent Employees, $1,000, to the appropriation for Steamer "Stephen O'Meara," A-2, Temporary Employees, $1,000.

Appropriation of $800 under A-2 has been exhausted due to employment of a deckhand at $1,700 a year, in place of Roy A. Wilson, engineer and watchman at $1,800 a year, who has been ill since December 11, 1940. It is estimated that transfer of $1,800 to A-2 will be necessary to meet requirements for the remainder of the year.

Substitutes for vacation period, $850; emergency substitutes on account of illness, etc., for remainder of year, $696.02; to provide for debit transfer from A-1, $253.98—$1,800.

Through error services of Permanent Intermittent Fireman were charged to A-1, two firemen at $1,800 a year, an item which is not in our 1941 budget. Debit transfer of $253.98 is to right that error.

Respectfully,

HUGH J. CAMPBELL,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor July 25, 1941.

—

BOSTON, July 8, 1941.

FRANCIS X. LANG,
Budget Commissioner.

DEAR SIR,— For the reasons as below explained, will you kindly approve and

forward to the Mayor the following request for transfers within the appropriations of the Institutions Department:

From the appropriation for Long Island Hospital, D–16, General Plant, $100, to the appropriation for Child Welfare Division, D–16, General Plant, $100.

To cover Requisitions 151 and 177 for gummed tape and pins and to provide for packing boxes and wrappings for the remainder of the year. Not only has the price of boxes increased materially but a larger number are needed due to partial delivery of outfits necessitated by the delay in securing W. P. A. clothing for these outfits.

Respectfully,

HUGH J. CAMPBELL,
Commissioner.

The above transfer was made by the City Auditor with the approval of the Mayor July 21, 1941.

DOUBLE-BARRELLED HIGHWAY, BLUE HILL AVENUE.

The following was received:

City of Boston,
Office of the Mayor, September 8, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of August 18, 1941, concerning the construction of a double-barrelled highway on Blue Hill avenue, from Seaver street to American Legion Highway.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
September 4, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—This is in reference to the following order that was passed in the City Council on August 18, 1941:

"Whereas, The City of Boston planned the construction of a double-barrelled highway on Blue Hill avenue, from Seaver street to American Legion Highway; and

"Whereas, Said highway was to have been completed within three years from 1939; and

"Whereas, National Defense and the safety of residents in that section of Dorchester require immediate completion of said highway; therefore be it

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to explain the reason why said highway is not proceeding according to schedule; and be it further

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately proceed with the work on said highway."

In the fall of 1939, at a conference between his Honor the Mayor, and the trustees of the Boston Elevated Railway Company, it was agreed to eliminate the street car reservation in that section of Blue Hill avenue that extends from American Legion Highway to Seaver street, and construct a so-called double-barrelled highway to replace the present single-barrelled highway; the improvement to be effected over a three-year period. Last year the above-referenced change was made in that section of the avenue that extends from American Legion Highway to a point near McLellan street. At the present time arrangements are being made to effect the improvement in that section of the highway that extends from McLellan street to Columbia road. I anticipate that the actual street construction work will start on or about September 20 and will be completed about the middle of November. Next year the remaining section, that is, that part of the avenue that extends from Columbia road to Seaver street, will be reconstructed.

It may be seen, therefore, that the work is proceeding as scheduled and that the entire improvement will be effected in a three-year period, in accordance with the agreement made

CITY COUNCIL PROCEEDINGS.

(*Continued from page 1065.*)

between his Honor and the Trustees at the above-referenced conference.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

SIDEWALKS, WARD 7.

The following was received:

City of Boston,
Office of the Mayor, September 8, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of July 21, 1941, concerning the installation of granolithic sidewalks on the following streets in Ward 7 as W. P. A. projects: Telegraph street, Old Harbor street, Thomas park.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
September 5, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—This is in reference to the following order that was passed in the City Council:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on the following streets in Ward 7 as W. P. A. projects: Telegraph street, Old Harbor street, Thomas park."

A project has been submitted to the W. P. A. authorities providing for the effecting of the above-referenced improvement.

If possible, the actual construction will start some time this fall, although I do not believe at this time, due to the late date, that we shall be able to start before next spring.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

SIDEWALKS, BRENT STREET, WARD 17

The following was received:

City of Boston,
Office of the Mayor, September 8, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of July 21, 1941, concerning the installation of granolithic sidewalks on both sides of Brent street, between Talbot avenue and Washington street, Ward 17, as a W. P. A. project.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
September 5, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—This is in reference to the following order that was passed in the City Council:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on both sides of Brent street, between Talbot avenue and Washington street, Ward 17, as a W. P. A. project."

Arrangements will be made to submit to the W. P. A. authorities a project which will provide for the effecting of the above-referenced improvement.

In view of the late date, however, I do not feel that we shall be able to start work on the street until next spring.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

SHELTER, CENTRAL SQUARE, EAST BOSTON.

The following was received:

City of Boston,
Office of the Mayor, September 4, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of August 25, 1941, concerning the erection of a shelter for street car passengers at Central square, East Boston.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
August 29, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—In reply to your letter of August 28 with order of the City Council requesting erection of a shelter for passengers at Central square, East Boston, I would say that the matter of providing

shelters at stopping places and transfer points on the system has been given careful consideration by the Trustees, but in view of the expense involved and frequency of service operated, they do not feel that shelters can be justified. Their maintenance would, of course, add considerably to the deficit.

Very truly yours,
EDWARD DANA,
President and General Manager.

Placed on file.

FIVE-CENT FARE FOR SCHOOL CHILDREN THROUGHOUT YEAR.

The following was received:

City of Boston,
Office of the Mayor, September 4, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of August 25, 1941, concerning the maintaining for school children a five-cent fare throughout the year.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
August 29, 1941.

Mr. William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—Referring to your letter of August 28 with order of the City Council, I would say that pupils of public and private schools attending a grade or grades not higher than the most advanced grade of high school now have the privilege of a 5-cent fare by ticket for transportation to and from the schoolhouses.

The 5-cent pupil's ticket carries with it the same transfer privileges as the 10-cent fare.

Very truly yours,
EDWARD DANA,
President and General Manager.

BUS LINE ON HUNTINGTON AVENUE.

The following was received:

City of Boston,
Office of the Mayor, September 4, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of August 18, 1941, concerning the making prompt arrangements in the matter of placing a 5-cent bus line on Huntington avenue and Boylston street, from Francis street to Park square.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
August 28, 1941.

Mr. William T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir,—In reply to your letter of August 21 inclosing order of the City Council requesting a 5-cent bus line on Huntington avenue and Boylston street, from Francis street to Park square this matter was considered by the Trustees at their meeting yesterday and they directed me to reply that they cannot grant the request because it is inconsistent with the 5-cent fare arrangement that pertain all over the system. However, they are willing and plan to operate, when the road conditions permit, a 5-cent fare line from Massachusetts and Huntington avenues to Park square.

Very truly yours,
EDWARD DANA,
President and General Manager.

REE ELEVATED RIDES FOR SERVICE MEN.

The following was received:

City of Boston,
Office of the Mayor, September 4, 1941.

o the City Council.

Gentlemen,—I transmit herewith communication from the President and General Manager of the Boston Elevated Railway Company relative to your order of August 18, 1941, concerning the permitting selectees and all service men in the United States Army, Navy or Marine Corps to ride free on the Boston Elevated system.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

Boston Elevated Railway,
August 28, 1941.

Mr. William T. Doyle,
Chief Clerk-Secretary, Mayor's Office.

Dear Sir,—Replying to your letter of August 21 with order of the City Council requesting free transportation for selectees and all service men in the United States Army, Navy or Marine Corps, this matter was considered by the Trustees at their meeting yesterday.

They directed me to advise that reply to a similar request was made in January, 1941, to Major Richard F. Anderson, Q. M. C., assistant at the Army Base, that in the spirit of the Public Control Act this policy of free rides could not be adopted.

Very truly yours,
EDWARD DANA,
President and General Manager.

August 27, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is in reply to Council order dated August 18, 1941, which reads as follows:

"Ordered, That the Boston Traffic Commission be requested, through his Honor the Mayor, to make a survey of all intersections in Ward 17 in the vicinity of churches and schools with the view to painting white lines at these locations."

It is the practice of this commission to paint white lines in the vicinity of all churches and schools where we deem that public safety will be served by the presence of these lines.

We are at present engaged in continuous painting in an attempt to have our program, in the vicinity of school crossings, complete before the opening of the school year.

TRANSFER FROM PARKMAN FUND.

The following was received:

City of Boston,
Office of the Mayor, September 8, 1941.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of $24,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, September 2, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of $24,000 which is now available, to be expended under the direction of the Board of Park Commissioners, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of.....	$24,000

When making up the budget estimates for the year 1941, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1941, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

—

Ordered, That the sum of $24.000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direc-

tion of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... $24,000

Referred to Executive Committee.

REPAIRS, CENTRAL LIBRARY ROOF.

The following was received:

City of Boston,
Office of the Mayor, September 8, 1941.

To the City Council.

Gentlemen,—In the current budget there was requested a special appropriation of $75,000 to reconstruct a section of the roof of the Public Library, but the Committee on Appropriations did not feel inclined to recommend its adoption by the Council. In a communication dated August 25, 1941, signed by Louis E. Kirstein, President of the Board of Trustees of the Public Library, the Trustees have urged upon me the necessity of again considering the condition of that part of the building and have summarized to my satisfaction the result of studies and investigations bearing on the problem. The construction engineers point out that there are four alternatives of procedure which may be followed, as cited below:—

Alternative No. 1, permanent treatment, including the essential new under-roof, plus new tiles to the extent necessary, cost of permanent construction, $230,000.

Alternative No. 2, part permanent treatment immediately, part later, including only the essential new under-roof immediately, and using a temporary covering of asphalt shingles or rubberoid roofing until funds can be made available next year for completing the job with tiles, cost of permanent construction, $100,000.

Alternative No. 3, part permanent treatment immediately, part repairs, one half of the essential new under-roof to be provided immediately, remaining three fourths of roof to have repairs to existing tiles, cost of permanent construction, $76,000; cost of immediate repairs, $15,000; total immediate cost, $91,000.

Alternative No. 4, no permanent treatment immediately, repairs only, only repairs to the existing tile roof, cost of immediate repairs, $20,000.

In the submission of the current budget to the Council, alternative No. 3, was recommended at that time, but, as stated heretofore, no funds actually were appropriated. The tax levy having been fixed for the year, it is now impossible, under provisions of law, to raise the necessary funds which would be required under either of the first three alternatives. The fourth method requiring the least immediate expenditure, although admittedly only an expedient, may be pursued by having resort to available funds through medium of transfer, and it is this latter method which I am recommending to you today. A copy of the communication of the Board of Trustees is submitted for the convenience of the Council.

It is my urgent request that the accompanying transfer order be given immediate consideration and passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor

—

City of Boston,
Library Department, August 25, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—The Trustees of the Public Library respectfully request your consideration of the following summary of the various studies and reports which have been made concerning the roofing problem of the Central Library Building in Copley square:

Nature of Studies and Investigations Carried Out.

Exhaustive and far-reaching studies have been made by the following:

Messrs. J. R. Worcester & Co., long the Library's consulting engineers, aided by Mr. Albert S. Franklin, Heating Engineer, and Messrs. Skinner & Sherman, Inc., Chemists and Engineers.

Messrs. McKim, Mead & White, the firm of architects who designed the building in the original instance.

Mr. Frank J. Linehan, Atlas Construction Company, Boston, aided by Mr. Desmond M. Collins, consulting engineer on air, and Mr. J. M. Donovan, roofing and sheet metal work.

Mr. Royce Gilbert, Gilbert-Varker Corporation, Boston.

Of these the first two mentioned have had particularly wide experience and knowledge to bring to bear upon the problem. The Worcester Company, for example, has a background of thirty-five years of service as consulting engineers for the Library. McKim, Mead & White has the background of being the firm which originally designed the building and its roof. The others have not had such first-hand knowledge of the roof, other than that Mr. Linehan was employed as a workman on the roof when it was originally laid.

Recommendations.

The Worcester Company and Messrs. McKim, Mead & White are both of the opinion that the only permanent solution to the problem of the roof of the Central Library Building is to provide a new under-roof of the closed type of construction. They both state unequivocally that any other procedure would be unsound in principle and wasteful in practice.

In this respect Messrs. McKim, Mead & White substantiate in 1941 the report made in the matter by the Worcester Company in 1937. Certain changes in details and procedure, however, are now recommended by both the Worcester Company and McKim, Mead & White as a result of developments in roofing construction in the period since 1937.

Alternatives of Procedure.

Alternative No. 1, permanent treatment, including the essential new under-roof, plus new tiles to the extent necessary; cost of permanent construction, $230,000.

Alternative No. 2, part permanent treatment immediately, part later, including only the essential new under-roof immediately, and using a temporary covering of asphalt shingles or rubberoid roofing until funds can be made available next year for completing the job with tiles; cost of permanent construction, $100,000.

Alternative No. 3, part permanent treatment immediately, part repairs, one fourth of the essential new under-roof to be provided immediately, remaining three fourths of roof to have repairs to existing tiles; cost of permanent construction, $76,000; cost of immediate repairs, $15,000; total immediate cost, $91,000.

Alternative No. 4, no permanent treatment immediately, repairs only, only repairs to the existing tile roof; cost of immediate repairs, $20,000.

Necessity for a Special Appropriation.

In order to undertake any of the above alternatives, a special appropriation will be necessary, since the Library is otherwise without the necessary funds.

Necessity for Immediate Action.

Whichever of the alternatives is undertaken, necessity exists for prompt action before the arrival of the winter rains and snows.

Respectfully,
The Trustees of the Public Library
of the City of Boston, by
LOUIS E. KIRSTEIN, President.

—

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be, and hereby is, authorized to transfer:

PLAYGROUND FOR SMALL CHILDREN, LOWER MILLS.

Coun. WICKES offered the following:
Ordered, That his Honor the Mayor be requested to confer with the Park Commission with a view to considering the possibility of purchasing land in the Lower Mills section of Dorchester to be used as a playground for small children.
Passed under suspension of the rule.

EXPERIMENTAL USE OF VOTING MACHINES.

Coun. TAYLOR offered the following:
Ordered, That the Election Commission be requested, through his Honor the Mayor, to inform the City Council as to their opinion of the installation of voting machines in the City of Boston and whether or not in their opinion it would be advisable to install said machines in several precincts for the purpose of determining whether or not voting machines would be an improvement in the carrying out of elections in Boston.
Coun. TAYLOR—Mr. President, now that the election is near at hand, I think it would be an appropriate time for the City of Boston to get in line with many other large municipalities throughout the country. The practice of using voting machines has been stated to be very successful in those localities where they have been used. As a matter of fact, their use eliminates practically one hundred per cent of the fraud, which is the greatest advantage of these voting machines. Not only that but the people who are running for office and the people who are interested in the entire electorate know almost immediately after the polls close who has won the election. It saves the city or the state a considerable amount of money which would be spent for recounts. I understand that this matter has been studied by the Board of Election Commissioners and I think an opinion rendered by them might bring some action as far as the City of Boston is concerned. Personally I think that if some of these machines were used in the various precincts we would receive some results that might enlighten the people of the City of Boston, which would eventually put Boston in line with the rest of the large municipalities so that elections in Boston in the future will be one hundred per cent above board and there cannot be any accusations of fraud.
The order was passed under suspension of the rule.

LEAVE OF ABSENCE DURING JEWISH HOLIDAYS.

Coun. TAYLOR and GOTTLIEB offered the following:
Ordered, That his Honor the Mayor be requested to instruct all Department Heads to allow employees of the Jewish faith leave of absence with pay in order that they may properly observe the High Jewish Holidays on September 22 and 23 and October 1.
Passed under suspension of the rule

CONFIRMATION OF APPOINTMENTS.

President GALVIN called up, under unfinished business, Nos. 1 and 2 on the calendar, viz.:
1. Action on appointment submitted by the Mayor August 25, 1941, of Charles Feinberg, to be a Weigher of Goods.
2. Action on appointments submitted by the Mayor August 25, 1941, of Francis W. Breslin and Charles F. Sefton, to be Constables, authorized to serve civil process upon filing bonds.
The question came on confirmation. Committee, Coun. Lyons and Russo. The appointments were confirmed, yeas 15, nays 0.

SALE OF LAND TO JAMES F. GABRIELE.

President GALVIN called up, under unfinished business, No. 3 on the calendar, viz.:
3. Order for the sale to James F. Gabriele of a parcel of land, containing about 734 square feet, at the junction of Mall and Eustis streets.
On August 18, 1941, the foregoing order was read once and passed, yeas eighteen, nays 0.
The order was given its second reading and passage, yeas 17, nays 0, viz.:
Yeas—Coun. Carey, Coffey, Englert, Goode, Gottlieb, Hutchinson, Kelly, Langan, Linehan, Lyons, Russo, Scannell, D. F. Sullivan, M. H. Sullivan, Taylor, Ward, Wickes—17.

Coun. LINEHAN offered the following:
Ordered, That the Traffic Commissioner be requested, through his Honor the Mayor, to make a study of the traffic situation in the new Old Colony Defense Project, South Boston, with a view to making appropriate traffic rules and installing proper signs.
Passed under suspension of the rule.

FOOT WALK ACROSS COLUMBUS PARK.

Coun. LINEHAN offered the following:
Ordered, That the Park Commission be requested, through his Honor the Mayor, to install a concrete foot walk, 15 feet wide, running across Columbus Park from the overhead ramp at Old Harbor Village to Carson Beach, also to plant appropriate trees and place benches alongside of the concrete walk.
Passed under suspension of the rule

IMPROVEMENT OF STILLMAN PLAYGROUND.

Coun. RUSSO offered the following:
Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to install swings and other play equipment at the Stillman Playground, Ward 3, and to place the playground in first-class condition.
Coun. RUSSO—Mr. President, the reason for introducing this order at this present time is this: I have been in hopes that something would be done this year about this matter. Nothing has been done to that playground this year, and I am very much in hope that the commissioner will take notice and will see that this playground, which is very much used by our children in the district there, will be supplied with some recreational facilities this coming year.
The order was passed under suspension of the rule.

REPORT OF COMMITTEE ON CLAIMS.

Coun. M. H. SULLIVAN, for the Committee on Claims, submitted the following:

USE OF MUNICIPAL GOLF COURSES BY SERVICE MEN.

Coun. GOTTLIEB and GOODE offered the following:
Ordered, That the Park Commission be requested, through his Honor the Mayor, to waive the fees for the use of the two municipal golf courses in Boston in order that men in the military and naval service of the United States may have free use of same during their time off.
Coun. GOTTLIEB—Mr. President, I think there has been some discussion within the past few months relative to providing the facilities of the George Wright golf course and the Franklin Park golf course for the use of those young men who have been taken into the services of the United States Army and the United States Navy. I feel that the least we can do for these young men is to provide them with free recreational facilities which are within the power of the City of Boston. There are two municipal courses in the city, both accessible to the young men who have time off from the different camps where they are stationed, and I feel, Mr. President, that immediate action should be taken by the Park Commissioner to see to it that green fees are waived for these men. I am sorry to say that there are too many men who leave these camps for week-ends who find themselves in a position of not being able to find recreation for themselves during this period. Of course we all appreciate that it is very difficult to go anywhere and spend money upon an allowance of $21 a month, and I think, Mr. President, that providing the use of the two golf courses will keep these young men away from Scollay square and other parts of the city when they have time on their hands and nothing to do, and I sincerely hope that this order will pass.
The order was passed under suspension of the rule.

HEARINGS TO CITY HOSPITAL EMPLOYEES.

Coun. HURLEY, KELLY and D. H. SULLIVAN offered the following:
Ordered, That the Board of Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to grant a hearing to all permanent and probationary employees prior to their suspension in order that they may not lose their civil service rights.
Coun. HURLEY—Mr. President, the reason for the introduction of this order is a case I had last Friday in appearing before the Hospital Trustees relative to a worker that was on the probationary period of employment in the City of Boston. This woman, who had been working on the list for a number of years, finally was successful in being appointed to a permanent position in the Boston City Hospital. Unfortunately, her mother was taken ill and she was forced to be absent at different times, and as a result of being absent she was discharged by the Trustees of the City Hospital. There have been occasions at the City Hospital where people who have been employed for seventeen, eighteen, and twenty years have been given suspensions of fifteen to thirty days, without any hearing, and then they are brought back to work with the loss of their pay. That is bad enough, but in this particular case, on probationary work in the City Hospital, there is no hearing, they are absolutely discharged, and they have lost all rights in regard to their standing on the civil service list. In this particular case, this woman was on the list for probably twelve to fifteen years, looking forward every day with hope that she would receive a permanent position with the City of Boston, and after all those years and receiving that position, without a hearing of any kind, no one talked to her, there was just the letter which was sent by the Board of Trustees on that particular day which terminated her services with the City of Boston, and that ended it. It not only ended her employment with the City of Boston but it took away her rights, her standing on the list, after she had been for twelve to fifteen years looking with hope to attaining a permanent position. I don't think that is fair, and I don't think it is just, that any body of men should be able to take such action as that. No cause was shown. That ended it right there. No department head could have you or me or anyone else that was on the list for fifteen or twenty years discharged through some personal feeling, and then on top of that kill us forever in regard to our standing with the Civil Service Commission. I was in touch with Mr. Lupien's office in regard to this particular case. He says, "There is nothing I can do about it; it is the law; there is only one way out, and that is if the Board of Trustees of the hospital will say that the woman was justified and will send us a letter she will be

returned to the civil service list and will be eligible later on to be called; until that is done she won't be replaced on the list." One of the trustees up there in particular, I don't think has a bit of warmth in his heart. He is a capable man as a doctor, but as far as understanding human nature he is as cold as that desk, with not a bit of understanding. He prowls around that office, goes to the Harvard Club and has his lunch, and then proceeds to his office to go to bed. He said to me that "I have been around here seventeen or eighteen years, I know the people, the type of people who work here." He doesn't know anything in regard to those people. I have visited in the hospital year after year. There is no employee in any department in the city who is more conscientious, more honest, and more hard working for less money — and they are the lowest salaried group in Boston — than the employees in our institutions and hospitals. I think it is a crime that a man who feels like that can stand up and tell about the type of employees. God knows the city is getting a break for the salaries that they are paying those people in the hospital, for the hours of work and the hard labor they are getting from them. And I think that this order should be passed and those people should have a little protection, which they are not getting today.

The order was passed under suspension of the rule.

ACCEPTANCE OF CEDAR STREET, WARD 20.

Coun. LYONS offered the following:

Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Cedar street, Ward 20, as a public highway.

Passed under suspension of the rule.

On motion of Coun. CHASE the Council voted to adjourn at 4.13 p. m., to meet on Monday, September 15, 1941, at 2 p. m.

CITY OF BOSTON.

PUBLIC BUILDINGS DEPARTMENT.

TO ELEVATOR CONTRACTORS.

The Superintendent of Public Buildings of the City of Boston invites sealed proposals for the installation of a new electric elevator at the old Haymarket Relief Station, Boston, Mass. A bond of a surety company satisfactory to the Superintendent in the sum of 45 per cent of the contract price to secure the due performance of the contract and the full protection of the City of Boston, will be required. Proposals may be obtained at the office of the Superintendent of Public Buildings, Room 1005, City Hall Annex, Boston. Each proposal must be signed by the bidder, placed in an envelope properly sealed and marked "Proposal for Installation of New Elevator, Haymarket Relief Station," and left at the office of the Superintendent of Public Buildings, Room 1005, City Hall Annex, Boston, before 12 noon of Friday, September 26, 1941, with a certified check for $400, payable to and to become the property of the City of Boston, if the proposal after acceptance is not carried out. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the one with the certified check to be left as above, the other, without check, to be filed with the City Auditor, City Hall, Boston, before the time given above for the opening of the bids. The Superintendent reserves the right to reject any and all proposals or to accept any proposal which, in his opinion, he may deem for the best interest of the City of Boston. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less that the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Specifications will be available at the office of the Superintendent of Public Buildings on and after 9 a. m., September 15, 1941.

LEO F. POWER,
Superintendent of Public Buildings.
(Sept. 13-20.)

CHARGE FOR POLICE RADIO SERVICE.

At least five cities and three states operating police radio systems charge for radio messages transmitted to police cars of other cities and suburbs which do not operate their own transmitters, the International City Managers' Association states. The cities are Cleveland, Detroit, Toledo, Akron and Providence; the states are Connecticut, Massachusetts and New Jersey.

Cleveland charges East Cleveland 42 cents for each call transmitted to East Cleveland police cars. East Detroit pays Detroit 35 cents a call; the sheriff's office of Lucas County, Ohio, pays Toledo 50 cents a call, with a minimum of $25 a month; and Akron charges 35 cents per message transmitted to Barberton, Cuyahoga Falls, and the sheriff's office of Summit County. Providence makes charges on calls to police cars of several surrounding communities.

Communities served by the Connecticut, Massachusetts and New Jersey state police radio systems are charged certain percentages of operating costs.—*American City Magazine.*

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR STAIRS AND RAMPS FOR MONASTERY PATH, FROM WARREN STREET SOUTHWESTERLY ABOUT 875 FEET, BRIGHTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for stairs and ramps for Monastery path, from Warren street southwesterly about 875 feet, Brighton. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Stairs and Ramps for Monastery Path, from Warren Street Southwesterly About 875 Feet, Brighton," and left at Room 508, fifth floor, City Hall Annex, before 12 m., of Tuesday, September 30, 1941, with a certified check for five hundred (500) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars ($2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

CITY OF BOSTON PRINTING DEPARTMENT

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 33. SATURDAY, SEPTEMBER 27, 1941. NO. 39

BOSTON AQUARIUM ADDS 275 FISH SPECIMENS TO ITS EXHIBITION COLLECTION THROUGH EFFORTS OF MAYOR TOBIN AND PARK COMMISSIONER WILLIAM P. LONG — COLLECTION PART OF GROUP BEING DISTRIBUTED FROM NEW YORK AQUARIUM WHICH IS BEING TORN DOWN TO MAKE ROOM FOR NEW TUNNEL — AMONG COLLECTION ARE SPECIMENS ENTIRELY NEW TO BOSTON THAT WILL PROVE GREAT ATTRACTION TO VISITORS — DIRECTOR WILLIAM J. O'BRIEN AND TWO ASSISTANTS SUCCESSFUL IN BRINGING CONTRIBUTION OVER LONG TREK FROM NEW YORK.

Boston's Aquarium, in South Boston, which has been the mecca for visitors during summers and winters for a great many years is to be more the center of attraction now than ever before, since the city has been fortunate enough to have acquired some 275 specimens of sea life, mostly tropical, in the past few days. Some of these specimens have never been acquired by the city before and will prove most interesting.

The good fortune which has been the city's has been due to the activity of Mayor Tobin, in the interest of the aquarium, and the generosity of the aquarium officials of New York City, as well as the active alertness of Park Commissioner William P. Long and Director William J. O'Brien of the Boston aquarium.

Owing to the construction of the Brooklyn-Battery Tunnel in New York, which compels the stripping of the New York aquarium, all the specimens of aquatic life that have for so long been the attraction for visitors at that place have had to be distributed to other cities, as well as removed to the zoo of the Bronx.

Commissioner Long, with the support and backing of Mayor Tobin, sought to secure a share of the distribution, as the result of which the local aquarium will now have many additional specimens and several that have never been on exhibition here before. After a hazardous drive over the road from New York, transported in a truck and trailer, the 275 specimens have been deposited at South Boston. In the group there are six fresh water varieties enough to fill six tanks and twenty salt water varieties in number enough to fill twelve complete tanks.

Among the most interesting of the new specimens are the pompano, from Southern waters, and a golden id from European waters. The local plant will also have on exhibition several of the pearl roach specimen. Among others of the fresh water fish to be seen will be mudfish, carp, long and short nose gars, the latter among the longest lived in captivity known to aquarium men.

Some of the others in the list are croakers, spiney boxfish, sheepsheads, kingfish, bluefish and drumheads. Director O'Brien congratulates himself on the success of transportation of the bluefish since it is hard to transport and transplant this specimen from one setting to another because of its delicacy of structure.

The problem of transporting the entire truckload was difficult because of the need for maintaining the temperature at an even, tropical balance, despite the shifting of temperatures during the day and night, as well as keeping the water in which they were being transported at the proper degree of oxygenation.

For the first time in eighteen years the city will have another green moray to exhibit to the public. The new specimen is now 6 feet long and still growing in bad temper as well as size. Another specimen that will be of interest will be the nurse shark. The present one is but 18 inches long, but they grow to be 13 feet long in their native habitat. One thing about this fish is that it can be trained to eat out of one's hand. Director O'Brien is going to try to teach the new acquisition to do that for the benefit of the public.

In the group there will be no turtles, since the aquarium already has sufficient of these. Also there will be no barracudas or piranhas, which are the most vicious fish known, even being more cannibalistic than the man-eating sharks.

With the acquisition of these specimens, Boston's aquarium will be able to boast of a completeness of exhibit comparable with those of any other city in the country. Other cities sharing in the distribution from New York will be Philadelphia, Baltimore and Washington.

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKEL DOLE.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with business firms and contractors, etc. Communications from the heads of the several departments interested were as follows:

FIRE DEPARTMENT.

BOSTON, September 16, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,— Subject to your Honor's approval, I will award, without advertising, the job of making repairs on Fireboat Engine 44, "Matthew J. Boyle," to the General Ship and Engine Works, 336 Border street, East Boston, for the sum of $1,175. The work to be done is as follows:

Remove condenser water ring from main condenser, make new steel water ring, rubberize the ring after completion of machining and drilling; install and connect up in good working order, furnishing all necessary packing, bolts, nuts and

studs. The above price includes removing and replacing of gratings and ladders in the engine room, $940.

Open up and bore two valve chambers in steam end of feed and make two new piston valves and install valves and connect up pump, $175.

No advantage would be obtained by the city through publicly advertising the foregoing work, as none of the other companies in Boston doing this type of repair work would accept the job, owing to the pressure of other business. The work is of an emergency nature and it must be done immediately.

Respectfully yours,

WM. ARTHUR REILLY,
Fire Commissioner.

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, September 5, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Owing to a recent law passed, chapter 69, Acts of 1941, which provides "that all persons committed for *any* crime unless the court otherwise orders, take or cause to be taken his name, age, height, weight, photograph, and general description and copies of his finger prints in accordance with the finger print system of identification of criminals. All such photographs and identifying matter shall be transmitted forthwith to the Commissioner of Public Safety." The above law took effect as of June 8, 1941, and it is compulsory that all inmates be photographed upon commitment on and after that date.

In accordance with the above law, I therefore respectfully request permission to award a contract, without publicly advertising, to the Fay Photo Service Company for the performance of taking photographs of all persons committed to the House of Correction, Deer Island, in the sum of one and twenty-five hundredths dollars ($1.25) per picture.

This type of work is necessarily of a very confidential nature. The Fay Photo Service Company has done this work for the past four years in a highly satisfactory manner. Because this company has guarded carefully these confidences, and because confidential matter is best entrusted to one company, I feel that the city's interest will be best served by continuing their services.

Respectfully yours,

JOSEPH P. DONAHOE,
Penal Institutions Commissioner.

PUBLIC WORKS DEPARTMENT.

BOSTON, September 18, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,— At the present time the department, by means of its own forces, is constructing a waiting room at the South Ferry Wharf, East Boston, to replace the waiting room that was destroyed by fire several months ago. Every effort is being made to have it completed by October 1, in order to provide a suitable shelter for the patrons of the Ferry Service before the start of the anticipated inclement weather.

In connection with the construction of the building, a new plumbing and heating system has to be installed. As I am precluded from publicly advertising for bids, due to the short length of time involved, I had the J. M. McCusker Company, of 1140 Columbus avenue, Boston, submit a proposal to me, which provides for the complete installation of the plumbing and heating system and the making of repairs to the existing gas fire boiler. The company has submitted a bid in the total amount of $1,785, which, in my opinion, is a reasonable price.

I respectfully request, therefore, your approval to the entering into of an agreement by this department with the above-referenced contractor providing for the installation of a plumbing and heating system in the waiting room at the East Boston Ferry Wharf, Lewis street, in the total amount of $1,785.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

BOSTON, September 18, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of January 25 of the current year a contract was awarded in the amount of $4,900 to the Pitometer Company of 50 Church street, New York City, providing for the making of a so-called Pitometer water waste survey of the water mains located in the Charlestown district.

The services performed by the above-referenced company in connection with this contract were most satisfactory and the annual saving to the city by the uncovering of underground water leaks and under-registration of large-sized meters located in industrial and commercial establishments more than offset the cost of the contract.

As the work done in the Charlestown district resulted in a substantial saving to the city, I feel that it would be advantageous to extend this type of engineering service into other sections, particularly in view of the proposals submitted to me by the Pitometer Company in connection with a water waste survey that they propose making in the city proper, covering both the high and low-service systems. That part of the proposal that refers to the contract sum reads as follows:

"We will undertake such a survey with the understanding that we will be paid only for water waste actually located, based on the values set forth in the following paragraphs, and limiting the city's obligation to the sum of $14,000."

The amounts that the city will pay to the company for water waste uncovered are based only on the savings resulting to the city for a one-year period, whereas, actually, the city will save the cost of the waste water over an indefinite period of time.

As the work is of a highly specialized and technical nature, there would be no advantage in publicly advertising for bids, as the bid price submitted would be a minor factor when considering the award of such a contract.

I respectfully recommend, therefore, that you approve the awarding of a contract, without publicly advertising for bids, in the amount of $14,000, to the Pitometer Company of 50 Church street, New York City, for the making of a Pitometer water waste survey in the so-called sections 7-A and 7-B, comprising the high and low-service systems in the city proper.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

FIRE DEPARTMENT ORDERS.

General Order No. 41.

III. NEW PAGE FOR BOSTON AUTOMATIC BOOK.

A new page, No. 7, dated September 10, 1941, for the Boston Automatic Assignment book, is being issued to the department today.

The new page will replace old page No. 7, dated May 27, 1937, which is to be returned to headquarters in the envelope provided on or before Monday, September 22, 1941.

IV. SALVATION ARMY.

With this General Order there is being issued to each house of the department a subscription blank of the Salvation Army.

Company commanders are requested to call the attention of members of companies to these blanks and accept such donations as the members wish to give. Attention of members of the department is called to the excellent service rendered by the Salvation Army in the past in connection with multiple alarm fires.

The blanks are to be returned to Miss Mary C. Kelley at headquarters, with the contributions of members, on any week day between the hours of 9 and 11 a. m. The final date for receiving these contributions will be Monday, October 6, 1941.

By order of Fire Commissioner WILLIAM ARTHUR REILLY.

LOUIS C. STICKEL,
Acting Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 639.

Patrolman Thomas F. O'Malley, Division 17; 21 10-12 years of service; amount of pension per annum $1,050.

The Superintendent of Police will promulgate this order.

JOSEPH F. TIMILTY,
Police Commissioner.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

A sanitary sewer of 10-inch pipe and a surface drain of 12-inch pipe in Chestnut Hill avenue (east side), between Embassy road and 310 feet northeasterly, in the Brighton district, at an estimated cost of $2,600.

Two manholes and rebuilding invert of Hewlett Street brook in private land, between Washington street and Belgrade avenue, in the West Roxbury district, at an estimated cost of $1,400.

A sanitary sewer of 10-inch pipe and a surface drain of 12-inch pipe in Mercier avenue between 80 feet west of Range road and Alicia road in the Dorchester district, at an estimated cost of $2,600.

A surface drain of 12-inch pipe, ten catch-basins and eight drop inlets, in Blue Hill avenue, between Charlotte street and Columbia road, in the Dorchester district, at an estimated cost of $5,426.

A sanitary sewer of 6-inch pipe (temporary outlet), in West street, between West Roxbury line and 265 feet southerly, and in Poplar street, between Deforest street and Hyde Park line, in the West Roxbury and Hyde Park districts, at an estimated cost of $687.50.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Roanoke road, Hyde Park district, as a highway, from Wood avenue to Blake street, with the name of Mariposa street, or some other distinctive name, bounded and described as follows:

The highway named Mariposa street is hereby laid out, from Wood avenue to Blake street, and ordered constructed.

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Westerly by Wood avenue, seventy-eight and 30-100 feet; northeasterly by the northeasterly line of said Mariposa street as hereby laid out, by three measurements, four hundred forty-two and 29-100 feet, four hundred eighty-two and 74-100 feet and two hundred forty-eight and 4-100 feet; easterly by the easterly line of said Mariposa street as hereby laid out, by three measurements, ninety-seven and 16-100 feet on a curve of one hundred sixty-seven and 1-100 feet radius, eighty-eight and 50-100 feet and seventy-three and 89-100 feet on a curve of one hundred twenty-seven and 1-100 feet radius; again northeasterly by the northeasterly line of said Mariposa street as hereby laid out, one hundred twelve and 73-100 feet; southeasterly by Blake street, forty and 30-100 feet; southwesterly by the southwesterly line of said Mariposa street as hereby laid out, one hundred eighteen and 21-100 feet; westerly by the westerly line of said Mariposa street as hereby laid out, by three measurements, ninety-seven and 16-100 feet on a curve of one hundred sixty-seven and 1-100 feet radius, eighty-eight and 50-100 feet and seventy-three and 89-100 feet on a curve of one hundred twenty-seven and 1-100 feet radius; southwesterly by the southwesterly line of said Mariposa street, as hereby laid out, by three measurements, two hundred forty-six and 48-100 feet, four hundred eighty-two and 4-100 feet and three hundred seventy-five and 73-100 feet.

For the purpose of making the aforesaid improvement an easement is taken in the parcel of land supposed to belong to Rose Domurad, bounded and described as follows:

Southeasterly by Mariposa street, one and 45-100 feet; southwesterly by the southwesterly line of said Mariposa street, as established under this order, eighteen and 11-100 feet; and northeasterly by Mariposa street, eighteen and 22-100 feet, containing thirteen square feet, more or less.

Trees or structures standing upon or affixed to the aforedescribed land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on all sides of Mariposa street, as laid out under this order, will receive benefit or advantage, beyond the general advantage to all real estate in said city, from the improvement herein ordered; each of said lots to the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Mariposa Street, Hyde Park Assessment Plan, July 17, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department.

Nugent. That the amount $275 be and the same hereby is awarded to Theresa M. Nugent for the damages so sustained.

BUILDING LEASED.

The Mayor has approved the following request of the Foreclosed Real Estate Division:

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MAYOR TOBIN,—The immediate sale of the property located at 112 Cummington street, Boston, consisting of a building and about 5,239 square feet of land, is not likely. This parcel was foreclosed August 27, 1935. With your approval, in accordance with chapter 296, section 2A, Laws of 1941, I would like to lease the first floor of this building for a term of three years to the Frank Scholz X-Ray Engineering Service, at an annual rental of $720 for the first year, and $840 for the second and third years, payable monthly in advance. The lessee to furnish the heat and take care of all repairs. The basement, which is the only other floor in the building, is being used by a W. P. A. project under the supervision of the Public Buildings Department.

Respectfully yours,

DANIEL M. DRISCOLL,
Custodian of Foreclosed Real Estate.

REFECTORY LEASE.

The Mayor has approved the following request of the Park Commissioner:

BOSTON, September 11, 1941.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—The Board of Park Commissioners respectfully asks your approval to renew the lease for the refreshment concession at the Refectory Building, Franklin Park, to John P. Burke, 57 Peter Parley road, Jamaica Plain, for a period of five years from October 1, 1941, to October 1, 1946, at the rate of $6,000 per year.

In 1928, after advertising in the City *Record*, the Park Commissioners awarded a lease for this concession to William J. Burke, now deceased, father of the present lessee, John P. Burke, who was the highest of seven bidders. By extension and renewal this family has continued to hold the lease at this location since that time, a period of thirteen years, and they are the only ones ever to conduct it in a manner satisfactory to the Board.

The concession is conducted in a clean, wholesome and extremely satisfactory manner, and never have they failed to pay the rental when due.

The Board therefore believes that a renewal of this lease for the term stated above should be given to John P. Burke. Because it would be for the best interests of the city and as nothing would be gained by advertising for proposals for this concession, we respectfully request that you grant this extension.

Respectfully yours,

WILLIAM P. LONG,
Chairman.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

On Saturday, August 9, 1941, a portion of the building at 332 Main street, Ward 2, Charlestown, collapsed and fell into the street, necessitating emergency action by this department to prevent injury to

the public. Therefore, without delay, the City Building Wrecking Company of 186 Somerville avenue, Somerville, was ordered to secure the remaining portions of the structure and remove the debris and materials from the street.

The work was performed in accordance with regulations of the Building Department and a bill in the amount of $132.61 submitted.

To enter the premises at 388 Hanover street, Ward 3, and secure the front wall and the party wall, which are in such structural condition as to cause the suspension of razing operations on the adjoining premises.

To raze the buildings at 93 and 95 Marcella street, Ward 11.

To raze the building at 485 Main street, Ward 2.

To raze the buildings at 66 and 68 Lawn street, Ward 10.

City of Boston,
Park Department, September 12, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of September 11, with inclosure, order from the City Council, relative to the planting of shade trees on Tacoma street, Ward 18.

Please be informed an investigation will be made regarding the soil and street conditions, etc., and if it is possible to comply with the request it will be a pleasure.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

RESURFACING OF GLENHILL ROAD, WARD 18.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of Public Works relative to your order of September 8, 1941, concerning the resurfacing with smooth paving Glenhill road, Ward 18.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
September 11, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.

From George G. Hyland, Commissioner, Public Works Department.

Subject: Glenhill Road, Ward 18.

I return herewith order in City Council that the Commissioner of Public Works resurface with smooth paving Glenhill road, Ward 18.

This street is a private way and will have to be accepted and laid out by the Board of Street Commissioners before the Highway Division of the Public Works Department can do any work therein.

GEORGE G. HYLAND,
Commissioner of Public Works.

CITY COUNCIL PROCEEDINGS.

(*Continued from page 1089.*)

City of Boston,
Public Works Department,
September 11, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Blakeville street, Longfellow street, Stonehurst street, Speedwell street.

I return herewith order in City Council that the Commissioner of Public Works resurface the above-named streets in Ward 15, as W. P. A. projects.

This will advise you that these streets will be given consideration for submission for approval as a W. P. A. project.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

RESURFACING OF AMERICAN LEGION HIGHWAY.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of September 8, 1941, concerning the resurfacing with smooth paving the American Legion Highway, from Walk Hill street to Cummins Highway, Ward 18.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
September 12, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—This is in reference to the following order that was passed in the City Council under date of September 8, 1941:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface with smooth paving the American Legion Highway, from Walk Hill street to Cummins Highway, Ward 18."

It will be impossible, due to the time of year, to effect the above-referenced improvement during the current year.

Consideration will be given, however, to including the above-mentioned improvement in the department's street reconstruction program for the year 1942.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

RESURFACING OF WARD 13 STREETS.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of September 8, 1941, concerning the resurfacing of the following streets in Ward 13 as W. P. A. projects: Judson street, Brookford street.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
September 12, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Judson Street, Brookford Street.

I return herewith order in City Council that the Commissioner of Public Works resurface the above-named streets in Ward 13 as W. P. A. projects.

Judson street will be advertised for contract work during the coming week.

Relative to Brookford street, please be advised that the condition of this street is not such as to warrant immediate reconstruction at this time.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

RECONSTRUCTION OF WARD 18 STREETS.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of Public Works relative to your order of August 18, 1941, concerning the reconstruction of the following streets in Ward 18 and the installation of granolithic sidewalks thereon: Pinedale street, Canterbury street in the Conleyville section.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
September 12, 1941.

To William T. Doyle, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Pinedale Street, Canterbury Street in the Conleyville Section.

In reply to the attached Council order that the Commissioner of Public Works reconstruct the above-named streets in Ward 18 and install granolithic sidewalks thereon, please be advised that this work will be given consideration for submission for approval as a W. P. A. project.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

RESURFACING OF HOWES STREET, WARD 13.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of Public Works relative to your order of July 21, 1941, concerning the resurfacing with smooth pavement Howes street, Ward 13.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
September 8, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,— This is in reference to the following order that was passed in the City Council on July 21, 1941:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface with smooth pavement Howes street, Ward 13."

Every reasonable effort will be made to comply with the provisions of the above-referenced order during the current year, either under the W. P. A. system or under the contract system.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

SIDEWALKS ON SOUTH FAIRVIEW STREET, WARD 20.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the Commissioner of Public Works relative to your order of July 21, 1941, concerning the installation of granolithic sidewalks on South Fairview street, between Robert street and Fallon Field, Ward 20, as a W. P. A. project.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Public Works Department,
September 10, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Mr. Doyle,—This is in reference to the following order that was passed in the City Council on July 21:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on South Fairview street, between Robert street and Fallon Field, Ward 20, as a W. P. A. project."

Every reasonable effort will be made to have the above-referenced improvement effected during the current year, either as a W. P. A. project or by a contractor.

The number of W. P. A. employees working on street projects in this city has been decreased to such an extent that it is almost impossible to estimate, with any degree of accuracy, the amount of street and sidewalk improvements that can be effected over a particular period of time, and, in view of this, I cannot give definite assurance at this time that the work will be completed during the current year.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

PROTECTION OF SCHOOL CHILDREN NEAR GREENLEAF WHITTIER SCHOOL.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of the Police Department relative to your order of August 25, 1941, concerning the stationing of a policeman at dangerous intersections in the vicinity of the Greenleaf Whittier School for the protection of youngsters going to said school.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Police Department, September 11, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—In reply to your communication of August 28 inclosing City Council order, dated August 25, reading as follows:

"Ordered, That the Police Commissioner be requested, through his Honor the Mayor, to station policemen at dangerous intersections in the vicinity of the Greenleaf Whittier School for the protection of youngsters going to said school,"

the commanding officer of Division 19, Mattapan district, reports that the John Greenleaf Whittier School is located on Southern avenue, near Millet street. He states that the children going to this school use the crossings at Talbot and Southern avenues, and Norfolk and Epping streets, and that he will continue to have these crossings covered by policemen at the usual times during the coming school year.

Very truly yours,
JOSEPH F. TIMILTY,
Police Commissioner.

FOOTWALK ACROSS COLUMBUS PARK.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Park Department relative to your order of September 8, 1941, concerning the installation of a concrete foot walk, 15 feet wide, running across Columbus park from the overhead ramp at Old Harbor Village to Carson beach; also to plant appropriate trees and place benches alongside of the concrete walk.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, September 12, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of September 11, with inclosure, order from the City Council, to construct a concrete foot walk crossing Columbus park to Carson beach; also to plant appropriate trees and place benches, etc.

It will be a pleasure to have an investigation made as to the possibilities of complying with this request. Personally, I see no objection to the foot walk, but I certainly would not look with favor on trees and benches in the middle of a playground. At the earliest opportunity I will investigate the conditions relative to complying with the request.

Very truly yours,
WILLIAM P. LONG, Chairman.

PLAYGROUND IN LOWER MILLS SECTION.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Park Department relative to your order of September 8, 1941, concerning the possibility of purchasing land in the Lower Mills section of Dorchester to be used as a playground for small children.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, September 12, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,— I have your memorandum of September 11, with inclosure, order from the City Council, regarding the possibility of purchasing land in the Lower Mills section of Dorchester for a playground for small children.

I will be very pleased to conduct an investigation of the conditions in Dorchester Lower Mills. I want to call your attention to the fact we have a large children's playground in Dorchester park, in that section of the city, at the present time.

Very truly yours,
WILLIAM P. LONG, Chairman.

ABSENTEE VOTING BY SERVICE MEN.

The following was received:

City of Boston,
Office of the Mayor, Sepetmber 13, 1941.

To the City Council.

Gentlemen,— I transmit herewith communication from the chairman of the Board of Election Commissioners relative to your order of September 8, 1941, concerning the informing men in the army of the new legislation which makes it possible for them to vote by absentee ballot at the coming city election.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Board of Election Commissioners,
September 12, 1941.

William T. Doyle,
Chief Clerk, Mayor's Office.

Dear Sir,— This is in reply to your memorandum of September 11 with attached City Council order of September 8 in relation to informing men in the army of the new legislation which makes it possible for them to vote by absentee ballot at the coming city election.

We are inclosing copies of letters we are sending this day to the Secretaries of the Navy and War in Washington, D. C., requesting that they cooparate with us in circulating this information among the men in the service.

We trust that this disposition of the matter will meet with your approval.

Very truly yours,
Board of Election Commissioners,
WILLIAM A. MOTLEY, JR., Chairman.

—

City of Boston,
Board of Election Commissioners,
September 12, 1941.

Hon. Henry L. Stimson,
Secretary of War, Washington, D. C.

My dear Mr. Secretary,— The Board of Election Commissioners respectfully requests your cooperation in disseminating certain information of utmost importance to those in the service who are residents of the City of Boston.

This year, for the first time, absentee voting will apply to the city election. Therefore, any duly registered voter who will be unable to appear in person at the polls on November 4 by reason of being out of the city on that day should immediately apply in writing to the Board of Election Commissioners, 111 City Hall Annex, Boston, Mass., for an absentee ballot. This request should state the voting residence in this city.

Any unregistered person desiring to cast an absentee ballot must first present himself at the office of the Election Commissioners to have his name placed on the Voting List. A special provision of the law permits those in the military or naval service to appear here for registration during regular office hours not less than three days preceding an election. (This year, the last day for registration for those in the service will be November 1.)

We are confident that you will agree with us that men and women in the service of their country should be given every possible opportunity to exercise their democratic right to vote and that you will therefore see that this information is circulated in whatever manner is most effective.

Respectfully yours,
Board of Election Commissioners,
WILLIAM A. MOTLEY, JR., Chairman.

(A similar letter was sent to the Hon. Frank Knox, Secretary of the Navy, Washington, D. C.)

SALE OF OBSOLETE X-RAY FILMS.

The following was received:

City of Boston,
Office of the Mayor, September 13. 1941.

To the City Council.

Gentlemen,— I am informed by the Health Commissioner that there is an accumulation of over 3,000 pounds of obsolete X-ray films in his department no longer needed for any purpose.

I submit, therefore, an order authorizing the Health Commissioner to dispose of this obsolete material by advertisement in the *City Record* and I respectfully recommend the approval of the attached order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Health Department, September 8, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—There is an accumulation in this department of approximately 3,052 pounds of obsolete X-ray films.

As these films are no longer required by the Health Department, I am anxious to dispose of them.

I therefore respectfully request that your Honor submit the inclosed order to the City Council for consideration and passage by that Honorable Body.

Respectfully yours,
G. LYNDE GATELY, M. D.,
Health Commissioner.

—

Ordered, That the Trustees of the Boston City Hospital be, and hereby are, authorized to sell approximately 3,052 pounds of obsolete X-ray films, not required by the Boston Health Department, after inviting bids therefor by advertisement in the *City Record*.

Referred to Executive Committee.

ONE DAY OFF IN SEVEN FOR POLICE OFFICERS.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,—In a message to the City Council, dated July 14, 1941, I stated that I would submit to your Honorable Body an order for the acceptance of chapter 122 of the Acts of 1938, the enabling Act which permits the adoption of one day off in seven for members of the Boston Police Department.

In that message I pointed out that to accept the Act in July, during the height of the vacation season, would entail considerable expense and inconvenience which could be averted, in great part, if the plan were put into effect in the early fall; and that for this reason it had been decided to delay actual acceptance of the Act until late September.

I understand that the vacation period is now about concluded and that accordingly the change in schedule may now be made to the best advantage.

As I stated in my earlier message on this subject: "I am thoroughly in agreement with the principle enunciated in the Act, that is, that policemen be granted a day off in each seven working days. There is no justifiable reason, other than marked additional expense, to deny policemen a privilege which is commonly accepted by all as a right. As to the additional expense which may be involved, I am convinced that the Act may be made effective with but slight additional cost to the Police Department and the city."

I am inclosing herewith a draft of order in accordance with the above message and I urge your immediate consideration and action in regard thereto in order that the same may take effect not later than Wednesday, October 1, 1941.

Sincerely yours,
MAURICE J. TOBIN, Mayor.

Ordered, That chapter one hundred and twenty-two of the Acts of 1938, entitled "An Act Providing for One Day Off in Every Seven Days for Police Officers in the City of Boston" be, and is hereby, accepted.

Referred to Executive Committee.

EXCHANGE OF LAND WITH SEARS ROEBUCK & CO.

The following was received:

City of Boston,
Office of the Mayor, September 13, 1941.

To the City Council.

Gentlemen,— The traffic congestion at the junction of Brookline avenue and Park Drive has been a source of serious inconvenience for some time, and it has also been the source of considerable study on the part of responsible city officials as to the best method and means to eradicate this condition.

The result of the studies of the Traffic Commission indicate that a traffic circle at this point is most necessary if there is to be a free flow of traffic in this section of the city.

In order to construct a circle at this point which may serve the purpose desired, it is necessary that the City of Boston exchange with the Sears Roebuck & Co., certain parcels of land owned by that company and the city on Park Drive and Brookline avenue. The inclosed order, therefore, calls for the exchange of 4,548 square feet of Park Department property for 7,890 square feet of Sears Roebuck & Co. property.

I feel that this exchange of land is extremely beneficial to the city and that prompt action on the part of your Honorable Body will enable the city to begin construction on this most vital improvement. I transmit herewith communication from the Park Commission relative to this matter and an order providing for the exchange of the two parcels of land.

I respectfully recommend the approval of this order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

—

City of Boston,
Park Department, September 9, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,— Inclosed please find four copies of an order which I respectfully request that your Honor transmit to the City Council, if the same meets with your approval.

The order is the means whereby a certain parcel of park property containing 4,548 square feet of land situated on Park Drive and 5,924 square feet of public highway property situated on Brookline avenue may be conveyed to Sears Roebuck & Co. in consideration of said Sears Roebuck & Co. conveying to the City of Boston 7,890 square feet of land situated at the junction of Brookline avenue and Park Drive.

At a meeting of the Board of Park Commissioners held today it was voted that the parcel of land containing 4,548 square feet, lying between the land of Sears Roebuck & Co. and the line of Park Drive is no longer needed for park purposes. This exchange of land between Sears Roebuck & Co. and the City of Boston is necessary in order that we might proceed with the construction of the new traffic circle at Brookline avenue and Park Drive which, I am certain, will help greatly to alleviate the traffic congestion at this section of the city.

Very truly yours,
WILLIAM P. LONG, Chairman.

Whereas, the City of Boston is the owner of a certain parcel of land containing approximately 4,548 square feet situated on the northeasterly side of Park Drive in the Back Bay district of the City of Boston. This parcel of land, hereinafter described, was acquired by the City of Boston for park purposes, by purchase in the years 1883, 1887 and 1888. The deeds of conveyance are recorded with Suffolk Deeds, Book 1604, page 117, Book 1618, pages 329, 331, 519, Book 1620, pages 66, 408, 410, Book 1805, page 15, Book 1806, pages 381, 483, Book 1807, pages 39, 42, 396, and Book 1808, page 113; and

Whereas, The line of Park Drive has been relocated in connection with the laying-out and widening of Brookline avenue and the construction of a traffic circle at the intersection of Park Drive and Brookline avenue; and

Whereas, The said parcel of land is no longer needed for park purposes; and

Whereas, The City of Boston is the owner of certain rights in a parcel of land situated on the northwesterly side of Brookline avenue in the Back Bay district of Boston. The rights in this parcel of land were acquired under a resolve and order of the Board of Street Commissioners passed January 26, 1928, and approved by the Mayor of the City of Boston February 2, 1928, to widen and construct a part of Brookline avenue as a highway. The instrument of taking is recorded with Suffolk Deeds, Book 4975, page 421; and

Whereas, The City of Boston by a resolve and order of the Board of Street Commissioners passed July 14, 1941, and approved by the Mayor of the City of Boston, July 22, 1941, discontinued a portion of Brookline avenue, hereinafter described, containing approximately 5,924 square feet as a public highway and laid out and widened another portion of Brookline avenue containing approximately 7,890 square feet as a public highway; and

Whereas, The said portion of Brookline avenue discontinued as a public highway is no longer needed for public purposes; and

Whereas, Sears Roebuck & Co. is the owner of a certain parcel of land bounded by Brookline avenue and Park Drive adjacent to said parcel of land situated on Park Drive containing approximately 4,548 square feet no longer needed for park purposes and said parcel of land situated on Brookline avenue containing 5,924 square feet no longer needed for public purposes and is desirous of obtaining the said two parcels of land in exchange for the parcel of land containing approximately 7,890 square feet taken for public highway purposes under the resolve and order of the Board of Street Commissioners as aforesaid; now, therefore, it is hereby

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized to sell, without public auction, to Sears Roebuck & Co. all the City of Boston's right, title and interest in and to the said parcel of land situated on Park Drive no longer needed for park purposes and in and to the said parcel of land situated on Brookline avenue no longer needed for public purposes, and to execute and deliver a deed thereof satisfactory in form to the Law Department of the City of Boston in consideration of one (1) dollar and the execution and delivery of an instrument satisfactory in form to the Law Department of the City of Boston whereby Sears Roebuck & Co. conveys to the City of Boston a certain parcel of land situated on Brookline avenue containing approximately 7,890 square feet taken for public highway purposes under the resolve and order of the Board of Street Commissioners as aforesaid.

The parcel of park land herein authorized to be sold is bounded and described as follows:

Northeasterly by land now or formerly of Sears Roebuck & Co., 386.40 feet in a curve of 1,719.12 foot radius; southwesterly by the line of Park Drive as relocated, 307.97 feet; northerly by the line of Park Drive as relocated, 90.83 feet in a curve of 87.00 foot radius, containing 4,538 square feet of land, more or less.

The parcel of highway land herein authorized to be sold is bounded and described as follows:

Northwesterly by land now or formely of Sears Roebuck & Co., 335.61 feet; northeasterly by the present line of Brookline avenue, 20 feet; southeasterly by the line of Brookline avenue as relocated, by two measurements, 216.11 feet and 121.72 feet in a curve of 367.00 foot radius, containing 5,924 square feet of land, more or less.

The said parcels of land hereinbefore bounded and described together with the parcel of land containing 7,890 square feet to be conveyed by Sears Roebuck & Co. to the City of Boston, are shown on a plan marked "City of Boston, Brookline Avenue, Boylston Street, Boston Proper, May 31, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department, City Hall, Boston, Mass.

Referred to Committee on Public Lands.

SALE OF OLD CONVALESCENT HOME.

The following was received:

City of Boston,
Office of the Mayor, September 15, 1941.

To the City Council.

Gentlemen,— I have been informed by the trustees of the Boston City Hospital that the property held by that department and located on Dorchester avenue, adjoining Dorchester Park, in the Lower Mills section, is no longer needed for public purposes. This property contains approximately 373,000 square feet of land, and was the site, some years ago, of the Convalescent Home.

This property is located in a desirable residential section of our city and if sold should, in my opinion, be disposed of with sufficient restrictions to maintain the character of the neighborhood. Therefore, under my instruction, an order has been prepared which provides that this land may be sold with more or less rigid conditions, that is, that only single-family houses be built on said site; that each lot of land contain not less than 5,000 feet, and have with a few exceptions, a frontage of not less than 60 feet. By setting up these restrictions, the residential character of this neighborhood will be preserved. I am informed that the market for substantial single-family houses in this section of our city is sufficiently brisk to warrant these restrictions.

In view of the restrictions imposed by the attached order of sale, and the consequent difficulty in establishing a disposal price for this tract of land, I deemed it essential to obtain advice from a real estate expert in this respect. Mr. John C. Kiley was delegated by me to make an appraisal of the property. His report, in comprehensive form, is herewith attached. It is his recommendation that this property be sold for ten thousand dollars, or more if obtainable. In this report, I concur. Attached also herewith is a plan now on file in the Street Laying-Out Department which indicates the lay-out of this land and the restrictions which must be compiled with by the purchaser. Also attached is a communication and descriptive report of the Hospital Department with respect to the sale of this land.

It is my firm belief that desirable tracts of land of this nature, if owned by the city and no longer needed for public purposes, should be sold, where conditions warrant, with certain restrictions which, though they might reduce somewhat the sale price of the land, will eventually bring greater return to the city and at the same time preserve indefinitely the character of the neighborhood concerned. In this particular case, development of this property in the manner described should bring to our city new valuations amounting to over a quarter of a million dollars.

I therefore recommend to your Honorable Body that the attached order for the sale of this land for a minimum price of $10,000 be approved.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
City Hospital, May 20, 1941.

Mr. C. A. Reardon,
Secretary, Mayor's Office.

Dear Mr. Reardon,—At a meeting of the Board of Trustees held on May 16th, it was voted to request his Honor the Mayor to dispose of the property known as the old Convalescent Home which is situated at 2150 Dorchester avenue, Dorchester.

I am inclosing herewith a description of this property, valuation of the buildings, land, etc.

Yours sincerely,
JAMES W. MANARY, Superintendent.

—

Whereas, The City of Boston is the owner in fee of a certain parcel of land containing approximately 373,189 square feet, together with the buildings thereon, situated on the easterly side of Dorchester avenue and adjacent to Dorchester park in the Dorchester district. This parcel of land was acquired by purchase and the deed thereto is dated April 19, 1890, and recorded with Suffolk Deeds, Book 1930, page 548; and

Whereas, This parcel of property was formerly used by the Hospital Department of the City of Boston as a Convalescent Home for Women; and

Whereas, The use of this parcel of property for hospital purposes has been abandoned and the trustees of the City Hospital of the City of Boston have by a vote passed May 16, 1941, authorized the disposal of this parcel of property; and

Whereas, This parcel of property is no longer needed for public purposes; and

Whereas, This parcel of property is ideally situated for a private home site development; now, therefore, it is hereby

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized in the name and behalf of the City of Boston to sell at public auction this parcel of land, hereinafter described, together with the buildings thereon, at a minimum price of ten thousand dollars ($10,000), and subject to the conditions, restrictions, exception and reservation hereinafter set forth; and it is hereby further

Ordered, That his Honor the Mayor of the City of Boston be, and he hereby is, authorized in the name and behalf of the City of Boston to execute and deliver to a purchaser at said auction sale a written instrument satisfactory in form to the Law Department of the City of Boston, conveying this parcel of land, together with the buildings thereon, subject to the following conditions, restrictions, exception and reservation:

1. The entire parcel of land shall be used only for a single-family house development.
2. The entire parcel of land shall be subdivided substantially in the manner and in accordance with the subdivision shown on the plan hereinafter referred to.
3. Each lot of land in any subdivision of this parcel of land shall contain not less than 5,000 square feet, and have a frontage on a public street or private way of not less than 60 feet,

with the exception of lots numbered 1, 2, 4, 30 and 31 as shown on the plan hereinafter referred to.

4. No buildings other than a single-family dwelling and a garage for private use only, shall be erected on any lot in any subdivision of this parcel of land with the exception of lots numbered 1 and 2 as shown on the plan hereinafter referred to.

5. The City of Boston excepts and reserves to itself the right and easement necessary for the maintenance and construction of surface drainage sewerage works in the location designated therefor on the plan hereinafter referred to.

The parcel of land herein authorized to be sold and conveyed is bounded and described as follows:

Westerly by the easterly line of Dorchester avenue, seven hundred twenty-four and 80–100 (724.80) feet; northerly by lands now or formerly of John J. White, Mary C. Harrington, Patrick Barry *et al.* and Margaret W. Barry, one hundred eighty-nine and 70–100 (189.70) feet; easterly by lands now or formerly of Margaret W. Barry, Peter Kelley *et al.*, Mary C. Murray and John F. Caskins *et al.*, two hundred six and 60–100 (206.60) feet; easterly again, by land of the City of Boston (Dorchester park), by two measurements, two hundred eight and 3–100 (208.03) feet, and six hundred twenty-six (626) feet; southerly by land of the City of Boston (Dorchester park), seven hundred fifty-four and 30–100 (754.30) feet, containing 373,189 square feet of land, more or less.

The said parcel of land, the proposed subdivision thereof and all of the above measurements are shown on a plan marked "City of Boston, Dorchester Avenue, Dorchester, September 11, 1941, William J. Sullivan, Chief Engineer, Street Laying-Out Department," and on file in the office of said department, City Hall, Boston, Mass.

TRANSFER FOR INSTALLATION OF TRAFFIC SIGNALS.

The following was received:

City of Boston,
Office of the Mayor, September 12, 1941.

To the City Council.

Gentlemen,—There are various intersections in the City of Boston which for some time have shown a high accident record and it has been apparent for an equally long period of time that these intersections should be controlled to some extent by traffic signals.

After various conferences with the officials of the Traffic Department and others, it has been decided to transfer a sufficient sum of money from Sale of City Property to install automatic traffic signals in twenty-four of the most dangerous intersections in the city.

Inclosed herewith is a communication from the Traffic Commission in which these intersections are set out and in which the accident toll is given.

I am especially anxious that your Honorable Body give your approval to the inclosed order so that work on these intersections may proceed just as quickly as possible.

From time to time in the future it is my purpose to transfer money as it becomes available to provide for traffic signals in other intersections of the city which are in need of traffic control devices. For the present, however, traffic signals at the intersections as named in the inclosed communication will give additional protection where most sorely needed.

The inclosed order provides for transfer of $45,000. Additional resources to the extent of $9,000 are now available in the funds of the Traffic Department. Both items will be sufficient to meet the cost of the present proposed traffic signals. I respectfully request passage of the inclosed order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Traffic Commission, September 15, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

My dear Mr. Mayor,—The Boston Traffic Commission recommends the installation of automatic traffic signals in the twenty-four dangerous intersections listed on attached sheet.

The selection of this list was governed by three determining factors, namely, accident record, adaptability to control by signals, and equitable distribution throughout the city.

Very truly yours,
WILLIAM P. HICKEY, Commissioner.

2. Action on appointments submitted by the Mayor September 8, 1941, of Julius L. Winensky and Charles Payne, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Goode and Scannell, yeas 13, nays 0, and the appointments were confirmed.

PAYMENT OF AID TO SOLDIERS AND SAILORS.

Coun. ENGLERT, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of September, 1941.

Report accepted; said order passed.

TRAFFIC LIGHTS, ALLSTON AND KELTON STREETS, WARD 21.

Coun. CAREY for Coun. WARD, offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to erect traffic lights at the corner of Allston and Kelton streets, Ward 21.

Passed under suspension of the rule.

SIDEWALK CONSTRUCTION.

Coun. CAREY offered the following:

Ordered, That the Commissioner of Public Works make a sidewalk along Chestnut avenue (both sides), Centre street to Mozart street, Ward 10, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Ordered, That the Commissioner of Public Works make a sidewalk along Chestnut avenue, in front of Nos. 19 and 21, Ward 10, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

The orders were severally passed under suspension of the rule.

RECESS.

On motion of Coun. HUTCHINSON the Council voted at 2.37 p. m. to take a recess, subject to the call of the Chair. The members reassembled and were called to order by Chairman WARD at 3.27 p. m.

EXECUTIVE REPORTS.

Coun. LANGAN, for the Executive Committee, submitted the following reports, viz.:

1. Report on message of Mayor and order (referred today) appropriating $45,000 from Sales of City Property for automatic traffic control signals—that same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. COFFEY—Mr. Chairman, in regard to these traffic lights, in my section of the city, which is East Boston, I notice that there are traffic lights to be installed at the corner of Porter and Chelsea streets. That section is certainly used by traffic, but at the same time it is a section that is policed twenty-four hours a day. Some five years ago I went to Traffic Commissioner William P. Hickey, and I also went to the Registrar of Motor Vehicles, and I told them about the need of traffic lights at the corner of Condor and Meridian streets, and as the result of my asking that traffic lights be installed out there the Traffic Commissioner and the Registrar both saw fit to send men over there from their respective offices to check on those particular corners, and as the result of their checking I was told by both the Traffic Commissioner and Frank Goodwin that it was one of the most dangerous sections in New England, and I thought as a result of the number of accidents that have occurred there from time to time something surely would be done regarding traffic lights in that particular section. Now to my surprise, not being consulted, not being asked by the Traffic Commissioner to come in and sit down with him, he has listened to the other office holders in the town and I am sort of surprised to come in here and find out that we are going to get traffic lights on the corner of Chelsea and Porter streets — one part of this section is a one-way street — and I am told that there have been something like sixty-nine accidents which have occurred there. I asked the gentleman out in the executive chamber who represented the Traffic Commission if he had the figures for the corner of Condor and Meridian streets, but he didn't have them. In my opinion, that is a more dangerous corner, and the lights are needed there more than at the corner of Chelsea and Porter streets, which, as I have previously said, is policed twenty-four hours a day. Personally I think the lights at this intersection are going to slow up the traffic. I think that the police officers do a better job there, with the heavy traffic that we have, and will have again next week when the dog track reopens, and I think if traffic lights were put in at probably four other sections of East Boston they would do more good than these lights which are going in down on the corner of Chelsea and Porter streets. I do hope that the Mayor and the Traffic Commissioner will recognize the fact that there are other sections in East Boston that need the traffic lights more than this location at Porter and Chelsea streets, and I refer particularly to Meridian and Condor streets.

Coun. LYONS—Mr. Chairman, I too will join with Councilor Coffey in reference to these traffic lights. The program which the Traffic Commission set up here this afternoon naturally will help one or two of the councilors. I have pressed for the last four years for the traffic lights in my own section, but in reading the list over none of my sections have been named. Today I am prepared to vote against this. I think it should be given more consideration and thought, so as to protect the hazardous corners throughout the City of Boston and not just certain points. Traffic coming in from outside the city limits is having accidents on Blue Hill avenue, at East Boston and South Boston, where the traffic is heavy, and we have to protect our own sections, such as the district I represent. So today I am going to vote against this, and ask that there be a further study made of this and more careful consideration given to it, because the last time we talked about traffic lights was about a year and a half ago, and the talk was that there was not enough money for it. Now they have a few thousand dollars and they want to have these lights erected. So that I am going to make a motion to have this given a little more thought and time, so that we can consult the Traffic Commissioner and ask him if he can't see it our way and at least give the people of the various sections which we represent a little protection.

Chairman WARD— Does the Chair understand that the councilor makes a motion to lay the order on the table?

Coun. LYONS—Yes.

The question came on the motion to lay the order on the table. The motion was lost. Coun. LYONS doubted the vote and asked for a roll call. The roll was called and the motion lost, yeas 3, nays 15:

Yeas—Coun. Englert, Lyons, D. F. Sullivan—3.

Nays—Coun. Carey, Coffey, Fish, Goode, Gottlieb, Hutchinson, Kelly, Langan, Linehan, Russo, Scannell, M. H. Sullivan, Taylor, Ward, Wickes–15.

The question then came on the passage of the order.

Coun. GOTTLIEB—Mr. Chairman, I might also complain about the fact that this recommendation does not include various intersections in my district which have been the subject of many orders in the past with reference to the construction of traffic lights at these intersections. On the other hand, Mr. Chairman, I am mindful of the fact that the Traffic Commission could not construct traffic lights at all the dangerous intersections in the City of Boston without the expenditure of approximately a million dollars, because in a greater or lesser degree we have a traffic problem and a problem of protecting the pedestrians in almost every part and every corner of the City of Boston. There is no doubt in my mind that the councilors from East Boston and West Roxbury are correct in their statements that intersections in their respective districts have been overlooked in the recommendation that was submitted and approved by our Executive Committee. But, Mr. Chairman, we cannot afford to hold up this order which is now before us for a single minute. To do so would mean an additional cost in human life. Let us be thankful that we are receiving what we are receiving at the present time, and let us pass our further orders upon the additional locations that have not been treated in this order. And so, Mr. Chairman, I would say very strongly that we ought to accept what we have at the present time and at least eliminate these intersections so that accidents will be minimized at these locations. I strongly urge that this order be passed immediately.

Coun. DANIEL F. SULLIVAN—Mr. Chairman, how often we hear "We have to rush it through to get it started." I wonder why they do not put these orders in on time so that the various councilors can really study them. I have had an order in several times relative to having traffic lights at Roxbury Crossing. The business men, the Board of Trade of Roxbury Crossing, have gone into the matter and have gone to the Traffic Commissioners relative to having lights installed at Roxbury Crossing. They are not worrying about lights, as you heard the reports, and the various number of accidents in these locations where these lights are going. You can only assume that they are automobile accidents. What about the pedestrians who have to cross the various streets throughout the city where there are no lights? As a councilor I am going to ask that this order be laid on the table a week to find out what additional lights are contemplated, to see if we can't get lights for Roxbury Crossing. As you probably all are acquainted with this particular spot, I will say that I believe there are as many people hurt in this particular section as there are in any other section of the city, and I am going to strike now, Mr. Chairman, and I move reconsideration of the vote to lay on the table.

Chairman WARD—The Chair will put the question in a different form. The councilor moves to assign the order for one week.

The motion was lost. Coun. D. F. SULLIVAN doubted the vote and asked for a roll call. The roll was called and the motion was lost, yeas 6, nays 14:

Yeas—Coun. Englert, Galvin, Hurley, Lyons, Scannell, D. F. Sullivan—6.

Nays—Coun. Carey, Chase, Coffey, Fish, Goode, Gottlieb, Hutchinson, Kelly, Langan, Russo, M. H. Sullivan, Taylor, Ward, Wickes—14.

The question came on the passage of the order.

Coun. HUTCHINSON—Mr. Chairman, I and various other councilors have stood on the floor of this Council Chamber and asked continuously for traffic lights. As a matter of fact, I know we have said that mayor after mayor has not put in appropriations for traffic lights. Now we have this order where practically the entire city is covered to a small degree. We know that in various wards there are other dangerous intersections, as in my own ward, but the Mayor and the Traffic Commissioner have tried to cure that to some extent. Now, I told the Mayor when I first came into office that I thought the most important thing was traffic lights at the corner of Dorchester avenue and Savin Hill avenue, which was partly in my ward and partly in Ward 15. This now has been done, under this order, as well as other traffic lights in the city, and I feel that at this time the whole Council should go along and support the order.

Coun. CAREY—Mr. Chairman, I can well sympathize with some of the councilors who have not had lights assured them in the list that was given to us by the Mayor today, but if we don't accept what is offered to us we will wind up by nobody getting anything. It is a question, I should say, for us to get this thing going. You cannot put lights throughout the city at one time because we have not money enough, but I certainly think that this is a step in the right direction. The places that have been signified on the communication from the Mayor by the Traffic Commission are, in their opinion, dangerous intersections and places that demand lights. I presume that there are other sections where lights are needed, and I can well sympathize with my neighbor and colleague from Ward 9, well recognizing that Roxbury Crossing section is highly congested and that there is a great necessity for lights there, and I certainly hope that steps will be taken promptly by the Mayor to get more money and by the Traffic Commission in turn to install lights at Roxbury Crossing. But I think that we would look ridiculous here today, when we have a chance to go forward, if we should do anything that might tend to hold it up, and I certainly hope that the councilors will, as a body, agree to let the thing go along. Let us make a start, and I am sure that every man in this body will do his utmost to get behind the councilors in those districts which have not been specified today, and I hope that within the next year we will have them all satisfied.

Coun. KELLY—Mr. Chairman, three years ago there was a similar order introduced into the Council for traffic lights in various sections of the city. At that time I voted against it because Savin Hill avenue and Dorchester avenue was not included in the sections that were to receive traffic lights. I realize now that I should have voted for it, because on account of turning it down three years ago nobody got any additional traffic lights in the City of Boston. I also realize that the Traffic Commission says that lights should be installed at the corner of Columbia road and Quincy street with the available money. But today I am going to vote for this order because I feel as though it is a start in the right direction. When these various intersections receive traffic lights, then we can go on and introduce our orders and see if we can't get traffic lights in the various sections of Boston that need them.

Coun. LINEHAN—Mr. Chairman, I am one councilor who is in a sort of easy situation. About a year ago there were many accidents that occurred down around Old Harbor Village, and I was told at that time by his Honor the Mayor that there was absolutely no money in the city treasury for traffic lights. As a result, his Honor was good enough to devise a plan of what we call an overhead ramp down in the vicinity of Old Harbor Village. It is also unfortunate that many of the people down there think it might not be so good and that it might not be so bad. Personally I think it is a fine thing and that time will show that it is, due to the fact that it is on a straight road, where there is absolutely no intersection, and, as we all know, many mothers help the children, and pedestrians going along the street have been injured when trying to beat the lights. I personally feel sure that this project of his Honor the Mayor, if given enough of a trial in my district, will prove to be a good one, even though many people in the vicinity think that lights are much better. Now, looking over Ward 7, and speaking for the ward, I know there are many spots that are a traffic menace to pedestrians and also to motorists, but unfortunately his Honor the Mayor, as I get it, has only got $45,000 to be distributed to the different councilor districts, and naturally he is going to distribute it in the most equitable manner, putting it in the places that need it the most. It certainly would be incredible if I got up here and opposed this order today, even though my ward was not getting traffic lights, knowing full well that the time will come perhaps when I, with other councilors here who have not received lights, will probably get the lights in our districts if we keep after the Mayor, and I am sure when the time comes that we can secure the money we will also be able to see that we get lights in our districts. I sincerely hope that we all go along, because ever since I have been a member of the Council I have heard talk about "Well, at least get it started." Here it is started. Let us hope it gets going and keeps going, so that every member of the Council can point to at least one traffic light in his district.

Coun. LYONS—Mr. Chairman, it is O. K. for certain councilors to stand up here and state that this order should be passed today. They have been waiting for years for the passage of some such order. They have got their different situations in their wards. Councilor Linehan said, start it and maybe next year we can do more. He knows and I know, and the Council knows, that with $45,000 being spent on lights at the present time, it will be another six or seven years before other lights will come in. My section of Roslindale and West Roxbury, as the Traffic Commission has a count which will show, is very heavily traveled on two arteries which lead to Providence and to New York, and I am standing here for a just cause and I don't see why the Council did not go along for another week or so. It has waited for four years now. I can't understand why we should not do that if the councilors are so anxious to protect their own wards with lights. I am going to ask to have this thing wait for another week or two for further consideration. I know that the Commissioner knows every section of Boston and every intersection, but there are these points which should really interest the Traffic Commissioner relative to bad accidents, where deaths have come out.

Coun. TAYLOR—Mr. Chairman, in my opinion some of the councilors are taking a wrong attitude on this situation. The order as presented before us here today is for the transfer of certain moneys for the purpose of erecting signal lights throughout the city. Now, this does not mean that the particular list that is included there is absolutely the final list. I do not think the doors are closed yet as far as the particular locations where they might be installed. In my own ward, for instance, where there is a light to be put up, personally in my opinion, and in the opinion of some of the neighbors who live around that particular district, that is not the most important intersection to protect. But nevertheless, the time is not too late to make a change in the location if, in your opinion and in the opinion of the people who live

in the district, it ought to be in a different place. But after all, as I said before, the Traffic Commission of the City of Boston ought to know something more than the average layman or even a city councilor pertaining to the traffic conditions in the city. They have occasion to receive statistics and study the situation; that is their job. I do not think that the Mayor or the Traffic Commission intended to slight anybody. They attempted to distribute the lights throughout the city in the most vital spots. Personally I do not agree with the Traffic Commissioner as to the particular spot in my district. Nevertheless, we do not need to tear down the good where it is being done. As the Mayor has said in his message, this is the beginning, and from time to time there will be the erection of other traffic lights throughout the city. Surely some toes must be stepped on; but for heaven's sake don't tear down the reputation of a man who is willing to do something in the interest of the taxpayers and the people of the City of Boston because you feel that some particular district has been neglected. His Honor does not mean to neglect any particular section of the City of Boston. You have to start somewhere, and you can finish it up as time passes. In my opinion, this is a start in the right direction.

Coun. HURLEY—Mr. Chairman, I voted to lay this over for a week, but I am going to go along and vote in favor of the order. I think it is a good order, something that we have been waiting for. If we have only got one traffic light in our district, there is no need of taking that one away from us, because we are having accidents and children are being hurt. I am willing to go along in the hope that the accidents will be decreased. We will keep what traffic lights we have and we will surely have some more in time at the dangerous intersections in our districts. I hope the order will pass.

Coun. SCANNELL—Mr. Chairman, as far as my district is concerned, the traffic conditions over there, we have plenty of lights in South Boston, and every intersection in my ward is well covered. I shall vote with my colleagues for the passage of this order. Some of my colleagues say that they are getting nothing for their district on this order, but I think the members of this Body should be considerate and take what they can get, with the hope that they may in time get more traffic lights for their districts. I voted for reconsideration, but when the vote comes up I shall vote for this order.

Coun. DANIEL F. SULLIVAN—Mr. Chairman, I am not opposed to the order; I am just looking to get some lights for the Roxbury Crossing section of my district, which is what every councilor is doing, as you have heard from several of them. One of these lights is to go in where I do not deem it necessary; in another case there are lights where they should not be. I am positive that one of the lights is going to tie up traffic. That is on Dudley street. Yet the excuse that they give as to why they can't put lights at Roxbury Crossing is because it is going to tie up traffic a little bit. I believe that the lives of the pedestrians are more important than holding up traffic a little bit at Roxbury Crossing. That is the reason I was standing up and voting against this order, asking for reconsideration of it. I am now going to vote for the order, but I am also going to introduce an order asking for lights at Roxbury Crossing, and I hope that the next list that comes out will have Roxbury Crossing on it.

Coun. LYONS—Mr. Chairman, when the vote is cast here I shall vote in favor of the order to get the money appropriated for traffic lights. But I am also going to introduce an order asking the Traffic Commission to make a survey of my district, and maybe in the future they may give consideration to two or three spots in my district.

Coun. FISH—Mr. Chairman, I am very much pleased to hear the remarks of Councilor Lyons. He feels that the traffic lights might be better located in his district, but at the same time he is going to vote for the order. I hope that will hold true with every councilor here. I believe, as Councilor Taylor well brought out, the Mayor and the Traffic Commissioner will give a hearing, and if they see it is reasonably fair, change the locations, and I hope, knowing the Council as well as I do, that they will never go on record as voting against traffic lights in Boston.

Coun. COFFEY—Mr. Chairman, I still have hope, after listening to some of the councilors talking about orders that have been introduced here for the past three or four years. Of course my only reason for bringing up this matter of the traffic lights to be installed at the corner of Chelsea and Porter streets was the fact that I want something for my town, after being up here for two years and getting nothing. I have listened with amusement to the statement of the councilor from Ward 14. Things did not shape up so well for the councilor from Ward 14 two weeks ago, but they are looking pretty rosy now. The councilor made the statement that a million dollars would have to be spent to take care of the traffic light situation throughout the entire city. I would like to know if the councilor would vote to pass an order, if it was put in here, to spend a million dollars in order to reduce the accidents and to reduce the deaths and maiming and crippling of the children throughout the entire city. The councilor from Ward 12 made the statement that his Honor is doing a good job as far as the traffic situation is concerned. Well, I don't know of any traffic lights being installed in the last four years. I know that none have been installed in my ward. It was five years ago, previous to my holding office either in the Legislature or in the Council here, that I asked William P. Hickey and the Registrar of Motor Vehicles to make a study of a certain section of my town, and they did that and gave me the report, and that one place was more in need of lights than any other section of New England. Well, now, we have heard it said that this list that was sent in here is not a definite list as to the locations of the proposed lights. Well, I say it is traffic lights, and I say that we should have been consulted, because I disagree wholeheartedly with the councilor from Ward 12 when he makes the statement that the Traffic Commissioners know more of what is going on in the wards than the city councilors. I disagree with that. They don't know any more of what is going on in my ward than I do. The only time they ever come over to my ward is when they are going to the horse races or the dog races. So how should they know about everything that is going on in the town? Now, in regard to these spots that are picked out—I don't know where they get their figures, and I don't know how they can come in and say that one spot is more in need of lights than another spot. For instance, they have said there were sixty-nine accidents in which there had been injuries at the corner of Porter and Chelsea streets. He knows that at another point where some proposed lights are going they have only had something like seventeen accidents. What I am getting at is this: If there are going to be twenty-five spots where traffic lights are going to be installed, that those should all be in one ward if the accident record calls for it. Instead, they play politics and spread it out through the entire twenty-two wards so that each section will get something. I don't think it is fair For example, in Councilor Lyons's ward, if there are intersections out there—say, for example, ten intersections that have more accidents per number of cars that pass that intersection than there are in my ward in East Boston, then I say to take my lights away from East Boston and give them to Teddy Lyons's ward. If in Ward 12 there are half a dozen intersections where they have been maiming or crippled children, more so even possibly than in my ward, although it might only average one or two serious injuries, then I say to take the lights from my ward and give them to Ward 12. But I don't think it is fair; it is politics and unfair. As I say, I am only voting for it because I have to get something for the ward. Not that I will ask for anything, but something has to be done for the ward, and in consideration of the 25,000 votes that are registered in Ward 1 we are going to get lights at an intersection where we do not need them. This intersection is policed twenty-four hours a day. I know what I am talking about because I pass that corner four times a day. They don't need any lights there, and they will slow up the traffic. I say here now that the Traffic Commissioner did not play the game as it should be played, according to the accidents in each individual section that they picked out to be the section where traffic lights are needed. I say that if the lights are all needed in downtown Boston they should take them away from my ward. But let us be fair and square about it. Condor and Meridian streets is a place where the lights are needed much more than they are at Porter and Chelsea streets. I think the Traffic Commissioner's office just went out and checked up for lights, with the intention of putting one traffic light into each section of Boston so that they could say that they went into the twenty-two wards, so as to make the people think that they are doing something as far as traffic lights are concerned. I happened to see a serious accident last Friday night right outside my door. It was near the corner I am talking about. A little child was injured, had a fractured skull, and is still in a coma at the City Hospital. If there had been traffic lights at that intersection the accident would not have occurred. That is the last street until you hit Condor street. Then you get no intersection until you hit the Chelsea Bridge. So that as soon as they left Falcon street they gave it the gas, and they were going fifty miles an hour going past Condor street, and it is a bad intersection. I say it is not fair and that something is rotten in Denmark, when they have this $45,000 now, seven weeks before election. We can hold it up, we still have seven weeks to meet in, but if anybody votes against it then his opponent is going to take it up and say, "Why, he was against traffic lights coming into our section," no matter where the section is, and you are going to be turned upon as the result of it. That is why every member here would like to stop it, but they don't dare to, because we have all a fight on, and that is only natural. We don't know what this game is going to be, and we don't know who is going to be in the next Council, no matter how confident we may be. But the fact that the appropriation has been spread out throughout the twenty-two wards instead of really considering which intersections in the city really have the largest number of accidents, is proof that the consideration was political.

Coun. LANGAN—Mr. Chairman, the Traffic Commission, any more than any other commission in the City of Boston or anywhere in America, has never set itself up as an infallible body. But they have attempted to do a fair job in controlling traffic in the City of Boston. We had an officer of that board before us today in executive session and every member of this Body had an opportunity to question him, on the basis that each of these spots was to be picked by the Traffic Commissioner for the installation of traffic lights. Now, there is no question but that the Traffic Commission may be making a mistake in some of these sections, but in my opinion the answer to the mistakes that they have made is not to throw out the entire list. I feel sure the Traffic Commissioner will receive the councilor from East Boston or receive the councilor from any other section of the city and if it can be demonstrated that he has chosen the wrong intersection and that another intersection in the ward is the proper place for the lights, I am quite certain that the Traffic Commissioner will sit down with the councilor and will change it. There is nothing irrevocable about this list that has been submitted here. It is simply the places that they have chosen. It is not a list that is definitely going to be put in operation. And I suggest to those councilors who have definite grievances and the grievances are based upon what they consider a true knowledge of their wards, if they will go to the Traffic Commissioner and suggest a change in the list as it now exists, as I am going to do about an additional section of my ward that I think should have traffic lights, I believe that the Traffic Commissioner will be reasonable about the matter. I feel that the way of handling this is in a broad-minded way, in a way that gives us an opportunity for the welfare of the city generally, not in a sectional way, but in a way that looks to the best interests of the city as a whole, and I feel sure that the Traffic Commissioner is interested in the welfare of the city. So that I suggest to those councilors who have distinct grievances that they go into consultation with the Traffic Commissioner and suggest to him certain changes, and I feel sure that their suggestions will be given due consideration if they are logical suggestions.

Coun. GOTTLIEB—Mr. Chairman, as usual the councilor from East Boston has interjected politics into this issue; as usual the councilor from East Boston is making his vague and unsupported charges against the administration, when there has never been a question of administration interference in the matter of public safety by the erection of these traffic lights. The councilor from East Boston was present in executive session when Mr. O'Connell for the Traffic Commission said in no uncertain terms that these sites were selected with no thought of ward lines, with only the thought that the sites which had given the most trouble, so far as accidents were concerned, were preferred. I think the best illustration of how fair-minded his Honor the Mayor and the Traffic Commission have been in this instance is the fact that the councilor from East Boston is receiving a set of traffic lights over in his particular district and that he should be the last person in the world to have any complaint to make about this proposed recommendation. Frankly, I am sick and tired of hearing the same thing about something being rotten in Denmark. I think it is time that when members of the City Council begin to holler about something being rotten that they go about proving it. If the councilor from East Boston is not satisfied with the procedure which was followed in these recommendations, the only logical and fair thing for him to do is to consult with the Traffic Commissioner, get the statistics right from the record that was referred to in this order, and find out whether the location which was omitted in his district had a greater fatality record than other points that were included. It is about time that that was done rather than to get up on his feet and holler that there is something rotten in Denmark. I sincerely hope, Mr. Chairman, that more of the councilors will stop playing with human lives and pass this order. This discussion reminds me of perhaps a shipwreck, a torpedo sinking, when there is a question of whether you can save a few in the rowboat rather than let them drown. I am sure you would not dump everybody out of the rowboat because there was not room for everybody. You would try to help those who are helpless and infirm, the women and the children. There is some analogy here. We can't put traffic lights on every corner, for if we did we would have a $60 or $70 tax rate, so that the only course that could be followed was to select the most dangerous streets, and that has been done. I think the administration has been very fair not only to the entire city but they have been fair to my ward, and I want to go on record as saying so. His Honor the Mayor has always been sympathetic to the needs of the people in my district, and we are thoroughly satisfied, and I hope that my district will continue to receive the same fair treatment in the future that it has received in the past.

Coun. GALVIN—Mr. Chairman, I move the previous question.

The roll was called, yeas 21, nays none, and the order was passed.

Yeas — Coun. Carey, Chase, Coffey, Englert, Fish, Galvin, Goode, Gottlieb, Hurley, Hutchinson, Kelly, Langan, Linehan, Lyons, Russo, Scannell, D. F. Sullivan, M. H. Sullivan, Taylor, Ward, Wickes—21.

Coun. COFFEY—Mr. Chairman, I move reconsideration. In answer to the remarks of the gentleman from Ward 14, who wants to bring politics into this? Let us bring it out. He had an opponent, a previous officeholder in this Council, before he came up here, and the Mayor's office saw fit to get that man out in order to give him a clear field, and I want to say that as a result of that he is making a speech in favor of his Honor the Mayor today.

Coun. GOTTLIEB—Mr. Chairman, I say that the councilor is out of order.

Chairman WARD—The Chair will ask the councilor from East Boston to confine himself to the subject of reconsideration.

Coun. COFFEY—All I am asking for is to make answer to the remarks made by the councilor from Ward 14, who said that I am always interjecting politics into my speeches. I would have a clear field in my ward except for the fact that there are four stooges, all Irish Catholics, up against me, and it is only natural that I am going to get up here and have my say. Now I am going to do as the gentleman from Ward 14 suggests that I do; I am going to prove some of the statements that I have made. I will prove some of those statements this afternoon by the introduction of an order in a little while here which will embarrass the councilor from Ward 14 and will let him get up and answer it. And what I want to say in regard to the traffic situation is that the gentleman has said he is not getting what he wants, but he is satisfied because his predecessor in office, his previous opponent, is now out of the field, and as a result of his being out of the field——

Coun. GOTTLIEB—Mr. Chairman——

Chairman WARD—For what purpose does the gentleman rise?

Coun. GOTTLIEB—To raise the question of privilege, and to say that the gentleman is out of order.

Chairman WARD—The Chair is compelled to ask the councilor from Ward 1 to confine himself to the motion for reconsideration.

Coun. COFFEY—In regard to the traffic lights, he says he is not satisfied, but if we went along and put traffic lights in every section of the city where they are needed we would probably have to spend a million dollars. He is the same gentleman who got up here and said that if we were in a rowboat we would save the maimed and the crippled, although we would probably not be able to tell until we got them out of the water whether they were maimed and crippled. But we are going to save them and let the able-bodied men and women look out for themselves. Now, if we are going to be able, as he says, to save the maimed and the crippled, why does the gentleman say we would have to spend a million dollars if we really wanted to put traffic lights throughout the entire City of Boston in the spots where they might prevent fatal accidents? Still he wants to go along and say that if we did spend a million dollars the tax rate would go up to $60 or $70 a thousand. Perhaps the gentleman is not capable of figuring out what the tax rate would be on a million dollars. It doesn't make any difference whatsoever. If the Mayor saw fit to install a million dollars' worth of traffic lights seven weeks before election and put them out in every section of the city that wants them whether they need them or not, he would do it. I say that would be a political move to make at this time. I don't think that he should hold back. Why, a million dollars is nothing! They gave a million dollars tax abatement to the Statler Hotel, and a $500,000 tax abatement to the Parker House. And I am not talking about the Copley-Plaza or the Ritz-Carlton.

Coun. TAYLOR—Mr. Chairman, I rise to a point of order.

Chairman WARD—The Chair will have to rule the gentleman out of order.

Coun. TAYLOR—I would like to state that the Mayor did not give the abatements, that the Board of Tax Appeals did it.

Coun. COFFEY—I have the facts here. If he wants to continue to be the Mayor's stooge, it is all right with me.

Chairman WARD—The Chair will rule that the councilor from Ward 12 is out of order. The Chair will also request that the councilor from East Boston confine himself to the motion.

Coun. COFFEY—Coming back to the traffic situation, the gentleman from Ward 12—as long as he has injected himself into the situation—says that the Traffic Commissioner should know more than the councilors. Well, of course, we know that the Traffic Commissioner knows, the same as every other department head knows, what his orders are. It is just like going to the Traffic Commissioner and saying, "Have you got a temporary appointment for a fellow for ten days; he has a sick wife." They have to find out where the fellow is on the list before they will give him ten days' work. While I am at it I want to close by making this statement: That no matter what Councilor Coffey gets up here and says, there are always a dozen or so ready to fight for the Mayor's bills. And why? Maybe in the very near future I will be out to the councilors' wards with a nice sound wagon and I will tell the people of the wards at that time just how they voted for the Mayor's bills, regardless of what the order was.

The question came on motion for reconsideration. The motion was lost.

2. Report on message of Mayor and order (referred today) accepting chapter 122 of Acts of 1938 providing one day off in seven for police officers—that same ought to pass.

Report accepted; said order passed.

REPORT OF FINANCE COMMISSION RE LIBRARY ROOF.

The following was received:

The Finance Commission of the City of Boston,
24 School Street, Boston, Mass.
September 11, 1941.

To the Executive Committee,
Boston City Council.

Gentlemen,— Your committee has asked the Finance Commission for an expression of opinion upon an order for an appropriation of $20,000 for repairs to the roof of the Public Library Building in Copley square, which order is now before you upon recommendation of the Mayor.

It is the understanding of the commission that the Mayor's purpose in now providing funds only for repairs does not necessarily mean that he is unwilling to approve the request made repeatedly by the Library Trustees for an appropriation which would permit the construction of an entirely new roof. The commission is informed that adequate funds for the larger project are not available at the present time.

The commission has made an investigation of this matter in the course of which representatives have inspected the roof on many occasions. This inspection disclosed that whether or not provision is ultimately made for a new roof, substantial repairs must be started immediately, if water damage to the building and to its contents is to be kept at a minimum during the coming winter. The flashing on the roof in various places is in a very bad condition and repair of it, to a large extent, will be of a permanent nature and independent of tile replacement, and will not become a waste if, later, it is decided to install a new roof.

Since the order which is now before you does not involve the question as to whether or not a new roof is necessary but is simply an order to provide for work which must be done immediately to prevent damage until the larger question is decided, the Finance Commission recommends the adoption of the order.

Respectfully submitted,
CHARLES M. STOREY, Chairman,
DAVID LASKER,
JAMES H. FLANAGAN,
ELIAS F. SHAMON,
RICHARD E. JOHNSTON,
The Finance Commission.

Referred to Executive Committee.

TRAFFIC LIGHTS AT ROXBURY CROSSING.

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to erect traffic lights in Roxbury Crossing at the junction of Tremont street and Columbus avenue.

Passed under suspension of the rule.

PAY OF COURT HOUSE SCRUBWOMEN.

Coun. HURLEY, for Coun. WARD, offered the following.

Ordered, That his Honor the Mayor be requested to consider the advisability of increasing the pay of scrubwomen st the Court House.

Coun. HURLEY—Mr. Chairman, at different times during the past two years I have talked about the inequality of pay in regard to city employees or county employees who are really city employees. They are getting their money from the City of Boston. One branch of the City of Boston gives one rate of pay, another branch gives less. The work is identical. If a woman is employed scrubbing floors in the Court House she gets more than the woman who is scrubbing floors in City Hall or the City Hospital. For the life of me I can't see why this inequality exists in the City of Boston. The same thing exists in our hospitals. We have two branches of our hospitals, the Sanitorium at Mattapan and the Boston City Hospital. The employees at the Boston City Hospital are better paid than at the Boston Sanitorium. The employees at the hospital at Long Island do not get the same rate of pay as at either of the above mentioned institutions. I think that this order introduced by Councilor Ward is a good order and that every member of this Council should vote for it. I hope that the order will pass and that these women will get the equal pay that they are entitled to.

The order was passed under suspension of the ule.

PROTECTION OF SCHOOL CHILDREN AT INTERSECTIONS.

Coun. SCANNELL, for Coun. WARD, offered the following:

Ordered, That the police Commissioner be requested, through his Honor the Mayor, to station police officers at all intersecting streets near schools when children are going to and coming from school.

Coun. DANIEL F. SULLIVAN—Mr. Chairman, the councilor from Ward 21 showed good judgment in introducing such an order at this time, at the opening of the schools throughout the city. I think the police officers should take the children back and forth from the schools at the various recess hours. Especially in my district there are still a number of corners which are not protected by police officers, which ought to be. I had an order which I was going to introduce this afternoon similar to this, but the councilor from Ward 21 beat me to it. I hope that this order will pass.

Coun. GALVIN—Mr. Chairman, I noticed by an editorial in one of the morning papers that there were some remarks relative to the buildings that were empty a week ago, which are now filled with children, and I believe with the councilor from Ward 6 that the time right now is especially important with the small children. I know there are a number of them who are jumping out of these schools at twelve o'clock and at three-thirty, and I think that they should be provided with sufficient protection in crossing the streets, particularly in the older sections of the city where there is a lot of defense activity going on and the various places are working three shifts a day, and in midafternoon, at three-thirty, these various automobiles are coming out of the different places that are doing the defense work, and it becomes necessary to have police officers there. I know over at Charlestown, near the Navy Yard, that one of the schools has changed the hours in order to protect the children. They have had them come back at one o'clock instead of one-thirty, and their school day ends at three instead of three-thirty. At the present time over in Charlestown, one shift lets out at three-thirty and there are approximately six thousand automobiles that fill up the streets of Charlestown. I also believe that the School Committee throughout the City of Boston, in these various places, should cooperate like the Sisters' School is doing over in Charlestown in changing around so that the children will be out at three instead of three-thirty, so that they will be safely away when that hazard exists.

Coun. HURLEY—Mr. Chairman, I agree with Councilor Dan Sullivan and Councilor Galvin that this is a very good order. I can see it in my own district. At the corners and crossings in front of the various schools that in the past have not been patroled there have been plenty of accidents. Talking about traffic lights, I think that a police officer can do more in the way of protecting the people at some crossings than a dozen traffic lights can do throughout the city. I think it is an excellent thing to have the police officers on duty during the coming and going of the children to school, and that it will save many an accident in the City of Boston, and may be save a fatal one.

The order was passed under suspension of the rule.
